The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue so near the fire-pot or the coal can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This heat is thrown away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
The air furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and will continue to be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Rice, and others.

SONG OF THE BLACKSMITH'S WIFE

My husband's a blacksmith, and where will you find
A man more industrious, faithful and kind?
He's determined to thrive, and in that we agree,
For the ring of his anvil is music to me.

Though dark his complexion and grimy his shirt,
Hard and horny his hand, and disfigured with dirt;
Yet in that rude casket a jewel I see,
And the ring of his anvil is music to me.

Ere Aurora's fair nymphs chase the night from the skies,
Ere the sun pierce the gloaming, from bed he does rise,
Ere the lark leaves her nest at his forge he will be,
And the ring of his anvil is music to me.

Though to labor he owns, we are far from being poor,
Industry has banished gaunt want from our door;
For the blacksmith's a man independent and free,
And the ring of his anvil is music to me.

At a distance from home, I have seen with delight,
The red sparks from his chimney illumine the night,
And have heard the fast strokes on the anvil rebound,
And my heart has leaped up at the musical sound.

Those strokes on the anvil, say, what do they prove?
Foretinought and affection, industry and love;
A resolve to be honest, respected and free!
That's the tune on the anvil that's music to me.

HORSE TAMING EXTRAORDINARY!—The modus operandi of horse taming, as illustrated by Magner and Barey, was exemplified in Cornish, Me., and the adjoining town a day or two since, in the most superior manner. A gentleman in Limington, one of Magner's disciples, wishing to cure a balky horse of the habit, had recourse to his education as imparted by Magner in his lectures. The rule here laid down is, to seize the animal by the tongue and hold on for dear life, and thus compel the horse to come along. This gentleman, who is athletic and powerful, grasped the tongue of his horse, which so exasperated the beast that he started back suddenly and tore his tongue entirely out by the roots! The animal was quickly dispatched with an axe.

The other instance was in the case of a kicking animal. The rule is, to fasten a rope of sufficient length, by the middle, around the neck of the beast, passing the ends between the fore legs, and fastening each to the hind legs, near the fetlock. To vary the treatment, this gentleman fastened his rope to the *lower jaw of* his horse, and at the first attempt to kick, the jaw of the animal was broken so that it dropped down as if it had never been secured by a bone! These cases, sir, afford two of the most remarkable and *efficient* methods of treatment I have ever known; yet I would not advise inexperienced stock-breeders to adopt them.—*Cor. of Portland Press.*

FERTILIZERS,
Trees, Vines, Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the first hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the start it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	8.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	34.
Water	7.8

The organic matter yields 2.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The analysis of the several ingredients from the entire stock which was prepared for the market.

TUESDAY, APRIL 26, 1864.

THE REBELLION.

The proposition of the Western Governors has been accepted by the President—the troops to be raised for about one hundred days, to receive no bounty, and not to be credited on any draft.

All extra baggage in the Army of the Potomac has been ordered to the rear, by the 28th. Lee has a large force, which is steadily increasing, and there is great activity in both armies. Stuart's cavalry are reported at Fredericksburg. Gen. Sheridan is in position to meet them if they attempt to cross.

Washington correspondents telegraph an important movement of troops on Saturday, the precursor of a general advance. The rebels for the past few days have been concentrating troops between Orange and Madison Court House.

Gen. Burnside's forces have moved suddenly, their destination being still kept a secret.

Richmond papers report Gen. Burnside's forces to be going up the Rappahannock.—They also report the Federals to be landing pontoon bridges at Aquia Creek. Union accounts, however, show that it was Com. Wm. D. Porter who went up the Rappahannock. He destroyed over thirty boats and brought away twenty-two boats, with forty-five contrabands, and a large quantity of provisions.

The rebel ram commands the approach to Plymouth, N. C., thus preventing reinforcements being sent our troops. But the Union soldiers are plucky, and have a plucky commander, Gen. Wessel. The naval force is now in command of Capt. French. Gen. Picket commands the rebel force, which is estimated by a correspondent of the N. Y. Times, at 10,000 or 12,000. There has been severe fighting, and the rebels have been repulsed with great slaughter in four distinct charges. Every effort is being made to relieve our troops. Attacks on Newbern and Washington are apprehended.

The Richmond Sentinel gives an official dispatch from the rebel Brig. Gen. Hoke, dated April 20, in which he states that he had stormed and carried Plymouth, capturing one brigadier, 1500 prisoners, stores, and 25 pieces of artillery. Another rebel dispatch states their loss is about 300 in all; and that they sunk two gunboats, disabled another, and captured a small steamer. A Massachusetts Captain, who has arrived at Fortress Monroe from Roanoke Island, reports that Gen Wessell surrendered to the rebels on Wednesday the 20th inst. Our loss is 150 killed and 2500 captured.—The rebel loss is 1500 killed. Perley telegraphs that the rebel Ram and rifle screened boat Cotton Planter are still in Roanoke river, and the Tacony, Miami and other Union gunboats are waiting for her to enter the sound.

The rebels are said to have lost 3000 men in the fight on the 9th, at Pleasant Hill, La., of which an account is given elsewhere.—They were left on the field. Our loss on that day was 1500. Our wounded were sent to Grand Ecore, and our killed buried by the cavalry. Gen. Smith's command, it is said, began crossing the river opposite Grand Ecore the 15th, for an overland trip to Vicksburg, Gen. Grant having sent orders for them to return to that place. It is also said that all the forces at Alexandria have been ordered to Grand Ecore, where the army must be reorganized, which will consume some time. The rebels are reported to have 31 transports at Shreveport.

The Boston Herald's correspondent sums up to the results of the Red River Expedition thus far. We have lost 3000 men, 20 pieces of artillery, 130 cavalry division and brigade wagons, and 1200 horses and mules, including those that died on the march across the Teche. Our gains have been Fort De Russy, Alexandria, Grand Ecore, and Natchitoches; the opening of the Red river; the capture of 3000 bales of cotton, half of which goes to the government; 2300 prisoners, 25 pieces of artillery, and 5000 able-bodied negroes, beside meal, beef, forage, and beef cattle and horses.

☞ Rev. Calvin Fairbanks, who was implicated with Delia Webster in enticing slaves from Kentucky several years ago, and who has served twelve of a fifteen years' sentence in the Frankfort, Ky., penitentiary, has been pardoned by Lieutenant Governor Jacobs, of Kentucky, while performing executive duties for Governor Bramlette.

☞ A schoolboy in Hampden county, Mass., was caught stealing from the teacher's desk, and his father was at once sent for. He came, and after administering a mild rebuke to his son, turned to apologize to the teacher, saying: "You see my son has a mind so large that he thinks everything he sees belongs to him!" This is something like the apology which Northern traitors offer for the rebel aristocracy.

THE BATTLES ON THE RED RIVER.—The New Orleans Era gives a connected account of the recent battles in Western Louisiana. "The fighting," it says, "was terrific and the casualties large, yet there is but little doubt that the blow has terribly impaired if not destroyed the rebel power in the State." Yet it is probable that another engagement will take place, Gen. Banks having expressed his intention of giving battle once more as soon as opportunity offers. The latest advices from Gen. Steele, who is going down from Arkansas to join Gen. Banks, were that he was either within sixty miles or one day's march of Shreveport with 15,000 men.

On the first day of the fight, our cavalry came upon a mounted body of rebels, who were rapidly driven before our troops for four miles, two miles beyond Pleasant Hill, when they came upon a force of 2500 rebel cavalry, under Gen. Greene, strongly posted. The cavalry brigade of Lee's corps were the only Union troops that had advanced far enough to attack them; but they dashed in, and after a fight of two hours and a half the rebels were whipped and driven to Bayon Du Pani, where they were heavily reinforced and drawn up in line of battle. It being nearly dark no further attack was made by our troops.

The next day, April 8th, our troops having been reinforced by a brigade of infantry, the fight was renewed and fiercely contested. At 2 P. M., the rebels had been compelled to retreat seven miles, the loss on both sides having been very severe. Then the rebels were met in stronger force than ever, under Kirby Smith—Gens. Dick Taylor, Moulton, Greene and Price being also present. Prisoners say they had from 18,000 to 25,000 men,—but this may be an exaggeration. They occupied a strong position in a dense wood, with an open field in front. Gen. Ransom formed his line as well as circumstances would permit,—and Gen. Banks, who was on the field, sent word to Gen. Franklin to hurry on as fast as possible, it being his intention to remain quiet until the balance of his army came up. Kirby Smith however, knowing his own superiority in numbers, began the conflict before Gen. Franklin could arrive. The result of this fight has already been stated. Our men, after fighting desperately, slowly fell back, fiercely contesting the ground they yielded. At length they came upon the large and cumbersome wagon train, which blocked up the way, and the frightened horses dashed through the infantry lines, creating a momentary but unfortunate panic, which gave the rebels possession of several pieces of artillery. The rebels followed our men three miles and a half, when they came upon the 19th corps, which had been ordered to stop advancing, and form in line of battle. The retreating Union troops passed through and formed in the rear; and the rebels dashed on, thinking the line, partially concealed in the woods, was another desperate but feeble stand of a few men. Then ensued another close and desperate fight, which night terminated, neither side giving signs of yielding.

During the night Gen. Banks withdrew his forces to Pleasant Hill, as a more advantageous position, and at 7 o'clock, Saturday morning, 9th, the rebels advanced, cavalry in front, endeavoring to discover our position. Skirmishing was kept up with considerable vigor until 5 P. M., when the rebels had completed their arrangements for an attack. Another fierce fight ensued, the rebels moving in three lines of battle to the attack. Our battery and infantry caused great slaughter with grape and canister, while the rebel artillery, being at this time in a bad position in the woods, did comparatively little damage. A sudden and bold dash on the right by the rebels gave them possession of a battery, and forced our lines further back; but their first line had been very much injured, what remained being forced back into the second line. These two lines came on exultant and sure of victory. Suddenly the signal was given, and from the Union side 7000 rifles and several batteries of artillery, each gun loaded to the muzzle with grape and canister, were fired simultaneously, and the whole centre of the rebel line was crushed down, as a field of ripe wheat through which a tornado had passed. It is estimated that 1000 men were killed or frightfully mangled by this one discharge. No time was given them to recover their good order, but Gen. Smith ordered a charge, and his men dashed rapidly forward, the boys of the 19th Corps joining in. The rebels fought bravely and desperately, but finally broke and fled. In the charge Taylor's battery was retaken, also two guns of Nims' battery battery, the Parrott guns taken from us last fall at Carrion Crow, and one or two others belonging to the rebels, beside 700 prisoners. A pursuit and desultory fight was kept up for three miles, when our men returned to the field of battle. Thus ended this fearful and bloody struggle for the control of Western Louisiana.

Gen. Banks, however, was compelled to fall back to Grand Ecore, on account of a scarcity of water it is said, and his army reached that place on Monday. The rebel loss on Friday and Saturday was 4500.

NEW HAMPSHIRE ITEMS.

—— Joseph S. Parsons, Esq., has been appointed Librarian of the Exeter Town Library, in place of A. J. Hoyt, resigned.

—— The two members of the 2d Regiment who were shot at Yorktown, for desertion, April 15, were Henry Holt, Co. F, and John Egan, Co. K.

—— Daniel A. Ham, of Wilton, charged with committing a rape on the person of Alice Twitchell, 14 years of age, was held in the sum of $500, in default of which he was sent to jail at Exeter.

—— The two organized battalions of the 1st N. H. Cavalry, Lieut. Col. Benj. T. Hutchins commanding, consisting of seven companies and about six hundred men, without arms or horses, left Concord for Washington at 11 o'clock Monday.

—— A gentleman and his wife are now living in Stratham, who were married in 1816; they have six children and sixteen grandchildren, and death has never yet invaded their family circle. So says a correspondent of the Exeter News Letter.

—— The Manchester Union states that Messrs. O. D. Carpenter and H. C. Young shot a very large loon in Mosquito Pond on Thursday last. They fired more than forty shots at him before they killed him. He would dive instantly when the gun flashed.

—— Col. Otis Wright, of Nashua, announces that he shall not claim a seat in the House of Representatives. The Telegraph of that city thinks the "members elect will thank him for that, as it will give them the benefit of half a dozen additional square inches of pine board."

—— The list of wounded of the Red river expedition in the recent battles contains the following of the 1st N. H. Cavalry, formerly 8th regiment infantry: Sergt. John Follansbee, Co. B, shoulder; Corp. George W. Colby, Co. D, arm amputated; W. C. Sumner, Rufus Mellindorff, Co. D.

THE MASONIC MONTHLY is the title of a neatly printed Magazine of about fifty pages, the publication of which was recently commenced by Edward L. Mitchell, Boston. As its title indicates, it is devoted to the interests of Masonry, and contains brief articles, explaining, so far as admissable, the objects, mission, history and achievements of the order. Five or six numbers have been published, and although one of the "profane," we should judge from a cursory examination that it is worthy the support of Free Masons, and not without interest to any one who contemplates requesting admission to the Order. Mr. Avery is agent for the Magazine, which is published at $2 per year—single copies 20 cents.

HOW ARE YOU ON'T FOR SOAP.—We cut the following from the California Farmer of March 11th: "Some prospectors have found a vein of what is pronounced to be excellent soap, in Esmeralda. The vein is ten feet wide, six hundred feet long, and as deep as China. The soap, when taken from the mine, is soft as putty, but hardens on exposure to the air, and has all the properties of the best manufactured article." As the street is surfeited with "coppers," we advise speculators to buy this mine. It will be excellent for shaving and have no lye in it.

☞ The War Department has ordered appropriate honors to be paid to the memory of Brevet Major General Totten, who died on Friday,—his military career of more than half a century having been one of continued usefulness and distinguished services. For the past twenty years he was at the head of the Engineer Department, administering with untiring devotion, spotless integrity and signal ability the varied duties, financial responsibilities and professional labors of that arm of the service so essential to our national defence.—The order further says that our extended line of lake defences and sea coast fortifications, many of which were planned by himself, are the enduring monuments of his memory.

☞ Gov. Brough has issued an order calling the National Guard of Ohio into active service for 100 days. They will be clothed, armed, equipped and paid by the United States Government, and report for duty May 2. The order says: "Our armies in the field are marshaling for a decisive blow, and the citizen soldiery will share the glory of the crowning victories of the campaign, by relieving our veteran regiments from post and garrison, to allow them to engage in the more arduous duties of the field."

☞ Perley asserts that Gen. Butler is on the most intimate terms with Gen. Grant, and is perfectly satisfied with the part assigned him in the military programme now laid out. Gen. Butler, himself, in a published letter, declares the pretended extract from a letter written by him, threatening to resign on account of the appointment of Gen. Smith to the command of the troops at Fortress Monroe, to be a forgery.

— Illinois, Ohio, Iowa, Wisconsin and Indiana have offered to raise 85,000 men for 100 days, and the Governor of the last named State has called for 20,000 volunteers.

S. J. COURT, Exeter.—43—Derry Bank v Charles W. Webster, as trustee of E. W. and C. F. Davis. The amount for which the trustee was to be adjudged chargeable was the only issue before the jury. Verdict—Trustee chargeable for 423.70. Bartlett for plf.; Hatch for trustee.

In case 165—Thomas J. Hoyt v Levi Green—Assumpsit on promissory note—the jury returned a verdict for defendant.

State v Caleb Moulton and Hiram Nichols. The respondents (Selectmen of Hampstead) were indicted for refusing to insert the name of Jeremiah Johnson upon the check-list at Hampstead, at the last annual meeting. The jury, after brief deliberation, returned a verdict of not guilty, and the respondents were acquitted. Solicitor for State; Stickney and Hackett for respondents.

Porter Farrell was tried upon an indictment charging him with passing a counterfeit bank note for the sum of five dollars, upon the Bristol County Bank, Taunton, Mass., to Nathaniel Shute, at the Granite State Bank, Exeter—convicted and sentenced to two years' hard labor in State Prison.

In the action Luke Julian & ux. v John F. Moses & al., Executors of the will of the late Theodore Moses, an issue sent down from the law term was tried here, and a verdict taken in favor of the Executors—a case will be drawn for the determination of the whole Court.

The votes for County officers were declared by the Clerk as follows:—

For Register of Deeds.

Whole number of votes cast,	10,736.
Scattering,	248.
Charles B. Clark,	4,448.
Hiram Smart, Jr., (elected)	6,040.

For County Treasurer.

Whole number,	10,737.
John S. Bennett,	4,451.
Benning S. Scribner, (elected)	6,286.

For County Commissioner.

Whole number,	10,771.
Scattering,	1.
Thomas Folsom,	4,448.
Caleb Moulton, (elected)	6, 268.

Two hundred and forty-seven votes from Deerfield were returned for Hiram K. Smart, Jr. No return was received from the town of Gosport.

On Thursday the Court adjourned without day.

Have Room Papers Advanced in Price, like other things?

J. F. SHORES, Jr.,

No. 1 Congress Block,

Is often asked this question; and would answer that he still sells

ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.

Twelve and a half Cent Papers have advanced to Seventeen Cents.

Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 94 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

POLICE COURT, Monday—Odell, J.—Five boys were brought before the Court for playing ball on Sunday. Case continued till the last Monday in May.

Ellen Gosnell, for being drunk, was sent to the House of Correction for 15 days, and ordered to pay costs—$3.86.

Frederick Howard, a one armed man, for breaking windows in a house on Hanover street, known in modern classics as the "House of Blazes," was bound over for his appearance before the S. J. Court in October next.

Will our friends of the Ballot please inform us what has become of the Secretary of the Rockingham County Agricultural Society? If he has ever called the spring meeting of the Trustees, we have not heard of it. He used to live at Exeter, and formerly attended to business; but having taken to himself a wife not long since, we fear he is getting remiss. But the worthy Treasurer has shown no such weakness, as yet; and we call upon him and Br. Whittem to wake up the Secretary. "It's a long Lane that has no turn," Charles.

Commander E. Greenleaf Parrott, U. S. N., of this city, is in command of the iron-clad Canonicus, which sailed from the Charlestown Navy Yard on Friday, convoyed by sidewheel steamer Ossceola. Acting Ensign F. L. Harris is also stationed on board this vessel.

The Army and Navy Journal mentions among recent confirmations those of Acting Master's Mates Stephen H. Burrows and Robert B. Pulfrey, for duty at Portsmouth.

Mr. Card has put an elegant new omnibus on his line from New Castle. Office at S. W. Moses' store, as heretofore. No lack of good accommodations for travelers to Great Island now, sure.

The canary bird flower, of which Mr. Lafayette Laighton has for years furnished the seed, is a beautiful running plant,—hardy, prolific, and peculiarly desirable in all respects.

The maple syrup sold by Mr. Carter, at his saloon, is the most delicious article of the sort we ever tasted.

Neighbor Moses, over the way, the exprinter of our old N. H. Gazette, and at present grocer—also sends us a sample of excellent maple syrup, which he is selling at 40 cts. per quart. Who wouldn't be sweet tempered?

— Drafting is proceeding quietly in the lower part of Minnesota.

— It is stated that Gen. Banks' removal has been seriously considered in Cabinet council.

— The New York Sanitary Fair closed on Saturday evening, having realized the sum of $1,011,000.

— The St. Paul and Pacific Railroad have sold 20,000 acres of their land this Spring.

— Rumor states that General Augur is to be assigned to an important command in the Army of the Potomac.

— There were reports in Baltimore, on Monday, that the colored troops at Plymouth, N. C., were murdered by the rebels after the surrender of that place.

— Edward W. Green, the murderer of Frank E. Converse in the Malden Bank, having pleaded guilty, was on Monday sentenced to be hanged.

— The negro troops, it is said, are to take an important part in the coming campaign and a large number of them are already in the field.

— In nearly all the Eastern newspapers, by a typographical error, the Indians in Southern California were represented to be in a state of insurrection instead of starvation, owing to the drouth.

— The following endorsement is found on a twenty dollar bill that fell into the hands of a Portland trader a few days since; "The last of $10,000, all lost at the Faro Bank, Federal St., Portland, Me."

— A New York chemist pronounces some of the newly-invented perfumes very poisonous, attacking in many cases the interior surfaces of the nostrils, and even affecting the passages of the throat and the bronchial tubes.

— The greater portion of the business part of Demerara was destroyed by fire on the 2d inst. The loss is from $2,000,000 to $3,000,000. Long continued drouth caused a scarcity of water, rendering it necessary to blow up buildings to save the town.

— A remarkable mirage of Lake Ontario was observed in the village of Pulaski, N. Y., last week. The lake seemed to approach within forty rods of the centre of the village, giving it the appearance of a seaport town, the conformation of the land assisting in causing it to appear perfectly natural.

Perley telegraphs from Washington to the Boston Journal that reliable information has been received that the new battery of the pirate Florida consists of two one hundred and thirty pound Parrott guns and six broadside guns, all rifled. She has tracks laid for a third pivot gun, a Blakely gun as large as a 11-inch Dahlgren, which is on her deck, but which Morris stated that he did not intend to mount until he wanted to make a demonstration in smooth water.

Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND GLEET.

Beneath his treatment, all the horrors of venereal and impure blood, Inoculation, Scrofula, Gonorrhœa, Ulcers, pain and decrease in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which has blasted the hopes blighted, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be kept secret with pleasant rooms and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Orders by mail: Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all those complaints to the female sex, as Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon the most rational principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted female is restored to perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1835, having confined his whole attention to an office practice, for the cure of Private Diseases, and his establishment, acknowledged to be superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all DEBILITATING DISEASES, cases of every name and nature, having by his unwerited attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Persons need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—ondly.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticable in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on both sides.

These Collars are made of simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "NOVELTY" (or turn-down) style. In every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Anyone will find Very Convenient.

☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

Constitution Life Syrup
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Regiments, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cases which have up paralled all the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Diseases which have baffled long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are **invited to use Constitution Life Syrup.**

During the past five years we have battled with obstacles and overcome opposition as been seen as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt. Our testimonials prove that the disease can only be cured by the slow recuperative process of Nature." This is our reply:

In health, the body, like a well kept balance scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equipoise of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and the hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the treatment of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Loss of Appetite, Costiveness, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Head Brash.

Scrotula.

Sirumes, Glandular Swellings, Ulcerous, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired)filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolourous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Hip, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read this. Nervous vicariately in weak, suffering woman will this medicine prove an inestimable blessing—directing the footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Joint Complaints, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges your system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Mind. Iodide of Potassium is the best Medicine Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like magic.

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disgure the outward appearance of both males and females, often making them a disgusting object to behold and shunned by others.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and causing troublesome Discharging Sores, which disgure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitutional taint. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used in the cases of Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, Pain in the Side, Shoulder and Arm, important organs, or persons suffering from any acute pain in the region of the heart, will be speedily relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Feverish Flushes of Blood, Nervous Fever, Pale Haggard Countenance and Languishing of the Muscular System, all require the use of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOLE PATCHES upon the temple side, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Pneumonic Consumption, giving rise to languor, dizziness, indigestion, weak stomach, or as accompanied or rendered more dangerous by liver complaint, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation on the world.*

Diseases of the Spine are usually developed in the young, like Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from Diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pale countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MARRIED AND MARRIED LADIES.

It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens the child in the mother's side, it prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly esteemed both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all Diseases of the urinary organs, such as Gonorrhœa or the Clap, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, as it cures in one to three days, soothing and cleansing; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES,
CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases generated by the vicious practice, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Pre-Mature Decay, Blotches on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* The CHEROKEE CURE will restore you to health and vigor, and after a thorough doctoring, is announced to be one of the greatest medical discoveries of the age.

It will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
One bottle restores the vigor in case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of secret dissipation, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Immediate Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Drowsiness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfolding nature of their action would inevitably prevent pregnancy.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the water larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for carrying the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is performed with ease. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air ever comes in contact with the fire, as used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This waste, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Olze, and others.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER
ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small vessels, or, more properly speaking, roots of the hair. It is from these glands that every hair of the head is formed and secreted. As long as the scalp is free from obstruction, these glands are in a healthy state, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create healthy action in the secretion, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lead, Sulphur, Litharge, Sulphur, &c., and producing only a dark or yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and paralysis of the scalp and being highly perfumed, it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove the truth of all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then a little white and now it is almost black. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the erysipelas, in which it had left it, immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only had one bottle, and I think one more will fill our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 30, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, there long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and gives the head fine from head to foot, it is the most beautiful dressing that can be procured. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing which I ever was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very pleasant dressing. Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 to 5 P O 5)	17.2
Soluble " " " (on P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Ammonia	1.3

The organic matter yields 3.5 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words the Insoluble are worth only one third as much as Soluble Phosphates. The value of Fertilizers may vary in the values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

N. P. HILL.

BROWN UNIVERSITY, Jan. 28, 1864.

This lime is sold in barrels containing about 275 lbs. Price Three Cents per lb., by the barrel, or Twenty-Five Pounds for One Dollar.

No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill of Hill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in hills, as great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the start it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place that Poudrette is not like some quack medicines warranted to cure all kinds of diseases. It must be used with discretion and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co's Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

WEDNESDAY, APRIL 27, 1864.

THE REBELLION.

The rebels are said to have lost 1700 men in the attacks on Plymouth, N. C., while our loss was small. Gen. Wessels made a gallant resistance, but had, notwithstanding his repeated request for reinforcements, "too few men." Gen. Peck in his official report of the surrender, pays a high compliment to Gen. Wessels, stating that, five times the enemy stormed the lines of the General and as many times were handsomely repulsed, with great loss, and but for the powerful assistance of the rebel iron-clad ram and the floating sharpshooter battery, the Cotton Plant, Plymouth would still have been in our hands. The rebels are now reported to be moving on Washington and Newbern, and the rebel ram is expected to act in concert with other rams in the attack. Unofficial accounts state that two companies of the 2d N. C. Union Volunteers were among the captured at Plymouth and most of them were taken out and shot by the enemy after our forces had surrendered: all the negroes found in uniform were also shot.

Assistant Secretary Fox has gone to Fortress Monroe to see that proper vessels are sent to Albemarle Sound, although the shallowness of water on the bar will prevent the use of any monitors now afloat, and no light draft ones are ready.

The rebels are reported to be strengthening themselves at various points on the Peninsula, in anticipation of an attack in that quarter. Fitz Hugh Lee has a large cavalry force near Charles City Court House, and there is also some infantry there; a regiment of heavy artillery is throwing up earthworks at Bromley's Station on York river, and troops are concentrating on all the intermediate points between the York and the James rivers.

Lee is said to be mystified by Gen. Grant's movements, and to be waiting for him to open and develope his game. Two weeks ago Lee had 40,000 men; it is believed he now has not over 85,000.

A Cairo dispatch gives New Orleans advices to the 16th. The rebels were still in the vicinity of Pleasant Hill, while Gen. Banks' army was at Grand Ecore, fortifying on both banks of the river,—which does not give much indication that the recent battles resulted so decisively in our favor as has been represented. Prisoners report that Kirby Smith and Gen. Sibley were killed in those battles. They will probably come to life again, as so many rebel generals, whom the newspapers have killed, have done before.

Private letters from New Orleans hold Gen. Banks responsible for the Red river disaster.

Galveston dates of the 4th say the Harriet Lane, the English steamer Isabella, and a barque, were lying behind the fort waiting for an opportunity to run out. The Harriet Lane has waited a long while.

On the 21st Gen. Grierson came upon a portion of Forrest's forces near Hudsonville, Tenn., attacked them, and captured a number of prisoners, horses, mules, wagons, &c.

A rebel dispatch to Mobile confirms the reported massacre at Fort Pillow. It says: An indiscriminate slaughter followed the capture of the Fort. 100 prisoners were taken; the balance of the garrison were slain. The fort ran with blood. Many jumped into the river and were drowned, or shot in the water.

Gen. Price has evacuated Camden, Ark., and Gen. Steele has occupied the place.

Gen. Burnside is supposed by many to have joined Gen. Grant with the veterans of the 9th Army Corps.

It is thought that the Western Governors will be able to raise in twenty-five days the 100,000 men tendered to the Government for 100 days' service. They will garrison the posts and forts on the frontier and in the rear of active operations, thus enabling the veterans now doing post and garrison duty to join our armies in the field.

☞ The late Lieut. Commander Flusser wrote a dispatch to Adm. Lee on the evening of the 18th, six hours before he received his mortal wound, stating that he was expecting the rebel ram down that night or the next day, and that he hoped to whip her, as he intended to fight her with the Miami lashed to the Southfield.

— The powder mills at Raleigh, N. C., exploded on the 5th inst., killing several persons.

— Col. Jack Hayes, the old hero of the Texan Rangers, is now at Guaymas, Mexico, engaged in silver mining operations.

— $20,000,000 Ire needed to pay the 160,000 Western troops called out for temporary service.

— Perley telegraphs that Marcy, of this State, and other Copperheads, voted against Thad. Stevens' tariff resolution, increasing duties for 60 days 50 per cent.

— 26,000 barrels of flour were offered the government on Monday, from $8.50 to $9.15 per barrel. Contracts for only 1000 barrels were awarded at about $8.56.

NEW HAMPSHIRE ITEMS.

—— Concord is now bare of troops, except the Veterans, who expect to be stationed there through the Summer.

—— Privates James Sullivan, James Murphy, W. Hunt, W. Tilly, A. B. Sinclair, and Thomas Towell, all of the 1st N. H. cavalry, (8th regiment infantry) have been sentenced to be shot by a court martial held in Louisiana, for deserting, but the time of execution has been suspended by order of Gen. Banks.

—— A meeting was held in Manchester on Sunday evening, for the purpose of presenting to the public the benefits conferred by the New Hampshire Bible Society, and to take measures towards aiding the society, on account of the loss sustained at Concord, by the recent fire, which destroyed its entire stock of Bibles, valued at $1800, on which there was an insurance of only $800.

☞ A Newbern letter to the Boston Traveller says that eight or nine other officers and men were wounded on board the gunboat Miami by the recoil of the shell which killed Capt. Flusser. Engineer Harrington and an ensign were among the number. The writer also says the same gun was then loaded with solid steel-pointed shot, and several times discharged upon the ram, but without effect—the terrible missiles glancing harmlessly from the well-slushed roof of the iron-clad. The fleet will engage the ram should it make its appearance at the mouth of the river, or in the sound, where they could have sea room to fight. The ram is described as about 140 feet long, with an oval roof much like the back of a turtle, and so strong in timber and plating as to be impervious to hundred-pound, steel-pointed, solid shot, at a distance of not more than 20 feet. She draws but five feet of water, and is about that distance out of water.

☞ The editor of the Portland Advertiser mentions having seen at the Kennebec depot in that city one day last week, seventeen barrels of spruce gum, in its native state, from Franklin County, Maine. The gathering of gum gives employment to a considerable force of boys and young men in that county. Much of it finds it way to Portland, where it is clarified, packed, and sent to market. Some twenty persons are employed there in this labor. About three tons of crude gum went over the Grand Trunk last week, collected in New Hampshire and Vermont, and consigned to parties in Portland.

— The 14th heavy artillery, (1800 men in all,) stationed in the forts of New York harbor, has been ordered to Washington.

— A negro invalid battalion has been organized by order of Gen. Banks, for the Department of the Gulf.

— Mr. Kasson, of Iowa, has secured the exemption of printing paper from an increased tariff. All glory to Kasson.

— Bates M. Leach, a peace men, has been elected to the Confederate Congress from the North Carolina 7th district, by a large majority.

— A train which runs four times each way every 24 hours, between Augusta and Hallowell, they call "the hourly train!" It sounds large abroad.

— The House on Monday referred to a select committee the request of the Maine Legislature for the protection of the North Eastern boundary.

— The Rochester papers report that laboring men are constantly coming into the States from Canada, in search of employment.

— Maj. Gen. Blair has been assigned to the command of the 17th (McPherson's) corps, now in the Department of the Mississippi.

— Collectors of Internal Revenue are to have power to exempt from taxation raffles, or gift enterprises by sanitary fairs or religious associations, for the relief of our soldiers, or other charitable uses.

— It is proposed to erect a Corinthian column of white marble, surmounted with a full length statue of Rev. T. Starr King, in some one of the public squares of San Francisco.

— If your husband chews, thank God that he doesn't smoke. If he chews and smokes, thank God that he does not take snuff. If he does all three, thank God that he'll not live long.

— Among the white refugees from the South, who are arriving at Cairo in large numbers, are many little children whom want and exposure have so reduced that the kindness bestowed upon them is of no avail, and they sink into early graves.

— One effect of the war upon New Orleans is seen in the fact that where a block of four storied buildings was recently destroyed by fire, on St. Charles street, those of but two stories are being built to replace them.

— Gov. Vance, of North Carolina, and Jeff. Davis are squabbling over a blockade running steamer. Jeff. insists that she shall carry part of her cargo at government prices and sell it at the same rate. Vance says the boat belongs to North Carolina, and it is none of Jeff's business.

OUR NEW HAMPSHIRE CITIZEN SOLDIERS OUGHT TO VOTE.—No man in the State has publicly denied this proposition;—but except those soldiers who came home, they have not voted. Why? Because the judges of our S. J. Court pronounced a bill for that purpose to be unconstitutional.—They did not say, however that the Constitution forbids their voting,—and it certainly does not forbid it.

The most that can be truly said on that side is, that it does not provide expressly for their voting, or tell *how* it shall be done; and that some provisions as to the *manner* of voting, *seem* to be against it,—but only seem.

We have already shown, however, that the Spirit of the Constitution allows and desires every citizen to vote and to have his vote counted at his home;—and that the several regulations about voting were only so many attempts to reduce this principle to practice.

A legal friend has just called our attention to Sec. 32 of the Form of Government, which provides that "the meetings for the choice of governor, council and senators, shall be warned by warrant from the selectmen, and governed by a moderator, who shall, in the presence of the selectmen, (whose duty it shall be to attend) in open meeting, receive the votes of all the inhabitants of such towns and parishes present, and qualified to vote for senators."

This provides fully for those voters *present*;—but makes no provision for those now *absent* at the war,—for the same reason probably, that the Constitution does *not* provide for the registry of voters, or for a check list; for the same reason that it does *not* say how *long* a man must live in a town or ward in order to have his home there for voting purposes; nor even that our State elections must be held on any certain day,—but only in the month of March.

The reason in both cases was, doubtless, that they did not foresee any call for such regulations; and that they supposed the legislature might make them, if the wants of the people should call for them.

Such wants have arisen; and the General Court has supplied them, by laws explanatory of the Constitution, and supplementary to it; viz. fixing *days* of election, making registry of votes, requiring check lists, and demanding six months' residence before voting. All these are *extra*-constitutional, and as to the *letter* of that instrument they might be pronounced un-constitutional. Yet every man sees them to be absolutely *necessary* if we would preserve the Spirit of the Constitution, which demands that *all* our qualified electors shall vote, and that our elections shall be *fairly* conducted.

As great a necessity now exists, that our citizen soldiers should vote; without which our State vote *cannot* be full and fair.—The General Court should therefore make a law at this next session, similar to that just enacted in New York State and approved by Gov. Seymour, providing that each soldier or sailor in the U. S. service being a citizen of that State, may send his vote,—before election, in a sealed envelope, properly vouched to any inspector of elections in *his own town*, or to any friend there,—which sealed vote being opened at town meeting, shall be counted as if he were present.

In this we see no greater departure from the letter of *our* constitution than in *any* one of the half dozen restrictions we have quoted—and no departure whatever from its spirit,—but on the contrary a strict compliance therewith. U. T.

COMMANDER FLUSSER, of Kentucky, recently killed at Plymouth, N. C., by the recoil of a shot fired by his own hands against the impenetrable sides of a rebel iron-clad, was one of the bravest and most efficient officers in the Navy. The following note from him to Capt. Hollins, in answer to a solicitation from that officer to join the rebel service, was written at the first outbreak of the war:—

THURSDAY.

Dear Cap.:—I shall never do it. What! be one of the very first to fire on the flag? Not I. I have no appetite for argument to-night; my heart is sick. Is it not enough to drive an honest man out of his senses to find thieves making a great nation destroy itself? Where are your wits, man? How can this business end? In "peace" and "slavery." The end may bring the death of both forever; and worse, inaugurate an era of blood unparalleled. Will the South be whipped by the North? Not while one Southerner lives. Will the North be whipped by the South? Not while the Alleghanies rise above level land. Just look, then, at the prospect. Blood, rapine, desolation, war! HOLLINS:

"Thou canst not shake thy gory locks at me,
And say, I did it."

Yours, in Union, C. W. FLUSSER.

☞ The following, from the Portland Press, is rather neat than otherwise, the Argus being a McClellan paper:

The Argus of Saturday had a column and a half of extracts from New York papers, to show that the design of the Administration is to prolong the war till after the Presidential election. If this is Mr Lincoln's game it must be confessed that he played it very shrewdly when he appointed Gen. McClellan to the command of his principal army; much more shrewdly than he did when he superseded him by an active, fighting General.

— Abandoned colored children, dead as well as alive are becoming common in New Orleans, which leads the Picayune to remark that "the fact is abundantly apparent that colored children do not now receive the attention which they used to do when the relations between the servile and master races were as yet unchanged."

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The Bold ounce leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be matured to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Special Notice to Wounded Soldiers,

The Bounty of $100 due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

Local.

☞ A special dispatch from Concord to the Boston Advertiser states that the two companies of heavy artillery at Forts Constitution and McClary, Portsmouth harbor, are ordered Southward. Governor Gilmore will immediately replace them with two companies of State militia.

A conference of the officers of several militia organizations was held at Concord on Tuesday, and the services of their corps were tendered to the Government. The Amoskeag Veterans, of Manchester, and the Strafford Guards, of Dover, have been ordered to report at Fort Constitution to-day—Wednesday.

The above is given by special dispatches from Concord to Boston papers, but up to a late hour last evening nothing official in relation to the matter had been received by the authorities in this city. Should the Veterans and the Guards, however, arrive to-day, our City Government will doubtless extend to them a public reception, and such other courtesies as the limited time may allow.

☞ On Saturday afternoon last, as Mr. George Atchison, of this city, was assisting in unloading a lumber schooner at the Portsmouth Navy Yard, a stick of timber which was being drawn out, caught his foot and passing over his body lengthwise, broke his thigh and crushed him so severely that he died of his injuries on Monday. He leaves a wife residing in this city.

On Monday, at the Navy Yard, Capt. Hoyt, of the schooner M. Sewall, had his foot severely crushed by a stick of timber. Accidents on the yard have been of rare occurrence, until within the past two weeks, within which time two men have been killed, and two badly injured

POLICE COURT, Tuesday, Odell J.—Annie Messer, for keeping a house of ill-fame on Russell street, was bound over in the sum of $100.

Samuel George pleaded guilty to being drunk, and was fined $3, and costs $8.03, which he paid.

Daniel Larrabee also pleaded guilty to the same charge, and paid an equal fine and costs.

Melvin Parks, for truancy, was sent to the House of Reformation during his minority.

☞ The flags on the Provost Marshal's office and on the staff in front of N. P. Thacher's store, were displayed at half-mast on Tuesday, in respect to the late Maj. Gen. Totten, who was buried on Tuesday afternoon, at Washington.

☞ The U. S. gunboat Agawam, Commander Rhind, which left the Portsmouth Navy Yard a few days since for Portland, for the purpose of recruiting a crew, has received orders to report at Fortress Monroe, as soon as possible. Ten men have been shipped while she has been at Portland.

☞ Capt. Samuel F. Hasard, from the West Gulf Blockading Spuadron, has been ordered to report for duty at the Recruiting Rendezvous in this city.

☞ Acting Ensign Henry M. Pierce, of this city, has been ordered to the sloop-of-war Portsmouth, at New Orleans.

SKIFF'S MINSTRELS.—This truly celebrated band of Ethiopean performers, which gave such general satisfaction on the occasion of their first appearance in this city, about two months since, are to give one of their pleasing and entertaining exhibitions at the Temple, on Saturday evening next. The company are now returning from a very successful tour through New Brunswick and Nova Scotia, where they have been performing to crowded and highly refined audiences. One of the principal features of this excellent troupe is that the songs are all new and beautiful, and the audience is not obliged to listen to worn-out jokes or antiquated sayings, and our readers who enjoy such concerts, are to be congratulated upon the opportunity now offered them to witness an entertainment both chaste and pleasing.

☞ We have for several days been intending to mention Mr. Leverton's pamphlet, just issued, and which is advertised in another column—but for lack of time, or rather on account of engagements sufficient for twice as much time as there is of late, we adopt the following from the Journal for the present:

Mr. Leverton has to-day issued a dissertation which he delivered in the Temple last Christmas evening. It makes a pamphlet of thirty pages. The book is a monument of indefatigable patience and perseverance. Mr. L. whose experience as a printer has been entirely limited to this work, has procured a press, types, &c., and while attending to the duties of his business proper has found time to set up the types and work off, each page separately, an edition of a thousand copies, making in all the press work of 33,000 impressions. The work is in all respects unique. It may be found at Mr. Shores' and Mr. Avery's.

☞ Mr. Adams will sell at noon to-day, a lot of Vinegar Casks, &c. See advertisement.

NATIONAL SAILORS' FAIR.—Now that the Sanitary Commission has done so much for the soldiers, it has been thought that the claims of the sailors to sympathy and support should be remembered; and it is therefore proposed to provide a home for the disabled seamen, where they may enjoy the comforts which that name implies, and also know that their valuable services to the country are appreciated by a grateful community. In aid of this, a Fair is to be held in November next, in Boston, and a call is made on the loyal and patriotic men and women of our land, to contribute either money or articles of taste and utility. Paymaster John A. Bates, U. S. N., formerly of this city, is Treasurer, and contributions can be sent to Mrs. John A. Bates, 86 Chelsea St., Charlestown, Mass., among others.

The exportation of specie from New York last week was nearly three million dollars, and the whole went to pay for our extravagance. This will be apparent from the importations of the week, that exceeded seven millions, which was nearly twice the amount for the corresponding weeks of 1862 and 1863. The total cost of imported luxuries and fancy articles runs thus:—for jewelry and watches $51,000; for fancy goods, toys and perfumery $38,000; for ale, beer, brandy, cordials, gin, porter, and wines $160,000; and other articles equally unnecessary were in large amounts. This extravagance in living is hastening the country to destruction as fast as the rebellion. An association of families that would pledge themselves not to purchase or consume an article of foreign production or manufacture during the war, is as much needed as the army to fight our battles or the navy to blockade the southern coast. If the patriotic women of the country who do so much through Sanitary Fairs and Soldiers' Aid Societies, would organize themselves into such an association, they could do as much for the country as an equal number of men.—*Newburyport Herald.*

— Senator Sumner has introduced a bill authorizing every railroad company in the United States to carry freight, property, mails, passengers, troops and government supplies on their way from any State to any other State. This is aimed at the New Jersey monopoly.

— A night is said to be "as black as a hat," when the darkness may be *felt*.

☞ Sabre cuts, gunshot wounds, and all other kinds of wounds, also sores, ulcers and scurvy, heal safely and quickly under the soothing influence of Holloway's Ointment. It heals to the bone, so that the wound never opens again. Soldiers supply yourselves. Only 30 cents per pot. 233

It is supposed by some that the Prince of Wales visited this country in part to obtain a package of Herrick Allen's Gold Medal Saleratus. Whether he did or not, it would do honor to the Queen's table to have as nice light Biscuit as that article always makes. If any one has any doubts on the subject, go to your Grocer and get a paper immediately, and find of a truth that there is nothing like it. Everybody sells it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and bene ficial qualities as a general Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by emiente physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Kidneys and Bladder, and to Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or compound medicinal article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other Wines, it is therefore a mixture of spirits of Brandy, not distilled for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming soft and healthy clear skin and complexion.

WE REFER TO
a few well known gentlemen and physicians who have tried the Wine:

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the Sick and Afflicted to the cures which have so rapidly of the present day.

Our medical specialties, by the aid of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as black as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is a mistake. Health is the natural state, in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Palsy, Palsy Agitans.

It is so universally admitted that Constitution Life Syrup is the only Medicine capable of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Remedy.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulcerous, King's Evil, Dyspepsia, Salt Rheum.

This taint (hereditary or acquired), filling the with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated, and permanently removed. Cases of long standing or various, of 20 to 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Failing Memory, Loss of Power, Nervous Irritability, Fits, Sleeplessness, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the last lingering trace of Mercurial Disease. Constitution Life Syrup, when the use of Calomel is sure to produce. It hardens spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Syphilitic Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both male and female, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome ulcers. This disease is dangerous to many of the youngest portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the Female Dropsy of the Ovaries, known and well, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. These diseases, known as Tumors of Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and difficult to cure. Tumors may be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Syphilitic Affections, Sympathetic or Organic Diseases of the Heart, Palpitation, Disease of Valves—producing a grating or filing sound, Dropsy of the Heart Case and all the other forms of Heart Disease, which cause persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indiscretion or Excess, Pain in the Back, Dimness of Sight, Forgetfulness, Horror of Insanity, Fear of Disease, Dampness of Vision, Dry Hot Skin and Extremities, Wind of Sleep, Emissions, Pain Between the Shoulders, Nervous Irritability, Nervous System, will require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Secretive Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES, Yellow Spots on the Face, disfiguring your Complexion, Constitution Life Syrup will correct the secretions and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, weakness, want of breath, or an ulcerated or cancerous condition of that organ, accompanied with hurries or other symptoms of Liver Complaint, no remedy has ever been obtained by us but the CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, Constitution Life Syrup. Those diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenances, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD renders healthy men and women, and if the constitution is neglected in youth, disease and early death are the results. Do not delay until the diseases are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the safest and most valuable medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and danger, increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing.—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases for which it is represented, as a positive specific, by the natives of the Backwoods, Southern, Western, and Canada, and is recently introduced in those cases of Chronic Ulcers (Whites in females) where all the old nostrums and medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its full vigor and purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an only remedy to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the other quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all the disorders caused by self-pollution, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Nervous Irritability, Hypochondria, Aversion to Society, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years and will thoroughly treated. It has never failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have suffered with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will send free to any address, giving the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and absolute well-tried cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and is fully pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
Three bottles cure the worst cases of nervous debility.
Three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles will cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few bottles bring the roses to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the emaciated victim of secret vice, the victim of deprivation, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of mild but powerful vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly and gratefully answered.

All directions accompany each box.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the oven being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and rod iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the above Stove there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, which can be regulated—and is noiseless air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while others may have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them in the air, and all from the fuel, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the gases, as they pass off with a large amount of the heat generated, making the chimney the heater of your dwelling.

The Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. THURSDAY, APRIL 28, 1864. VOL. XXIV. NO. 100

The Chronicle.

HIGH TAXATION has not the slightest effect to diminish drinking. This is a truth proved over, and over, and over, in the financial and legislative experience of the English nation. High taxation only diminishes revenue by making the manufacture, importation, sale, and consumption of liquors fraudulent and secret. Their present tax of $2 50 a gallon is conceded by the British authorities on taxation and finance to have at last exactly hit the dividing line between largest consumption and largest revenue. How much better could we bear this tax than our much-taxed cousins! No nation in the world is as rich as the American. In none is wealth so diffused. In none so rapidly acquired. In none is expenditure so careless. In none is taxation encountered with so little opposition, or rather submitted to with such thoughtless acquiescence. And philosophically so. The nation which has a practically inexhaustible supply of first quality agricultural land at ten shillings an acre, and whose industry is so profitable that it can afford to pay two dollars a day for unskilled labor, is bound to be rich, and will be careless.

Suppose that Congress taxes liquor $2 a gallon. Divide that tax among the "drinks" that lie unmeasured in the gallon. There are 60 of them, as the average of Americans drink. The nominal addition to the price of each glass of grog is three cents and a third. But it is not laid on. On the passage of the law the dealer quietly led his casks to the pump and watered them, and before closing the bung brought the spirit up to smarting proof, with red pepper or grated horse radish. His grumbling account with the excise is adjusted mighty quick. A gallon of whiskey, sold in single drinks at the highest Washington price, 15 cents, realizes $9. What is a tax of $2 on that enormously profitable business! The ordinary price for a drink of whiskey in Washington, and in every American city, is 10 cents—the stuff principally "rot-gut" at that. A gallon of it retailed fetches $6, cash down. The profits of the transaction beat the slave-trade all hollow. What is a tax of $2 on that? It is nothing. There is no business on earth that can pay the tax that liquors can pay. And the whining and dodging about the rights and claims of distilled spirits used in the Arts, is false and fraudulent.

The Internal Revenue Department has taken pains to gather the statistics of whiskey widely and accurately—and it is certain that 94 gallons out of every 100 made are *drank*—poured down the throat.—Therefore the moralist and reformer may feel dead sure that they tax drunkard-making when they tax whiskey; the economists may feel sure that they tax an article that will bear taxation better than any other in the country—that the tax will be more widely and justly diffused than any other—and that it will be more cheerfully paid than any other.—*Cor. Tribune.*

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bumors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fatal effects on the mind are too much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charge for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail, three for $1 and a stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, suppression, and other menstrual derangements, are all treated upon new philological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow to be consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Portsmouth, N. H.

THURSDAY, APRIL 28, 1864.

THE REBELLION.

The Philadelphia Press' correspondent with Gen. Banks' army says that our whole force in the expedition consisted of about 20,000 men.

Perley says the responsibility of leaving a small unsustained force at Plymouth N. C., of course devolves upon Gen. Halleck, and that that General planned the expedition to Shreveport, sending detailed instructions to Generals Sherman and Banks.

A dispatch from Newbern, 23d, gives an improbable report that our flag still floats over the forts in Plymouth, N. C., though the enemy have possession of the town and river. It is said that Gen. Wessels has retired with his force into the fortifications with fifteen days' provisions. Washington and Newbern are much more strongly fortified than Plymouth, and more troops and gunboats are said to be on the way. There had been no attack on Newbern up to Saturday evening, but firing was heard on Friday in the direction of Little Washington.

The Port Royal New South says that the 30-pounder Parrott gun which did such execution in shelling Charleston, and which exploded on the forty-six hundred and fifteenth round, has been replaced by a gun equally as effective. Shells are now tossed into the city at points the rebels supposed we would not be able to reach. Deserters and contrabands continue to arrive. They report Beauregard traveling continually between Charleston and Savannah, and uneasy at our supposed intention to strike a blow in the neighborhood of one or the other place.

The Petersburg (Va.) Express of April 22d, says: "Instructions have been given to the First Auditor to remove his Bureau from Richmond to Montgomery, Alabama, next week."

Great activity is manifested in Washington and vicinity in preparing hospitals for the reception of the wounded.

The strength of the 9th Army corps, Gen' Burnside, is stated to be 40,000. It is reported that one-third of the cavalry with the Army of the Potomac have been dismounted.

A reconnoissance, on Tuesday, developed the fact that no considerable body of the rebels is this side of the Rapidan. It is thought probable that Lee will not venture an offensive movement, and a report prevails that he is moving his heavy artillery to Richmond.

Gen. Foster has applied for a command in the field and will probably be assigned to a position under Gen. Burnside.

Admiral Dahlgren leaves in a few days to resume command of the fleet off Charleston.

Richmond papers of April 19th express apprehensions that Grant's presence in Virginia is a blind to cover operations by Gen. Thomas against Joe Johnston's army.

A dispatch from Chattanooga says: "On the 22d the rebels attacked our pickets near Nickuyuck Gap, killing five, wounding seven and capturing nineteen. Some of our men were killed after surrendering and several of the wounded were cruelly butchered as they lay on the field."

Volunteering in Indiana for the call for 20,000 one-hundred-days men is progressing favorably. News from the interior of Ohio indicates that the National Guard turned out in large force on Monday.

☞ What the pecuniary results of the New York Sanitary Fair are is not yet known, but the cash receipts were considerably over a million of dollars. The sword contest was the exciting feature at the close. When the public voting was stopped at 2 o'clock on Saturday, the count stood: McClellan, 11,903; Grant, 3,647; McClellan's majority 2,256. From 2 until 8 p. m. ballots were received in sealed envelopes; the whole were then counted, and the result was: McClellan, 14,500; Grant, 30,291; Grant's majority, 15,782. There were 163 scattering votes, so that sword brings nearly $45,000.

The result of the vote on the navy sword was announced as follows: Commodore Rowan 462, Commodore Farragut 352, Scattering 128. Com. Rowan's majority 120.

☞ A dispatch from St. Johns, N. F., reports that the first returned sealer arrived in Bay Roberts on Monday night with 3500 seals. She brings word of the loss of 16 vessels. The average catch must be nearly a total failure, as over 100 vessels are jammed in the ice in Green Bay without any seals; 700 shipwrecked men are at Green Pond.

— It is asserted in naval circles that there is not one monitor afloat that does not draw too much water to pass over the bar at the mouth of Albemarle Sound. Several monitors of light draught are being built by contract, and were to be completed prior to the 1st October last, but the work on them was delayed by strikes of the workmen and other causes.

OUR N. Y. CORRESPONDENT OUT WEST.

MILWAUKEE, April 19, 1864.

Dear Chronicle:—

Since writing you from Niagara I have journeyed five hundred miles westward, and seen many objects of interest. At Rochester is the Rochester Fall, quite an attractive affair, and notable as the spot where Sam Patch made his last leap. Buffalo, on the shore of the lake, is a city of fine residential, and business attributes,—somewhat low and level in site but well built up, and in its business portions thickly sprinkled with marble and brownstone. Buffalo has a large inland commerce, horse-railroad, many good streets and fine churches. From Buffalo to Cleveland a distance of 183 miles, the trip is quite comfortable in the sleeping cars attached to the road, which is of excellent grade, and traversed by cars elegantly furnished, and so nicely adjusted that any motion except the ever-onward, is scarcely perceptible.

Cleveland is located higher than Buffalo, and is a city of good local business and large inland trade, but it is unfinished, and open to much improvement.

Detroit, 50 miles N. W. across Lake Erie, may be reached by steamer from Cleveland, or by rail via Toledo. At this season, and when time is a consideration, the latter is preferable. Detroit is a fine city, less bustling than others mentioned here, but well laid out, and adorned with many fine houses, and particularly noted for the beauty and immensity of its churches. The ride from Detroit to Chicago occupies twelve hours, and here too admirable sleeping cars may be brought into requisition.

Chicago, the metropolis of the West, more than any other city, offers to a New Yorker the excitement and activity to which he is accustomed. Its immense marble stores, paved streets, and smoky atmosphere, "carries him back to old Virginia," and but for the difference between a tempest in a tea pot and one in the sea, he would almost imagine himself back on the Hudson.

Milwaukee, a city of 70,000 inhabitants 85 miles north of Chicago, the locality of my present writing, well deserves to be called the "Paradise of the West." It is the most beautiful city I have ever seen.—Chicago has some finer stores, and a trifle more of the metropolitan whirl and tumult, but in its location, the elegance of its residences, and general beauty of its arrangement, Milwaukee far surpasses it. Chicago is no place for residence. Milwaukee has all the magnificence of the metropolitan suburbs, the rural beauties and elegance of architecture, all concentrated in the compactness of a city.

The streets are very broad, and lined with trees which must greatly enchance their beauty in summer. The edifices are extensive and costly, and each surrounded with grounds beautifully ornamented, in front and on each side.

Next to those of marble, the most elegant and indeed the majority are constructed of the cream colored Milwaukee brick, having at the distance of a few rods, every appearance of the rich cayenne stone of which the New York Times building is constructed.

The residences extend out along the bluff which slopes perpendicularly to the Lake, nearly one hundred feet below, and commands a beautiful view, almost oceanic, the Lake being here 90 miles wide. Milwaukee has horse cars, and all the appurtenances of a city. The air is remarkably pure and invigorating, the site being six hundred feet above the ocean. Milwaukee is a great and growing city—and its wheat trade in 1863 amounted to twenty-three millions of dollars.

While here we have called on our friends Sherwin, Nowell & Pratt, whose successful business transactions not only exceed all expectations but occupy every available inch of their large double store. Their liberal, vigorous and systematic policy has enlisted a trade in all the surrounding states, and a business within their first year, which cannot possibly amount to less than $500,000 and will undoubtedly be very much over $600,000, is the result. Their street floor, 40 by 150 feet, with cloak rooms and shawl room in the rear, is devoted entirely to the retail, and the three stories above of the same size, to the wholesale trade, while the two basements, almost a store in themselves, are monopolized by the entry, packing and shipping departments. They are a lively concern, believe in advertising, do plenty of it, and do it well, and are sure to succeed. N.

— A letter—signed by W. C. Bryant, Wm. Curtis Noyes, and other leading Republicans of New York, including sixteen States Senators—appeals to the Republican National Committee to postpone the Baltimore Convention to a day not earlier than the 1st of September next.

— The sentence of Col. Fish, of the first Connecticut Cavalry, (late Provost Marshal of Baltimore,) convicted of selling government property and pocketing the funds, receiving bribes, and committing other crimes, is, that he be dismissed the service, forfeit all pay due, pay a fine of $5000, and be sent to the Penitentiary for one year.

NEW HAMPSHIRE ITEMS.

—— Brig. Gen. Gilman Marston was in Washington on Monday on his way to the front.

—— The Candia Cornet Band, 18 members, is having a new uniform made in Manchester. The coat is of blue broadcloth, trimmed with gold lace; and the caps scarlet, of the McClellan pattern.

—— Senator Clark, of this State, has been elected President *pro tem.* of the Senate, in the absence of Vice President Hamlin. He was elected on motion of Mr. Foote of Vermont, who has held that position several years and declined re-election.

—— Maj. S. D. Farnsworth of Manchester, paymaster U. S. Army, lately stationed at New Orleans, has returned to Washington, in poor health, settled his accounts with the Government, and tendered his resignation, which has been accepted.

—— Sixteen substitutes in the 3d N. H. regiment of mounted infantry have deserted to the enemy with their horses since the regiment has been stationed in Florida.—Six more attempted the same thing, but were interrupted, and one of them shot as a warning.

—— The Concord Patriot, whose office has been burnt, comes out this week under difficulties. It has been edited in the old "sanctum," the typeset at the Statesman and Cogswell's offices, the wrappers directed at Mr. Harraden's (the clerk) house, and it was printed at a fifth place by Mr. Wiggin. It is printed on a half sheet. Next week it will appear in a new dress.

—— The Manchester Union states that John S. Yeaton, City Marshal, has sued Mr. Joseph H. Haynes, Alderman of that city, for defamation of character, the allegation being that the defendant had declared that Mr. Yeaton had appropriated to his own use the sum of $300, belonging to the city. The damages are laid at $5000. A dispatch from Manchester, Wednesday, states that Mr. Yeaton committed suicide on that morning by hanging himself, business difficulties being probably the cause. He has been an active business man, a prominent and worthy citizen, for 20 years.

— A great deal of counterfeit money was passed at the New York Sanitary Fair.

— The World's Washington despatch says the sentence of Admiral Wilkes by court martial is dismissal from the service.

— Burnside's corps marched from Annapolis to Washington—forty miles—in two days.

— Special orders require all dismounted cavalry to be turned immediately into infantry.

— On a bill received at the Bath City Bank, was written these words: "Go it, Bill; I'll back you."

— Orders have been transmitted to the commanding officers of the different Navy Yards to expedite work on the various vessels.

— The official vote of Connecticut, for Governor gives Seymour 34,162, Buckingham 29,820.

— John G. Saxe is seriously ill from the effects of injuries received by a railroad accident last winter.

— All day on Sunday last, at Dubuque, we learn, "the Heavens were black with pigeons flying northward."

— Gen. Halleck is said to be the most prominent candidate for the position rendered vacant by the death of Gen. Totten.

NEW YORK, April, 1864.

LAUGHING GAS.—*To the Editor of the Transcript:* Up to the present time I have administered the gas for the extraction of over eight thousand teeth, and with uniform success. I have never known the slightest ill effects to attend any case. I have never known a patient even wish to lie down after having teeth drawn by the use of the gas. I have never had a person who could not be put into a profound sleep with the gas. When we first commenced business in New York, we were met with a smile of incredulity, not only by the dental but the medical profession. The general impression was, that laughing gas would only make people laugh, dance, &c. They did not realize that when a person takes a seat in a dentist's chair, there is nothing in the mind but the fear of pain, the dentist, &c., and that they breathe a large dose, and go beyond the point of exhilaration. Large numbers came in to witness our operations. The result is, that now the dental and medical professions are as unanimous in favor of the gas, as they were against it at first.—I know of only one dentist in our city who opposes the use of the gas, and he makes strange statements that he has never seen its anæsthetic operation.—Desiring to obtain the highest medical and scientific authority as to the efficiency and comparative safety of the nitrous oxyde, and ether and chloroform, I addressed a letter of inquiry to Prof. P. H. Vander Weyde, of the New York Medical College and Cooper Institute, and received the following reply:—

COOPER UNION FOR THE ADVANCEMENT OF SCIENCE AND ART,
NEW YORK, March 1, 1864.

Dr. G. Q. Colton: DEAR SIR:—In answer to your letter of asking my opinion about the comparative safety of nitrous oxide gas and ether or chloroform, I must say that as soon as you introduced this gas among the dental profession, I immediately advocated its use, and, point out, particularly to my class in the N. Y. Medical College, the advantages connected with an anæsthetic, which, in itself, is a powerful supporter of combustion and respiration, in place of the suffocating ether and chloroform. The fact that you have administered it to about 10,000 persons—more than any dentist in this city—without a fatal result, is self unanswerable proof of its safety as an anæsthetic.

When, now, we look at the hundreds of cases directly killed by ether or chloroform, on the operating chair or table, the comparative value of nitrous oxide must be apparent.

It is a singular fact that among the three anæsthetics now in use—ether, chloroform and nitrous oxide—the first is combustible in itself, though the very opposite of a supporter of combustion and life; the second, chloroform, is neither combustible nor a supporter of combustion; while the last, nitrous oxide, *is a powerful supporter of combustion and life.*

The difference between the nitrous oxide and ether and chloroform is that the first, being a supporter of combustion and respiration, invigorates the nervous system and produces an increase of vitality, while the two others, ether and chloroform, being non-supporters of combustion and respiration, depress the nervous system, and bring vitality below the standard, though with the same final result, *perfect unconsciousness.* The difference only is that the unconsciousness produced by the increase of vital action is harmless, and the same result produced by the depression of vital action is injurious, and may prove fatal.

Very respectfully,
P. H. VANDER WEYDE, M. D.,
Prof. of Chemistry N. Y. Medical College,
and at Cooper Institute.

There have been three deaths reported as having been caused by inhaling the gas for dental purposes. These were, Mr. Sears, of Boston, and a dentist's office in Canal street; Miss Bell, of Swanton, Vt., and a lady at Allentown, Pa. I have taken pains to ascertain the facts respecting all these cases, and find that neither of them died from the effects of the gas—one of them never breathed the gas at all, but died from the effects of *chloroform.* Mr. Sears was in the last stages of consumption, just hanging between life and death, and as likely to die two hours before, as two hours after inhaling the gas, as was the case. The Medical and Surgical Reporter, in referring to this case, says: "From the pathological condition of the lungs of the patient, we have little doubt that the same result would have followed the extraction of the tooth, if no anæsthetic had been taken." The coroner's jury attached no blame to the dentist. It is true he died after inhaling the gas, and so shall I, for I have breathed it for the past twenty years—ever since I gave my anæsthetic lecture in the old Mechanics' Institute, Boston, in 1844,—and probably shall continue to do so as long as I live.

Respecting Miss Bell, of Vermont, Dr. L. Gilman, of St. Albans, writes me, that she did not inhale the gas for anæsthesia, but with several other ladies inhaled "a small dose for sport; and out of it she will say she never once attended a party that evening (Friday) as full of life and frolic as ever, was taken sick the next day, and died on the Sunday following." Her disease was called "inflammation of the meninges of the brain and spinal cord." None of her town's people supposed the gas had anything to do with her decease.

Respecting the lady at Allentown, Penn., Dr. C. L. Smith of that town writes me, "the coroner's *form* was, that the agent that produced death in this case, which happened some time back in the office of one of our most respectable dentists, was administered by a dentist, and not by physicians of good standing in this place, and the quantity given not large, and the patient apparently in good health at the time, and that it was an agent that will kill at times, and quite unforeseen and unexpected."

So we see that not a single death has occurred from the use of the nitrous oxide gas. The two reports announcing the above deaths originated or were first published in the New York Tribune, and, on showing these people to whom I have told me that they were written by a dentist of this city, *and the very man above referred to,* the only dentist in this city who opposes the use of the gas! I was allowed a large space in the paper to correct the misrepresentations.

The gas is every way pleasant to inhale, produces none of the disagreeable effects of ether and chloroform, and, if pure and fresh, never fails to produce the most perfect anæsthesia. One of the great advantages is that its effects all pass off within two or three minutes, leaving the patient feeling as well, if not better, than before inhaling it. I do not exhibit this gas in a low form, it will be the only anæsthetic used for brief surgical operations. Yours, resp'y,

G. Q. COLTON.

I manufacture my Gas through EIGHTY GALLONS of water, and I can assure the public that I have the best and most expensive apparatus in the market. Dr. Colton manufactures the Gas in the same way that I do. Below, I publish a certificate given me by Dr. Munson, of New York. I think more highly of the Gas every day that I use it. I keep a supply of fresh Gas constantly on hand, and I will assure that every one who breathes the Gas at my office will receive no injury whatever. DR. E. E. GOODALL.

60 CONGRESS STREET.

I hereby certify that Dr. E. E. GOODALL has received full instruction from me for the manufacture of a chemically pure Nitrous Oxyde Gas, the same as used by me for the painless extraction of teeth; and having made and administered the same in my presence, with perfect success, I would cordially recommend that the public award him their entire confidence.

WEATHER AND PRICES IN 1816.—It is sometimes profitable to compare one time with another. The year 1816 was a time of peace, and our money was silver or its equivalent. But the weather was very unfavorable for crops in this vicinity, and our working people were paid very low wages, some trades less than half what they get now. Yet in the winter following the cold June of 1816, the price of Corn was from $1.90 to $2.10 per bushel, Rye $1.75 to $2. Butter 24 cts., Hay $25., Flour $15, &c.

It will be recollected by some of our readers that in this town we had a slight fall of snow on the 8th of June, 1816. It also snowed in Boston, and several inches in Bangor. There was frost on almost every night of the first week in June. In the interior of the State, at that time, icicles were seen pending from the trees, and the foliage was blasted.

☞ Arrangements are being made for launching the iron clad Agamenticus within a day or two. She is to be docked for the purpose of receiving the ram, which is to be attacked to her bows.

A man named John M. Harvey, a laborer on the Portsmouth Navy Yard, Tuesday, while employed at the stable cutting hay, caught his fingers in the machine, lacerating them in a shocking manner. This same individual had but just recovered from the effects of a fall which confined him to his house for three or four weeks, he having very narrowly escaped with his life.

☞ The Boston Journal's dispatch from Concord states that a ta conference of the officers of the volunteer forces of New Hampshire, held by order of Adj. Gen. Head, at the capital on Tuesday, all our military organizations were represented, including the Governor's Horse Guards, the Amoskeag Veterans, the National Guards, the Granite State Cadets, the Strafford Guards, the Lyndeborough Artillery, and the Bedford Light Infantry. All of these, the dispatch says, promptly volunteered their services. Subsequently, as we have already stated, the battalion of Amoskeag Veterans of Manchester, Col. Mowatt, and the Strafford Guards of Dover, Capt. Littlefield, were ordered to report on Wednesday morning for duty at Fort Constitution.

The Manchester Union states that "the Governor, in honor of the Amoskeag Veterans, designated that corps to perform the duty of garrisoning the fort, provided they were anxious to do so; and at a meeting of the Veterans on Tuesday evening, at which about fifty members were present, it was voted to accept the Governor's invitation and go as a battalion." A dispatch from Manchester on Wednesday, however, states that the National Guards of that city, Capt. James O. Chandler, will be sent to the fort, the call for the Amoskeag Veterans having been revoked. But neither Guards nor Veterans have yet made their appearance.

We also learn from the Portland Press that Governor Cony of Maine has ordered the Lewiston Light Infantry to proceed forthwith to Fort McClary, Kittery, for garrison duty, to relieve the Company now there. They are to be mustered into the United States service for sixty days, and every man is required to go or procure a substitute. It is said that they will be ready to come to-day or to-morrow. The Argus states that an infantry Company at Norway, Me., has also been ordered to Fort McClary.

SAVE YOUR VOTE.—Every loyal man without doubt will desire to cast his vote at the Presidential election. A man removing from one ward to another after the last day of this present month will lose his vote.

☞ To our apprehension, the ayes decidedly have it, on the question of "the laughing gas," so called, for dental and other painful (painless) operations,—according to all the best scientific and experimental evidence. Read Dr. Goodall's notice of the matter, in another column this morning.

☞ Auctioneer Adams is to sell "a little farm" near the city, on Saturday next—or rather to re-sell it, as the late bidder-off did not come to time with the funds.

— The Senate has passed, after amendment, the House bill to establish a postal money order system.

— A new York dispatch states that the ex-blockade runner Margaret & Jessie, now the gunboat Gettysburg, had a trial trip on Tuesday, and made 15 knots easily.

— The sealed verdict of the Wilkes court martial was sent to the Secretary of the Navy on Tuesday. The prevalent impression is that he has been found guilty.

— A San Francisco dispatch announces that fears are entertained that the grain crop will fail short one-half, the late rains not having been sufficient.

— No official confirmation or even intimation had been received, up to Tuesday, of the reported massacre of prisoners at Plymouth, N. C.

— Representative Gooch telegraphs from Fort Pillow that the facts in regard to the massacre there are more horrible than the published accounts.

— Jeff. Davis' residence in Mississippi is now occupied by superintendents and teachers of freedmen, and his estate is cultivated by liberated contrabands.

— A Mobile dispatch, 19th, reports that the Red River had suddenly fallen, leaving forty Union transports and gunboats above the raft, which cannot get out until the river rises.

— It is said that Gov. Morton, of Indiana, will take the field at the head of the Indiana legion, recently tendered for special service; and that his immense popularity will induce almost universal enlistment in that State.

— Pat Sullivan, a notorious chap who has been engaged in extensive burglaries and robberies in Bangor during the past year, was arrested in that city on Monday night.

— Philadelphia papers assert that "sweet Jenny Wade, the heroine of Gettysburg," was no heroine at all, and not even a loyalist. So that monument probably will not be erected.

— The Naval Committee of the Senate has reported a bill providing that naval officers shall not be retired under sixty-two years of age and not till their names have been on the register forty-five years after the age of sixteen.

— It is believed the House Naval Committee, in view of the conflicting claims of New London and League Island, will not advise the location of a new navy yard for iron-clads at either place, and that it will recommend the postponement of the matter until next session.

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every volunteer is liable, there are no remedies so safe, convenient and sure as Holloway's Pills and Ointment, thoroughly tested in the Crimean and Italian campaigns. Only 30 cents per box or pot. 234

SALVE VERSUS SURGERY.—Many a precious limb has been amputated that might have been saved had a proper salve been applied in time to the part affected. Such a salve is Grace's, which cures at once and safely, flesh wounds, ulcers, boils, felons, old sores of every description, salt rheum, weus, abscesses and all skin diseases. Though composed of purely harmless ingredients, it has such penetrative powers that it at once strikes to the seat of disease and removes it. It should be in every home and workshop, in every sailor's chest and every soldier's knapsack. It is only 25 cents a box.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not know of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

A SNAKE IN THE GRASS.

Come, listen awhile to me, my lad,
Come, listen to me for a spell;
Let that terrible drum
For a moment be dumb,
For your muscle is going to tell—
What both?
A youth who loved liquor too well.

A clever young man was he, my lad,
And with beauty uncommonly blessed,
But with brandy and wine
He began to decline,
And behaved like an person possessed;
I protest!
The temperance plan is the best.

One evening he went to a tavern, my lad,
He went to a tavern, one night,
And drinking too much
Rum, brandy, and such,
The chap got exceedingly "light,"
And was quite,
What your aunt would unclude a "fright."

The fellow fell into a moodie, my lad;
'Tis a horrible slumber he takes—
He trembles with fear,
And sets very queer;
My eyes! how he groans and shakes
When he wakes,
And raves about horrid great snakes!

'Tis a warning to you and to me, my lad,
A particular caution to all—
Though we can not see
The bite but feel—
To hear the peculiarities tell,
"How they crawl!
All over the floor and the wall!"

Next morning he took to his bed, my lad,
Next morning he took to his bed;
And he never got up,
Only to sit up,
Though properly physicked and bled;
And I read
Next day the poor fellow was dead.

You've heard of the snake in the grass, my lad—
Of the viper concealed in the grass;
But now you must know,
Man's deadliest foe
Is a snake of a different class;
Alas!—
'Tis the viper that lurks in the glass! —SAXE.

Gray's Patent
Molded Collars
Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from angles noticed in all other collars.
The curved corners no pockers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Gazette Collar has a smooth and evenly finished edge on both sides.
These Collars are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Gazette) from 13 to 17 inches; and packed in "solid cloth" in neat blue cartons, containing 100 each; also in smaller cases of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."
Sold by all dealers in Men's Furnishing Goods. The Trade supplied by
HATCH, JOHNSON & CO.,
Importers and Wholesale Dealers in Men's Furnishing Goods and Umbrellas, 81 Devonshire st., Boston.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York Sixth Ward Cholera Hospital, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, to at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the rational minded and scientific to cases which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, than have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and prejudice which have been cleared or overcome by its intrinsic
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature!" This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause, in one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.
Paralysis,
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only reiterate that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Loss of Appetite, Costipation, Weight at Stomach, Nausea, Heartburn, Wind of Appetite, Flatulence, Bad Breath.
Scrofula.
Strumous, Glandular Swellings, Ulcerations, King's Evil, Hypochondria, Consumption.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its hereditary affections. The most painful are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Mental Depression of Thought, Tremblings, Loss of Power, Shattered Nerves, & Vital Drains.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to women and young men will this medicine prove an inestimable blessing—directing their footsteps to a Hope which falls more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weakness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all mercurial effects, thus breaking up and removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES,
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, during their twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. Such can recover by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, Weak Limbs and shoulders, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration—all these are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy (monthly) for Suppressed or Painful Menstruation, or exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (so common), Disease of Liver—producing a grating or sawing sensation, if pressed. The Liver is one of the most all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly benefited by Constitution Life Syrup.
Broken-Down and Delicate Constitutions,
Suffering from Indisposition to Exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin, Nervous Headache, Flushing of Heat, Wakefulness, Pale Haggard Countenance and Languor of the Muscular System, all require the aid of the CONSTITUTIONAL LIFE SYRUP.
For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or temple, Constitution Life Syrup is unrivalled.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the lady, wife and married. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Jaundice, Liver Complaint, giving rise to languor, dizziness, indigestion, weak stomach, or an elevated or cancerous condition of that organ, accompanied with turning of the eyes, unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Dyspepsia, Nervous Debility and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pale countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and misery follow in after years. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It will be found invaluable before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend, and the Rich Man's Blessing! Try it, take it, and be cured—it is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION.
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, expulsive of the poisons of the urinary, renal and lacerations of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Stone, Gravel, Gonorrhoea, and is especially recommended in these cases of Fluor Albus (or Whites in females) where all the old numerous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying the blood, cleansing it to be in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhoea, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are stopped and the weakened organs are speedily restored to full vigor and strength.
☞ For particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

DR. WRIGHT'S
REJUVENATING ELIXIR.
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable Kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental powers.
A few doses bring the rose to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and desponding victims of common prejudice.
The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from secretions of the urinary organs, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

They cure Green Sickness (Chlorosis), Nervous Affections and Spinal Affections, pains in the back and lower parts of the body, Hearttoness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.
Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.
They may be safely used at any age and at any period, except during *the first three months,* during which the unfailing nature of their action would inflexibly prevent pregnancy.
All letters seeking information or advice will be promptly, freely and discreetly answered.
Full directions accompany each box.

THE MAGEE
COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and air-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With this stove, the cinders up in a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the cinders up there in the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued, day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and protection in cooking, it will be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would ask those about purchasing or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warmed air, moist and agreeable,—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the smoke pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flues on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used.
We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles A. Abbendum, Henry F. Wendell, John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. FRIDAY, APRIL 29, 1864. VOL. XXIV. NO. 101

The Chronicle.

A LONG-LIVED RACE.—Mr. Gilbert Winslow, who died at Assonet Village, Freetown, Mass., March 19th, 1864, in the 93d year of his age, owned and occupied at his decease the same premises and operated the same mills that were owned and improved by the successive generations of his ancestors since 1690. His father (Ephraim Winslow, Esq.) died in January, 1833, in the 92d year. His grandfather, Col. James Winslow, was accidentally killed about 80 years ago, and his great-grandfather, Capt. Josiah Winslow, died in April, 1762, in his 92d year. On the maternal side Mr. Gilbert Winslow was a grandson of Col. Thos. Gilbert, a captain under Gen. Pepperell at the siege of Louisburg in 1745, and a noted loyalist in 1775.

"VICE PRESIDENT" STEPHENS DISCONTENTED.—The Mobile papers of the 23d ultimo contain a synopsis of a speech delivered by Alexander H. Stephens at Milledgeville, in which he said the bill suspending the habeas corpus was constitutional, but dangerous. He did not believe the President would abuse the powers conferred upon him, but abuse might be exercised without his knowledge. If the suspension was necessary, which he did not admit, it was passed in a way dangerous for freemen, and he not protested against would be fastened as a policy of the Government. The currency will be thought unwise and severe, and the military bill fatal, as it diminished products to such an extent as to interfere with the necessary supply of food.

NEWBURYPORT is to be commended for one thing—we always do well by our own. The men who are born here and educated in our schools, if they have character and reputation to deserve it, always receive the public approval. We often know men to vote for political opponents who are of the place; nay do they withhold any encouragement. This is as it should be. The public interest should never be sacrificed on account of such favoritism; but when other things are equal, any honor, place, or patronage should belong to those of the "manor born." This is the doctrine; sustain your own; patronize your own; encourage your own; and then you will have your own, of whom you may be proud, and who will deserve it all; but the contrary is the case, intellect perishes, energy fades away, courage dies and prosperity flees away.—*Herald.*

is often asked this question; and would answer that he still sells

ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.

Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (DR. LEDYARD'S *office of 1857,*)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents not enjoyed by the inhabitants of inventions unexpressed by, it not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast amount of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, has obtained or rejected applications SIXTEEN APPEALS, EVERY ONE of whom was decided in *his favor*, by the Commissioner of Patents.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry, and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all Scurf and Humors and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and scurvy humors of the scalp, leaving it lightly perfumed, it affords a most delightful article of the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.
HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try a month or six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter also tried it on her hair, which was fast falling off on account of a severe attack of the diphteria; it stopped it immediately on its application, and has also been trying it for baldness on top of her head, and there is a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with the old fashioned notions. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most wonderful dressing for the hair ever prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing.

FRIDAY, APRIL 29, 1864.

THE REBELLION.

There are numerous speculations as to the intentions of Gen. Grant relative to the coming campaign, but for once, military operations are kept secret. Corps commanders do not know his plans. The steady preparations for the great struggle are not disturbed by affairs in North Carolina and Louisiana.

The Shenandoah and the Potomac are exceedingly high. The weather in Virginia has been pleasant for the past few days, and the mud has turned into dust, which is kept down by occasional April showers. Gen. Burnside has joined his command. A rebel force is reported to be concentrating at Front Royal. The rebels have been trying ineffectually to sweep away some of our bridges by filling the river with logs.

An unsuccessful attempt was made on the 18th inst. to destroy the frigate Wabash, off Charleston by a torpedo-boat. The Wabash gave a broadside to her enemy, which either sunk or escaped.

Orders have been issued for an immediate draft in Pennsylvania, New Jersey, Massachusetts, Ohio and Missouri. The draft will probably be ordered in Delaware and some districts of Maryland.

The rebels refused to receive a flag of truce boat sent to inquire about our wounded at Plymouth. Gen. Graham made a reconnoissance and threw several shells into the town. It is reiterated that all the Union North Carolina soldiers, as well as the negroes, were shot after the surrender.

A Port Royal letter states that the white troops are to leave that Department for the North, with a few exceptions, and the colored regiments which are daily arriving are to take their places. Our forces in Florida are to be withdrawn, and are also expected to go North.

A Hilton Head letter reports a reconnoissance on the 15th inst. to near Legareville, by a detachment accompanied by the gunboat Sonoma, which shelled the rebel pickets on James Island. A brief skirmish occurred on the land, but no casualties are reported on our side. When our men were returning, one of them stepped on a torpedo buried in the road, exploding it, which wounded three men. The ground was then searched and twelve torpedoes were discovered. Rebel deserters from Savannah report the rebel forces changing positions. A considerable force is still in Florida, but it is thought they will soon be ordered to Georgia and South Carolina.

A boat expedition from the U. S. steamer Niphon, commanded by Act. Vol. Lieut. Breck, a native of Maine, now of California, has destroyed large rebel salt works near Wilmington, N. C.

A portion of our army had left Grand Ecore on the 19th, and it is believed that all of Gen. Banks' army is again en route for Shreveport.

— All the naval vessels, iron-clads and others, at New York have been ordered South at once.

— 29,000 tons of coal were sold in New York on Wednesday for $7.881-2 and $8.65 per ton.

— The Richmond Examiner of April 8 has a pretty correct roster of the Army of the Potomac since its reorganization.

— The Commissioner General of the Land Office has prepared a circular for the benefit of the army and navy, showing them how they are to avail themselves of the amendment to the homestead bill.

— The gunboats Southfield and Bombshell, destroyed by the rebels in North Carolina, were of comparatively little value. The Bombshell was made out of an old barge. The Southfield was an old Staten Island ferry boat.

— Officers of the army have been prohibited from using any horse, wagon, ambulance or vehicle of any kind which is property of the United States, whether for official or private business, without an order in writing from the Adjutant General authorizing such use.

— A few days since a raft was discovered to be on fire while passing down the Susquehanna river. Persons from the shore found three men on it, one burned to a crisp, and the other two insensible. It is supposed that the raft took fire while they were asleep, or under the influence of liquor.

— The fiftieth anniversary of the entrance of the Russian army into Paris in 1815, has been celebrated at St. Petersburg, with a significance not likely to be passed over without remark by a nation so sensitive on the subject of military disasters as the French.

— The experiment of working heavy guns by steam has been tested on board the monitor Winnebago, at St. Louis, and, according to the local papers, with entire success. Two 11-inch Dahlgren guns are completely under control of one man. The guns can be withdrawn from their ports, lowered and loaded, and returned ready for firing in sixty seconds.

NEW HAMPSHIRE ITEMS.

—— The N. H. cavalry reached Washington on Wednesday.

—— The number of Veterans from this State, re-enlisted for three years, as reported to April 15, is 1253.

—— Perley telegraphs that horses are to be purchased in Concord for the First N. H. Cavalry.

—— Mr. Albert Chamberlain of Brookfield has this year made from 200 trees, 1150 pounds of maple sugar.

—— Col. David Piper has been appointed postmaster at Mackerel Corner, Tuftonborough, vice John S. Leavitt, removed.

—— Centennial celebrations will be held in Claremont and Raymond this year. It has been decided to hold the one in Raymond on the 5th of July.

—— Twenty three persons were baptised by immersion in Exeter on Sunday noon last, by Rev. N. Hooper of the Water street Baptist Church.

—— A correspondent of the Patriot writes that Mr. William B. Loverin of Danbury has a sow which was safely delivered of twenty-two living pigs, April 16.

—— The Wolfboro' News of April 27, says: "There is yet considerable ice in the Lake. It will be some days, and perhaps weeks, before navigation will be open.—Snow has entirely disappeared from this immediate vicinity, but considerable quantities yet remain upon the mountains.—The travelling is becoming tolerable."

—— The Concord Patriot thinks that the fire, by which its office was destroyed, was undoubtedly the work of an incendiary. It also says that "the fire has caused more disturbance and disarrangement in business matters than would, probably, the burning of any other building in Concord, although the immediate loss is small—very small to individuals."

—— As May Day this year occurs on Sunday, the ladies of the Unitarian Society in Exeter have fixed upon Tuesday next for their annual Festival. Their festivals have been quite popular in years past, and on this occasion they offer, in addition to the morning breakfast and sale of refreshments during the day, a dramatic entertainment in the evening by a company of juveniles.

—— Of the 13 Regiments in the field from this State, all last two or three have already joined or have been ordered to join either Grant or Burnside. The following was their disposition at the last accounts: The 2d has left Point Lookout and gone to Yorktown; the 3d and 4th have re-enlisted and gone to Washington; the 5th is at Point Lookout; the 6th is at Annapolis; the re-enlisted men of the 7th are now on furlough, and the remainder of the regiment in Florida; the 8th is a cavalry regiment, and is in the expedition which has recently seen such hard fighting on Red River; the 9th is at Annapolis; of the 10th we have seen no recent report; the 11th is at Annapolis; the 12th at Yorktown; the 13th at Norfolk or vicinity; the 14th has just arrived at New Orleans.

THE CONTINENTAL MONTHLY, for May, has been published, and is an attractive number. This magazine well combines the characteristics of a literary and a political journal, many of its articles in both departments being of a high order.

— Civilians who travel on Government railroads must hereafter pay a fare of five cents per mile.

— It is said the President thinks of sending Gen. Stokes to the Gulf Department, to take the place of Gen. Banks.

— A Newbern correspondent of the Hartford Press says that Gen. Wessels, at Plymouth, was last seen by the gunboats, with his coat off throwing hand grenades.

— The metropolitan police bill, to put the police business of Boston under the control of State officials, has been defeated in the Senate where it originated.

— The English papers all state that the enthusiastic reception of Garibaldi is confined to no class, but pervades all, from highest to lowest.

— The House Naval Committee by a vote of 5 to 3 has rejected League Island for a site for a Navy Yard. A dispatch to the Tribune thinks New London will be decided on.

— A profound conviction pervades Congress of the necessity of such terrible, inexorable retaliation for the Fort Pillow and Plymouth massacres as will forever prevent a recurrence of similar barbarities. So says the New York Tribune.

— John C. Rives, lately deceased, for many years publisher of the Washington Globe, was very liberal to the poor of Washington. He began life poor, but became wealthy, and always cared for the men and women who became disabled by age or sickness in his service.

— The House passed on Wednesday in ten minutes' time, the bill appropriating twenty-five millions for the Western militia ordered out for 100 days' service. The House Military Committee have addressed a letter to the Secretary of War urging that the time of service of these militia men be extended to six months.

A REAL BENEFIT.—*The Alleghanians and the St. Louis Sanitary Fair.*—The following correspondence demonstrates the patriotism of the Alleghanians:

ST. LOUIS, April 8th, 1864.

To the Committee on the Drama and Public Amusement of the M. V. S. Fair:—The Alleghanians, Vocalists and Swiss Bell Ringers, (under the direction of Prof. J. M. Boulord,) desire me, as their agent, to announce the pleasure of giving their services to forward your patriotic design in assisting the interests of the U. S. Sanitary Commission, and most respectfully tender you a benefit in aid of the Mississippi Valley Sanitary Fair.

Perhaps it would not be out of place for me to say that the "Alleghanians," ever true to the promptings of generosity in the cause of charity, have, during the past sixteen years of their organization, given hundreds of benefits in this and in foreign countries, but none with such real patriotic devotion as the one proposed to you in aid of our brave and loyal "sick and wounded."

Respectfully, etc., D. G. WALDRON,
Agent "Alleghanians," etc.

ST. LOUIS, April 3, 1864.

D. G. Waldron, Esq., Agent of the Alleghanians and Swiss Bell Ringers:—DEAR SIR: Your communication of yesterday, announcing the determination of the talented company of "Alleghanians," under your management to give a concert in aid of the Sanitary Fair, is received, and with a due appreciation of their patriotism and public spirit, their very kind offer is accepted; and there cannot be a doubt that our citizens will second the efforts of the "Alleghanians" by filling the large hall of the Mercantile Library to overflowing. Very respectfully, your obedient servant,

C. E. BALMER, Chairman Com.

It was, says a St. Louis daily, "one of the largest Benefits ever given in that city, —over *one thousand dollars* being realized, and every cent taken turned over to the Committee"; Mr. Waldron and his generous acts, as well as that of his popular troupe, should be applauded from Maine to California.

☞ Gen. Sully's expedition against the Sioux Indians, now fitting out at St. Paul, Minnesota, will number three thousand cavalry or mounted infantry, with eight or ten pieces of cannon, and such a force of friendly Indians, consisting of the Maudans, Rees, Crows, Delawares and Shawnees, as Gen. Sully can secure, to act either as scouts, spies or warriors. The object is to rid the entire territory west of the Missouri river of the hostile savage, and leave it free from danger for the occupation of the thousands of emigrants flocking to the district, where gold and silver abound. Gen. Sully will establish infantry posts from Idaho to the Missouri river and across to Minnesota, and he intends to make no half-work of the undertaking.

☞ The Italian line of battle ship Re Galantuomo for which search has been made by several of our national vessels as well as those of other countries, and which was supposed to have been lost with all on board, has been heard from at Terceira, Western Islands. Her masts were carried away, bulwarks smashed, and all the guns thrown overboard, beside other heavy articles, but not a life was lost. She was 38 days making a voyage from New York to the Western Islands.

— The Boston Advertiser's dispatch states that Sec. Chase contemplates resigning within a few weeks.

— Gov Bramlette, of Kentucky, has tendered the Government 20,000 men for 100 days service.

— It is thought that the Senate will reduce the House temporary tariff, for 50 per cent. increase, to 33.

— New York importers are opposing the temporary tariff bill passed by the House, and hope to defeat it in the Senate or to procure its modification.

— A San Francisco dispatch states that the plates of the iron clad Camanche have all been saved, and one of the big guns; the other will also be saved.

— Every member of the National Guard of Ohio is ordered to report in person or by substitute, and failing to do so will be deemed a deserter.

— Ten companies of heavy artillery, in Massachusetts, have been ordered to Washington. Their places, in the forts and harbors, will be filled by an equal number of militia, ordered out for the purpose.

— The steamer Lacrosse, from the Red river for New Orleans, having stopped at Plant station to take in cotton, the crew and soldiers got drunk, when a company of the 1st La. (rebel) cavalry made a descent on the boat, and the passengers and crew were robbed and paroled.

— A letter from Havana says that the vessel which recently arrived at Remedios, and was reported at the time to be the Florida, has turned out to have been a slaver, which landed her cargo and put to sea again.

—Hole-in-the-Day, chief of the Chippewas, indulged in fire-water in Washington on Tuesday evening, and consequently not being in an amiable mood, tried to cut off the nose of Look-around, one of his young warriors. Look-around didn't see it, and shot him through the neck. Hole-in-the-Day, thus having daylight let though a hole in his neck, lies in a critical situation; while Look-around is disfigured by a cut with a pocket-knife across his face.

BRIGHTON CATTLE MARKET.

FARM AT AUCTION.

By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on

SATURDAY, April 30, at 2 o'clk. P. M.,

The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette Road in Portsmouth, about 3 miles from the compact part of the city. Said Farm contains about 35 ACRES OF VALUABLE LAND, well divided, and adapted to Mowing, Tillage and Pasturing. The Farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 12 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, a fair growth of Wood, and a good BARN, 32 by 42 feet. Terms at sale.

THOS. STACKPOLE, Administrator.

The re-sale of this Farm is in consequence of the failure of purchaser, on the 9th inst., to comply with the terms of the sale.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

EXETER MAY FAIR.—The Annual May Breakfast and Festival will be held by the ladies of the Unitarian Society at Exeter on Tuesday, May 3d, at the Town Hall.—Breakfast will be served at all hours after 7 A. M., and Refreshments through the day. A variety of Fancy Articles will be offered for sale. A Dramatic Entertainment will be given in the evening by a Juvenile Company. We understand that quite a number of ladies and gentlemen from Portsmouth will attend.

TO THE VETERAN VOLUNTEERS OF THE 7TH N. H. REGIMENT.—We learn from Adj. Gen. Head that the Mayors and Aldermen and Selectmen of towns and of cities have been furnished with certificates of re-enlistment and assignment to their respective towns and cities of the veteran volunteers of the 7th N. H. Regt. The State Treasurer has also been furnished with the names of said volunteers, and is ready to pay their State bounty.

☞ The project of remodelling Jefferson Hall into a suite of rooms for city offices does not find favor in the Common Council, that body having voted indefinitely to postpone the consideration of the subject at its last meeting.

☞ The new steamer building by Mr. Townsend at the South End is progressing rapidly. Her frames are all up, and she is partly planked. She will be launched in June, and be ready for a trial trip in two months.

☞ Col. Edwin B. Goodrich, Corps Quartermaster, and Gardner M. Goodrich, Quartermaster's Clerk, of this city, are both connected with Burnside's army, which will participate in the campaign about to open in Virginia.

☞ A large grey Eagle has made its home in one of the tall elms on Pierce's Island during the past winter. This noble bird has been seen through all the winter days perched on the topmost bough of the tree, keeping a watchful eye on the harbor's entrance and the starry flag of Fort Sullivan.

We will inform the Chronicle editor that the Secretary alluded to still lives; whether the Rockingham Co. Agricultural Society does, the editor of the Chronicle, who is one of the Trustees, perhaps knows better then we. The Secretary aforesaid, while enjoying the sweets of connubiality, is no less attentive to business than formerly; but he wishes us to suggest that he has no authority to call a meeting until instructed to do so by the board of directors, as all of them *ought to know*. So you will perceive there is a "turn" in this Lane, Frank.—*Ballot.*

All right enough, perhaps,—but must the Board of Directors hold *one* meeting for the sole purpose of calling another? Guess *that* bull deserves the first premium, Br. W. The President, through the Secretary, we always supposed, was the proper authority to call meetings. However, as the worthy Secretary referred to has now called said meeting, we will await the issue.

All necessary preparations for the draft have been completed at the Provost Marshal's Headquarters, in this city. Quotas of the different towns have been assigned, exclusive of re-enlistments, no credits for the same having as yet been received from the Adjutant General's office, though daily expected.

The total number of both classes enrolled in this District is 14,420; quota assigned, exclusive of credits, 954. The excess under the call for 500,000 men, to be credited to the District under the call for 200,000 more, is 125, thus making the quota of the District under this 829 men. The following sub-districts have no quotas assigned them, having previously to this call each furnished an excess covering the quotas which would have been required, viz: Gosport, Newcastle, Newington, East Kingston, Nottingham, Durham, Freedom, Hall's Location, and Hart's Location. Portsmouth's quota is full under all calls.—*Cor Mirror.*

Lobsters in our market command eight cents the pound, inclusive of the shells. Although these much enjoyed luxuries are plenty enough in our waters, yet all the lobsters we eat are now brought from Portland, a city in Maine, as our fishermen can't afford at the present prices of labor to spend time to visit lobster nets. An Irish gentleman will consent to work in your garden for $3 a day, if he fixes the number of hours for a day's work. Upon the wharf he will charge $4 per ten hours at coal shoveling, and find time to fight any body that will work at less rate. At present rate of wages the prospect for a large collection of income tax promises well.—*Cor. Ballot.*

☞ The Mirror states that some difficulty exists in the way of the Amoskeag Veterans of Manchester, being put into the service as a garrison for our forts, or for other duty. In order to do so they must go as a company, with company officers. The organization as it now exists, is a battalion, and to transform it into a company and dispose of the various officers would be a perplexing matter.

☞ Six cargoes of hay have been shipped from this port for the Potomac Army within the past month. One vessel out of the fleet lost her deck load on the passage.

☞ Capt. Rufus Preble's new yacht Dragonett has arrived from Newport, and is being fitted up for the boating season.

☞ Mr. Samuel Lamprey, of this city, is to open a Juvenile Dancing School at Exeter on Wednesday afternoon, May 7th. The Exeter people may well put all confidence in his ability as a teacher, and his worth as a gentleman.

☞ Presidential Election is held on the Tuesday next following the first Monday of November—this year, Nov. 8th. So the last day for change of residence, is Saturday of next week, May 7th.

☞ It will be observed that the Hackmen of Portsmouth, like those of all other places, have been compelled to put up the prices of riding, to compare with the ruling rates of hay, grain, &c.

POLICE COURT, Thursday—before Justice Odell.—Jas. Greenough, charged with being drunk, pleaded guilty: fined $3; costs $3.86. Paid.

☞ The Senate on Thursday passed a bill for the relief of the clerks at the Portsmouth Navy Yard.

Those who would have a photograph of the world for the last two years, should possess the National Almanac for 1864.—*Am. Lit. Gaz.*

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every volunteer is liable, there are no remedies so safe, convenient and sure as Holloway's Pills and Ointment, thoroughly tested in the Crimean and Italian campaigns. Only 50 cents per box or pot. 234

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

MARRIAGES.

In Raymond, April 21, CHARLES E. GOULD, of Haverhill, Mass., to Miss M. ELLEN WEDGEWOOD, of Raymond.

DEATHS.

In Greenland, on Wednesday evening, of consumption, Mr. JOSEPH MOULTON, aged 36 years, 1 month and 10 days. He was the senior partner of the firm of Moulton & Blaisdell, of this city, and one of our most enterprising and promising young merchants,—whose bereaved family have the sympathy of the entire community.

Mr. Moulton had for some years suffered from the insidious disease which has thus early called his friends to part with him; but it was only comparatively recently, we believe, that his case was considered critical. His sickness has been borne with entire composure and the utmost fortitude; and although our young departed friend was surrounded with everything to render life dear, and bitter indeed must have been the call for him to leave all his numerous trusts and precious cares to others—yet calmly and serenely did he face "that tremendous necessity, death," and bid his friends and the world farewell.

He leaves a young wife, the bride of but a couple of summers, and an infant son to comfort her who has shared his joys, but must endure her grief alone.

Without an enemy, and with friends numerous as such good nature and worth must ever win: blessed with all the circumstances which make life worth the living—it would seem that we could have better spared many an other. But it was not to be—and let us all at least heed his dying admonition to a business friend, to take all due care of our health; and let us also learn the lesson his early and sudden decease further teaches, and "be also ready."

P.

☞ The Funeral services will be held at the house of his father-in-law, Mr. Albert Blaisdell, at Greenland, at half-past 3 o'clock on Sunday afternoon. Relatives and friends are invited to attend, without further notice.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College of Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no equal in the annals of medicine.

Our medicine is specific, by it the seat of disease is directly reached, and the equilibrium restored. I have successfully treated long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are invited to use Constitution Life Syrup.

Dudley Buck, five years we have been troubled with obstacles and overcome opposition to focus lens as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency, and think that diseases can only be cured by the slow recuperative process of Nature. This is contrary to all experience.

In health, the body like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all disease originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis,
Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the treatment of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia,
Indigestion, Costiveness, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrotula,
Strume, Glandular Swellings, Ulcerous, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling the will untold misery, is by all usual medical remedies incurable.

Rheumatism,
Lachrimal, Muscular, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a specific, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated, and cures speedily effected. Persons who have been crippled, of 20 or 30 years standing, have been cured by us.

Nervousness
Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day they first read these lines. The hysterical weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which rarely more than it promises.

Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup cleanses the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which, by use of Calomel, have been fastened upon the sufferer. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the skin, like
ULCERS, PIMPLES, BLOTCHES,
and all other difficulties of this kind, which so much deface the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands.

Either of the Face, Neck or Female Breast, and should be taken early. Swellings are dissolved, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many females for life. Persons of this country, from age to twenty years of age, Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inactivity of the liver and alteration of the urine, are permanently cured by Constitution Life Syrup. This disease known as Goitre or Swelled Neck, the Life Syrup will remove in a short time, but should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extreme care. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely removed without resorting to the knife or operations of any kind.

Epileptic Fits, Nervous Debility or Partial Paralysis of the Heart and Spasmodic Affections of the Heart, Palpitation, Hurrying and Sinking sound, Dropsy of the Heart Cane and all the affections of this important organ, or persons suffering from any severe pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Irritable Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Disease, Loss of Power, Dizziness of Head, Pimples on Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languishing of the Blood-vessels of the Face, use all of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Throat, Nose, Lungs, Stomach, Bowels or Kidneys, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very annoying to many wife and maiden. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which so much disfigures the face.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or inflamed condition of the liver, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a powerful Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from Leucorrhœa, which they do not at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and when a constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the lacteal secretions, thereby laying a foundation for health and happiness. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing.—Buy it take it and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Gravel, Stone in the Bladder, Gleet, Stricture, Strangury, Diabetes, Dropsy, Scurvy, Scrofula, Stricture, Strictures, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus (or Whites in females) where all the old nauseous nostrums have failed.

It is powerful and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an auxiliary assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack Injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNRIVALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and air iron heater combined, by which the odor of broiling meats are prevented from ascending into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would call those about remodelling or erecting buildings to examine this truly valuable article.

Big invitation.

For economy, purity of air and ease of management it has no equal, producing a current of warm air; moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for warming purposes, the most delicate invalids do not complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some of them, indeed, a great improvement over former methods, while many have proved a total failure. The reason for this is obvious. The contractible Diaphragm being tightened down, cut off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot ascend, and are burned up by the intense heat of coal air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large part of the heat generated, carrying the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus complicating, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to use the amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Black and Portland, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Greaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, APRIL 30, 1864. VOL. XXIV. No. 102

The Chronicle.

THE SOLDIERS' VOTE IN NEW YORK. The bill of the New York State Legislature, securing to citizen soldiers the right of suffrage, has been signed by Gov. Seymour, and is now a law. The Tribune understands its essential provisions to be as follows:—

1. Every legal voter in any election district of this State, who shall be, at the time of the next or any ensuing general election, absent in the military or naval service of the United States, may exercise his right of suffrage by proxy.

2. His right to vote shall be established precisely as though he were present; and his vote, when offered, may be objected to on any ground which would bar his voting if present.

3. He may send his ballot, duly attested, in a sealed envelope, either to the inspectors of election for his proper district, or to any friend whom he may choose to intrust with it.

4. The envelope being opened, in the presence of, if not by the inspectors, his ballot is duly polled, and his name duly recorded as voting by proxy.

Whatever further provisions the act may contain are designed to give effect to the foregoing, or to preclude fraud.

The New York paper adds:

We consider this an excellent measure—far better than if commissioners of each party had been sent into camps to hold elections and take votes there. The votes will now be prepared deliberately, and forwarded from camp by mail or messenger from ten to sixty days prior to that of election. Each soldier will vote his own private choice, no matter what his officers may think or say. He will vote when at leisure; whereas, the day of election may be one of battle or of protracted and hurried marching. And there will be no dropping in of votes for days and weeks after the election shall have been held, to hasten and perhaps reverse the result in a County or Congress District—votes cast at a camp election where none probably did or could know whether this particular voter was or was not a legal elector of the township in which he claimed a residence. We think the act eminently judicious as well as just.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, in all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed in curing the worst form of these, called to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Benefits have been derived from the use of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for the pleasures of society. Some of the sad and melancholy effects produced by early habits of youth, are weakness of the Back and limbs, Dizziness at the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the Digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Timidity, and a train of evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with all directions for use, on receiving description of our cases. Dr. Dow has also for sale the French apostles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that no obstacles or complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no Quack nor Secret Nostrum for the cure of diseases of women and children, but can any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success, gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

FERTILIZERS,

Trees, Vines, Shrubs,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudrette, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords—and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative value of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The subject analysis, is selected from the entire stock which was prepared for the market

SATURDAY, APRIL 30, 1864.

THE REBELLION.

Perley states that Gen. Butler is in command of the troops in the vicinity of Fortress Monroe, Gen. "Baldy" Smith being subordinate to him.

— Maj. Gen. Washburn has arrived at Memphis and assumed the command of the Department of West Tennessee.

Gen. Steele is reported to have taken Shreveport, La. Very doubtful.

Advices from Col. Phillips, commanding Fort Gibson, in the Indian country, say that Quantrell was on his way to Kansas. Col. Phillips has troops in pursuit.

Gen. Butler reports that the rebel troops are all leaving North Carolina for Virginia.

The N. Y. Tribune's dispatch says Gen. Butler is to take the field; that Gen. Baldy Smith was ordered to report to him, and that Gen. Smith and Gen. Gilmore will each command a corps under Gen. Butler, when the right time comes. The Herald's dispatch says Gen. Seymour's course in Florida has been sustained by Gens. Grant, Halleck and Meade, and he is to have command of a Division in the Army of the Potomac.

The N. Y. Herald has a letter from the fleet off Wilmington, 22d inst., stating that Masonborough had been reinforced by a regiment of rebel infantry and a battery of artillery from Wilmington. Beauregard went through Wilmington on the 21st inst., with a large body of troops on the way to Richmond. The rebels are sending all the men they can to the same place.

A letter from Grand Ecore, La., April 16th, states our total loss at 3,400, of which the killed will probably not exceed 300.—Total loss 13th corps, 1,722. Emory's division of the 19th corps lost 61 killed and 411 wounded; the missing increase this number to 600. Lee's cavalry lost 600.

The statement that Gen. Sickles is to supersede Gen. Banks is authoritatively contradicted.

Vicksburg advices report the enemy marching on Grand Ecore, and our troops going out to meet them.

A dispatch from Dalton, Georgia, 19th, says there was a review of the whole rebel army on that day. The Federals were active in front, and stirring times were looked for.

— It is thought that the Baltimore Convention will not be postponed.

— The pirate Florida is reported to be cruising in the Gulf.

— A little girl died of excessive laughter in Philadelphia a few days ago.

— Physicians are increasing their fees in all parts of the country.

— Organ concerts are fashionable in Maine.

— The Portland Horse Railroad carries 1500 passengers daily.

— The Boston Schools are to be closed on Monday, in honor of May Day.

— The House passed the national tax bill on Thursday evening, by a vote of 102 to 33.

— A cheese, to weigh 35,000 pounds, is being made in California for the San Francisco Sanitary Fair. So the papers say.

— The report of the Navy Department on iron-clad vessels is published and makes a volume of six hundred pages.

— Mr. James Holbrook, the Post Office detective, died in Brooklyn, Conn., on Thursday.

— The Bangor Times has raised its subscription price to $6 per annum, on account of the increased price of paper.

— The bill, lately before the New Jersey legislature, to fine and imprison any citizen for enlisting a negro, has been abandoned.

— The New Bedford Standard states that Isaac S. Cook cut the tail of a horse valued at $400 on the 15th inst. The animal died subsequently of lockjaw.

— The Western papers express the opinion that there will be a good wheat yield this year, while the value will be much greater than at any previous time.

— The Senate Committee on Commerce has reported against all large proposed appropriations for the improvement of navigation and harbors on western lakes and rivers.

— The Augusta Journal says: "This will be a great corn year, for the blossoms of the May-flowers are deeply tinged.—a sign which rarely fails." We don't see the connection, but it may be just so.

— The Boston Journal of April 28th states that the sleighing was never better in Savoy and Windsor, in Berkshire County, Mass., than it has been for the last two weeks. Snow banks three feet deep are still quite plenty. There was a snow storm at Pittsfield on Wednesday night.

— A little boy, feeling warm while playing foot-ball on Boston Common, threw off his jacket and cap. In the evening of the same day he complained of being unwell, and died during the night from the effects of having taken a violent cold.

NEW HAMPSHIRE ITEMS.

—— A Sash and Blind Manufactory was burnt at Littleton on Tuesday. Loss about $8000: no insurance.

—— A Manchester physician bet with a lady $25 that Gov. Gilmore would not receive 5000 majority, and now won't pay up.

—— Lieut. J. Wadleigh of the 1st N. H. Battery, who came home about a week since, has been commissioned a Captain in the First New Hampshire Cavalry.

—— Dea. David Putnam, of South Lyndeborough, fell from the high beams of his barn to the floor, a distance of 12 or 14 feet, receiving some bruises, but having no bones broken. He is 78 years old.

—— A letter dated Yorktown April 23d, from a N. H. soldier, states the 2d, 3d, 4th, 7th, 10th, 12th and 13th N. H. regiments were then at Yorktown. The writer says that there is a very large force there about to move up the peninsula.

☞ The N. Y. Times' dispatch states that a letter from Adm. Porter, received in Washington on Thursday, pronounces Gen. Bank's expedition a complete failure. Besides, over 30 pieces of artillery, a large quantity of small arms, several hundred wagons, and a first-class gunboat, (the Eastport,) and nearly 4000 prisoners, have been lost; also in addition, the Paymaster's safe, containing a million dollars in greenbacks, was captured by the rebels. The reports that Gen. Banks is to be superseded by Gen. Sickles are untrue. Generals Franklin and Stone, who lie under the imputation of having, through neglect and carelessness, contributed greatly to the disasters in Louisiana, will be relieved and probably court martialled.

☞ A Cairo dispatch states that a reception was given to the 31st Illinois regiment on Thursday, at Carbondale, preparatory to their return to the field. During the afternoon some of the soldiers of the regiment, who had an old grudge against Col. Osborne, entered a store where the Colonel was sitting, and struck him on the head with a weight, breaking his skull and inflicting a mortal wound. The murderers had not been arrested at last accounts.

☞ It is said that a party of Portland men went down to the wreck of the Bohemian in a schooner last week, and hauled up a large mass of entangled goods, covering the deck. In cutting them apart the body of a female was found, the sight of which so shocked them that they threw the whole mass overboard and returned to the city empty handed.

☞ The Newburyport Herald notices the frequent complaints that sewing girls in cities get poor pay,—and says;

If there was any necessity for their condition they would deserve pity and assistance. But it is not so; all our factories need female help, and there is a constant and unsupplied demand all over the country for females to perform domestic labors.

THE PROSPECT IN NORTHWESTERN LOUISIANA.—A correspondent of the New York Post, writing from Alexandria, La., on the 9th inst., says of the present prospects of that country:—

"Alexandria will be fortified, and most likely will be held in any event. It will protect the Mississippi from the mouth of the Red River down.

Most of the rich planters have fled to Texas; the poor people and those who have now taken the oath must leave whenever our armies go.

The country will be stripped of its cotton and sugar, and its corn will be consumed. No crop will be raised this year.

The negroes must be moved away to places of safety or perish.

Such is the immediate prospect for Louisiana away from the banks of the Mississippi; it will be depopulated and will be repeopled, and then its richness will again flow in a stronger stream."

A LAND FLOWING WITH MILK AND HONEY.—A letter from St John, N. B., states that in that place prices rule as follows: Wood, per cord, $3; coal, per ton, $6; flour, per bbl., $5; butter, per lb., 18 a 25c; beef, per lb., 5 a 10c for best cuts. Clothing of all kinds can be bought for half the prices paid here. Board at first-class hotel, for man and wife, $5 50 per week.—Verily, that is a goodly land. So says an exchange. But "the paper don't say" how much money a laborer gets per day; nor how often he gets a day's work.

— The roads on the Peninsula are in a splendid condition.

— The Pennsylvania Union Convention has instructed the delegates to vote for Abraham Lincoln, and to oppose all efforts to postpone the national convention.

— A refugee, recently from Mobile, represents that place as almost impregnably fortified. The bay is defended by two rams, four iron-clads and two floating batteries.

— Partial returns from an election for a Congressman in North Carolina, to supply a vacancy, indicate the defeat of the Holden (anti-war) candidate.

— The Boston Herald states that the Fenian Brotherhood will hold a grand Convention for the New England States, in the Tremont Temple, Boston, within a few weeks. It is stated that the Fenians number several thousand members in New England.

THE PRESIDENT AND SLAVERY.—The N. Y. World contains the following letter from the President, addressed to A. G. Hodge, Frankfort, Ky:

My Dear Sir,—You ask me to put in writing the substance of what I verbally said the other day, in your presence, to Governor Bramlette and Senator Dixon. It was about as follows:—

"I am naturally anti-slavery. If slavery is not wrong, nothing is wrong. I cannot remember when I did not see, think and feel that it was wrong; and yet I have never understood that the Presidency conferred upon me an unrestricted right to act officially upon this judgment; and feeling it was in the oath I took that I would to the best of my ability preserve, protect and defend the Constitution of the United States, I could not take the office without taking the oath, nor was it my view that I might take an oath to get power and break the oath in using the power. I understand too that in ordinary civil administration this oath even forbade me to practically indulge my primary abstract judgment on the moral question of slavery. I had publicly declared this many times and in many ways; and I aver that to this day I have done no official act in mere deference to my abstract judgment and feelings on slavery.

I did understand, however, that my oath to preserve the Constitution to the best of my ability imposed upon me the duty of preserving by every indispensable means that Government, that Nation, of which that Constitution was the organic law. Was it possible to lose the Nation and yet preserve the Constitution? By general law life and limb must be protected. Yet often a limb must be amputated to save a life; but a life is never wisely given to save a limb. I feel that measures otherwise unconstitutional might become lawful by becoming indispensable to the preservation of the Nation. Right or wrong I assumed this ground and now avow it. I could not feel that to the best of my ability I have even tried to preserve the Constitution if to preserve slavery or any minor matter I should permit the wreck of the Government, Country and Constitution altogether. When early in the war Gen. Fremont attempted military emancipation, I forbade it, because I did not then think it an indispensable necessity. When a little later Gen. Cameron (then Secretary of War,) suggested the arming of the blacks I objected, because I did not yet think it an indispensable necessity. When still later Gen. Hunter attempted military emancipation, I again forbade it, because I did not yet think the indispensable necessity had come. When in March, May and July, 1862, I made earnest and successive appeals to the Border States to favor compensated emancipation, I believed the indispensable necessity for military emancipation and arming of the blacks would come unless averted by that measure. They declined the proposition, and I was, in my best judgment, driven to the alternative of either surrendering the Union and with it the Constitution, or of laying the strong hand upon the colored element. I chose the latter; in choosing it I hoped for greater gain than loss, but of this I was not entirely confident.

More than a year of trial now shows no loss by it in our foreign relations, none in our home popular sentiment, none in our white military force. No loss by it any how or any where. On the contrary it shows a gain of quite 130,000 soldiers, seamen and laborers. These are palpable facts, about which, as facts, there can be no cavilling. We have the men and we could not have had them without the measure.

Now let any Union man, who complains of the measure, test himself by writing down in one line that he is for subduing the rebellion by force of arms, and the next that he is for taking these 130,000 men from the Union side and placing them where they would be but for the measure he condemns. If he cannot face his cause so stated it is because he cannot face the truth.

I add a word, which was not in the verbal conversation. In telling this tale I attempt no compliment to my own sagacity. I claim not to have controlled events, but confess plainly that events have controlled me. Now, at the end of three years' struggle, the nation's condition is not what either party, or any man, devised or expected. God alone can claim it. Whither it is tending seems plain. If God now wills the removal of a great wrong, and wills also that we of the North as well as you of the South shall pay fairly for our complicity in that wrong, impartial history will find therein new cause to attest and revere the justice and goodness of God." Yours truly,

A. LINCOLN.

☞ Army rations, pepper excepted, are to be reduced. The soldiers in hospitals are not to receive rations; the money commutation for their rations is to be paid into hospital funds solely for the supply of necessary articles for the sick and wounded soldiers. The value of the reduction of the rations is estimated to be two dollars a month for each soldier, which is to be added to the pay of the non commissioned officers, musicians and privates of regulars, volunteers and militia during the continuance of the present war.

☞ Advices from Europe, by steamer Baltimore, at New York, are to April 14th. No change of importance is reported in the Danish war; the bombardment of Duppel continued. The Archduke Maximilian had announced to the Mexican delegates that he accepted the proffered crown, and pledged himself to govern constitutionally and for the benefit of the Mexican people. He was expected to leave for his new dominions on the 14th, by way of Rome.

— More than thirty applications have been made to the Chief of Police in Buffalo, in the past two weeks, by parents who wanted assistance to the end of finding the whereabouts of runaway daughters. Most of the girls sought for are between the ages of 13 and 18.

☞ A correspondent of the N. Y. Tribune, dating on board steamer Sultana, opposite Fort Pillow, April 21st, has learned from a naval officer bearing despatches from Red river, that the Eastport, one of our finest and most formidable iron-clad rams, struck a snag about 20 miles above Grand Ecore on Saturday morning, 16th inst., which caused her to sink immediately. She still remains in her critical position, her upper decks being three feet above water. Efforts will at once be made to raise her, but this will be attended with the greatest difficulty, on account of the very low stage of the river, and the immense weight of the Eastport. The armament of the Eastport is one of the most powerful in Admiral Porter's fleet, and her loss at the present time will be a serious one to our river fleet.

☞ The Senate at one time on Thursday voted to reduce the increased duties under the temporary tariff to thirty-three and a third per cent. It was found, however, that if the Senate disagreed with the House protracted debates might ensue and delay the collection of the increased duties, so Messrs. Collamer and Doolittle changed their votes and the House resolution was passed—adding fifty per cent. to duties for sixty days. Senators Buckalew, Davis, Fessenden, Hendricks, Johnson, McDougall, Powell and Riddle voted nay.

☞ The editor of the Winsted (Ct.) Herald has visited and admired the delightful old village of Salisbury; but he notices and scolds the people for permitting such a state of things as this:—The tavern and farm adjoin the ancient burying ground, and while half a dozen graves are buried beneath manure shoveled from the stables, the kitchen cook uses a horizontal marble tablet, one of the neatest monuments in the cemetery, as a table on which to dress fish.

FARM AT AUCTION.

By virtue of a license from the Judge of Probate for the County of Rockingham, will be sold at Public Auction, on the premises, in Portsmouth, N. H., on

SATURDAY, April 30, at 2 o'clk. P. M.,

The Farm of THOMAS CURRIER, late of Portsmouth, deceased, situate on the Lafayette Road in Portsmouth, about 3 miles from the compact part of the city. Said Farm contains about 35 ACRES OF VALUABLE LAND, well divided, and adapted to Mowing, Tillage and Pasturing. The Farm is fenced with substantial stone wall, and well watered with streams and springs; cuts from 12 to 15 tons of hay, and with proper cultivation can be made in a short time to produce double this quantity. There is a thrifty Orchard of choice grafted fruit on the premises, and a fine growth of Wood, and a good BARN, 32 by 42 feet. Terms at sale.

THOS. SHACKFOLE, Administrator.

The re-sale of this Farm is in consequence of the failure of purchaser, on the 9th inst., to comply with the terms of the sale.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

FORT CONSTITUTION GARRISON.—A telegram from Maj. Gen. J. A. Dix, commanding Department of the East, dated New York, April 24th, ordered that the Strafford Guards, of Dover, and National Guards, of Manchester, independent companies of State volunteers, be mustered into the U. S. service for sixty days, for service in the defence of Portsmouth harbor.

The National Guards will be mustered in by a U. S. Mustering Officer, at Manchester, as soon as the company is filled up to the minimum number, which is eighty men. The company now has sixty members, and the officers expect to obtain the others in a few days, so as to be able to leave by the first of the week. They will receive the same pay, with clothing, rations, &c., as the regular U. S. Volunteers.

☞ Two companies of Maine soldiers arrived at Kittery on Thursday afternoon to garrison Fort McClary. They are from Lewiston and Norway,—the first company being under the command of Capt. A. B. Reed, of Lewiston, and the second under Capt. Sylvanus Cobb, of Norway.

☞ Rev. James L. Phillips delivered an address at the Pearl street F. W. Baptist Church, in this city, on Thursday evening, to a small yet deeply interested audience, his subject being the social and moral condition of the heathen in India. Mr. Phillips is a native of India, his father being for many years a Missionary in that country. He came to America about twelve years ago to procure an education, and will return to India in a few weeks, with the intention of devoting the remainder of his life to missionary labors among that people.—His father, mother and sister will return with him. Earnest and hopeful, with talents of a high order and attainments rarely excelled by young men of his age—as from a long and intimate personal acquaintance we know him to be—we confidently anticipate that he will accomplish much good among that people.

☞ The store of Mr. J. H. Bailey, on Congress street, narrowly escaped destruction by fire on Friday morning. A clerk was drawing benzine from a cask in the cellar, when the gas became ignited from the lamp, and communicated the flames to the benzine in the can. With great presence of mind, the clerk seized the can and hastily ran up stairs, thus preventing the flames from communicating with the barrel. But on reaching the store above, he spilled a quantity, thus spreading the fire over the floor. Rev. Mr. Holman, who chanced to be present, immediately took off his overcoat and threw it on the flames to smother them, by which means they were finally extinguished.

☞ Some smart thief broke into Mr. Shillaber's gun and lock repair shop, on Bow street, a few nights ago, and stole two or three pistols, a pair of pincers, and a few other articles. When it is considered that the building is partly occupied as a dwelling house, and so the burglar ran the risk of State Prison, it would seem his rascality was hardly paid for.

☞ The iron-clad Agamenticus was successfully docked on Thursday. She will probably remain in the Dry Dock about a fortnight, when she will be set afloat. It would be time well improved, for one who has never witnessed anything of the kind, to visit the Yard and examine this specimen of modern naval architecture.

☞ Mr. Wm. G. Nowell, a native of this city, was ordained as pastor of the Unitarian Church of Rockport, Ill., on Thursday evening, April 14. Invocation and scripture reading, by Rev. D. H. Clarke, of Hartford, Wis.: Sermon by Rev. Robert Collyer, of Chicago, Ill.; Ordaining prayer by Rev. C. A. Staples of Milwaukee, Wis.: Right Hand by Rev. S. B. Flagg, of Kalamazoo, Mich.; Charge, by Rev. M. H. Willis, of Quincy, Ill.; Address to the people by Rez. A. G. Hibbard, of Detroit, Mich. The little Gothic stone church was filled with people.

☞ At a late meeting of the North Parish, a vote was passed to increase the salary of Rev. Mr. Adams from $1200 to $1500.

☞ The City Council, in Convention on Thursday evening, elected Langdon M. Perkins as Street Commissioner.

☞ Representative Marcy voted against the tax bill,—the only member from New England who did so.

☞ Skiff's Minstrels give one of their bang-up concerts at the Temple, to-night, Saturday. Go and hear and see 'em.

We have it from trustworthy sources that the rush of servant women and men to California has so overstocked the actual need of help in that State as seriously to affect the well being of many who have gone out and are now anxious to return. We advise all who have good places at the North, as cooks and chambermaids, especially, not to risk the long journey on an uncertainty.—Several persons have sent to their friends here for funds to get back again with, having spent all their earnings to reach the golden streets of California, and having found them very unsatisfactory.—*Boston Transcript.*

We would be gald to see some thoroughgoing enterprising teacher institute a gymnasium for the young of both sexes. They are fearfully behind the times, who do not see the immense advantages of mental and physical education going hand in hand.—*Utah News.*

— Richmond papers of the 23d contain a speech made by Gov. Vance, of North Carolina, in which he says he wrote to Jeff Davis favoring a general convention of all the States to bring about a peace. He is now co-operating with other Governors to that end.

— Rev. Israel Washburne, a well known Methodist minister, died in Middleboro', Mass., on Sunday last, aged sixty-seven years. He enlisted as a private in a Massachusetts regiment in 1862, and was very active in raising troops. He was afterwards commissioned as Chaplain of the 12th Massachusetts regiment.

— Six vessels of the Mattabesett type, besides four or five propellers, all fully manned and equipped, as well as some ten newly built steam tugs, are on their way to sea to join the Southern squadron. The splendid steam frigates Susquehanna, Augusta, R. R. Cuyler and twelve others are being pushed forward at New York as fast as possible, and will be put in commission soon.

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every volunteer is liable, there are no remedies so safe, convenient and sure as Holloway's Pills and Ointment, thoroughly tested in the Crimean and Italian campaigns. Only 30 cents per box or pot. 234

THE IMMENSE POPULARITY OF THE

California Wines

introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be pure.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says: "The fluid ounce leaves fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating ingredient, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White Wine vies in flavor the best of Hock Wines, and doubtless is so."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines when taken alone, with a very rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I have much pleasure in recommending your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wine in the market."

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge represents a perfect curve, free from the angles noticed in all other collars.

The great cause no pinchers on the inside of the turn-down collar—they are AS SMOOTH IN SIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Gorge or Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Gorgette), from 13 to 17 inches, and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

Constitution Life Syrup
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, it at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is positive, by its use of diseases is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with the prejudice of the medical profession as never encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases cannot be cured by the "unsuppurative process of Nature." This we reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis,
Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.
Indigestion, Liver Complaint, Constipation, Heartburn, Sour Stomach, Costiveness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.
Strumas, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint hereditary or acquired, filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.
Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and the allied affections. The most intense pains are almost instantly alleviated—and in a few weeks the joints are restored. Cases, chronic or inveterate, of 20 or 30 years standing, have been cured by us.

Nervousness
Nervous Debility, Want of Thought, Epilepsy, Fits, Lost of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Parents, whose children are wasting away, find in our medicine proven an inestimable blessing—directing their footsteps to a Hope which little hope then it promised.

Mercurial Diseases.
Salivation, Feeling of Weariness, Retting of Bones, Foul Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the face and aggravate, in both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from the age of twelve years of age, young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution. In these cases we recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Disease of the liver or abdomen, and in the female Dropsy, or Disease of the uterus or womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken in all cases of Tumors, which are exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Stomach, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (or Palpitation), Disease of Valves—producing a grating or filing sound; Dropsy of the Chest, Dropsy of the Abdomen, Disease of any portant organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forbodings, Horror of Calamity, Fear of Disease, Dreams of Horror, Dry Hot Skin, Pimples on the Face, Lassitude, Pain in the Eyes, Pale Haggard Countenance and Languors of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or neck, the Constitution Life Syrup is equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the liver, are very unpleasant to the young wife and mother. A few doses of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Dyspepsia of the liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied by a dull pain in the right side, these symptoms, relief can be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and those who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, diseases and premature death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the best and most efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing! Buy it, take it and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian treasure! Discovery of the Medicinal organs, and its tremendous effects. Urine Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and its attendant complications, in these cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, and one only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an only or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the other quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—the obstructions will be removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Involuntary Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation, Wakefulness, Dyspepsia or the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints consequent by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their cooling solution, until they think themselves beyond the reach of medical aid, we would say, Despair not! the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Restoration of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They Cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hysterics, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c. &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, never fail to do.

They may be safely used at any age and at any period, except during the first three months, during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly answered, inclosing a stamp.

Full directions accompany each box.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cooking being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a Boiler in warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes that is experienced with the fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without oven, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat by the gases pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass of from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the stove can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without being going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shea, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY, MAY 2, 1864. VOL. XXIV. No. 103

The Chronicle.

☞ We have been reading the speech in Congress of a very religious, pro-slavery, copperhead patriot, who says,—among others, these things:

1. I charge that the accursed one-idea doctrine of abolition at the North lighted up the fires of revolution at the South, and caused to be enacted in this land every horror, wrong and outrage I have just portrayed.

2. Let me also say that those men in the South who reared the gigantic head of secession upon the walls of Fort Sumter, *violated every obligation dear to man* and deserve the condemnation of every patriot, and especially of the Democratic masses, whom they, by leaving the Halls of Congress, so egregiously and outrageously wronged.

3. I believe the Constitution gives the power to this Government to coerce them back.

In the speech the orator has one single sentence of a column in length, devoted to bitter denunciation of the union republican party, in which he says among many things:

4. "The party that are lifeling and assailing every Democrat and trying to destroy our liberties are men who, in the House of Congress, to a man, voted down the celebrated Crittenden compromise," and

5. "Who at the commencement of this session boldly ignored the divinity of Jesus Christ, in the election of a Chaplain, by a strict party vote."

Here, says Uncle Toby, is an odd grouping of ideas, by a man who in the his high religion worships slavery and the union with equal devotion, and who cannot see that the former aims to destroy the latter and will destroy it, unless itself shall be destroyed. There are more blind men of the same sort.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Inventors must notice American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immensurably superior to, any which can be offered them elsewhere. The testimonials below given prove that more TO INSURE SUCCESS IT IS THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. R. H. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of whom was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later this begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Lithage, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will certainly RESTORE the hair from a gray to its original color, whether, auburn, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, relieve all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful dressing for the hair.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts' Brothers—The preparation you indicated to me for my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter also tried it on her hair, which was fast falling off on account of a severe scalp attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CHURCHILL.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and has progressively increased in color, more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT.

MONDAY, MAY 2, 1864.

THE REBELLION.

New Orleans advices report all quiet at Grand Ecore, April 18th. The rebels were still in the vicinity. Gen. Stone, and others of Gen. Banks' staff were on their way to New Orleans. Gen. Weitzel would leave New Orleans on the 22d, for a command in Virginia. A small Union fleet has gone up the river Ouachita. A cavalry expedition had been sent out on the north side of the Red river by General Grover.

The rebels are still busily engaged in throwing up earthworks and digging rifle-pits on the Rapidan, while their pickets have been strengthened and extended further down the river. Picket firing has commenced again. The only rebel force in the Shenandoah Valley is said to be Early's division of Ewell's corps,—not more than 6000 men.

Gen. Halleck has been assigned to the command of the Cavalry Bureau.

The N. Y. Herald's Key West letter gives news from Fort Myers, Charlotte Harbor. Capt. Crane had fought the rebels several times, and been victorious, driving the enemy in and destroying their provisions and forage.

Gen. G. F. Shepley, late Military Governor of Louisiana, is now Governor of Norfolk.

The N. Y. World's Fortress Monroe letter has a rumor, from rebel sources, that Washington, N. C., was taken Monday, 25th, and that the investment of Newbern would immediately follow. This is somewhat doubtful. A Newbern dispatch states that the rebels admit a loss of 1700 in the capture of Plymouth. From all accounts Gen. Wessels and his little band of 1500 fought like heroes for four days and nights, leaving the rebels dead in heaps in every street.

BY TELEGRAPH, SUNDAY.

Advices from Alexandria, La., are to the 19th. There had been no firing below Alexandria. A battle was said to be imminent above Grand Ecore between the opposing armies. Our advance pickets had come up to the rebel outposts, and brisk skirmishing ensued, which may bring on a general engagement at any moment, for which our troops are fully prepared. Gunboats stationed at the mouth of Red river report Gen. Steele in possession of Shreveport, and he was throwing up fortifications. The rebels will do all in their power to avoid a general engagement, though picket firing may bring it on. Deserters state that the rebel loss in the late battles cannot fall below 7000, and will probably reach 10,000 in killed, wounded and prisoners.

Our troops in the Army of the Potomac are making important movements, but an advance has been ordered. Lee is receiving re-inforcements almost hourly from Richmond, Lynchburg and other points — Adm. Dahlgren has gone to Charleston with the understanding that he must accomplish something with the iron-clads, co-operating with the land forces, which are making good progress, throwing shells farther into Charleston than ever before.

The new 50 per cent. extra duty on imported goods went into operation at 1 o'clock, Saturday afternoon. The receipts at the Custom House have reached, during the past week the immense figure of nearly five million dollars, almost exclusively in coin. The amount of subscriptions to the 10 40 loan, reported at the Treasury department ,reached $854,000.

SAVE YOUR VOTE.—The Presidential election comes on Tuesday, Nov. 1. A man removing from one ward or town to another after Saturday of this week will lose his right to vote at that election. Let every loyal man heed this warning.—*Concord Statesman.*

Perhaps we experienced a little malicious pleasure in seeing the Statesman fall into the above error. The law of Congress on the subject requires Presidential electors to be chosen "on the the Tuesday following the first Monday in November."—The election this year will not be held therefore, until Nov. 8, and any one can remove from one ward or town to another at any time before Saturday next—May 6.

— The report of the death of the rebel Gen. Greene, in the fight with the gunboats on the Red River, is confirmed.

— The Photographers in Boston have unanimously agreed to advance their prices on and after to-day, Monday.

— The Canonicus, which recently left Boston, belongs to the third class, or light-draught Monitors, and it is said can be used in the North Carolina Sounds.

— A letter from Alexandria, Egypt, to the London Times positively affirms that the late Viceroy of Eygpt ordered the construction of Laird's rams.

— Foreign advices report the pirate Florida in a Spanish port, having been refused admission at a Portugese port. She isn't therefore in the Gulf of Mexico just at present.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Belknap's account of the capture of Louisbury in 1745.

The instructions which Pepperrell received from Shirley, were conformed to the plan which he had communicated to Wentworth, but much more particular and circumstantial. He was ordered to proceed to Canseau, there to build a block-house and battery, and leave two companies in garrison, and to deposit the stores which might not immediately be wanted by the army. Thence he was to send a detachment to the village of St. Peters, on the island of Cape Breton, and destroy it; to prevent any intelligence which might be carried to Louisburg; for which purpose also, the armed vessels were to cruise before the harbor. The whole fleet was to sail from Canseau, so as to arrive in Chappeau-rouge bay about nine o'clock in the evening. The troops were to land in four divisions, and proceed to the assault before morning. If the plan for the surprisal should fail, he had particular directions where and how to land, march, encamp, attack and defend; to hold councils and keep records; and to send intelligence to Boston by certain vessels retained for the purpose, which vessels were to stop at Castle William, and there receive the governor's orders. Several other vessels were appointed to cruise between Canseau and the camp, to convey orders, transport stores, and catch fish for the army. To close these instructions, after the most minute detail of duty, the general was finally "left to act upon unforeseen emergencies according to his discretion;" which, in the opinion of military gentlemen, is accounted the most rational part of the whole. Such was the plan, for the reduction of a regularly constructed fortress, drawn by a lawyer, to be executed by a merchant, at the head of a body of husbandmen and mechanics; animated indeed by ardent patriotism, but destitute of professional skill and experience. After they had embarked, the hearts of many began to fail. Some repented that they had voted for the expedition, or promoted it; and the most thoughtful were in the greatest perplexity.

The troops were detained at Canseau, three weeks, waiting for the ice which environed the island of Cape Breton, to be dissolved. They were all this time within view of St. Peters, but were not discovered. Their provisions became short; but they were supplied by prizes taken by the cruisers. Among others, the New Hampshire sloop took a ship from Martinico, and retook one of the transports, which she had taken the day before. At length, to their great joy, Commodore Warren, in the Superbe, of sixty guns, with three other ships of forty guns each, arrived at Canseau, and having held a consultation, with the general, proceeded to cruise before Louisburg. The general having sent the New Hampshire sloop, to cover a detachment which destroyed the village of St. Peters, and scattered the inhabitants, sailed with the whole fleet; but instead of making Chappeau-rouge point in the evening, the wind falling short, they made it at the dawn of the next morning; and their appearance in the bay gave the first notice to the French, of a design formed against them.

The intended surprisal being thus happily frustrated, the next thing after landing the troops, was to invest the city. Vaughan, the adventurer from New Hampshire, had the rank and pay of a lieutenant-colonel, but refused to have a regular command. He was appointed one of the council of war, and was ready for any service which the general might think suited to his genius. He conducted the first column though the woods, within sight of this city, and saluted it with three cheers. He headed a detachment, consisting chiefly of the New Hampshire troops, and marched to the northeast part of the harbor, in the night; where they burned the warehouses, containing naval stores, and staved a large quantity of wine and brandy.

The smoke of this fire being driven by the wind into the grand battery, so terrified the French, that they abandoned it and retired to the city, after having spiked the guns and cut the halliards of the flagstaff. The next morning as Vaughan was returning, with thirteen men only, he crept up the hill which overlooked the battery, observed that the chimneys of the barrack were without smoke, and the staff without a flag. With a bottle of brandy, which he had in his pocket, (though he never drank spirituous liquors) he hired one of his party, a Cape Cod Indian, to crawl in it at an embrasure and open the gate.

He then wrote to the general, these words: "May it please your honor, to be informed, that by the grace of God, and the courage of thirteen men, I entered the royal battery, about nine o'clock, and am waiting for a reinforcement, and a flag." Before either could arrive, one of the men climbed up the staff, with a red coat in his teeth, which he fastened by a nail to the top. This piece of triumphant vanity alarmed the city, and immediately an hundred men were dispatched in boats to retake the battery. But Vaughan, with his small party, on the naked beach, and in the face of a smart fire from the city and the boats, kept them from landing, till the reinforcement arrived.

In every duty of fatigue or sanguine adventure, he was always ready; and the New Hampshire troops, animated by the same enthusiastic ardor, partook of all the labors and dangers of the siege. They were employed for fourteen nights successively, in drawing cannon from the landing place to the camp, through a morass; and their lieutenant-colonel Meserve, being a ship carpenter, constructed sledges, on which the cannon were drawn, when it was found that their wheels were buried in the mire. The men, with straps over their shoulders, and sinking to their knees in mud, performed labor beyond the power of oxen; which labor could be done only in the night or in a foggy day; the place being within plain view and random shot of the enemy's wall. They were much disappointed and chagrined, when they found that these meritorious services were not more distinctly acknowledged in the accounts which were sent to England, and afterwards published.

— Adm. Dahlgren has left New York for the fleet off Charleston.

NEW HAMPSHIRE ITEMS.

—— The dry house of Caldwell & Amsden, manufacturers of Cabinet Furniture, Fisherville, was burned on Wednesday evening. It contained considerable valuable lumber.

—— A State Convention to choose ten delegates to represent the Union Republicans of New Hampshire in the National Convention, to be held at Baltimore on the 7th of June, is called to assemble at Phenix Hall, Concord, on Tuesday, May 31.

—— Navigation has opened on Lake Winnipiseogee. The favorite steamer Lady of the Lake, having been put in thorough order, will commence her regular trips on Monday. People will begin to think of the White Mountains now, if the season is backward.

—— It is said that since the war there has been so regular an increase of pasture lands in this State, that the belief may be entertained, that, war or no war, more attention is to be bestowed upon the production of sheep and horned cattle in this State. The first cause of this change was scarcity of help.

—— The Concord Statesman thinks that while it is not impossible that the fire which destroyed the Patriot office was caused by an incendiary, the probabilities are all the other way. The building has been long regarded as very liable to be destroyed by fire; indeed there have been four public alarms caused by fire in it, and on three other occasions fire was extinguished by the inmates without calling in the aid of others.

—— The death of Col. L. A. Russell, of Littleton, N. H., the well-known proprietor of the line of coaches running between Littleton and the White and Franconia Mountains, is announced. Col. Russell was one of the oldest mail contractors in the service of the United States, and carried out many important mail arrangements for the Government. He was also the projector and ran the first line of stages between the Capitol and the President's House at Washington. His age was 55 years.

☞ The Anderson Spring Bed, advertised this morning, is one of the lightest, cleanest, prettiest—certainly one of the most comfortable and convenient, and apparently most durable and economical articles of the sort we ever saw or tested. It is nearly, if not fully as luxurious as the full spiral spring bed, costs far less, is much lighter and easier kept clean; and has none of that peculiar spring motion which in *any* furniture is so disagreeable to some folks—though we must confess it never was to us. The slats run lengthwise the bed, and are attached by rubber at each end—and thus much less bedding is required than on the villainous cross-slats, or even spiral springs.

We commend these fixtures to all who wish a first-rate bed-bottom, for a little money; and we will warrant any man with a clear conscience, physical and mental, to find refreshing slumber thereon—always bearing in mind that "as you make your bed so must you sleep in it." The public will find the general agent, Mr. Bean, a courteous and fair man. Messrs. E. M. Brown & Co. are the Agents in Portsmouth—Bennett in Greenland.

THE

ANDERSON

SPRING BED-BOTTOM,

(E. HENNESSEY'S PATENT.)

Another Triumph of American Genius!

Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of its being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in undoubtedness for thirty-six, thus giving a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.

Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.

I am using in my house the "Anderson Spring Bed Bottom." I consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.

WM. MUSE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.

Farmington, Feb. 28, 1863.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER: Sir.—I regard the "Anderson Spring Bed Bottom" which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfortand rest.

Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed, sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.

A. P. BLAKE, Squamscott House.

Exeter, May 5, 1863

NEWMARKET, May 2, 1863.

I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep.

HENRY H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863

I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.

B. P. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 23, 1863.

I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it, as it works to a charm. I think six dollars can not be expended to better advantage.

O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in general use, and more effective than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times of cross-slats, stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for six months past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be classed among the few valuable "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy springbed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must be a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of E. M. BROWN & CO., Agents for Portsmouth and Newington, at their store, No. 35 Market Street, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Local.

☞ People residing in tenements of fragile material, either should be cautious how they fling missiles at others, or else should always be ready to dodge the return shots. Now this little, gossiping, local Chronicle of ours often mentions runaway horses; and only a few days ago spoke of an epidemic of the sort. Since which, as bad luck would have it, a pet animal, in which the writer hereof feels an interest of a cool thousand in greenbacks, more or less, took it into *his* head to run away a couple of times—we can't say but for the *sake* of "getting put in the paper." And like John Gilpin, "he carried weight, he ran a race," on each occasion; for, like the sailor's horse, "Billy" was anchored with a fifteen-pound weight to the bit, and even then distanced all comers but old Time himself, who *never* breaks and never tires.

Well, the subject not being especially agreeable to us, we did not publicly refer to it at all; but as very many of our readers and inquiring friends seem to wish and expect us to chronicle the affair, here's for it.

A week or two ago, having harnessed out, the first time after a week or more of storm, before going ten rods we picked up a couple of friends just from the cars, and stepped in home a moment to show them to "our folks." So far, so good; but alas! for some reason or other—or rather, we think, without any reason in it at all, away goes Billy, as "away went Gilpin" long ago—with the "weight" (not wait) slatting about at the end of a six-foot hitch-rein. Sheering off, to clear a neighbor's steps, round from High into School street, at a speed sufficient to throw out a shawl; clipping through a school of forty boys out at recess, without touching anything; down through School street, where he dropped the weight, after pounding his fore ancles to a jelly; into Vaughan street, and almost up on the steps of the house opposite School, where stood a man who *did* check his speed by demonstrations, and who certainly *ought* to have stopped him; down Vaughan street to Congress, on a good smart "trot,"—turning out to clear Mr. Jones' hacks, and other carriages on the way; then down Congress street toward his excellent quarters at Ferguson & Burley's stable—but Mr. C. H. Sides very coolly and adroitly (as has been his wont on more than one previous similar occasion) caught hold of his flying bowline, as he passed, and brought him to—the whole team very little damaged, considering the track and the time made, and the fact that although three square corners were turned, and several teams and many persons passed, no collision of any sort resulted. Thus endeth the first lesson.

Well, perhaps the old saying is true, that experience is the best teacher; but some folks need a good many lessons. So, almost the next time that team was hitched up, (and before the top had been repaired for use) the same being once more anchored, this time at our office door; in a minute off it starts again, several who saw it hardly knowing why—slowly at first, then faster and more wild—now against neighbor Moses' wagon, then swinging round and turning the North Church corner; up Congress street to the front of the Franklin House.—Here Keen's Kittery stage was standing, and against that, whack goes the buggy; and in spite of the scientific consideration that the more rapidly-moving body, in such cases, receives the lesser damage, (and also without *any* consideration for the unlucky wagon,) *that* received all the injury.

Over on one side it goes, and slides along on two hubs, and is dragged on the sidewalk, from Burtt's new jewelry store to Carter's saloon, slightly bruising Dr. Goodwin's door, as it passed; but fortunately *not* crashing the elegantly-filled windows of Mr. Carter's. Then round the corner into Chestnut street, the hapless carriage on the side all the while; and back again into Congress street, in half a shake, with the buggy right side up again,—the impetus being too great to allow the horse to go *up* Chestnut st., and the sudden turn, down, righting the wagon.

Away they go again, up Congress, and through Middle to State street; down to and through Penhallow, to Bow and Market street, where Mr. Orin Smith seized the reins with a sturdy grasp, and time was up.

What with the weight aforesaid, the rein to which had somehow become wound around the horse's neck and fore leg, and also two or three times around one of the shafts, so that it was hammering his side all the while; and with the axle so sprung by the collision with the stage, that it was terrible hard pulling—even Billy's good pluck and bottom began to flag, and he was satisfied to trot for all the last heat.

Perhaps he kept his weight to the end this time, that he might not be accused of driving foul; and it must be considered pretty skilful engineering, which turned almost half a score of corners, without touching one of them. Nor would he, (nor would many other horses in similar cases,) have done half the damage he did, but for the foolish boys, and hardly less foolish men, who always start a hue and cry in such cases. As we drove by Mr. Sides' back office, just after we recovered the fugitive, Mr. S. told us he would have stopped the horse this time, had he not been enjoying a nap just then. And we have no doubt he would, for he is hard to beat in that line.

Thus much for *our* runaway, friends; and we think we have made a pretty full confession; a good deal more than we started to write, or perhaps than the subject would warrant. But the text was none of our selection, and we must exhaust the subject when once opened. Our moral is, "Safe bind, safe find;" and our satisfaction that nobody was hurt is so great, that we care almost nothing for the comparatively trivial damage which *was* done. And one thing more—we think that for a light team to stand two such bangings as those, and come out so well, proves that they make good harnesses at Concord, and that Wiley of New Market knows how to put a carriage together. Thus endeth the second lesson. Are our quizzing readers satisfied? F.

REAL ESTATE SALES.—The estate of the late Miss Rebecca B. Hardy, corner of High and Hanover streets, was sold by order of the administrator, on Saturday last, by Auctioneer Hackett, to Treasurer Eaton of the Portsmouth Steam Factory Co., for $2650. Mr. Hackett also sold the second house below the above premises, on Hanover street, belonging to Mr. Jas. H. Pinder now of New York,—to the same purchaser, for $1750.

The land of the late Thomas Currier, 47 acres, on Lafayette Road, was sold by Joseph B. Adams, auctioneer, on Saturday, at $50 per acre. The purchaser, we understand, is Mr. Whidden, whose farm adjoins the land sold.

☞ The Portsmouth Steam Factory Company are buying houses for their operatives, from necessity. And one who knows, tells us that there is to-day urgent call for at least one hundred more good common tenements in Portsmouth. Who will build them?

☞ The gunboat Agawam, which sailed from Portland on Thursday, returned on Friday, having disarranged some of her machinery. After it is repaired she will again attempt to make the trip to Norfolk. This is about as unfortuate a vessel as it is often our ill-luck to have. Her trials, dangers and hair-breadth escapes would fill a small sized volume. It is to be hoped that she will make one trip successfully on the first trial, before the war closes. We believe she has not yet made a run in a single instance without some untoward accident.

POLICE COURT, Saturday.—Edward Tobias, for being drunk, paid a fine, $3.00, and costs $3.92. Wonder if the drunk paid?

☞ Probably the Committee on military affairs, of the Board of Aldermen, will in due season attend to the matter to which reference is made by our correspondent, "E."

☞ 2d Lieut. Samuel A. James, of Kittery, has been promoted to 1st Lieutenant, Co. A, 32d Maine regiment.

☞ Com. Thacher has been ordered to the command of the storeship New Hampshire, at the Portsmouth Navy Yard.

— An English writer says that fathers are usually harsh critics of their boys' mental powers, as mothers are of their daughters' powers of housekeeping.

— Maj. Horace Goodwin, of Hartford, Conn., claims to have in his possession the torch which was used by General Israel Putnam when he entered the wolf's den at Pomfret.

— The Maine Farmer suggested that the Agricultural Fairs this fall should be conducted for the benefit of the Sanitary Commission. Better, the Christian Commission. The "Sanitary" ought to have funds enough by this time.

"Do you know who I am?" said a police officer to a fellow whom he seized by the throat. "Not exactly, sir, but I fancy you are the *malignant collarer*."

VOLUNTEERS, READ THIS.—For the derangement of the system, change of diet, wounds, sores, bruises and eruptions, to which every volunteer is liable, there are no remedies so safe, convenient and sure as Holloway's Pills and Ointment, thoroughly tested in the Crimean and Italian campaigns. Only 30 cents per box or pot. 234

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

SAMBUCUS TREE OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in *Dropsy, Gout and Rheumatic Affections.*

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible to that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cared by other Physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heavy as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be driven by the slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is required is to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from FATHER TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate what it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Dyspepsia or Stomach, Costiveness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumous, Glandular Swellings, Ulceration, King's Evil, Erysipelas.

That taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritic], Neuralgia, Gout, Lumbago, Sciatica, The Diathesis.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 10 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years with blues the day on which they read these lines. Particularly do we invite those who will take medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than is promised.

Mercurial Diseases.

Salivation, Feeling of Weariness, Retting of Bones, Bad Complexion, Aches in Bones, Depraved Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other disfigurements of the skin, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous condition. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with irregularities and ulceration of the uterus are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be persevered in, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors, on the Breast, and swellings on other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—produced by overtaxing the nervous Dropsy of the Heart Case and all the affections of the important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain on the Back, Loss of Memory, Sorrobodings, Horror of Calamity, Dull Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Nervous, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, it has never proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very annoying to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied by Pain in the Side, and other painful symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled, by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Weakness of the Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP.—It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease generally appears in the manhood. Do not delay when the means are so near at hand, and within the reach of all.

TO MARRIED AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the Suffering attendant upon childbirth. It strengthens both the mother and child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable, and speak in the highest terms and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup.

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, for all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (Whites in females) where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day!

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and emollient;* removing all scalding, heat, shordness and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the price of one—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞ Be sure and get our pamphlet from any Drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $3 per bottle or three bottles for $8.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND

LEAVES.

CHEROKEE

CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all the evils produced by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ Persons who have dealt with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will relieve you in health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and shortest method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

The ladies will find it invaluable, as it will restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

The lame will restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses restore the pale cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure

The Chronicle.

A BROAD HINT.—A few days ago among the passengers in a train of cars from New York was a tall, dark, nervous-looking man, who was impatient as the cars, stopping at the way stations, moved slowly and carefully along; he cast angry glances at the conductor, who was "lying back" for another stop. When the cars reached Passaic, and the nervous man found that the speed was not increased, he called to the conductor, compelled that individual to bend his head as though to receive a communication of moment, and hoarsely whispered, "How much do you get for the job?" "Sir!" said the conductor, again looking at the man as though desirous of enlightenment. "How much for the job?" again asked the nervous man. "Does it come cheaper than hacks?" A start was the only answer. "Whose body is it?" continued the nervous man, stuffing a fresh piece of tobacco into his mouth. "Body, sir! what do you mean, sir?" "Why, ain't this car following a hearse?" "No," answered the astonished conductor. "Oh, I thought it was, judging from its speed." The conductor pulled the rope and the car went ahead with a rush.

A New York paper complains that "the United States are completly under the rule of New England." If six States, the aggregate population of which is less than the population of New York alone, are smart enough to rule all the other States, a New Yorker should be the last to find fault with New England. The rest of the country needs the lashing.—*Exchange.*

The latter six lines are an answer to the former three. But the allegation in those three lines, is not true. The country at this moment is *not* ruled by the New England States, but is ruled to some extent, (not wholly, we are sorry to say,) by *ideas of right* and justice, which are acknowledged in all christian countries, and perhaps as well in these States as any where. U. T.

MAIMED NEGROES.—An Alexandria (La.) correspondent remarks:

"A steamer loaded with negroes has just arrived from above; not a pleasant sight to see, for among them are many maimed and diseased men—and all are ragged and dirty beyond our experience. One can but be surprised at the numbers of maimed negroes here. Quartermaster Welch told me yesterday that his force of laborers consisted of twenty-one negroes, each having but one eye. How is this to be accounted for?"

— It is regarded as somewhat significant that, at a McClellan mass meeting in the 8th ward, New York, resolutions were passed censuring Congress for censuring Hon. Alexander Long, of Ohio, for his recent speech in favor of recognizing, as an alternative, the independence of the Southern Confederacy.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, painful distress in the regions of procreation, inflammation of the bladder and kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms resulting from this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr. D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the best hopes and unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early indiscretion of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous irritability, want of self-confidence, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contracting matrimony, consult a physician of experience, and be at once restored to health and happiness.
Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Now has also for sale the French Capotten, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, and No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
N. B.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

FERTILIZERS,
Trees, Vines,
Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the rapid growth of the corn, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.80 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 6)	17.2
Soluble " " (ca O P O 6)	11.5
Organic matter	31.
Sulphate of lime	38.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different parts of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis, I selected from the entire stock which was prepared for the market.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Lichoie's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see Circular with every genuine each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—Female students or boys employed. Notice this, address all letters to

TUESDAY, MAY 3, 1864.

THE REBELLION.

New Orleans advices state that Gen. Stone has been superseded by Gen. Dwight as chief of Gen. Banks' staff. Gen. Stone, under orders from Washington, is reduced to the command of a regiment of regulars. From the address of Gen. Lee to his command of the cavalry of Gen. Banks' army, it would appear he had been superseded. Shreveport is reported to be very strongly fortified, the rebels considering it impregnable.

At last we seem to have reliable reports from Gen. Steele. He is at Camden, Ark., with his army. After a brisk fight at Prairie de Anna, in which Price was flanked by Gen. Steele and compelled to skedaddle, Price supposed Gen. Steele was going to Shreveport, via Washington, and moved his command from Camden to Washington. Gen. Steele pursued him towards Washington and then suddenly turned and pushed for Camden. Price discovered his mistake and pushed for Camden also. A desperate race ensued but Steele came out victorious, and entered the enemy's fortifications unopposed. Camden is strongly fortified, having nine forts, and it can be held against a largely superior force. A large rebel transport was captured thirty miles below Camden. Reinforcements and supplies are going overland from Little Rock to Gen. Steele, whose force is fully 20,000 strong.

The N. Y. World's New Orleans letter reports that our troops have commenced to evacuate Texas; also that the rebel Gen. Polk is at Camp Moore, 90 miles from New Orleans, with from 15,000 to 20,000 men, intending to move at once on Port Hudson or Baton Rouge.

Perley telegraphs the following, under date of May 1:

The latest intelligence from the rebel lines places Longstreet, A. P. Hill's and Ewell's old corps in front of Grant on the Rapidan. A small rebel force at Front Royal, near Sivar's Gap, is evidently watching Grant's movements. Lee's force on the Rapidan is estimated at 100,000. Stuart is reported by secessionists to be lying near Orange Court House with 18,000 cavalry, but 10,000 is an estimate probably nearer the mark. They say Lee is moving all his forces on the Rapidan, that there will be a battle on that river, but that Lee will not fight his great battle there. He has fortified Mine Run, the North Anne river and Gordonsville. When Grant crosses the Rapidan he will move north and push for Washington past Grant's flank.

The rear of Beauregard's army is reported to have passed through Petersburg, Va., on Sunday morning. His force is estimated at from 18,000 to 20,000. One Division of Longstreet's corps is said to be at Hanover Junction as a reserve.

Alexandria was excited on Sunday over false reports that the whole army was in motion and a fight had taken place south of the Rapidan.

Little Washington, N. C., was evacuated by our forces on Thursday last, the troops there being wanted elsewhere.

A detachment of Kentucky soldiers under Capt. Adams attacked the rebels in Brent Hill County, Ky., [no date given,] killed four, and captured sixteen men and twenty-four horses. Adams then pushed forward and defeated Everett's command, killing two of his officers and capturing thirty-five men.

☞ Recent foreign advices state that white siege works at Duppel were so far advanced that a general assault was expected to take place in a few days, preparations also for the invasion of Jutland were going on with great vigor. With regard to the action of the forthcoming conference, the Independance Belge says that the scheme which is most in favor with the courts of Paris, London and St. Petersburg, is one which consists in the separation of Schleswig according to the boundary of nationalities. The north of the Duchy would return to Denmark, the south to Holstein, with which it would form an integral part of the Germanic Confederation. The two parts composing the Danish monarchy, Denmark and the Duchies, would be bound by the dynastic union.

☞ The largest fire from which New Haven, Conn., has suffered for many years, occurred on Saturday night. A melodeon factory, three carriage factories, a silver-plating establisment, a brick barn, two private residences, and the Davenport Mission Chapel, were destroyed. One man perished in the flames. Loss from $80,000 to $90,000; insured for about $33,000.

A Feat requiring some agility in the performer, was performed by Captain Burnaby of the Royal Horse Guards, lately, near Boveny Lock, in the neighborhood of Windsor, England. This officer undertook, for a wager, to run a quarter of a mile, hop a quarter of a mile, ride on horseback a quarter of a mile, and row a like distance on the river in a quarter of an hour; all of which the Captain duly executed, winning with four minutes and forty seconds to spare.

SIFTINGS AND SHIFTINGS.

— Commodore W. D. Porter of the U. S. Navy died in New York on Sunday.

— Perley gives a report that Gen. Banks has been superseded by Gen. Angur.

— Colored men are now received as substitutes for white men under the enrolment act.

— "Orthodoxy," said Bishop Warburton, "is my doxy. Heterodoxy is another man's doxy."

— The ladies in Washington are organizing a series of strawberry parties for the benefit of the Sanitary Commission.

— The Stationers of Boston will close their stores on Saturdays at 3 o'clock, P. M., until November 1st.

— Rev. C. C. Shackford has resigned the pastorate of the Second Congregational (Unitarian) Church and Society, in Lynn, Mass.

— Dr. John Ware, one of the oldest and most eminent medical practitioners in Boston died on Friday afternoon, of apoplexy, in his 69th year.

— The House, after debating all day, Saturday, finally placed white and colored soldiers on the same footing as regards pay and bounty.

— Four beautiful curtains, intended for Jeff. Davis, and recently captured on a blockade-runner, were last week sold at auction in New York, for $400.

— The troops which went to Madison Court House on Thursday burned the town to ashes, whether by orders or not is not known.

— Hon. Chandler R. Ransom of Boston has accepted the position of Commissioner for the examination of National Banks in New England and in the city of New York.

— The New Haven Journal suggests for the Presidency the name of Charles F. Adams, our present minister to Great Britain.

— The buildings used for the Sanitary Fair in New York are to be secured for use as a temporary hospital or receiving depot for sick and wounded soldiers.

— The latest fish story is to the effect that a Nantucket man recently caught a codfish weighing 73 pounds, in whose stomach were found two ducks, two flat-fish and one sculpin.

— A vessel arrived at Portland one day last week with 5000 lbs. of halibut, caught on La Have Banks, N. S., and sold there at wholesale for 14 cents per pound, netting the fishermen $700.

— Garibaldi is n't great on English. In his speech at Southampton, he thrilled the crowd by laying his hand on his heart and saying that he had "only done a few part of his duty."

— Gen. Martindale, who has for some time been military Governor of Washington, will take the field at once in command of a division in the army under Gen. Butler.

— The N. Y. World's correspondent says that should Mr. Chase retire from the Cabinet his successor will be either Senator Fessenden of Maine or Hon. Samuel Hooper of Massachusetts.

— The Press states that the long-shore men, in Portland, who have been receiving three dollars per day for discharging vessels, have struck for more pay. They demand four dollars per day of ten hours.

— On Thursday night, while several children were playing around a bonfire in Jersey City, one boy pushed another into the fire, and he was burned so seriously that his life is despaired of.

— A letter from Rome mentions that all the jewels and the gold crown of the statue of the Virgin, in the church of Santo Rocco, at Rome, have been stolen. A similar sacrilege was committed the same night at the church of Santa Maria Liberatrix.

— The Granite Station House of Fitchburg Railroad Company, on Causeway street, Boston, is to to be entirely remodeled, extended toward the river and improved. When finished it will exteriorally resemble the Eastern depot, a model in its way.

— John Smith, Peter Smith, and John Dove, manufacturers in Andover, Mass., have pledged Thirty Thousand Dollars for the erection of a suitable building for the Library of the Theological Seminary in that town, conditioned on the addition of a sum sufficient to build a new Chapel for the Institution.

— Mr. H.N. Lancaster, of Belfast, who is largely engaged in raising pigs, fed barley, with which siftings of rye, containing quantities of ergot were mixed, to his sows, and thirty of them died with their unnumbered offspring, entailing a loss of hundreds of dollars. This is a caution against feeding sparred rye in such cases.

A writer of a modern book of travels, relating the particulars of his being cast away, thus concludes:—"After having walked eleven hours without having tracked the print of human foot, to my great comfort and delight I saw a man hanging upon a gibbet; my pleasure at the cheering prospect was inexpressible, for it convinced me that I was in a civilized country."

NEW HAMPSHIRE ITEMS.

—— They've captured, cooked and eaten a turtle weighing 29 lbs. in Exeter. It was caught in Fresh river.

—— A New Orleans dispatch states that Maj. Connelly of the 1st N. H. Cavalry had been badly injured by a kick from his horse. Lieut. Snow, reported killed, is alive, but a prisoner.

—— The Ossipee Register says: While the people of Ossipee Centre were recently assembled for religious worship in the Congregational meeting house, three young men came in partially intoxicated, and after taking seats, one of the number took a pipe from his pocket and lighting it with a match commenced smoking during the services. After smoking a while, he took a bottle from his pocket, partook of its contents, and passed it to his companions.

☞ The Dover Gazette sustains the tax bill, in an editorial from which we make these extracts:

"At last we are to have the taxes laid on as hard and heavily as we can bear them. Much as we all shall dislike them, having lived almost entirely free from them for so long a period of our history, it is in obedience to the popular demand, after all, that they are about to be laid with so much weight upon us. Our legislators have only been too *culpably backward* in taking the *single* step that can sustain national credit."

"The people like to know the whole truth of any matter at once, and the public men who distrust them in this respect *do not* yet understand the character of those whom they represent. The people realize, if their public servants *do not*, that this rebellion strikes at the very life and being of their own government; and they are prepared to fight it and crush it, as well as to pay the cost of it in blood and treasure.—It is a *people's* war, which they are prepared to conduct and carry through themselves; but they do not want to be misconceived by their *servants*, or to be treated as if they were babies and children.

The tax bill which the Secretary of the Treasury submitted to the Committee of Ways and Means, is substantially the same with that now before Congress,"—and the Gazette says its product will "enable us to *continue the war* to a successful close. We could all of us have wished to avoid this load, but so long as it is laid upon us for preserving the integrity of the Union, it will be met in a spirit of alacrity for which no other nation ever furnished a parallel."

It is a remarkable fact, that Hon. Daniel Marcy, representative in Congress from this District, was one of the 33, (all called democrats) who on its passage voted *against* this bill, which the Dover Gazette calls the *single* step that *can* sustain the national credit! and that while the whole legislature have been "*culpably backward*" as the Gazette says, its own chosen representative still *holds back* when more than three quarters of the House went forward. The case is too plain for argument. If the Gazette is right, the Representative is wrong. U. T.

☞ In the very moral and religious Boston Traveller, of Saturday evening—and in the very column usually occupied by their weekly sermon, we find the following *mareeans*, which we venture to give on account of the source. The moral must be, "*Look before you leap.*"

A Mustard Poultice and its Consequences.—The following story, which we do not remember to have seen in print, is now circulating on 'Change. It may be old, but is received as new and true. At a famous watering place, within the memory of man, a gentleman was severely afflicted with a pain in the stomach, which neither gin cocktails nor other cordials could remove. It was night, and he was in bed.—His loving wife, unwilling to wake the domestics, descended to the kitchen, and prepared a mustard poultice, which she spread on her own handkerchief, and proceeded with it to her distressed lord. Before leaving him, she left a light dimly burning in his apartment; but deeply impressed with anxiety, she was not as careful as she might have been in nothing the number of her room.

Guided by a light which she saw shining in a chamber, and which she supposed was the one she had left, she entered, and gently raising the bed-clothes, &c., laid the warm poultice upon a stomach, but not the stomach of her lord.

"Hallo there! What the —— are you about?" shouted a voice of thunder, and the body and sleeves, whence it issued, sprang out of bed.

The lady screamed and ran; her husband rushed to the rescue from the next room, the waiters joined and a small scene ensued, much to the amusement of all concerned. The poulticed gentleman had indiscreetly left a light in his room, and this lured the lady from her path.

Her husband was so amused and excited by the mistake that he quite forgot his pains, but early next morning, with his wife and trunks, left for parts unknown. The poulticed-man still retains the handkerchief—a beautiful cambric—with the lady's name on it, which he considers of rare value.—*Traveller.*

Sad Affair.—Our "erring brothers" in Alabama some time since took Hon. T. P. Curtis, Probate Judge for Winston County, and a mild inoffensive Union man, into the woods and robbed him and then threw him headlong from a high cliff. There his friends found him two days after. The fall had not killed him; he had crawled to the margin of a little creek in the ravine, and there had been shot in the head and through the body. These "misguided fellow citizens," we are sorry to say, make a good many such fatal "mistakes."

— The famous trotting stallion, Geo. M. Patchen, died on Sunday from rupture.

A SPRING SONG.

The following seasonable poetic gem, by Geo. William Curtis, was published in the "Spirit of the Fair":—

A bird sings sweet and strong
In the top of the highest tree;
He sings: "I pour out my heart in song,
For the summer that soon shall be."

But deep in the shady wood
Another bird sings: "I pour
My voice over meadow and hill and flood
For the summers that come no more."

☞ R. S. Satterlee, Surgeon and Medical Purveyor, U. S. Army, New York City, in reply to a note in the Evening Post of that city, says:

I will inform "A lady" that flannel as well as cotton shirts are furnished for the use of the sick soldiers. The packages contain both, so that whichever are preferred can be used. I have now a quantity of flannel shirts on hand, which it will give me pleasure to send wherever they are needed.

"A Lady" asks, "Does the government furnish old linen and cotton?" I answer emphatically it does. I have several tons of old linen and cotton in my depot, carefully cleaned and put up in papers for use as compresses or pledgets, from which issues are made whenever it is needed.

The step of calling in the militia to occupy the forts around Washington and frontier posts, and thus release the veterans and allow them to move to the front, is sensible. —*Boston Post.*

The Manchester Union says the step is "ridiculous."

Where do all the old horses go, and who finds all the umbrellas that everybody loses? are questions for the grasp of some logical mind.—*Portland Argus.*

The old horses are said to be swapped off, while the umbrellas are borrowed.

— The Boston Post in an editorial favors allowing a prisoner to testify in his own case, and says, "to refuse a prisoner the right to be a witness for himself, if he so desires, is to presume him guilty, when that is the very point at issue."

— Michael Kinghtlinger, of Crawford county, Pa., advertises his wife Eliza as leaving his bed and board, and closes his notice by saying "this is the sixteenth time she has served me in the same way." Michael must be a patient Benedict.

— It is asserted that facts in possession of the Congressional Committee to investigate the affairs of the New York Custom House show that an enormous trade is still carried on between that city and rebeldom.

— The increased duty of fifty per cent. laid upon all imported goods for the space of sixty days, it is said has sent the price of dry goods up to an astonishing figure.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office:

ANOTHER.—The death of Mr. Daniel F. Hatch, which we chronicled last week, in this city, was as much a life given for his country as any lost in battle,—although he never actually participated in military service. His case was a peculiarly hard one, and whether or not it can be reached in any public manner for the benefit of his family, it will certainly be of interest to every loyal reader.

Mr. Hatch was pretty well known hereabouts, as an assistant in his brother's carriage shop, and a very pleasant and gentlemanly young man. He had quite a liking for military life, and an earnest patriotism led him to enlist in the 2d N. H. Regiment, where, we believe, he was advanced to 1st Sergeant. But while quartered at the ropewalk barracks in this city, and before mustering into the U. S. service, he was so severely injured in the knee by a blow from a boot of a couple of fellow recruits who were engaged in a squabble, in which he took no part, that he was confined at home, with the most terrible sufferings, for many months. And from that blow he never recovered a quarter of his former great strength and activity; but after lingering for a year or two more, and limping about to do a little work at the Navy Yard and elsewhere, a month or two since he was taken with consumption, and has passed on among the honored dead for "God and Liberty." He retained to the last we saw of him in public an astonishing amount of his usual cheerfulness and good humor, through all his severe and wearisome trials. But we have no doubt that he, like most other brave and earnest men, would much have preferred to die on the battlefield.—Peace to the memory of this, another martyr. F.

GARIBALDI IN ENGLAND.—The reception of Garibaldi in England was of the most enthusiastic character, and participated in by all classes. It partook of the nature of our great American ovations, but was carried out with less system and order. The crowd was so great that it spoiled the procession, all being merged in a solid mass, and moving along so slowly, that five hours was required to accomplish five miles. There was so much confusion that not a word of the congratulatory address could be heard, even by those within a short distance. The English evidently do not understaud managing well these popular ovations.

THE FUNERAL of Mr. Joseph Moulton, at the residence of his father-in-law Hon. Albert Blaisdell, at Greenland on Sunday afternoon, was very largely attended, notwithstanding the exceedingly disagreeable storm. Besides the multitude who went in scores of carriages from this city and all the country about, some of the friends of the family in Boston, among whom were Mr. Perkins, Mr. Bradstreet, Mr. Tufts, Mr. Beckett of the Post, and others, procured a special train over the Eastern road; which was also very considerately run out from this city by the managers of the road itself, and greatly accommodated a large number of people.

The services were conducted by Rev. Mr. Robie of Greenland, and the body interred in the family grounds near the house. There must have been several hundred relatives, friends and acquaintances of the deceased present; and we have never known deeper sympathy manifested in any case than is evinced toward the bereaved in this; and hosts of the special friends and intimates of this hospitable household showed that whether or not they can realize that "it is *better* to go to the house of mourning than to the house of feasting," they were at least as ready to mingle tears with them as to join in their rejoicings.

The rich burial case, and the niche in which it sat in the house, were profusely beautified with the most charming flowers; and it seemed almost a sacrilege ever to remove the body from such an Elysian resting place.

The pall-bearers were six of the young friends of the deceased, from this city: Messrs. Henry L. Townsend, N. P. Thacher, Henry S. Bodge, Wm. E. Hadley, Fred. E. Willis, and James W. Lord.

And if our referring thus publicly to a matter so sacredly private needs any apology, we can only say that we doubt not that many of our readers who were prevented by the storm and other causes from attending, will be pleased with this brief mention of the proceedings on this occasion, in which so deep and general an interest was manifested. ☞ Capt. Henry C. Keene, of Portland, who some months ago resigned his commission as Vol. Lieutenant in the Navy, from disability, has been re-appointed to that rank, with orders to report at the Portsmouth Navy Yard. Capt. K. lost a leg at the bombardment of Port Royal, and was promoted from Acting Master for gallant behavior on that occasion.

☞ The new U. S. tug-boat Blue Light, built at the Portsmouth Navy Yard, made her trial trip on Monday afternoon on the river. Her machinery worked admirably.

☞ In Police Court, Monday, James Greenough "acknowledged the *corn*," but being short of currency to the amount of $3 and 3.86 costs, was committed to the care of Superintendent Norton of the City Farm to work it out.

☞ The Boston Journal states that a company of State militia from Newburyport, under command of Capt. Dame, accompanied by the Portsmouth Cornet Band, Tompson, Leader, marched up State street on Monday forenoon, on route for Readville, where they await further orders.

— It is now stated that one of the objects of Garibaldi's visit to England is to consult an eminent surgeon relative to his wound. The French papers comment upon Garibaldi's reception with ill-concealed mortification, as if it werer a designed effection on the Emperor.

— A correspondent of the New York World has been expelled from New Orleans by the military authorities.

— It is reported that forty-five students of Williams College have made a public profession of religion.

— Generals Martindale and Ferry have been ordered to report to General Butler for duty.

A Washington paper, in alluding to the recent search for a girl, and her subsequent discovery, says: "She had a mark on her cheek, which neighbored a dimple whenever her lips would be wreathed in smiles, and which showed itself perceptibly whenever she manifested colloquial animation." That's word painting for you with a vengeance!

A man brought before a justice of the peace in Vermont, charged with some petty offence, pleaded in extenuation a natural infirmity. "I should have made a considerable figure in the world, Judge," said he, "if I hadn't been a *fool*; it's a dreadful pull-back to a man." F.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so supportive as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.
I am using in my house the "Anderson Spring Bed Bottom." I consider it an improvement on anything of the kind heretofore introduced, and recommend it to all who like an easy bed.
WM. HUSE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.
Farmington, Feb. 28, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER: Sir:—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.
Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed," sold by Mr. D. A. Bean, agent. For economy, convenience, and comfort, I regard it as one of the greatest improvements of the age.
A. P. BLAKE, Squamscott House.
Exeter, May 5, 1863.

NEWMARKET, May 2, 1863.
I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep. HENRY H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863.
I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.
B. P. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 26, 1863.
I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it as it works to a charm. I think six dollars can not be expended to better advantage.
O. C. COPPIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in general use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times, when stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for six months past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be classed among the few *valuable* "patents." We exclaim, "the spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

ABOUT PRINTERS.

I wish I was a printer,
I really do indeed;
It seems to me the printers
Get everything they need—
(Except money.)

The get the largest and the best
Of everything that grows,
And get free into circuses
And other kinds of shows—
(By giving an equivalent.)

The biggest bug will speak to them,
No matter how they dress;
A shabby coat is nothing,
If they own a printing press.
(Folley.)

At ladies' fairs they're always lagged
By pretty girls who know
That they may crack up everything
The ladies have to show.
(Daily.)

And thus they get a blow-out free,
At every party feed,
And the reason is because they write
And other people read.
(That's what's the matter.)

And then—you know this last is true—
The best best thing in life,
If one cannot be a printer,
Is to be a printer's wife.
(Hogg's what she said.)

A burly Irishman went into the telegraph office at Springfield the other day, and earnestly called out: "I want a class shot sent by telegraph from Worcester, immediately!" He was referred to the "clothes line telegraph."

Gray's Patent Molded Collars
Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The crystal camess on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Gazette Collar has a smooth and evenly finished edge on BOTH SIDES.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOULDED AND SHAPED TO FIT THE NECK.
They are made in "Novelty" (or turn-down style, in every half size, from 12 to 17 inches, and in "Eureka" (Gazette) from 14 to 17 inches, and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller case of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, if at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks and we cheerfully invite the investigations of the liberal minded and scientific to cases which have no parallel in the annals of medicine.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition to secret lean as ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick;" while others doubt their permanence, and think that discovered by the new system of "Vegetative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from accidents, or other causes, the scale, we have the effects of disease. What is requisite is, to restore the equilibrium, and health follows.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases proceeding from the IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENTS TO CHILD.
Paralysis.
Hemiplegia, Paralysis, Paraplegia, Facialis, Aphasia.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only refer to the fact that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Sick Headache, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Sores, Glandular Swellings, Ulcers, King's Evil, Abscesses, Tumors, Skin Diseases.
This taint (hereditary or acquired) filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
Arthritic, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 10 or 20 years standing, have been cured by us.
Nervousness
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly do we speak, confidently, to those who will trace prove an inestimable blessing—directing their footsteps to a Hope which failed more than it promised.
Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexions, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of Mercury, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases from the Skin like
ULCERS, PIMPLES, BIOTCHES,
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken in cases of swelling detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so much the most prominent portion of the countenance, from six to twenty years of age. Young children are very subject to discharges from the Ears, which frequently upon Scrofulous constitutions, have been entirely cured by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, or Weak Eyes, Sickness, and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the womb, are permanently cured by Constitution Life syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will effectually remove. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Uterus, Fibroids of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Leucorrhœa, Symptomatic or Organic Diseases of the Heart (as Palpitation), Disease of Tubes, Spermatorrhœa, Nervous Debility, Pain in the Side, Back and all the affections of this important organ, or persons suffering from any acute pain in the Spine, or of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indigestion or Exercise, Pain in the Bone, Loss of Memory, Forebodings, Horror of Insanity, Fear of Consumption, Dyspepsia, Dizziness, Weak Eyes, Extremities, Want of Sleep, Restlessness, Pain Diagnosed Organic and Laudanum of the Nervous System. By the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases**, either of the Nose (Rose), Tongue, Spine, Forehead or body, no remedy has ever been found to cure.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the sufferer, and mar her beauty. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the liver.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an inactive or cancerous condition of that organ, accompanied by Costiveness, or other well known symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled.* It may be relied on for a cure.
Diseases of the Spine, so usually developed in the young, if treated by Constitution Life Syrup, Ovarian Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, premature decay and Death are the results. Do not delay when the means are so near at hand, and within the reach of all.
MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Diabetes, and is especially recommended in those cases of Fluor Albus or Whites in females, where all the old numerous remedies have failed.
It is prepared in a highly concentrated form, the close only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*, removing all scalding, heat, chordee and pain, located at the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shaking up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.
J. Woodman Moses, John R. Holbrook, George Hillbrook, Frank Jones, George L. Treadwell, Henry L. Richards, John H. Piper, John Warburton, Abel Quinby, Louis Green, Robert King, George B. "MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce dryness so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former inventions, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron L. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, MAY 4, 1864. VOL. XXIV. No. 105

The Chronicle.

APRIL 20, 1864.

BY PRIVATE MILES O'REILLY.

[The war has produced few, if any, more touching poems than that which follows, and which is worthily illustrated in Harper's Weekly of this week. Should it lead those who know little of Myles O'Reilly, except by name, to seek his further acquaintance in a volume recently published by Carleton, New York, they will not be disappointed in finding in him much of the tenderness which belongs to that genuine humor for which he is especially noted:]

Three years ago to-day
We raised our hands to Heaven,
And on the rolls of muster
Our names were thirty-seven.
There were just a thousand bayonets,
And the swords were thirty-seven,
As we took the oath of service
With our right hands raised to Heaven.

Oh! 'twas a gallant day,
In memory still adored,
The day we ran-bridged our capitals
With the musket and the sword!
Shrill rang the fifes, the bugles blared,
And beneath a cloudless Heaven
Twinkled a thousand bayonets,
And the swords were thirty-seven.

Of the thousand stalwart bayonets
Two hundred march to-day;
Hundreds lie in Virginia swamps,
And hundreds in Maryland clay;
And other hundreds, less happy, drag
Their shattered limbs around,
And envy the deep, long, blessed sleep
Of the battle-field's holy ground.

For the swords—one night, a week ago,
The remnant—just eleven—
Gathered around a banqueting board
With seats for thirty-seven;
There were two limped in on crutches,
And two had each but a hand—
To pour the wine and raise the cup,
As we toasted "Our flag and land!"

And the room seemed filled with whispers
As we looked at the vacant seats,
And, with choking throats, we pushed aside
The rich but untasted meats;
Then in silence we brimmed our glasses,
As we rose up—just eleven—
And bowed, as we drank to the loved and the dead,
Who had made us THIRTY-SEVEN!

☞ The Nashville Union has the following reminiscences of one who has suddenly made himself famous:—

We recollect well when Alexander the Copy—surnamed the Long, which is nearly as distinguished a title to start upon as Great—was a candidate for Congress. It was during the dark days of 1862, when McClellan retreated from the Peninsula; when Pope transferred his headquarters from the saddle to the fortifications at Washington, after having made a retreat for which he refused to make preparations; and when Kirby Smith was besieging Cincinnati—Alexander's home. He was wonderfully patriotic; was a member of the military committee of Hamilton county, and gave liberally toward the payment of bounty for recruits; he made speeches urging men to enlist in the glorious cause of his country: talked war, and declared he was prepared to act war, if his bleeding country demanded such a sacrifice; and, by way of earnest, induced a young law partner to enter the army; he went around among his religious brethren—for Alexander the Long is a devoted member of the church—and urged them to support him from personal considerations, as he was as good a war man as his competitor—Gurley, the then sitting member.

He held tickets all day at the polls in his own Ward—the Eighth—in Cincinnati, and persistently importuned all his friends and acquaintances to vote for him, pledging his word that he was for the suppression of the Rebellion at all hazards, and declaring that to compromise with traitors would be dishonorable in the highest degree.

Gurley had many enemies among members of his own party, and the consequence was that Alexander the Long overreached his rival, and was accredited a Representative from the IId Congressional District of Cincinnati by a majority of 131 votes out of a poll of 16,000.

A few days after his election, a brother in Alexander's church, who had always been a Republican, but who had voted for him out of personal considerations, upon solicitation, and a pledge that he was a good war man, called upon him to offer congratulations. Alexander proffered his hand, and vouchsafed one of his best smiles; but was a little horrified when asked something about his views relative to the details of the war.

"I had not better talk with you," said he; "you are for war—I for peace; we can't agree, and, as brethren in the church, we should not quarrel."

The gentleman left the Congressman, feeling that he had been completely sold, and convoyed the intelligence to others, who like himself, had been deceived; and they all resolved that never again should personal considerations induce them to vote for a doubtful candidate. The result was, at the last fall election, Gov. Brough carried the District by about 7,000 majority.

J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the application only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The delivery and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among the small chance for weeds, owing to the shade it affords, and the fact that the Poudrette, unlike other manures, contains no seed that can germinate, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the Lodi Co.'s Poudrette, and you will get an article that has been used in this vicinity for fifteen years, and the proof of its goodness is seen in the steady increase of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this Superphosphate, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.8

The organic matter yields 5.5 p. c. of Ammonia. The value of commercial fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is also universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis I received from the entire stock which was prepared for the market.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) to obtain the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and capital nature, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Kupturous Affections of the Testicles and Prostate Gland, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are warned against consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every case of the Nature of those, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR TELLER'S GREAT WORK.
A book for everybody—startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 80,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 12 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

WEDNESDAY, MAY 4, 1864.

THE REBELLION.

The counsels of the military authorities are kept remarkably secret. Heretofore on the eve of great battles some idea could be formed of the contemplated movements, but now they are matters of mere speculation even among prominent officers and high officials.

The movements by the army of the Potomac on Sunday, a dispatch gravely informs us, "were merely for the purpose of changing its position." Moving is allowable on the 1st of May, even for that object.

From rebel sources we learn that Gen. Averill is conducting a raid in the southwest part of Virginia.

In a cavalry fight near Upperville, Va., on Thursday, with a party of M—by's guerrillas, two rebels were killed, 4 wounded and 23 taken prisoners.

It is reported that Gen. Wessels's command is at Saulsbury, N. C., en route for Richmond in the wrong way; also that the rebels have evacuated Plymouth and all Eastern North Carolina to swell the ranks of Lee's army.

A Fortress Monroe letter reports that the 10th and 12th corps, which have been largely augmented, are with Gen. W. F. Smith.

The rebels have sent nearly all their troops from Florida to Virginia.

The National Guards of Ohio have mustered in response to the Governor's call for 100 days' men; and cut of 486 companies all but 48 have reported, giving 35,000 men for active duty. The whole number will reach nearly 40,000 men, ready at a moment's notice for the field.

The Richmond Examiner is rather alarmed at the rumors of an impending battle on Johnston's army at Dalton, Ga. The state of preparation of the Union army, the removal of a great body of troops from Knoxville and Cleveland to Chattanooga, and the facility with which reinforcements can be thrown from Tennessee and Kentucky, all impel it to give some credits to these rumors.

Some rebel guerrillas have been rooted and a number of them taken prisoners in a fight with our cavalry near Duvall's Bluff on the White river.

Gen. Sturgis started from Memphis, April 30, with a large force, in pursuit of Forrest, who was reported to be near that city, designing to attack it.

A Cairo dispatch gives a report that Paducah, Ky., is again threatened. If wisdom has been learned from the past there can be no danger.

It is stated in dispatches from Cairo that Gens. Steele and Thayer had made an attack upon the rebel rear, and recaptured 18 of the pieces captured from Gen. Banks at Pleasant Hill, and that Gen. Steele's forces are marching down the north bank of the Red River to effect a junction with Gen. Banks. But these dispatches respecting Gen. Steele are doubtful, as is another that Gen. Banks has fallen back to Alexandria without fighting, and does not allow the papers to publish any more Red River news, except the official dispatches, in which he claims a victory. The fleet is also there.

NEW HAMPSHIRE ITEMS.

—— Mrs. Mary Ann Webber, of Manchester, on Sunday morning, arose and made preparations for breakfast; and was soon after found dead upon the floor. It is supposed she died of heart disease.

—— A Manchester woman, while engaged in washing a window on Saturday, slipped and fell, breaking her arm.

—— Ten Candia ladies gave ten of their young bachelor friends a pleasant ride to Manchester on Saturday last.

—— As the train for Portland on the Boston and Maine Railroad, left Dover on Monday afternoon, Patrick Coffee, an employee in the Dover Print works, attempted to jump on to the cars. He missed his footing, fell upon the track and the train passed over his body, mangling it dreadfully, and instantly killing him.

——James B. Moore, Esq., formerly a lawyer of Concord, has accepted a Lieutenancy in the 23d U. S. Regiment of Colored Infantry.

—— Mr. Benj. P. Moulton, a native of Dover, died in Boston on Monday, of typhoid fever and congestion of the lungs, in the 32d year of his age. He had been marine reporter of the Boston Courier for nearly twenty years, and was warmly esteemed by all who enjoyed his acquaintance.

THE PRINCE OF WALES'S BABY.—"Grandmother," said Ike seriously, to Mrs. Partington, "have you heard that the Prince of Wales's baby has not got all his fingers on one hand, and that both his legs are not right?" "Lor' bless me!" exclaimed the old lady. Then how could he ever wield the sceptre of the realm, or walk as he ought to do?" He, however, pretended not to hear the remark, but began clipping the cat's whiskers, grinning to think that his grandmother did not see that nobody had all his fingers on one hand, nor anybody two right legs.

SIFTINGS AND SHIFTINGS.

— Very few officers or soldiers are seen in Washington now, except those on duty.

— Hospital accommodations have been prepared at Washington for 25,000 men.

— Insanity among the soldiers is said to be largely on the increase.

Every time a man visits a "free concert" cellar in Brodway, he plunges into the depths of a basement.

— The Secretary of War has awarded twenty-six medals of honor for gallantry in action.

— The Boston flour dealers are to close thei stores on Saturdays, at 3 P. M., until Oct. 1.

— Foreign advices state that the steamer City of New York, which recently ran on a rock, has broken up and disappeared.

What I admire in Christopher Columbus is not his having discovered the New World, but his having gone to search for it on the faith of an opinion.—*Turgot.*

— Four of the churches in Springfield, Mass., received 206 new members on Sunday—a portion of the fruits of the recent revival there.

— Rev. Dr. Bellows preached the first sermon in the church of the late Rev. T. Starr King at San Francisco on Sunday last, to a crowded audience.

— A company has been formed in San Francisco with a capital of $500,000 to cultivate coffee, cotton, sugar and tobacco in Central America.

— The work on the Amesbury, Mass., Woolen Mill, is rapidly progressing, and its entire stock is taken up; some of it has sold as high as five per cent. advance.

—In Auburn, Me., between two and three hundred thousand dollars are invested in government bonds—or nearly one-quarter of the appraised wealth of the town.

— John B. Gough has lectured six times a week since October; has engagements to the 1st of June; and yet has declined over nine hundred invitations during the present lecture season.

— The military authorities in Washington have intelligence that one of Lee's scouts has been in New York recently, and that he witnessed the display made there on Monday last by the Ninth Army Corps.

— The Swiss Federal Council have resolved to put in force the decree of expulsion against Mazzini, on the ground that he has several times lately abused the rites of hospitality.

— A dispatch to the Boston Merchants' Exchange states that Adm. Wilkes was found guilty of every charge preferred against him at the recent court martial, and was sentenced to three years' suspension without pay.

— In Portland on Monday, while a party of boys were Maying, another boy armed with a gun, came along and demanded some flowers. Being refused, he raised his gun and fired,—the shot dangerously wounding one of the boys in the side.

— It is possible that the Hudson river location for the Navy Yard for iron clads may after all be selected, as it is free from the natural disadvantage of League Island, and not exposed to naval attack, as New London would be.

The (——) echoes the doctrine that the south did not make the war, because they sent commissioners to Washington to secure peace—peace on the basis of disunion; and by implication it condemns the Administration for rejecting their overtures and thus precipitating war. The (——) in this, only proves its proclivities for disunion.—*Portland Press.*

— Secretary Chase, in a communication to the House, says Jay Cooke employed about 2400 sub-agents, for whom he was responsible, and secured subscriptions to the loan to the amount of $362,000,000, without which the Army and Navy and creditors could not have been paid. The cost of the loan was $1,400,000, amounting to less than three-tenths of one per cent. or 18 days' interest on the whole amount. The Secretary concludes that these services could not have been so successfully performed by the Treasury Department.

A retired cheesemonger, who hated any alliance to the business that had enriched him, said to Charles Lamb, in the course of a discussion on the Poor Laws: "You must bear in mind, sir, that I have got rid of that sort of stuff which you poets call the milk of human kindness." Lamb looked at him steadily, and gave acquiescence in these pithy words: "Yes, I am aware that you turned it all into cheese several years ago."

☞ A Cairo dispatch reports that the gunboat Petrel, a small vessel carrying four or five guns, was suddenly boarded, captured and burned by rebel cavalry two miles above Yazoo city, April 23. A number of the crew were killed, and others, with the Captain, are missing and supposed to be taken prisoners.

A rebel war correspondent says "the war is a huge frolic to the Yankees. Soldiers and officers are enjoying themselves. They want nothing. There is no sorrow in their camps, or longing for home; and a bloody field is looked on joyously as opening the door to promotion."

OUR N. Y. CORRESPONDENT OUT WEST.

CINCINNATI, OHIO, April 24.

Dear Chronicle:—

Choosing the southern route homeward, via Indianapolis, Louisville and Cincinnati, I took leave of the inland seas, and the beautiful cities prospering along their shores, and traversed Central Illinois, Indiana and Kentucky to the Ohio river.

In many of the interior western cities there seems to be at this season a strong rivalry between the mud and the houses, with a prospect of the former gaining the ascendancy. Just outside of Logansport in a large sea of mud, which was certainly a foot deep and May have been infinitely deeper, a post upheld a sign, "keep off the grass." It would have to be a pretty tall cow that hunted in safety for grass in that plot!

At Kokomo, a large bell attached to a small boy, assisted the latter in vociferating, "change cars for Indianapolis—twenty minutes for dinner." That boy testified to the moral depravity of the western country, a sample of concentrated unveracioumess.—Instead of twenty minutes to dinner there was only time enough for the proprietor to collect fifty cents in advance, and give you a chance to inspect the table, and make a partial estimate of the time you *would* have to remain to get your money's worth.

Louisville is feeling the effects of the war, and its southern latitude. Many of the merchants have moved north, to Cincinnati and Chicago, and those remaining are uneasily awaiting the return of the better days.

Cincinnati is bustling, active, metropolitan; one of the great business whirlpools of the West. Blessed (?) with horse-railroads and, with Chicago and Milwaukee, rivaling New York in the solid immensity and magnificence of its business edifices.

One of the best features through the Western country is the excellence of the leading hotels. The "Osborne" at Rochester, "American" at Buffalo, "Weddell" at Cleveland, and the "Briggs" and "Newhall," at Chicago and Milwaukee respectively, together with the Burnett there at Cincinnati, are all admirable both in architecture and arrangement, and compare favorably with the most elegant of those in New York.

Of all that I have seen in any part of the country, not excepting even New York City or Boston, I must however award the highest merit to the "Continental" in Philadelphia, which is not only a marble palace exteriorally, but a velveted and frescoed Paradise within, and for the magnificence of its finish and design, and convenience of its arrangement, cannot I think, be equalled in America.

Among the guests here at the Burnett House are Maj General Sickles and staff, on their way South, as a species of Sanitary Commission, and corps of observation.—The General uses his crutches, his limb being still tender, and besides it has a better effect than if he walked along smoothly on a nicely fitting artificial-leg. He is as *nonchalant* as ever, smokes in the corridor, sips champagne at dinner, looks handsome, smiles on the ladies, dresses elegantly in plain black, with no military insignia but his cap, wears his moustache long, to the bottom of his chin, and twists it playfully between his fingers. The General is wiry, shrewd, unprincipled and plucky. Ten years a sixth ward politician in New York he acquired all of these traits.

But the forgiving public, in consideration of his recent deeds and sacrifice at Gettysburg, are willing to overlook his Washington episode. Sickles lost *caste* then. He has fought and regained it since. Seven Pines, Antietam and Gettysburg won it for him. Let him have it.

Gran's Opera troupe is also here, and are to perform "Norma," "Dinorah," and the new Opera "Faust." Your musical taste would delight in some strains of the latter, particularly the Waltz and 'Soldiers' Chorus.'

They have a riddle out West, which I am tempted to give you, and although I would not wish to convert the D. M. C. into a prize paper, or anything which even hints at a lottery (!), yet I am prepared to give a handsome present to any one who will solve it within three days.

It is composed of two parts.
The first is used of butter.
The second is used for liquor.
The whole is a part of a gun. H.

☞ In the U. S. Senate on Monday a petition was presented from Naval officers, representing that formerly there were ninety-seven Commanders and sixty-five Captains in the Navy, and that notwithstanding its vast increase, the Commanders have been reduced to twenty-seven in number, and that in consequence Lieut. Commanders have to serve as Commanders in a number of cases, and Commanders as Captains without the additional rank and pay. They pray for relief in the premises. The petition was referred to the Naval Committee.

THE IMMENSE POPULARITY OF THE
California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The solid ounce leaves fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in favor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Stein or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend our Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended in the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and a little more than half a bottle of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were affliated in the same manner, many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until I procured a few bottles of your valuable DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in France, Belgium, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American and Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendering all matters relating thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages in securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services, the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and none more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, has in no instance rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

☞ Mr. John Q. Adams, of this city, Gunner on board U. S. steam sloop Ossipee, was on Easter Sunday made the recipient of a magnificent gold watch and chain, bestowed upon him by the ship's crew, as a testimonial of their kindly feeling and appreciation of his merits as an officer and associate. The presentation was an entire surprise to him, the crew having obtained the watch through the paymaster, without apprising him of the fact. On the morning of Easter a committee of three, chosen by the crew, waited upon him in his stateroom, and one of them, after stating that they had come in behalf of the ship's crew to thank him for the uniform kindness and treatment they had received from him, tendered him in their behalf the watch, "with the sincere wish that he might live many happy years to enjoy it." The presentation being in fact a genuine surprise to the recipient, Mr. Adams was unable for a moment to express the gratification which their marked preference afforded him, but at length he feelingly responded. The whole affair was very creditable to the ship's crew, and complimentary to Mr. Adams, who has won the friendship and regard of his ship-mates by his uniform kindness and courtesy during his connection with them.

☞ Kent's Indian Troupe is coming.—See advertisement and posters.

☞ The girls up country seem to be wide awake to enjoy the privileges of leap year. A few weeks since, a party of young ladies in Raymond gave a grand Leap Year Ball; and last Saturday, the Manchester Union says:—

"May day was celebrated on Saturday last in a very becoming, though rather unique manner, by a party of young ladies and gentlemen of Candia. It being leap year, ten of the merry damsels of that good old town availed themselves of their right-ful prerogative, by treating as many of their young bachelor friends to a ride. The ten couples went in a carriage drawn by four horses to Manchester, the ladies duly registering themselves and partners at the hotel. A splendid entertainment was provided, and a more jovial party has seldom been seen. After visiting about town, the ladies 'hooked up' and returned."

"Oh, the days when we went gipsying, long time ago!"

THE GARIBALDI fever continues in London. The freedom of the city was formally presented to him at Guild Hall on the 20th. He made a speech expressing the deepest gratitude of himself and Italy to the English nation. In the evening he was the guest of Mr. Gladstone, who gave a brilliant entertainment. A preliminary meeting at the Duke of Sutherland's, to raise a fund to secure a permanent income to Garibaldi and his family, resulted in £2000 sterling being subscribed.

On the 18th John Bull was startled by a report that his visit was to be abruptly terminated, and that he would leave London on the 22d, en route for Caprea. Although it was alleged that the excitement was too much for his health, and medical evidence was adduced in support of this, yet reports were circulated that his departure was suggested by Government at the instigation of Napoleon. These reports were emphatically denied by Lord Clarendon in the House of Lords, and Palmerston in the House of Commons. They asserted that Napoleon took no exception to Garibaldi's welcome, but fully appreciated it, and they scouted the idea that the English Government would have listened to any interference. Still strong assertions continued to be made that a Government pressure had been exerted to bring about his departure, ministerial denials and the Paris Moniteur's contradiction to the contrary notwithstanding. The Garibaldi committee resolved to ask the General to rest a while, and then visit six or eight of the principal provincial towns. A deputation presented this request to Garibaldi, and the General agreed to reconsider his determination. His definite determination would be announced on the 21st.

A later arrival brings intelligence that Garibaldi after all quitted London on the 22d, and would embark on the 26th for Caprera. He took breakfast with some Americans at the U. S. Consul's on the 22d, and expressed himself warmly in favor of the United States in their struggle with the slave power.

☞ A fire at Wilmington, N. C., consumed a railroad depot, 25 freight cars, and every building south of the depot, including the Confederate cotton press, Berry's marine railway and all the cotton stored west of the ferry, 4,400 bales. Loss estimated at $5,000,000,—(Confederate currency?) The rebel Government lose $1,000,000. The balance falls on individuals. There was an insurance of about $1,000,000.

— Gold 180.

☞ The Newburyport Herald states that the mouth of the Merrimac river has so changed in the storms of this spring, as to give a new channel a half a mile further north than before, which is much more direct and shorter, and has a good depth of water. This new channel is very near where the river broke through some years ago. Gradually it will work more to the south, while the south channel, still used, will be filled up. This change in the water course has detracted much from the value of the light-houses as an aid to entering Newburyport harbor. One of them it is said can not be seen from the deck of a vessel in coming in, being hidden by the sand bluffs; and both of them with the keeper's house need moving nearly a mile.

MAXIMILIAN AND THE AUSTRIAN THRONE.—It is stated, after much negotiation, the resolve of the Emperor of Austria to exclude the Archduke Maximilian from the imperial succession has been modified to the effect that if at any time within six years the Emperor of Mexico shall determine to abdicate, and to return to his own country, it shall then be lawful to entertain the question of his reinstatement as an Austrian Archduke. This is much short of the Archduke's desires, but he has consented to accept it as the best provisions attainable under the circumstances. In the meanwhile he gives up his share of the family heritage, alleged to be of the value of $10,000,000, but retains his Archducal appendage of $60,000 per annum. He is to be allowed to recruit a legion of 6000 men from the Austrian army, with a reserved right of resuming, at the end of six years, their present rank in Austria. The Archduke—now the Mexican Emperor—is 32 years of age, and his wife, 24.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the best responsibility in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.

I am using in my house the "Anderson Spring Bed Bottom." I consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.

WM. HUSE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.

Farmington, Feb. 23, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITIER: SIR:—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.

Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed," sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.

A. P. BLAKE, Squamscott House.
Exeter, May 5, 1863.

NEWMARKET, May 2, 1863.

I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep.

HENRY H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863.

I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.

B. F. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 24, 1863.

I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it, as it works to a charm. I think six dollars can not be expended to better advantage.

O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in general use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times of cross-slats, stretching cords and enormous prices for articles of under-bedding of all kinds. Having personally tested its excellence for six months past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be classed among the few *valuable* "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

STATISTICS OF MISCEGENATION.—There were 411,613 mulatto slaves in the South in 1860, of whom 69,979 were in Virginia, 43,281 in Kentucky, and 36,900 in Georgia. These numbers are considerably beyond the legitimate proportion of those States. There were also 176,739 free mulattoes in the United States in 1860, of whom 106,770 belonged to the South, and 69,969 to the free States. Of the free mulattoes Virginia contained 23,485, which number, added to her slave mulattoes, makes a total of miscegenated population of 93,824. Her mulatto slaves alone exceeded the total number of mulattoes in the free States. The whole number of mulattoes, slave and free, in the Union, in 1860, was 588,352, of whom 69,969 belonged to the free States and 518,383 to the slaves States—a number greater than the combined white population of Arkansas, Delaware and Florida—greater than the white population of Maryland—almost twice as great as that of South Carolina, and twice as great as the combined populations of Delaware and Florida. The mulatto population of Virginia alone exceeds the number of whites in Delaware or Florida.—*Washington Chron.*

GUNNY BAGS.—The inquiry is often made, "What is a gunny bag?" The London Mechanic's Magazine, tells us all about it: It is a bag made from the coarse jute fibers of a plant which grows in India, of which there are many varieties. On the Coromandel coast this plant is called goni, and "gunny" is a corruption of this name. The cultivation of the cheti, jute, or "gunny" has been carried on for centuries in Bengal, and gives employment to tens of thousand of inhabitants. It is said that three hundred thousand tons of jute are grown in India, of which one hundred thousand tons are exported as gunny bags, besides one hundred thousand tons in a raw state. The gunny bag is used for sugar, coffee, spices, cotton, drugs; indeed almost every article which we pack in dry casks and boxes, is, in the East, packed in gunny bags. It is also made into mats, carpets, ropes, paper, and various other articles.

THE STRONGEST BANK IN THE WORLD. The Bank of Genoa, which has been in existence hundred of years, has, perhaps, proved itself the strongest institution of the kind in the world. It is a remarkable fact in its history, that its administration has always been as permanent and unchangeable as that of the republic has been agitated and fluctuating. No alteration ever took place in the mode of governing and regulating the affairs of the bank; and two sovereign and independent powers at war with each other, have been within the walls of the city, without producing the slightest shock to the bank, or causing it to secrete any of its books or treasures.—*Appleton's Cyclopædia of Commercial Anecdotes.*

DR. TEBBETTS' PHYSIOLOGICAL HAIR REGENERATOR

—AND—

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and nourished. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when the hair has either diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this Pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannic, Sulphur, &c., and producing only a sort of yellow or flax color, it will not properly speaking restore the hair to its former luxuriance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no poisonous mineral whatever, and is not the least injurious in its application.

2. It will certainly RESTORE the hair from gray to a beautiful Fast Brown, or black, or what ever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, make the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and tenderness of the scalp, and being highly perfumed, it leaves a most agreeable odor upon the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have world wide reputation.

HOME TESTIMONY.

DEXTER, N. H., Dec. 17, 1862.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and looked like flax. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on the application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is springing up. My wife has used one bottle, and I think one more will fill our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1862.

GENTS—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and has been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, and it makes a very nice dressing. JACOB J. VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospital, late Resident Physician of New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly immortal, are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the thinking and candid public to cases which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as hecon lean as ever encountered by any Reformers.

Rapidity of Cure.

Some say "Our cures are too quick," while others doubt their permanency and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

Disease is not a fixed quantity in well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effect of disease, and Nature is compelled to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and the only (ordinary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Weight on Stomach, Biliousness, Flatulence,	*Liver Complaint, Constipation, Want of Appetite, Bad Breath.*	

Scrofula.

Sores, King's Evil,	*Glandular Swellings, Erysipelas,*	*Ulcerations, Salt Rheum.*

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

(Arthritic), Lumbago,	*Neuralgia, Sciatica,*	*Gout, The Dolorous.*

Is there in any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enchronic swellings are reduced. Cases of twenty years or thirty years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Unnatural Nerves, St. Vitus' Dance.

Thousands who have suffered years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing the footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Dead Carcass, Ulcerations, Sores, Ulcerous Sores.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Bones with which this use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the skin, such as

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depend upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All persons or parents suffering from Debility, Dissolution, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and Menstrual Obstructions, Inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Spina Bifida or Dropsy of the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (see and all the affections of this important organ, such as Palpitation of the Heart, Inflamatory Rheumatism, Pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion in Extreme, Pain in the Back, Dimness of Vision, Dry Hot Skin, Nervousness, Wakefulness, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pain Hopelessness, Want of Confidence, Want of Energy, Want of Sleep, Restlessness, Want of Confidence, Want of Energy, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Throat, Nose, Throat, Tongue, Spine, Forehead or scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon Uterine Obstructions, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will control the cause, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, sickness, pain in the side, Jaundice, Dyspepsia, and chronic or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *In a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases which they do not like to tell their best friends, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenances, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and the consumptive, the broken down youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for promoting menstruation, and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the blood—Those who have used it think it invaluable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Strictures, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus (Whites in females) where all the old nostrums mostly cases have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying the blood, stimulating the kidneys to action in all of its original purity and vigor; thus removing from the system all pernicious causes which have heretofore existed.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and stimulant;* removing all scalding, heat, chordee and pain, leaving no trace of disease, in comparatively a few days, and in no case, as the drug generally does, producing a stricture.

CHEROKEE INJECTION is intended to be used in connection with the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and stimulant;* removing all scalding, heat, chordee and pain, leaving no trace of disease, in comparatively a few days, and in no case, as the drug generally does, producing a stricture.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all unpleasant discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

To obtain particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES,

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Involuntary Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any address the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

Disease known as debility, or the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores nervous power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from any disease of the urinary organs, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing, or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual, with oven plates attached, by which it which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meat or boiling fish cannot be escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large air warming oven plate attached, by which articles can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, durability of parts and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of heated air through the fire-pot, which renders them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best properties of the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., — Albert R. Hatch, Esq.,
Aaron H. Hill, — Charles H. Mendum,
Henry F. Wendell, — John Slee, and others.

Gray's Patent

Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Grotto Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Gravitte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

"Gray's Patent Molded Collar."

The Chronicle.

THE DANISH WAR.—The Prussians assaulted and captured Duppel, April 18th, capturing 3000 prisoners and 90 guns.—The Danes lost heavily, but hostilities were suspended for eight hours to allow them to evacuate. The Prussian loss is stated to have been two generals, sixty officers and six hundred privates. The Danes retreated to the island of Alsen. A great part of the Prussian artillery, it is said, has been ordered into Jutland, to occupy all that province and besiege Frederica. Some members of the Conference met in London on the 20th. The Representative of the German Diet was absent, and the Conference adjourned until the 25th.

☞ The recent speech of Mr. Long in the House of Representatives, has put the Boston Transcript in mind of a definition given in Bartlett's Dictionary of Americanisms under the head of *"skeezicks."* "Whether the 'Mr. Long' there referred to is the same gentleman," says the Transcript, "we do not know. But here is the definition, and example":

"SKEEZICKS.—A mean, contemptible fellow."—Western.

"At a republican meeting in Indiana, the other day, a speaker named Long responded to a loud call and took the stand. But a big, strapping fellow persisted in calling out in a stentorian voice, 'Long! Long!' This caused a little confusion, but after some difficulty in making himself heard, the President succeeded in stating that Mr. Long, the gentleman honored by the call, was now addressing them.

"Oh, he ——,' replied the fellow; 'he's the little *skeezicks* that told me to call for Long!' This brought down the house.

SOUTHERN ITEMS.—The Legislature of Mississippi, following the example of Georgia, has protested against the suspension of the habeas corpus by the rebel Congress.

A correspondent of the Atlanta Appeal, writing from Mississippi, says:

"Gen. Ross has broken up a plantation near Snyder's Bluff, killing some fifty negro soldiers who were guarding the workmen. *The killing was applauded. 'Take no negro prisoners,' is the cry in which all join.*"

Several rebel Colonels, who publish an account of their experience in Northern prisons, say they were treated better at Point Lookout, where Gen. Butler had control, than at any other place, but believe that they were thus treated merely for effect.

☞ A letter from Sonderburg, in the Siecle, says:—

A Danish officer has taken on himself the mission of studying the deviations, according to distance, of the rifles of the Prussians. He goes every day to the advanced posts, provided with a glass, and makes a memorandum of his observations. The day before yesterday a German rifleman perceived this officer on the lookout, at the distance of about 600 metres. The soldier, instinctively obedient to military discipline, respectfully made the salute, and then proceeded to lodge a ball in the officer's body. The latter rejoiced at the opportunity of making a fresh observation; and, whilst the soldier placed himself against a tree in order to take a steadier aim, the officer raised his glass to watch his movements. 'That is all right,' said he; 'the muzzle is just on a line with my breast.—We shall see.' The trigger was pulled, and the Dane quietly wrote down, 'at the distance of about 600 yards the deviation of a ball from a rifle musket is about one metre.'

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent, this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out.
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A farther supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, dry cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cord, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichole's Italian Female Monthly Pills. The sale of more than 200,000 boxes establishes their reputation as a female remedy unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

THURSDAY, MAY 5, 1864.

THE REBELLION.

The Washington Republican characterizes as a malicious falsehood in whole or in all its parts, the statement that the subject of removing or superseding Gen. Banks has been discussed in Cabinet meetings, or that the Government is dissatisfied with his management, or that it contemplates making any change in the command of the Department of the Gulf.

The N. Y. Herald's New Orleans letter reiterates the statement that Gen. Banks has fallen back to Alexandria. Gen. Steele remained at Camden, Ark., Apr. 17.

Gen. Banks in official despatches to the Government relative to the Red River campaign, admits a surprise and reverse on the 8th but claims that the battles on the 9th and 10th resulted in a terrible disaster to the rebels, and was on the whole a victory, the cost to the rebels in killed and wounded being greater proportionately than was ever suffered in any previous battle during the war.

Beauregard is reported to be in command of the rebel forces in North Carolina. The rebels were still hovering around Little Washington, Apr. 28. The rebel ram at Plymouth is said to be leaking badly, and to be held up by two gunboats. The other ram, from Kinston, recently came down the Neuse river to within 4 miles of Newbern and there stuck fast. She draws 9 feet of water and will evidently never be serviceable.

Newbern advices of the 30th state that our troops have evacuated Little Washington, after spiking the guns and destroying all property that could not be carried off.

A Richmond paper reports that "four army corps" have been sent from Chattanooga to reinforce Gen. Grant!

Everything is reported to be in readiness for a forward movement by the army of the Potomac at the proper time, while Gen. Burnside's command is in a favorable position.

The Washington Union of Wednesday afternoon expresses the opinion that Gen. Grant has crossed the Rappahannock, and that fighting is now going on.

DEATH OF A NOTED RACE-HORSE.—Geo. M. Patchen, the famous trotter, second only to Flora Temple for speed, and on a long stretch would probably beat her, even, died of a rupture, on Sunday last, at Long Island. He cost his last owner, Mr. Wm. Waltermire, $25,000, and we learn was uninsured. Mr. Waltermire had offered to trot him against any horse in the country for any sum. "Keystone," a comparatively new horse upon the turf, valued at $6,200, also died a few days since, of the throat disease, now prevalent among the horses of this vicinity.—*N. Y. Trib.*

Patchen was a noble horse, true enough, though there may be some question as to his beating the little bay mare, queen of the turf. The best "horse" authority sets his actual cost to Mr. Waltermire at $20,000—money enough to risk in one horse, and too much to lose, in all conscience.—Patchen's owner was not in good odor with the true sporting gentlemen of the turf, as he was rather fond of "hippodroming" the public of large gate-money, &c., by racing his horse at easy, convenient speed, only by agreement between parties beforehand. His "offers to trot against any horse in the country," if made on the square, would have been taken by Gen. Butler, Robt. Fillingham, John Morgan, and other flyers.—The horse was held in higher esteem than his owner, and is a loss to the nation, particularly at this time, when we need good stock for war uses.

☞ The Richmond Examiner of April 26th concludes an article on the military situation in Virginia as follows: "If we hold our own in Virginia till this summer is ended, the North's power of mischief everywhere will be gone. If we lose, the South's capacity for resistance will be broken.—The Confederacy has ample power to keep its place in Virginia, if employed with energy and consistency, and this is the last year of the war, whichever wins."

The same paper has a long leading article *applauding* Forrest's atrocities at Fort Pillow. It says: "They diffused a warm and soothing glow through the veins of every good Confederate. The whole country will approve and applaud his action, and so, it is hoped, will the confederate government."

Messrs. Eds:—Reading in your paper this morning, a queer story about Alexander Long,—brought to my mind a notice of another Alexander, who long ago was a hypocrite, and of whom Saint Paul said, "Alexander the *coppersmith* did me much evil,—the Lord reward him according to his works!" Every loyal man in his district now might say, "Alexander the *copperhead* did me much evil," and if they should happen as Paul did to add the prayer, "the Lord reward him according to his works!" nobody would blame them much.

SQUIB.

SIFTINGS AND SHIFTINGS.

— The rebels in Virginia are suffering from a great scarcity of provisions, not only in the towns but throughout the interior.

— A contemporary calls digging trenches the "ground work" of a good military education.

— There are 38,183 churches in the United States, of which about one-third are in the rebel states.

— A Danish writer speaks of a hut so miserable that it didn't know which way to fall, and so kept standing.

— William L. Thayer, Consul General for Egypt, died at Alexandria on the 10th of April.

— The District of Columbia requires only twenty-two more men to complete all the calls under the draft.

— Four hundred prisoners from Richmond reached Annapolis on Monday in a half famished condition.

— The House Committee on the management of the Treasury commenced its investigations on Tuesday morning.

— The appropriation for the extension of Charlestown Navy Yard was struck out by the Senate, and the House has concurred.

— The receipts from Internal Revenue during the month of April were upward of ten millions of dollars.

— The Naval Academy is to be returned and reestablished at Annapolis before the next Academic year,—September, 1865.

— Thomas Motley, the father of the historian, died in Boston a few days since, at the age of 82.

—The First National Bank of Bath, Me., has declared its first dividend of seven per cent.

— Jonathan Gilman Esq., for 13 years superintendent of the alms house in Bangor, died Sunday evening.

— Some philosopher says that there are three things important to one who desires to keep his friends, namely—to give much, to ask little, and take—nothing.

— A Richmond paper states that the great fire at Wilmington, N. C., has put an effectual stop to blockade running for the present.

— The House joint resolution appropriating $25,000,000 for the pay of the 100 day troops, was passed by the Senate on Tuesday.

— A New Jersey Masonic Committee, appointed to write a Masonic History of that State, report that Richard Cox was the first Provincial Grand Master of America.

— Col. Forney, Clerk of the U. S. Senate, now appoints maimed soldiers to all the offices in his gift. He has just appointed a one-armed soldier a messenger for the Senate.

— The Governor of Maine has decided not to raise another regiment of heavy artillery in that State, the time allowed, twenty days, being considered too short for accomplishing the work.

— A rebel was captured on Tuesday morning while in the act of taking sketches of forts in the vicinity of Chain Bridge. He was accompanied by three guerrillas, who skedaddled, leaving him behind.

— Massachusetts men resident in Washington are taking steps for the organization of a State political club, which will unite with those already formed by citizens of other States, in erecting a large wigwam and in distributing campaign documents.

— Bangor has raised $2,500 toward a Soldiers' Monument, which is to cost $3,100. It is to be consecrated by appropriate ceremonies, June 17th, and the names of the Bangor soldiers who have died during the war are to be engraved on it.

— A small tin box (an "infernal machine") was placed on the track of a horse railroad in New York city on Friday afternoon, and when a car passed over it, the box exploded and was blown to fragments. The car was not injured.

— There is much talk in Washington about immoralities on the part of females employed in the printing department of the Treasury Department. The subject is about to be investigated by a special committee of the House.

— A Professor at Waterville College, in Maine, has collected during the last two years specimens of one hundred and ten distinct species of birds within two and-a half miles of Waterville, some very rare, and one before unknown.

— Mr. Veazie, of Boston, will shortly publish a volume of the hitherto uncollected writings of Charles Lamb. The volume will be uniform in style with Mr. Veazie's beautiful edition of Lamb's works, and will prove very acceptable to the lovers of gentle Elia.

— The brig Elizabeth, of Bangor, coal laden, for Boston, went ashore on Shark's reef, off Bradford, on Monday night. Her crew were taken from the rigging, where they had remained for twelve hours, by a boat's crew from Fairhaven. The brig was 19 years old and valued at $17,000. She will be a total loss.

GEOLOGY—(THIRD AND LAST.)

[For the N. H. Gazette.]

Friend Müller, For the third and probably the last time in my life, I offer the subject of Geology to your readers.

What a small portion of Geology is offered to the eyes of those who stay at home! I had been able to calculate eclipses some years before I stepped off the metamorphic region where you live; and I could not tell why the stones and the hills were so different. That column you lately gave us on the boulder formation, could find no exemplification between middle Illinois, where I write, and Brazil. The children around me have never seen a bed of blue clay, fine sand or gravel. They have never seen a hill. Boys about Natchez, Mi., have never seen a rock nor a stone. The children in Portsmouth schools have never seen a fossil out of cabinet. You, probably, never have seen perpetual snow, a volcano, a geyser or a glacier.

Geology teaches what to expect to see when we travel, and to understand what we see at home. It helps us understand the reports of Geological surveys, now happily becoming frequent in the states.

Previous to 1863 no decent treatise on American Geology had ever been published. We had Lyell's English Geology bashed up in nearly a dozen ways. Last year gave us Dana's Manual at $4; this gives us his Text-Book at I should guess something like a dollar. These books are 8vo and 12mo, 798 and 354 pages, 984 and 372 figures.—The figures of the smaller work, I judge, are all taken from the larger; but in no other respect is the new book a mere abridgement of the old. The reptilian birds of page 133 are not found in the larger work, having been discovered since.

Prof. D. has introduced quite an improvement in printing geological maps without colors, covering them with systems of marking to distinguish the various formations.—These are found in both books; but the smaller is the most important because more persons can buy it. The scientific and the wealthy can treat themselves to the Manual; but it cannot be required as a text-book even in our best colleges. But the text-book, families can own and academy students can buy. New England alone ought to demand 10,000 copies of it before it is two years old.

Dana has been a staunch defender of the permanence of species. And while Geology shows that the world may have grown from fire mist by natural laws alone, under the superintendence of the creator; and the reported destructions of living species also thus brought about; "science, whatever it may accomplish in the discovery of causes or methods of progress, can take no steps towards setting aside a *Creator*. Far from such a result, it clearly proves that there has been not only an omnipotent hand to create, and to sustain physical forces in action, but an all-wise and beneficent spirit to shape all events towards a spiritual end." P. 339.

Had the quantity of water on our globe been only a little greater or less than it now is, (perhaps 1 per cent. even,) creation "would have proved a failure." P 337. Geology "affords no explanation of the origin of life, or of its species, or of any of nature's forces." P 336.

Geology affords no support to the hypothesis that Species have been made from preexisting species, and suggests no theory of developement by natural causes. In other words, it has no facts sustaining the notion that man was made through the gradual progress or improvement of some one of the apes, or by any method of developement out of an ape; or that the Elephants were so made from Mastodons, or the reverse, or from any other species; or one species of monkey, cat, horse, etc., from another. "Species do not shade into one another as if they had originated by transitions from one another. Groups commence sometimes in their higher species. Thus fishes—the earliest of Vertebrates—begin with ganoids and sharks, with no evidence of a progress upward from lower species." P. 256.

Such testimony would be conclusive with some who would reject that of Moses. Happily they agree completely. Prof. Dana probably does not know the writer by sight. I do not know that I have even received a favor of him or his family beyond a glass of water. My remarks on his books are dictated by no considerations of regard to him, but by a love to science that would lead me so to speak of the work of a personal enemy, if I spoke of it at all. I do not predict that there will be no smaller book desirable, for common schools for instance, but I do not look for any improvement on these two volumes in my day, except to write in future discoveries.

I notice however one blunder, a curious illustration of the mistakes that master minds make. Dana is certainly one of these, three savants condensed into one. In mineralogy I know not his superior in America, nor in geology, nor more than one in zoology. In chemistry too, and in mathematics, he is above par. Now on Page 322 he says "The oceanic area is three times as large as the continents; and consequently, if the earth's crust beneath the oceans were throughout to sink *one-third of 200 feet*, the water level would sink away from the land to a level of 200 feet below the present level." This, with two typographical errors, (Leclaire, Scott Co., Iowa, given as in Illinois for one, the other a punctuation mark omitted) are all the faults I have seen in the two volumes.

NEW HAMPSHIRE ITEMS.

——Counterfeit 10s on the Valley Bank, Hillsborough, are circulating in Providence.

—— The re-enlisted Veterans of the 7th regiment, numbering two hundred men, left Concord on Tuesday for Washington.

—— A meeting of the pew-holders in the Wesleyan Methodist Church in Exeter is called for Tuesday next, to decide whether the church shall be repaired or sold.

—— Co. E, 13th Veteran Reserve Corps, 80 men, Capt. Wm. L. Ryan, arrived in Boston, on Tuesday afternoon, from Concord, N. H., and took up their quarters at Beach street barracks.

☞ We are indebted to Messrs. L. Prang & Co., (of 159 Washington Street Boston,) the lithographic publishers, for liberal samples of their beautiful album pictures,—concerning which the Commercial Bulletin makes these very just comments:

Those who have not paid special attention to the progress of lithography and color printing, would doubtless be surprised and delighted to visit the establishment of Messrs. Prang & Co., and inspect the productions of their presses. Of special interest are their album and pictures in oil colors. These little gems of art for the album and drawing-room table are artistically designed and executed in the most exquisitely tasteful manner; they include the birds, flowers, butterflies, and autumn leaves of America, wood and sea mosses, American scenery, &c. To enumerate their illustrated publications, and describe their merits as they deserve, would occupy more space than we can afford. We would state, however, that Messrs. Prang & Co. publish a complete catalogue, which they will mail to any address.

Mr. Shores and Mr. Loud, at their bookstores, have a good assortment of these pictures, what are well worth looking at.

MECHANICS AND TRADERS BANK.—The Board of Directors of the Mechanics and Traders Bank, consisting of Messrs. Richard Jenness, Albert R. Hatch, John Knowlton, Samuel Cleaves, and T. J. Parsons, having resigned, the following gentlemen have been elected to supply the vacancy: Messrs. Geo. L. Treadwell, John Sise, W. H. Rollins, Chas. Robinson, jr., and E. A. Stevens. Subsequently Mr. Geo. L. Treadwell, was elected President.

☞ Mr. Thomas S. Gay, of this city, has been appointed Master's Mate in the U. S. Navy, and ordered to report to Rear-Admiral Paulding at New York.

☞ Sergt. Edward G. Parker, of Kittery, has been promoted to 2d Lieutenant, Co. B, 17th Maine Regiment,—one of the fighting regiments in which promotion is indeed an honor.

ANSWER A FOOL ACCORDING TO HIS FOLLY.—The following item has gone the rounds of the disloyal press, generally:—

WHO PROCLAIMED WAR?—The New York Times, an accredited leading Republican paper, in its issue of the 6th ult., in an editorial taking issue with Thaddeus Stevens for stating that the Rebel States are belligerents and "that they are no longer in the Union," writes this down as a fact that cannot be gainsayed: "The Confederacy wanted peace, and sent Commissioners to Washington to secure it. We would not receive them, and proclaimed war! They accepted war. The question who fired the first gun is nothing."—*Wash. Union.*

Solomon advises in one place,—"Answer not the fool according to his folly,—lest thou be like him." And in another verse he advises,—"Answer a fool according to his folly,—lest he be wise in his own conceit."

A liberal construction of the two texts might be that it is not best to take notice of fools every time they speak, or of dogs every time they bark; but once in a while it might be well to drive away the dog and rebuke the fool.

The folly of the above extract, is, that it does not say *what kind* of a peace the Confederacy wanted. And the answer should show what they *did* want.

The leaders of the rebellion and the rulers in the confederacy are mainly the same men who strangled Douglas and broke up the democratic party. What kind of peace did they want, and at what price? They demanded the abject submission of Douglas, when in the Senate he stood up against the Lecompton Swindle, by which they meant to fasten slavery on Kansas. And then at Charleston they demanded the abject submission of the democratic party as the price of *peace* in that party! The friends of Douglas being three-fifths of the whole, would not submit to have him thrown overboard and slavery declared paramount and perpetual, even for the sake of peace! and because they would not, the embryo confederacy trod the party to death.

It must not be supposed for a moment that Mr. Douglas and the democratic party were abolitionists, because they thus resisted the new aggressions of the slave power. No, no: they did not trouble themselves about the slavery of the negro: but when the negro's master claimed to be the master also of Douglas and his democratic friends, and to drive them as his slaves,—then it was, to use the words of a noted rebel, that "the yankees rebelled against their Southern masters" and broke up the beautiful *peace* and harmony of their household.

Next the same embryo confederacy demanded *peace*, in Washington, on this wise. Lincoln and Hamlin were known to be elected by the people; but their election had not yet been *declared* in the Senate by Breckinridge: on the day when this should be done, Mason rose in the Senate, and asked, Why are all these armed men in Washington? No one answered; but every one knew they were there at Gen. Scott's suggestion, to *prevent an outbreak*. Breckinridge thought it prudent to declare it,—but it was not the *peace* they desired: they wished the traitors *peaceably* to prevent the declaration, and to have the egg hatched into the *Confederacy*, in Washington. The armed men prevented it.

Then came a bubbling cry of traitors and cowards, advising President Lincoln not to take his seat: and at the same time the waylaying plot, to assassinate him as he passed along on the railway train. And these were *peace* notions, *par excellence*.

Last of all came on the Crittenden resolutions and the peace congress;—where the Confederacy proposed for substance to make slavery perpetual and National as the only terms of *peace*, and leaving it doubtful whether even these would avail.

To consent to this would have been the suicide of the republic, and the erection on its ruins, of a despotic slavocracy. It was simply *impossible* for freemen to do it,—as it had been for the Douglas democrats to do the same thing the year before.

Such a *peace*, or such offers of it, are all we have seen. But the end is not yet.

THE WARNING.

Touch it not, ye do not know,
Unless you've borne a fate like min
How deep a curse—how wild a woe—
Is lurking in that ruby wine.
☞ Look on my cheek, 'tis withered now,
It once was round and smooth as thine—
Look on my deeply furrowed brow—
'Tis all the work of rankerous wine!

I had two sons, two princely boys,
As noble men as God e'er gave;
I saw them fall from honors, joys,
To fill a common drunkard's grave.
I had a daughter, young and bright,
As pure as ever woman bore;
"Where is she now?" Dost ask me where?
Bend low—I'll tell the tale once more.

I saw that fairy child of mine
Linked to a kingly bridegroom's side;
Her heart was gay and free as thine—
Oh! would to God she then had died.
Not many moons had filled their horn,
While she upon his bosom slept;
'Twas on a dark and dismal morn,
She o'er a *murdered husband* wept!

Her drunken father dealt the blow—
Her brain grew wild, her heart grew weak;
Was ever tale of deeper woe
A mother's lips had lived to speak?
She dwells in yonder darksome walls—
No ray of reason e'er doth shine—
She on her murdered husband calls;
'Twas done by *wine, by cursed wine*.
—ALABAMA JOURNAL.

— At a school for contraband children down in Northern Alabama, the teacher used the phrase "common sense," and asked what it meant. The reply was prompt and decisive, from a boy of ten—"Not to steal; to behave yourself, and not to curs and swear."

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

If the reader of, this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 209

SCHOOL MISTRESSES, ATTEND.—Of course you often notice among the little ones committed to your charge some who are afflicted with ringworm, or other diseases of the scalp and skin. Now, if you kept in your desk a box of Grace's celebrated Salve, you would have a cheap, safe and simple remedy at hand. Besides, sometimes the little folks cut or bruise their fingers or toes, and a little of Grace's Salve rubbed in will speedily set all to right. And the school ma'am, herself may have chapped hands or lips, or her face may be tanned. Well Grace's Salve will soon set all to rights, and it is only 25 cts. a box.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

Have Room Papers Advanced in Price, like other things?

J. F. SHORES, Jr.,
No. 1 Congress Block,
Is often asked this question; and would answer that he still sells
ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.
These are not of so good quality as were formerly sold at those prices—still they are very fair.
Twelve and a half Cent Papers have advanced to Fifteen and Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6:

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. The invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is as recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from those present also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.

Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.
I am using in my house the "Anderson Spring Bed Bottom." I consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.
WM. HIGGE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.
Farmington, Feb. 28, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER: sir—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.
Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed," sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.
A. P. BLAKE, Squamscott House.
Exeter, May 5, 1863.

NEWMARKET, May 2, 1863,
I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep. HENRY H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863.
I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.
B. P. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 24, 1863.
I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it, as it works to a charm. I think six dollars can not be expended to better advantage.
O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "old style" in general use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED BOTTOM is an improvement well suited to these times of cross-slats, stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for six weeks past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be classed among the few valuable "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of **E. M. BROWN & CO.,** Agents for Portsmouth and Newington, at their store, **No. 33 Market Street.** where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

During the battle of Shiloh an officer hurriedly rode up to an Aid, and inquired for Grant. "That's him with the field glass," said the Aid. Wheeling his horse about, the officer furiously rode up to the General, and touching his cap, thus addressed him: "Sheneral, I vants to make von report: Schwartze's Battery is took." "Ha!" says the General "how was that?" "Vell, you see, Sheneral, de t—d Sheshebenists come up in de front of us, de t—d Sheshebenists flanked us, and de t—d Sheshebenists came in de rear of us, and Schwartze's Battery vas took." "Well," said the General, "you of course spiked the guns." "Vat!" exclaimed the Dutchman in astonishment, "schpike dem guns—schpike dem new guns! No, it would schpoil dem!" "Well," said the General sharply, "what did you do?" "Do! Vy, we took dem back again."

A Paris paper relates that Lord B——, finding Good Friday very dull, thought he should like to devote it to the study of the prison discipline of Paris, and applied for an order to visit Clichy, which was refused him. My lord was not to be beaten; so he sat down and wrote as follows to one of his tradespeople: "Secret and confidential.—Lord B——leaves Paris to-day, and will never return. A FRIEND." On receipt of this document off goes creditor to the authorities, and gets permission to arrest his fugitive or about to be fugitive, debtor. This is done *en route*, and Lord B——gets into Clichy, sees what he wants, and then pays the debt and goes home to dinner at the Trois Frères, taking with him the bailiff who arrested him and his creditor.

HAPPY is the man who is an early riser. Every morning day comes to him with a virgin's love, full of bloom, and purity, and freshness. The youth of Nature is contagious, like the gladness of a happy child. We doubt if any man can be called old, so long as he is an early riser and an early walker. And (O youth! take our word for it) youth in dressing-gown and slippers, dawdling over breakfast at noon, is a very decrepid, ghastly image of that youth which sees the sun blush over the mountains, and the dew sparkling upon blossoming hedgerows.

DR. TEBBETTS'

PHYSIOLOGICAL

HAIR REGENERATOR

AND

UNIVERSAL HAIR RESTORER.

ITS MODUS OPERANDI.

Immediately beneath the scalp, there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is normed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when, from some other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle, sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness in the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—hundreds in it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no injurious matter whatever, and is not the least injurious in its application.

2. It will certainly STOPPER the hair from a gray, in a common Hair Dye, black, brown, or whatever might have been its original color.

3. It will effectually prevent the hair from falling out, and restore all that is left, Inflammation and Dandruff from the scalp, keeping the head free and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate Itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful Hair Dressing.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is fully warranted that this very short time it will have a world wide reputation.

HOME TESTIMONY.

BROOKLYN, L. I., Dec. 17, 1862.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost brown. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria, it stopped it immediately on the application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly coming on. I have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1862.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Director New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopeless, are constantly cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and candid, to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition so becoming as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "I cure, others are too quick," while others doubt their permanence, and think that diseases can only be cured by the slow recuperative process of Nature. This is our reply:

In health, the body, like a well-poised scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease. What we do, is to operate to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Parabasis Agitans.

It is so universally admitted that Constitution Life Syrup is the most effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Heartburn, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with sad misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

There is any disease in which the Constitution Life Syrup is a sovereign, it is in these and its kindred affections. The most intense pains are made to instantly alleviated—chronic swellings are reduced. Cases, chronic or chronic, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Trembling, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove a comfortable blessing—directing their footsteps to a Hope which fulfills more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Foul Complexion, Pain in Bones, Decayed Spots.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Foul Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and stem, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, and make life seem a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Bosom, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome and dangerous sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous condition. These cases soon recover by taking a few doses of Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovarian sac, Leucorrhœa, Menstruation, Inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease may be of years standing, but Constitution Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of glands of the neck will be completely reduced without recurring to the knife or operations of any kind.

Palpitation, Sympathetic or Organic Diseases of the Heart, Fluttering, Smothering, Sinking, Weak, producing a grating or oiling sound, Dropsy of the Heart, Cure and all the affections of this important organ, which are so distressing to the sufferer, pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion in Exercise, Pain in the Stomach, Nervous Debility, Want of Sleep, Loss of Appetite, Fear of Disease, Dimness of Vision, Dry Hot Skin and Intermittent, Want of Sleep, Restlessness, Pale Bloodless Countenance, Want of Energy, Want of Ambition, Loss of Memory, Want of Sexual Power, Impotency, Sexual Exhaustion, Sexual Debility, Premature Decay, and Impotency, all require the aid of the CONSTITUTION LIFE SYRUP.

For all Secret and Secretive Diseases, either of the Nose Throat, Tongue, Spine, Neck or Scalp, no remedy has ever proved its equal.

FOUL FAVORITES upon the female face, depending upon a disordered system, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will cure the disease, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, disinclination to exertion, loss of flesh, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, the use of Life Syrup will by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.*

Disease of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease or which they are in fear of, do not know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their patient endurance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when you have the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth, strengthens both the mother and the child, prevents gripings, colic and diseases and enriches the food—Those who have used it think it invaluable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in that class of Female Diseases (Whites in females) where all the old nostrums would have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an only or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, where the effects are nothing, nothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any druggist in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

LEAVES.

CHEROKEE

CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Nervousness, Trembling, Hopelessness, Dyspepsia on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, when all other quack doctors have failed.

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sod iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacturers and sole of valuable Furnace, would ask those about remodeling or erecting buildings to examine this highly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The results have been serious, the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fine or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the Furnace can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This furnace does away with the great number of pipes and angles for the collection of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Shaw, and others.

Gray's Patent

Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge, presents a perfect curve, free from the angles noticed in all other collars.

The curve at causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Turnover Collar, has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each; the latter is very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped

The Chronicle.

☞ Gov. Seymour, of New York, and Gov. Parker, of New Jersey, both chosen as democrats, are denounced and thrown overboard in the following summary manner by the Newark Daily Journal of April 25. The paper is edited by Mr. Fuller, formerly of the New Hampshire Gazette; and it says in an editorial:—

What excuse, we ask, can Governor Seymour, of New York, or Governor Parker, of New Jersey, offer for their submissive zeal in the cause of this wretched war?—They have the applause of the abolitionists, it is true; but do ninety-nine out of one hundred Democrats believe that these Executives have been anything less than the most effective Union-splitters in these two central States? Have they not proved the most influential advocates of this miserable Abolition war? We doubt, indeed, whether the contest could have been continued contrary to the wishes of Governors Seymour and Parker; the necessity of New York and New Jersey to our military situation being of an imperative character. We feel thoroughly assured that it was at one time in the power of these two functionaries to bring about, by legitimate means, a position of affairs which *must* have brought the belligerent sections of the country to early *terms* and saved the further effusion of blood.

These legitimate means must have been other and absolute rebellion against the United States, under the name of State Sovereignty, after the pattern of Magoffin of Kentucky. Such rebellion would have brought the war from Virginia into New York, or resulted in the utter subversion and subjugation of our Union under the Confederacy of Davis and Toombs, Mason and Slidell, Soule and Polk.

The reader will observe that the above extract is not what a republican says of a democrat, or *vice versa*,—but what a copperhead says of the *only two "Democratic" Governors* in the United States!

It is surely high time for every candid man in the Democratic party to ask himself whether it is honorable or safe to be led any longer by a press which encourages treason and discourages loyalty every day or every week.

One more extract shall suffice for the present. The paper adds:—

But whether we are right or wrong in these conclusions does not materially affect the present state of affairs. We are safe, we believe, in assuming that the Democracy have fully accepted Mr. Long's theory.

We may rightly claim that the Democracy is essentially and practically a peace party. That the Union can be restored by a war is an established fallacy; and the Peace Democracy have gained this acknowledged position after three years of war. But they must not be content with this noble triumph. They have higher questions yet to solve, greater prejudices to encounter, *bolder* positions to assume.

There can be nothing bolder than this written treason, unless it be *actual rebellion* and civil war waged by the *"Peace Party"* of the Free States against their own State Governments and against the Union, as allies of Jeff. Davis & Co.

Though the Newark paper and similar sheets, with their owners and managers, may advise this—we suppose the *Democracy* are not ready for it:—and though some of the old leaders may be, the rank and file of the democratic party will desert by thousands whenever their leaders hoist the black flag of treason and rebellion. U. T.

STATISTICS OF THE HUMAN FAMILY. In the last Congregational Quarterly there is an article on this subject, containing the following estimate of the religious divisions of the population of the world:—

Pagans	650 millions,	or 65	per cent.
Mohammedans	100 "	10	"
Catholics, Greeks and Jews	175 "	17½	"
Protestant Christendom	75 "	7½	"
Total	1,000 millions,	or 100	per cent.

The writer also thinks that not over one in seven, or one in ten, of the inhabitants of Protestant communities, are "living Christians," and as he does not appear to think the phrase applicable to "Catholics and Greeks," we are led to the conclusion that, in a population of the world estimated at over one thousand millions, only seven or ten millions are "living Christians." The writer has reason to add that, with his peculiar limitation of Christianity to a preferred doctrinal creed, the contrast between "the real friends of the Lord Jesus Christ and the world is painfully striking."—*Boston Transcript.*

No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the ease in all chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down or lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O5)	17.2
Soluble " (ca O P O5)	11.5
Organic matter	31
Sulphate of lime	28.
Alkaline of salts	6
Insoluble matters	2.
Water	7.8

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphate and the ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis, I selected from the entire stock which was prepared for the market.

Twenty years devoted to this particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer independents to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Groins, Venereal Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blies, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a physician who has cured thousands, in almost every part of the United States who applied to Dr. T. broken down in health, now restored to all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for every body—Starling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Morning Chronicle.

Portsmouth, N. H.

FRIDAY, MAY 6, 1864.

THE REBELLION.

The Richmond Examiner states the rebel loss at Plymouth, N. C., at upwards of 2300 men. Twelve regiments from Lee's army were part of the attacking force, which had sixty pieces of artillery.

Little Washington, N. C., was burned by straggling soldiers and marines when it was evacuated. The city was mainly owned by Union people. The loss was very large. The people are reported to complain against Gen. Butler on account of the destruction of the town. It is said that the rebel rams will make an attack on our fleet, without waiting for assistance from their army.

Advices from Port Myers, Charlotte Harbor, state that on the 20th, a detachment of the Second U. S. colored troops, under Capt. Crane, landed on the mainland, drove back a rebel force, captured 300 cattle, and returned on the 25th.

Memphis advices report that the rebels followed Gen. Banks' forces from Grand Ecore, and when near Cane river an engagement took place, in which the rebels lost 1000 men and nine pieces of artillery. Our gunboats are safe notwithstanding the wild rumors to the contrary.

A Union disaster in Arkansas is vaguely reported,—that Marmaduke had captured 1000 prisoners, 240 wagons, and 7 pieces of artillery.

Our troops occupied West Point, Va., at the head of York river, on Monday, May 2.

Perley telegraphs that in Washington the best informed persons are of opinion that Lee has fallen back below the North and South Anna Rivers, and some think that he will concentrate his forces around Richmond.

Gen. Meade has issued an eloquent and patriotic address to his troops, stating that their movements being in co-operation with others, it is of the utmost importance that no efforts should be left unspared to make their share a success. The army has no longer heavy, cumbering trains. Gen. Grant has issued an order prohibiting the issue of any but shelter tents, and those who do not like these have the privilege of dispensing with them.

The Army of the Potomac on Tuesday night commenced its advance towards Richmond, and has crossed the Rapidan, without opposition. Lee has fallen back from his strong position, and may fight at Chancellorsville, or it may be a foot race between the armies to Richmond.

RECONSTRUCTION.—The U. S. House of Representatives, on Wednesday, passed the bill guaranteeing a republican form of government to States overthrown by the rebellion. By its provisions delegates to the state convention are to be chosen by the loyal white male citizens: a majority, instead of one-tenth, of the people is required to take part in the election. Any person who has taken part in the rebellion unless his office has been merely municipal, or military below the grade of colonel, is forbidden to vote for delegates; or, subsequently, to vote for or be Governor or a member of the Legislature,—such a person being decided to be not a citizen of the United States. The President is authorized to appoint a Provisional Governor until the State is recognized by the general government.—Slavery is to be forever prohibited by the state constitution. No debt contracted in behalf of the rebellion is to be recognized or paid by the State. The bill has yet to be acted upon in the Senate. Several Representatives voted for it under protest, because of the clause confining the elective franchise to white persons.

— The reports from Little Washington are probably exaggerated.

— The Baltimore Sanitary Fair yielded nearly $60,000.

— The draft in Maryland has been ordered to take place immediately.

— The exportation of silver from Northern Mexico is becoming a notable feature. Many California Companies are working there.

— Some of the scandalous stories in circulation about female clerks in the Treasury department have already been shown to be without foundation.

— Neal Dow has so far recovered as to be able to be on the street, and from present appearances will be ready to resume his command when the time of his furlough shall have expired.

— Governor Brough, of Ohio, has issued a proclamation thanking the National Guard for their noble response to his call. The Guards are rapidly assembling at their camps ready for duty.

— There are indications that the rebels are reviving their schemes for procuring war vessels in Europe, which will join those being fitted out in Southern waters and attempt to make a demonstration against some Northern seaport.

SIFTINGS AND SHIFTINGS.

— The U. S. House passed the fortification appropriation bill, on Wednesday.

— The detective force in the Chicago police has been dissolved.

— During the month of April the Fourth Auditor's office distributed $506,100 of prize money, and settled 3, 299 prize claims.

— The steamer Alexandria has been given up by the British Government to her owners.

— The Shakespeare banquet on the tercentenary was prohibited in Paris by Imperial authority.

— No mail communication from the Potomac is permitted, as contraband news might be transmitted and spoil plans thus far kept secret.

— Twelve thousand bales of cotton were burned by the rebels in the vicinity of Camden, Ark., previous to their evacuation of the place.

— Rev. Dr. McClintock, who has been the pastor of the American Chapel in Paris for the last four years, has returned to this country.

— The floor of a dance hall in Bridgeport gave way the other night, and let "the beauty and the chivalry" into the cellar.

— Ice is cheap in New York,—two dollars per ton at wholesale. Last year the price ranged from five to twenty dollars during the warm weather.

— The Supreme Court of Massachusetts has decided that a will made on the Lord's Day is legal, it not being a matter of contract.

— The Boise News of Dec. 26, 1863, says: "Justice Walker fined himself $5 on Tuesday morning, for becoming angry in Court and swearing at an attorney."

— In describing the difference between aristocracy and democracy, it is wittily said of Cincinnati—the democracy are those who kill hogs for a living; the aristocracy are those whose fathers killed hogs.

— The N. Y. Commercial's dispatch has a rumor that a rebel spy had been seized in Washington who had come from New York with letters from persons who claim to be loyal, giving information to the rebels.

— It is said that the official records of the military authorities show that upward of one hundred and fifty female recruits have been discovered, and made to resume the garments of their sex.

— The latest novelty for lazy smokers is a brand called "pipe charges." It consists of a solid looking "wad" of tobacco, neatly made in such a shape as will just fill a common pipe bowl.

— The accounts of the wretched condition of the returned Richmond prisoners, now at Annapolis, are so astounding that the War Department has requested the Joint Committee on the Conduct of the War to visit these victims of rebel barbarism.

— At a book sale in New York on Tuesday evening, a copy of Eliot's Indian Bible, said to be the most perfect in America, sold for $325. An illustrated copy of Dibdin's "Bibliomania" brought $720; a plain copy, $100.

— Mr. Hersey G. Palfrey, of Boston, formerly a private in the 13th Mass. regiment, has received an appointment as Captain in the 4th regiment Engineers, Corps d'Afrique, in Louisiana, and has left for his post. It is an appointment well merited.

— "Steven Spear" of Braintree, advertises that he wishes to secure a place to supply a pulpit as a practical preacher of the gospel, and his wife would like a chance to do housework or work at the tailor's and dress-making business.

— The House has concurred in the Senate's amendments to the Navy appropriation bill, appropriating $7,200,000 for the completion of sixteen screw steam sloops, $4,000,000 for the purchase and repair of vessels for Western waters and $3,000,000 for purchase and charter of vessels for blockading purposes.

— The House of Representatives on Tuesday passed unanimously a bill increasing the pay of privates, on and after May 1, from $13 to $16 per month, and of non-commissioned officers as follows: Corporals $18, Sergeants $20, Orderly Sergeants $24, Sergeant Majors $26 per month, clerks to Paymasters $1200 per annum, etc.

— The Postmaster General has ordered the sale of the "matters" taken from unclaimed letters in the "Dead Letter Office" since 1859. There are three thousand lots, embracing a most miscellaneous assortment. Gold and silver watches, jewelry, photographs and daguerreotypes by the score, books, musical instruments, &c., &c., and so forth.

— The Barnstable Patriot says a contractor from East Boston has removed a dwelling at Hyannis, Mass., a distance of two hundred feet, without disturbing a brick from the chimneys or a dish from the pantries. The occupants were allowed to pursue the "even tenor of their ways" within, during the removal, and suffered no inconvenience in doing so.

NEW HAMPSHIRE ITEMS.

—— Samuel C. Eastman, Esq., has been elected City Treasurer of Concord, vice P. S. Smith resigned.

—— Maj. S. D. Farnsworth of Manchester, late Paymaster in the United States Army, arrived home on Monday evening.

—— The Nashua Lock Company makes 125 different styles of locks and latches. It is the oldest manufactory of the kind in the country, having been established in 1832.

—— George Wood, long and favorable known as a vocalist and musician, died in Concord on Tuesday morning, after an illness of two weeks.

—— The First National Bank, of Nashua, has declared a dividend of 3 per cent. payable May 16, on four and a half months of its business.

—— The Union states that Mr. George W. Rowell cut on Tuesday in his garden in Manchester "the earliest rhubarb it has heard of this season."

—— J. K. Averill, formerly editor of the Sullivan Republican, was recently killed at Morris Island, during the siege of Charleston. He entered the army as a substitute.

—— The Annual Convention of the Protestant Episcopal Church for the Diocese of New Hampshire for 1864 will be held at Claremont on the 25th and 26th of the present month.

—— Dr. Thomas Chadbourn, an eminent physician, died in Concord on Friday morning last at the age of 73 years. He went to Concord in 1824, and retired from active pursuits by reason of a paralytic shock about four years since.

—— A little boy fell back into a pail of hot water in Manchester one day last week and was badly scalded but will probably recover. Another nearly lost its life in swallowing a piece of cake which lodged in the throat. It was in spasms two hours.

—— A Concord dispatch states that a project for a daily paper was started there on Wednesday, and a fund is to be raised to run it for a year, "the proprietors having various objects to be promoted, including the location of the capitol, the Senatorship, the Gubernatorial nomination, and others more or less personal."

—— The Mirror states that as a son of Mr. Benj. S. Stokes, of Manchester, was "looking through a hole in a partition on Tuesday morning, a person on the other side thrust a stick through, and it entered his eye, penetrating to the chamber of the eye, and letting out a portion of the aqueous humor or transparent fluid occupying the front chamber of the eye."

—— Another woman has been killed in Manchester in endeavoring to escape from the room over the City Marshal's office, by leaping to the brick pavement, 40 feet below. She was an Irishwoman, Mrs. John Walsh, and being about 11 o'clock on Monday evening arrested for noise and broil was locked in this room in the third story. About 12 o'clock a watchman found her lying on the pavement dead. This is the fifth woman who has jumped out of that window. Three have died and two were severely injured. After the first woman was killed the authorities placed some iron gratings upon the inside of the windows, but they did not extend to within about 3 feet of the top. After the gratings were put up the women had no difficulty in climbing upon them to the open space at the top.

GENERAL BUTLER.—We are pleased to see that Mason Brothers, of New York, have issued a People's edition of "Gen. Butler in New Orleans," by James Parton. It is printed in double-columned pages, bound in paper covers and sold at 75 cents. The work is graphically written and intensely interesting: while as a history of one of the most important sections of the rebellion it should be familiar to every loyal American.

☞ Late advices from Europe state that screw steamer Kearsage was firmly aground on the Leopold embankment, off the port of Ostend. She had chased a blockade runner, and was making for Ostend for provisions, in charge of a pilot. She bore her position very well, however, and it was expected that when lightened of her heavy guns and shot, she would float off. But it will be necessary to take her into dock.

☞ The U. S. Senate, on Wednesday, passed the following resolution, by a vote of yeas 26, nays 11:

That a quorum of the Senate consist of a majority of the Senators duly qualified or chosen. If a majority of the Presidential electors duly appointed and qualified vote for one person, he shall be President of the United States; and if the election of a President devolves upon the House, and the votes of the majority of the States represented in the House be cast for one person, then he shall be declared President elect of the United States.

LOUIS XIV.—The death of the queen affected him in the severest degree. "Good God!" said he, when his attendant forced him away from her lifeless body, "is it possible that the queen is dead—and that I must forever lose her, who never gave me pain but when she died?" It is not easy to pronounce a funeral oration in fewer words, or give a stronger evidence of a happy married life.

☞ Dispatches from Memphis state that eight officers of the gunboat Petrel came up on the steamer Wilson. The attack on the Petrel was a complete surprise. One broadside was given, when her commander ordered her to be set on fire to prevent her falling into the hands of the rebels. It is believed the firing was not effectual. The Petrel carried eight brass 24-pounder howitzers, and had on board a number of small arms, and was provided with ammunition and supplies for six months. It is known that the enemy have been removing her guns to Yazoo City, where they had a battery posted when the Petrel passed, and which they used against her without serious damage.

THE IMMENSE POPULARITY OF THE

California Wines

Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage

American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The Sediment once leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the finest or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend the Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 82 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others the fault which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in their office, should be at once withdrawn and presented to this office.

"A Slight Cold," Coughs.

Few are aware of the importance of checking a Cough or "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.

"Brown's Bronchial Troches," give sure and almost immediate relief. Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.

☞ We learn that the Strafford Guards, Capt. Littlefield, of Dover, will arrive in this city per C. & P. Railroad, at 12 o'clock to-day; and will be received by the City authorities, and a detachment of the Horse Guards, with the Portsmouth Cornet Band, and escorted to Fort Constitution.

The Company at present stationed at Fort Constitution, commanded by Capt. Long, will leave there immediately on being relieved by the State Militia; and will be escorted to the Depot in the afternoon, when they will leave for Washington.

☞ Those who have visited the wharves of this city about six o'clock on any week-day evening have observed the crowds of Navy Yard workmen embark in their several boats, each striving for the mastery in speed and the advantage of tide, eddies, &c.; and if said lookers on know anything about boating, they will readily conclude it is a hazardous experiment to undertake in the midst of this general rush of boats for the other side of the river,—to run another boat in a diagonal course from Neal's ship yard, Kittery Foreside, to the South End wharves in this city. Yet an adventure of this kind was made on Wednesday evening, which resulted as follows:—A whale boat, containing a number of workmen employed at Neal's ship-yard, was run against by a whale boat from the Navy Yard, causing the former to sink in less than three minutes. The occupants were picked up by some other boat's crew, and thus saved from a watery grave.

ELIOT BRICK CO.—Messrs. John Merrill, President, Charles Durham, Treasurer and John Merrill, N. B. Hayes, J. W. Smith, and Joseph R. Richards, a majority of the Directors, announce by advertisement in the Boston Courier, a company of which the corporate name is the Eliot Brick Company, having its principal place of business in Boston. Its purposes are to acquire brick lands in Eliot, Me., and elsewhere, and to make and sell bricks. The amount of capital stock is one hundred thousand dollars, all of which has been paid in. The par value of the shares is $50.

POLICE COURT.—Jerry Newman, and William Jackson, for an assault on Richard Fitzgerald, were sentenced to 20 days in the county jail, and to pay half the costs each, taxed at $3.34, and to give bonds in the sum of $50 for their future good behavior.

☞ The Army Committee of the Boston Young Men's Christian Association acknowledge, among other contributions in aid of our soldiers in the army and navy, the following: Christian Church, New Castle, $3.75; Ladies' Soldiers' Aid Society, Raymond, $5.; Hattie C. LeBosquet, Newington, $1.; Soldiers' Aid Society, Barrington, $30.

☞ Kent's Indian Troupe appear at the Temple to-night. Their exhibition consists of representations of their habits and customs, including songs and dances; snow shoe race; religious, marriage, funeral and other ceremonies etc., etc. Presents of Indian Bead Work are also bestowed upon the audience.

☞ Among the appropriations made by the U. S. House of Representatives, on Wednesday, for fortifications, was $50,000 for Fort Constitution, Portsmouth harbor.

☞ Acting Master Edward Moses, of the U. S. barque Fernandina, has arrived at his home in this city, being very ill.

SCULPTURE.—At the store of Mr. Geo. W. Clark, in Newburyport, a fine specimen of the work of Mr. D. M. French is on exhibition. He entitles it Morning, but as well could it be called Youth, or Spring. It is a female bust, representing the American face, the hair decorated with May flowers—the trailing arbutis. It will excite the admiration of those who see it here, as it has when exhibited in Boston. Mr French will be remembered as having exhibited some of his work, at the store of Mr. Wm. W. Caldwell, some years since, which was much commended. Since then he has studied with the best masters in America, and is every-where highly esteemed as an artist. He executed the portrait bust of Rev. Dr. Peabody of Harvard College; and has done other work on which no mean artist would be employed. He intends hereafter to complete his studies in Italy; but before that will make Newburyport his residence, and has taken rooms on Liberty street, where he will execute orders for marble work, and especially give attention to monumental work. Some of his monuments may be seen at Oak Hill Cemetery. *Newburyport Herald.*

THE MAY FAIR.—The inclement weather of Tuesday morning was a damper to the hopes of the managers of the May Fair at the Town Hall, as it prevented the expected arrival of hundreds from the neighboring towns to breakfast. A goodly number of our citizens, however, patronized the fair during the day, and the weather clearing up in the afternoon, the evening entertainment was attended by a large and cheerful audience.—*Ballot.*

BRIGHTON CATTLE MARKET.

WEDNESDAY, May 4.

At market 821 beef cattle, 4735 Sheep and Lambs, 1700 swine. Number of Western Cattle, 291; Eastern Cattle, 60; Working Oxen and Northern Cattle, 230; Cattle left over from last week, 89.

PRICES.—Beef Cattle—Extra, $12 50 a 13 00; first quality, $11 50 a 12 00; second quality, $10 50 a 12 00; 3d quality, $9 75 a 10 25, per 100 lbs., (the total weight of hides, tallow and dressed beef.)

HIDES—10½c. per lb.

WOOL SKINS—$3 50 a $4 50. Sheared Skins 35 a 50c.

TALLOW—10c per lb.

Calf Skins 22 a 23c.

There are not so many Beeves at market and the quality is better than that of last week.—There was more of an evenness in the grade of the cattle than is usual, and a large proportion of them were first quality Beef. Trade has been active at a slight advance in prices, and nearly all the Western cattle were sold on Tuesday.

STORES.—With the exception of Working Oxen and Milch Cows but few Stores are driven to market at this season of the year.

WORKING OXEN—Sales at $290, $170, $215, $185, $210, $160, $175, $150 and $135 per pair.—But few pairs at market.

MILCH COWS—Sales at $40 a 65 for ordinary, extra $75 a 100. The prices of milch cows depend altogether upon the fancy of the purchaser.

SHEEP AND LAMBS—Sheared Sheep 8¾ to 9c per lb; Wool Sheep, 8¾ a 10½c per lb. Western Wool sheep 9 a 11c. In fair demand. There is a large number of good Sheep at market, rather more than is required this week.

SWINE—Wholesale 8 a 9c and 8¾ to 9½c per lb; retail 9 a 10c per lb; select lots 9 a 10c per lb.—Fat Hogs, 9 a 9½c per lb; 700 at market. Trade dull. [Reported to the Boston Courrier.

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 209

RYE, N.H., Feb. 26, 1846. "I thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to no the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Blood Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with diseases of my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest, by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and BLOOD WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named. ISAAC CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)

Another Triumph of American Genius!

Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of this country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.

Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.

I am sleeping in my house the "Anderson Spring Bed Bottom." I consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.

WM. HUSE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.

Farmington, Feb. 28, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER: Sir:—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.

Newmarket, July 5, 1858.

I have introduced into my house the "Anderson Spring Bed," sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.

A. P. BLAKE, Squamscott House.

Exeter, May 5, 1863.

NEWMARKET, May 2, 1863.

I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep. HENRY H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863.

I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.

B. F. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 24, 1863.

I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it, and it works to a charm. I think six dollars can not be expended to better advantage.

O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in general use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times of cross-slats, stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for six months past, we feel a pleasure in recommending this to the public as an easy sleep and healthy bed, which must be classed among the few *valuable* "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of E. M. BROWN & CO., Agents for Portsmouth and Newington, at their store, No. 35 Market Street, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

☞ Thomas Jefferson, a man for whom modern democrats profess to entertain some slight degree of respect, once wrote as follows:

The whole commerce between master and slave is a perpetual exercise of the most boisterous passions, the most unremitting despotism on the one part, and degrading submission on the other. The man must be a prodigy who can retain his manners and morals under such circumstances.

☞ A short time since the engineer of a freight train in Connecticut dumped an engine and two cars into an open drawbridge, though the signal was all right, and the bridge could be seen in approaching for a thousand feet. The New Haven Journal says only last fall this engineer was a fireman on the New York and New Haven Railroad, and left because he didn't know enough to handle a shovel respectably.

SHARP PRACTICE.—A few weeks since a San Francisco stock operator, disgusted at his losses, concluded to shake off this mortal coil, and take shares in "kingdom come." To end he swallowed a lot of laudanum, which being discovered by his friends, they called in a physician, who, by the exercise of force, got a stomach pump at work, pumped out the poison and saved the man's life. Physician subsequently sent in a bill for $50 for his services; laudanum taker refused to pay, saying he had not employed him; physician sues for his money, and laudanum-man threatens to prosecute physician for assault and battery. Rather a pretty case as it stands.

A visitor to the National Capital says that the only men whom he observed to be decidedly drunk during the two days he tarried there were two United States Senators—Saulsbury of Delaware and Chandler of Michigan. The writer justly remarks that it is disgraceful to the States they represent that such drunkards should have been sent to the Senate of the United States in this glorious crisis of the nation. We may add, it is a disgrace to ever send such men to the Senate. The only public office they are fitted to fill is that of an inmate of the House of Correction.—*Nashua Telegraph.*

Persons living in cities begin to wear glasses earlier than country people, from the want of opportunities of looking at things at a distance. Those who wish to put far off the evil days of *spectacles* should accustom themselves to long views. The eye is always relieved, and sees better, if, after reading awhile, we direct the sight to some far-distant object, even for a minute. Great travellers and hunters are seldom near-sighted. Humboldt at eighty-seven could read unaided. Sailors discern objects at a great distance, when a common eye sees nothing at all.

LAFAYETTE LAIGHTON.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of proclaiming the unfortunate with remedies that have never, since he first introduced them, failed to effect the most alarming cases of

GONORRHŒA AND GLEET.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Sores, painand distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Rightful Swellings, and the long train of horrible symptoms incident to the above diseases are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D.. devotes a great part of his time to the treatment of those cases caused by a secret and solitary vice, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Pain in the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Cough, Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous fears, gloomy forebodings, aversion of society, self-distrust, timidity, &c., are but some of the evils produced. Such persons should, before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be boarded with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Injection, warranted the best preventive. Orders by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressed and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most of the distressed sufferers, who hear of it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

A. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 8 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow may be consulted daily, from 8 A. M. to 8 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unremitting attention and extraordinary success, gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

Constitution Life Syrup

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Ph'sicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Regts., under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. I have who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heroic as any encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases so long and deeply rooted in the "corporative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in state of equilibrium; but when from any cause down gives one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only remark that it is so emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight on Chest, Sick Headache, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, Rheumatism, Rickets, Scrofula, Bad Humors.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and the kindred affections. Thousands of cures are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will hope the day on which they read these lines. Particularly is a week, sometimes a month, required to medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Retting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system completely from all traces of Mercury, thus effectually removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Pelle like

ULCERS, PIMPLES, BLOTCHES,

And all other eruptions of this kind, which so much disgrace the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken to cure the swelling in detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the ears, which depends upon a Scrofulous constitution. These cases recover, by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dropsy, Dropsy of the Chest, Dropsy of the abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the ovaries, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Bladder, Bladder and other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—produced by acute Rheumatism of young Dropsy of the Heart Case and all the affections of the Heart, Pulmonary organs, or persons suffering from any painful pulsation in the region of the Heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indisposition to Exertion, Pain in the Back, Loss of Memory, Sleeplessness, Horror of Disease, Fear of Consumption, Cold Feet, Dry Hot Skin and Extremities, Want of Sleep, Nervous Debility, Pale Haggard Countenance and Unstable of the Muscular System, are speedily cured by the all of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Joints, Ulcerated Sore Legs, Ulcerated Sore Throat, Ulcerated Sore Eyes, Ulcerated Sore Ears, Ulcerated Sore Nipples, Ulcerated Sore Testicles, Ulcerated Sore Vagina, &c., and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would refer the sufferer to CONSTITUTION LIFE SYRUP. It will restore their health and vigor, strengthen their weak back and limbs, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. The latter and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease will fasten upon the system. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enlarges the food—There is no medicine I think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Easy it, safe it, and be cured.—It is Universal in its effects.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is specially recommended in these cases of Fluor Albus or Whites, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in connection with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*, removing all scalding, burning, tender and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will send free, to any address, a full circular.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An enfeebling cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Disease of the Kidneys, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Numerous cures have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of assistance, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and sister all quack doctors have failed!

☞ For full particulars get our pamphlet from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise on the disease.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entire departure from the old abstract method of cure, irrespective of all the old and worn-out nostrums.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and fall vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst cases of Impotency.
A few doses cure the worst of spermatorrhœa.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, broken-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked student, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and for Establishing Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the bowels, Dizziness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfolding nature of their action would infallibly *prevent* pregnancy.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the water larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper heavy boiler for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for filling the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacturers and owners of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating apparatuses have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the addition of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe on flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the ashes of coal be entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

☞ Advices from Mexico, via Havana, report Alvarez openly declared for Juarez and fortifying himself in Acapulco, which was blockaded by the French ships of war. The fortifications at Matzatlan had been bombarded by a French frigate. Minatitlan was reocupied by the Mexicans after the French left. The French are reported to have been defeated at Oajacka and Guadalajara, losing at the latter place 6000 men. Report also says that Jalapa will soon be attacked by the Mexicans.

RYE BEACH.—The work upon the new "Ocean House" is progressing favorably. The main House and north wing are clapboarded, shingled and nearly completed outside. The floors are mostly laid, the lathing about finished, and everything is in readiness for the masons, who will immediately commence operations. Up to the present time, the architect who drew the "Ocean House," has never been down to see the results of his labors. Mr. Jenness himself has entirely superintended the construction of the building, and made such alteration from the original plans as he has deemed expedient. He is a man of energy, and generally succeeds in whatever he undertakes.

In addition to his present extensive business at Rye Beach, he is running the large Hotel known as the "Webster House," No. 382 Hanover street, Boston. Our friends who may happen to visit Boston will find at the "Webster House" all the conveniences of a first class hotel, at very moderate charges. We visited friend Jenness a few weeks ago, and found him doing a thriving business. Success to him.—*Rye Cor. Ballot.*

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small Glands, or, more commonly known of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Nitrate of Silver, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no metallic poisons whatever, and is not the least injurious in its application.
2. It will certainly darken the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all heat, inflammation and Dandruff from the scalp, leaving the head clean and cool, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.
HOME TESTIMONY.
BARRINGTON, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was thin and white and was fast falling out. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diphtheria; it succeeded immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is springing up. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.
MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it makes the most beautiful dressing that can be prepared. My hair, without the Regenerator, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at not two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete length, and I can say, without a thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

FERTILIZERS,

Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up, as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O5)	17.2
Soluble " " (ca O P O5)	11.5
Organic matter	33.
Sulphate of lime	28.
Alkaline of salts	8.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Soluble Phosphates, the Insoluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates and Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis, I selected from the entire stock, which was prepared for the market.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, MAY 7, 1864.

THE REBELLION.

Correspondence from Fortress Monroe, May 3d, says that Gen. Butler would supervise military operations in the field in person, and that the movements of the troops were very mysterious, but made with excellent judgment.

The Florida expedition is virtually abandoned. Union troops, white and black a boat equally divided, hold Jacksonville.

A Chattanooga dispatch, 28th ult., reports that the greater part of the 20th corps was about to make a rapid march, in light fighting trim and with ten days' rations. Destination not known, but where there will be fighting.

Gen. Steele has returned to Little Rock, Ark. Price followed him closely, and at Sabine Fork he turned on and repulsed the rebels after a severe battle, in which the loss was about equal on both sides. Marmaduke was reported on the way to join Price, when it was supposed they intended to attack Little Rock. Gen. Banks was at Alexandria, La., April 27th, but would probably move towards the Mississippi river. Maj. Gen. Hunter had arrived at Alexandria.

THE VIRGINIA CAMPAIGN.

The Army of the Potomac's operations must for the present engross all attention. The order to march was issued from Gen. Meade's headquarters on Tuesday morning, and was disseminated through the army by 2 P. M., and between midnight and Wednesday morning, the 2d corps, under Gen. Hancock; the 5th, under Gen. Warren, and the 6th, under Gen. Sedgwick crossed the Rapidan at two fords toward the right flank of the enemy, placing itself after crossing in a line nearly parallel with the river between Orange Court House and Chancellorsville. Lee appears then entirely to have abandoned his line on the Rapidan, and with his army to have taken the road running from the south of that stream to Orange Springs and Grover's Bridge, west of Mine Run, destined either for the entrenchments at Richmond, or for a position at Hanover Court House.

Simultaneously, Gens. Couch and Sigel are reported to be marching up the Shenandoah valley, as a co operating column, with the hope ultimately to cut the Virginia and Tennessee railroad, while Gen. Butler's forces, or a part of them, strike the other railroad at or near Petersburg, thus severing all railroad communications between Richmond and the South. Gen. Butler took the field in person at the head of the army on the Peninsula on Tuesday and has his host marshalled by such leaders as Gen. W. F. Smith, Gilmore, Terry and Weitzel. An immense fleet of transports and strong squadron of monitors and gunboats will convoy Gen. Butler's forces, and perhaps the iron-clads may once more try the strength of the rebel batteries that line the James, the Pamunkey, and the Rappahannock rivers. [Possibly, however, Gen. Butler may be moving up the South side of the James river, while Gen. Baldy Smith conducts the campaign on the Peninsula. The N. Y. Courrier des Etats Unis, which professes to have received information of Gen. Grant's plans, says that this is the intention.] Burnside's corps, on Wednesday, was at Warrenton Junction, preparing to move. It is reported that he will act as a reserve to the grand Army of the Potomac.

May victory go with them, and may their toils, their sufferings and their nobly-offered lives bring us Peace, and Justice, and Liberty! Then will their struggle not be vain, their reward not an empty name. Success they have merited, for their steadfastness has been heroic, their devotion to their country sublime. That they may meet with success all loyal men will devoutly pray.

— The Senate Postal Committee have reported the House bill for a line of mail-steamers to Brazil.

— The House Naval Committee, on Friday, selected New London for the new iron-clad Navy Yard.

— A statement in an extra of the New York World that Gen. Burnside was defeated by Longstreet on Monday last with a loss of from 2000 to 4000 men in a two hours' fight, was wholly false.

THE DEMOCRATS AND THE TAX BILL. The majority of the Democratic members of the House of Representatives profess to repudiate the peace doctrines of Long and Harris, and to be in favor of the prosecution of the war. And yet they give little support to all measures essential to such prosecution. Thus, of the fifty-two members who voted for Cox as Speaker, ostensible war men, but seven voted for the tax bill, viz: Baldwin of Michigan, Cravens, English, of Connecticut, Holman, Robinson, Steele of New Jersey, and Winfield; and of the twelve who voted for Dawson, only two, Bailey and Miller. Of the entire sixty-four who oppose the Administration, and yet profess to be for the war, only nine, all told, sustained the measure, without which an effective continuance of the war is impossible.—*Boston Journal.*

THE ATROCITIES OF THE FIENDS.—The committee on the conduct of the war have made their report in relation to the Fort Pillow massacre. They show that the horrible deeds there committed were not the results of passions elicited by the heat of conflict, but were the results of a policy coolly decided upon and unhesitatingly announced. This fact removes the only possible excuse that might be offered by Northern sympathizers or Southern instigators in palliation of the offence, and it should nerve the Government to visit with sure and swift retribution the authors of this fearful brutality and cruelty. The details of the massacre at Fort Pillow are heart-sickening. The following are some of the facts proved before the committee: The garrison there consisted of 17 officers and 538 enlisted men, of whom 262 were colored troops. On Monday, April 12, the anniversary of the attack on Fort Sumter, the rebels attacked the fort, and after a brave resistance by the garrison, it was captured, the rebels having treacherously taken time, by sending flags of truce, to change their position to their own advantage, and to plunder the government buildings and commissary and quartermaster's stores.

In the last assault the cry was "no quarter!" and our troops, white and black, threw down their arms and sought to escape by running down a steep bluff near the fort and secreting themselves behind trees and logs, in the bushes, &c. Then followed a scene of cruelty and murder without parallel in civilized warfare, which needed but the tomahawk and scalping knife to exceed the worst atrocities ever committed by savages. The officers and men seemed to vie with each other in the devilish work. Men, women and children, white and black, wherever found, were deliberately shot down, beaten and hacked with sabres. Some of the children not more than 10 years old were forced to stand up and face their murderers while being shot. The sick and wounded were butchered without mercy, the rebels even entering the hospital buildings and dragging them out to be shot, or killing them as they lay there unable to resist. All over the hillside the work of murder was going on.

All around were heard cries of 'No quarter!' 'No quarter!' 'Kill the d—d niggers! shoot them down!' All who asked for mercy were answered by the most cruel taunts and sneers. Some were spared for a time, only to be murdered under circumstances of greater cruelty. No cruelty which the most fiendish malignity could devise was omitted by these murderers.

A mere child, whom an officer had taken up behind him on his horse, was seen by Gen. Chalmers, who at once ordered him to put him down and shoot him, which was done.

The huts and tents in which many of the wounded had sought shelter were set on fire, both on that night and the next morning, while the wounded were still in them, and even some of those seeking to escape the flames were met by these ruffians and brutally shot down, or had their brains beaten out. One man was deliberately fastened down to the floor of a tent, face upward, by means of nails driven through his clothing and into the boards under him, so that he could not possibly escape, and then the tent was set on fire. Another was nailed to a building outside of the fort, and then the building was set on fire and burned.

These deeds of murder and cruelty closed when night came, only to be renewed the next morning, when the demons carefully sought among the dead lying about in all directions for any other wounded yet alive, and those they found were deliberately shot.

How many of our troops thus fell victims to the malignity and barbarity of Forrest and his followers cannot be definitely known. But two officers are known to be living, and they are wounded and in the hospital at Mound City. Of the men, from 300 to 400 were known to have been killed at Fort Pillow, of whom at least 300 were murdered in cold blood. Of the surviving, except in the hospital at Mound City and the few who succeeded in making their escape unhurt, nothing definite is known, and it is feared that many have been murdered after being taken away from the fort.

The committee at Memphis, Tenn., examined a man (Mr. McLogan) who had been conscripted by some of Forrest's forces, but who with other conscripts, had succeeded in making his escape. He testifies that while two companies of rebel troops, with many prisoners, were on their march from Brownsville to Jackson, Tenn., Maj. Bradford was taken by five rebels (one an officer), led some yards from the line of march, and deliberately murdered in view of all those assembled. The motive for the murder of Maj. Bradford seems to have been the simple fact that, although a native of the South, he remained loyal to his government. Indeed the testimony taken contains many statements made by the rebels that they did not intend to treat "home made Yankees" as they treated loyal Southerners, and better than the negro troops. The testimony discloses this most shameful and astounding fact: On the morning of the day succeeding the capture of Fort Pillow the gunboat Silver Cloud, No. 28, the transport Platte Valley and the gunboat New Era, No. 7, landed at Fort Pillow under a flag of truce, for the purpose of receiving the wounded there and burying the dead. While they were lying there the rebel Gen. Chalmers and other rebel officers came down to the landing, and some of them went on the boats. Notwithstanding the evidences of rebel atrocity and barbarity with which the ground was covered, there were some of our army officers on board the Platte Valley so lost to every feeling of honor, decency and self-respect as to make themselves disgracefully conspicuous in bestowing civilities and attentions upon the rebel officers while boasting of the murders they had there committed.

CHIPS—HEWN AND GATHERED.

— In the large cities, the ladies appear to be getting ready to join Leagues, which pledge them not to buy fabrics of foreign manufacture. The fashionable stores are thronged with customers.

— The New York Herald says that arrangements are being made in that city and in the West to reduce the price of paper. There is an abundance of rags in this country.

— Garibaldi, when at the house of the U. S. Consul in London, said that George N. Sanders invited him at one time by letter to join the Southern army, but that he never even replied to his letter, so scornfully did he treat the proposal.

— Reliable information has been transmitted to Washington of the capture and occupation of Monterey by President Juarez, Governor Vidaurri having spiked his artillery and crossed the Rio Grande at Laredo on his way to seek refuge in Texas.

— There is a new invention—a two-story car—will accommodate more that double the number of passengers now transported on the same base, and so constructed that the upper story can be used for a smoking or sleeping apartment.

— There are comparatively few peach trees in Massachusetts, but what there are, it is thought, will prove more prolific this season than for many years. The lateness of the Spring will also prove favorable to other fruits, and to the crops generally if the warm weather is continuous.

NEW HAMPSHIRE ITEMS.

—— It is stated that several schools in Manchester have been forsaken by the pupils to a great extent by unreasonable fears of small pox, although there are but few cases in the city.

—— John Edwin Mason, well known to many New Hampshire people as a topographical engineer, has lately been promoted to Acting Assistant Adjutant General, on the staff of Brig. Gen. Fry of the Kentucky department.

—— The Republican states that arrangements are fast being made by the new stock company for the erection of a Straw Board Manufactory, in Lancaster. The canal is fast being constructed, ground graded and embankments made. As soon as possible the buildings will be put up.

—— The engine, baggage car, and a portion of one passenger car of the Lawrence road, ran off the track near Manchester on Wednesday afternoon, by the misplacement of a switch. No great damage was done to the train, and the passengers escaped unhurt.

—— George Veasey, of Lake Village, about 14 years of age, shot himself on Monday afternoon last, while on a sporting excursion with some other boys. He attempted to draw his gun towards him, with the muzzle pointing directly at his breast, when the hammer caught in the grass and discharged the gun, the contents entering the right lung causing almost instant death. It is idle to advise caution in these matters. Some persons never will learn from the "accidents" which happen to others.

—— The American Telegraph Company propose soon to construct a line of communication over the summit of Mount Washington. The wires will connect with those now running to the Crawford House, pass over the mountain and form a junction with those which at present terminate at the Glen House. In commencing the ascent the wires will be supported by poles and trees, but after reaching cleared ground they will be protected and carried along near the surface of the earth. The idea is somewhat novel, but is thought to be a practicable one.

—— The house of Capt. Joseph B. Clark in Manchester, was entered by a burglar on Wednesday night, as we learn from the Mirror, and robbed of a fine gold watch, sometime since presented to Capt. Clark by drafted men under his charge. Mrs. Clark and Mrs. Peabody, who occupy the house, had been out during the evening, and on returning, between eight and nine o'clock, discovered a person with a light moving about the chambers. They gave the alarm and obtained help, but as the party reached the house the burglar became frightened and leaping from a back chamber window, escaped.

National Mechanics and Traders Bank

IN PORTSMOUTH, N. H.,

—In fulfilment of the requirement of the 10th Section of the act of Congress to provide a National Currency, secured by a pledge of the United States Stocks, and to provide for the circulation and redemption thereof, publish the following certificate. JAMES F. SHORES, Cashier.

May 3, 1864.

TREASURY DEPARTMENT,
OFFICE OF THE COMPTROLLER OF THE CURRENCY, WASHINGTON, April 26, 1864.

Whereas, by satisfactory evidence, presented to the undersigned, it has been made to appear that the NATIONAL MECHANICS AND TRADERS' BANK, of Portsmouth, in the County of Rockingham, and State of New Hampshire, has been duly organized under, and according to, the requirements of the act of Congress, entitled "An act to provide a National Currency, secured by a pledge of United States Stocks, and to provide for the circulation and redemption thereof, approved February 25th, 1863," and has complied with all the provisions of said act required to be complied with before commencing the business of banking:

Now, therefore, I, Hugh McCulloch, Comptroller of the Currency, do hereby certify that the NATIONAL MECHANICS AND TRADERS' BANK, of Portsmouth, County of Rockingham, and State of New Hampshire, is authorized to commence the business of banking under the act aforesaid.

CURRENCY BUREAU SEAL of the Comptroller of the Currency, TREASURY DEPARTMENT.

In testimony whereof, witness my hand and Seal of Office, this twenty-sixth day of April, 1864.

HUGH McCULLOCH, Comptroller of the Currency.

Local.

☞ The company of Heavy Artillery at Fort Constitution a few days since received orders to leave for Washington, as soon as they were relieved by State militia.

The Strafford Guards, of Dover, numbering upwards of seventy men, rank and file, under command of Capt. Littlefield, and accompanied by the Dover Brass Band, arrived in this city, by a special train over the C. & P. Railroad, at noon on Friday. After some little delay, they were escorted through our streets to Fort Constitution by a detachment of Co. C, Governor's Horse Guards, Lieut. Eldredge commanding; the Portsmouth Cornet Band and a carriage containing the Mayor, City Clerk, and other officials; the whole under the lead of Marshal John E. Rider.

The Guards, who had already donned the garb of Uncle Samuel's service, are a rugged looking lot of men, and will undoubtedly do themselves and the State credit by their practice with the big guns during their garrison duty of our great harbor defence.

On their arrival at the Fort the garrison capitulated, marching out fully equipped as infantry, and were escorted up to the city (to take transportation for Washington) by the same bodies who had extended that courtesy to the Guards.

The company from Fort McClary also marched over to this city, to take transportation southward with that from Fort Constitution.

☞ The National Guards, of Manchester, one of the companies ordered here, would have been mustered in on Wednesday but for a misunderstanding on the part of the mustering officer. They were ready on Tuesday, having received orders to be mustered in for 60 days as soon as the requisite number of men were obtained. The company was recruited to 85, and was in readiness at their armory, but the mustering officer failed to make his appearance. On Wednesday afternoon he arrived, however, and the men were informed that they were to be mustered in for 90 days. This was an unexpected turn of affairs; yet, although they had made their arrangements to be absent for 60 days, 70 were willing to go for 90 days, without further consultation or arrangements. The matter could not be adjusted, and the officer returned to Concord. On Thursday morning at 7 o'clock he returned, with instructions to muster them into the service for 60 days; but as the men were not collected at the armory before 8 o'clock, the officer went off again,—this time to Dover.

☞ A valuable horse, belonging to Mr. C. Hiram Hayes, unfortunately put his foot through the stable floor and broke the bone of his leg, so that it became necessary to kill the animal. Mr. H. refused $250 for the horse on Thursday, and on Friday the bidder returned, prepared to raise on his offer, but was told the horse was dead.

☞ Union Morning Prayer Meetings, for prayer for the country at the present crisis, will be held at the Fleet street Vestry during the next week, beginning with Monday morning, from 8 to 9 o'clock.—Members of all denominations are invited to attend.

☞ Rev. Henry F. Lane is to be installed Pastor of the Middle Street Baptist Society in this city, Thursday evening next. Sermon by Rev. Dr. Lamson.

☞ The Rev. F. D. Huntington, D. D., Rector of Emmanuel Church, Boston, will preach in St. John's Church in this city on Monday evening next, at 7 1-2 o'clock.

☞ Rev. G. W. Paddock, one of the sufferers in the Lawrence, Kansas, tragedy, is to lecture at the Methodist Church on Tuesday evening next.

☞ Rev. Mr. Lane will preach at the City Farm to-morrow afternoon at 5 o'cl'k.

☞ Lieut. Joseph Amazeen, of this city, late commanding the revenue cutter Agassiz, stationed at New Bedford, has been ordered to proceed at once to Beaufort, N. C., to take command of the cutter Forward.

☞ Every person interested in the matter of having our streets sprinkled the coming hot season, are requested to meet at the City Rooms next Monday evening, at 8 o'clock.

☞ Mr. Joy begins his Singing School in a good time, viz. when the birds sing,—and his book is to be the Nightingale; all appropriate and lively.

☞ Kent's Indian Troupe give two exhibitions to-day—this afternoon and evening. Go and see them.

POLICE COURT, Friday.—John Hoyt, for an assault on Mary E. Waldron, was fined $3. and costs $4.80, and ordered to give bonds in the sum of $50 to keep the peace and be of good behavior.

The same John Hoyt pleaded guilty to an assault on Samuel Gove, Jr., and was fined $2. and costs $4.08, and ordered to give bonds in the sum of $50 to keep the peace.

☞ How are you off for matches?

We learn with regret that Mr. Marshall Garland, formerly of Rye, was killed in the battle of Olustee, Fla. He was in Bayport at the commencement of the war, and has been connected with a regiment raised for special State service. He was a young man much beloved and esteemed by all, who knew him—of fine qualities of mind, and a whole-souled, generous fellow; we knew him well as a friend and schoolmate. He was possessed of excellent natural abilities, and was always a first-class scholar. His death will be lamented by a large circle of relatives and friends.—*Cor. Ballot.*

KISSING A SUNBEAM.—A baby, not old enough to speak or walk, was creeping on the floor. By-and-by a bright ray of sunshine fell upon the carpet. Baby saw it, and crept toward the dazzling object. She looked at it, and crept all around it, with the greatest interest in her sweet face, and then putting down her lips, she *kissed* it.—Now was not that beautiful? The little sunbeam lightened up joy in her baby heart, and she expressed that joy with a sweet kiss.

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so supportive as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.

I am using in my house the "Anderson Spring Bed Bottom," and consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.
WM. HUSE, City Marshal.

From Rev. John Allen.

I have had the unpleasable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.
Farmington, Feb. 28, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER, SIR:—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.
Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed," sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.
A. P. HLAKE, Squamscott House.
Exeter, May 5, 1863.

NEWMARKET, May 2, 1863.

I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep. HENRY H. SHORT,
Washington House.

SOUTH NEWMARKET, July 6, 1863.

I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to its high recommendation. I would not do without one for double its cost.
ds. T. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 24, 1863.

I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and to my own sleeping apartment. I am highly pleased with it, as it works to a charm. I think six dollars can not be expended to better advantage.
O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in common use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times of cross-slats, stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for six months past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be placed among the few estimable "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lewiston Journal.*

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

The Cincinnati Gazette has a letter from Nashville, dated April 22, which says:

"I devoted an hour this morning to an examination of the Refugees' Home in this city. I presume that the scenes of distress, wretchedness and degradation, to be witnessed there, are not surpassed on the face of the earth. The poor, miserable and persecuted creatures seem to have lost all heart and hope, if they ever had any. Everything is done by the authorities here that can be done for their relief in the way of furnishing rations and quarters; but they huddle down in the warmest corner they can find on the floor, and in the dirt, and refuse to be comforted. The women all smoke pipes, old and young, dip snuff, and some of them chew tobacco. They seem to have no idea of work, except field work. There is a great deal of sickness among them, the deaths averaging probably six per day. These unhappy outcasts call loudly upon the Christian public for tenderly and generous benefactions."

These refugees are Poor Whites—victims of Rebel cruelty and outrage, who have fled from the scenes of guerrilla burning, robberies and murders, to Nashville, as a place of comparative safety. War makes multitudes of such fugitives—barefoot, destitute, horror-stricken; their faculties paralyzed; their spirits broken, and they devoid of all aspiration save for safety, shelter, food, and rest. Where negroes are found in this category, the Copperhead journals parade their sufferings and their helplessness as proofs that Slavery is beneficent, and ought to be perpetuated. What do they say to such pictures as the above?—*Tribune.*

American and Foreign Patents.

E. B. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (see the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Specifications, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Examine into the validity and utility of foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters relating to the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, not possessed by any, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove this same to be the SECOND SUCCESS AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITIES, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber, for twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure their claims as early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. B. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such remarkable proof of great talent and success on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed, on their cases, and at very reasonable charges. JOHN LAGGART.

During eight months, the subscriber, in course of his business, has obtained Patents on applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. B. EDDY.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospital, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we strongly invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the rest of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from medical advertisements, those who cannot be cured by other physicians—are **invited to use Constitution Life Syrup.**

During the past five years we have contended with obstacles and overcome opposition as never was ever conceded to any medicines.

Rapidity of Cure.

Some say, "your cures are too quick," while others doubt their permanence and think that diseases can only be cured by the slow recuperative process of time. We say, that when, from ill health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective remedy for restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the great Life-Giving Agent.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Digestion.

Scrofula.

Sores, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired) filling the with blood, misery, to by all usual medical remedies incurable.

Rheumatism.

(Arthritic) Rheumatism, Gout, Lumbago, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly allayed—inflammation and swellings are reduced. Acute, chronic or virulent, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Memory, Spermatorrhœa, Impotency, &c.

Thousands who have suffered for years still bless the day on which they read these lines. Particularly to weak, suffering women will this medicine prove a priceless blessing—restoring their footsteps to a Hope which fains more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing at once the mineral, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and secures Teeth to firmly as ever.

Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making life a lingering object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome and lingering Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Glandular Swellings from the Ears, which depends upon a scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and the female Dropsy, called the ovarian and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelling of the Neck, Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly obstinate and tenacious. It will not be removed without extreme care. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, Life Syrup will generally be removed without extreme care. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, Life Syrup will generally be removed without resorting to the knife or operations of any kind.

Especially sympathetic or Organic Diseases of the Heart (Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, and all the sickness and suffering of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion, Want of Appetite, Pain in Back, Loss of Memory, Forgetfulness, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Scrofulous Humors of Skin, Restlessness, Pale Disgusted Countenance, Loathing of Life, Nervous System, all require the use of the CONSTITUTION LIFE SYRUP.

For Ulcerated Sore Throat, Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

BOTH MALE AND FEMALE suffer from, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the disport which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, loss of appetite, costiveness, or an inordinated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, make one pitiful to see suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pains contractor, straighten their weak backs and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD invigorates healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not, we pray you, think these are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens the mother and the child, prevents pain and disease, and is valuable to take the food—Those who have used it think it indispensable. It is highly useful both before and after childbirth, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fever Abscess so Whites so fatal to the old and middle aged females.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is a powerful and alterative in its action, purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fever Abscess or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, leaving the burning and almost insupportable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plates, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and safe iron heater combined, by which the color of broiling meats are preserved, and no smoke possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would advise those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is ever used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objections made by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some pronouncing the best improvements over former methods, while many have proved a total failure. The reason for this is obvious. The contrivances being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are turned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, leaving the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Clarke, Esq., Albert E. Hinch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They are universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The gravat causes no puckers on the inside of the turned-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Cravette Collar has a smooth and evenly finished edge on BOTH SIDES.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Gravette), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

NO LETTERS.

By Garrett B. Cullin, 11th Penn. Regt.

I have looked for a letter so long,
That my soul is beginning to doubt
If I'm missed from the family throng,
Which my thoughts pass over circle about.
How intently I wait for the call
Of my name, o'er the Postmaster's pack,
But it dull disappointment is all
Just the echo of hope gives me back.

Can it be that my loved ones are changed
With the newer born pleasures they find?
Has affection grown cool or estranged
Since I left them in sorrow behind?
It is weakness, perhaps, to despond,
But my heart will be sad when I think
That the friends of whom I'm so fond
Are so chary of paper and ink.

With the fever that scorches my brain,
'Neath this temple's magnificent dome,
Is implanted a far deeper pain
By the silence, unbroken, of home.
Oh! I long for a line to dismiss
All my gloomy forebodings, with joy,
As I long for an innocent kiss
From the lips of my idolized boy.

I shall soon be engaged in the strife
Which the fate of our nation decides,
And if fallen, dear mother or wife
Would the heaps of our perishing then,
And my name be inscribed with the dead,
O, perhaps they will think of me *then*.

Hospital 3, Ward 1, Nashville.

OHIO DEMOCRACY AGAINST MCCLELLAN'S NOMINATION.— The State Address of the Democrats of Ohio is very thorough in its devotion to the "peace" doctrines of the Vallandigham school. Referring to the advice of certain war Democrats, it says:

"These advisers, upon some general and superficial notion that all wars are popular, and military leaders the winning cards, while peace and Christianity are unpopular, and statesmen not likely to be elected Presidents, have been hinting at the success of a couple of Major-Generals who claim to be democrats, and under certain circumstances talk respectfully of the constitution. To nominate either Grant or McClellan would be suicidal. It must be preceded by wholesale apostacy from the ground covered by the Kentucky and Virginia resolutions, and so long hitherto the avowed creed of the democracy, and, forever hereafter to be its only solid foundation. It we beware of such a contradiction, for the sole result of it will be a Waterloo defeat. Not such choice of candidates can save the undivided support of the democracy; for the peace party will not accept the humiliation, but will put their own candidate upon their own platform of immediate peace and peaceable separation and state rights recognition, and having coolly hauled that inscription to the mast, will clear the deck for independent action.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house; his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, MAY 9, 1864.

THE REBELLION.

The rebels have reappeared on both banks of the Mississippi; they have driven in our pickets at Vicksburg, and an attack on that place is momentarily expected.

Adm. Porter has destroyed the iron-clad Eastport, which was aground, and several transports, in the Red river, the rebels having attacked his iron clads while endeavoring to remove them, and killed and wounded several of the crew.

Accounts from Chattanooga report only 35,000 rebels at Dalton, Ga., and that Johnston is reinforcing Lee. A Nashville letter reports that Gen. Sherman would move on the 1st of May, and that a battle was expected in the vicinity of Rome, Ga., within a fortnight. Gen. Kilpatrick commands the cavalry of the Army of the Cumberland; while Gen. Stoneman commands that which has been recruited in Kentucky and which is now on the move.

Our troops have destroyed 15 miles of the East Tennessee and Virginia R. R., burning the bridges, and tearing up and bending the rails. Our forces also had a fight with Mudwall Jackson, and routed him.

Charleston papers publish a dispatch from Dalton, saying Gen. Forrest attacked the Union garrison at Decatur, Tenn., and killed the entire force—probably a canard.

A Newbern letter states that the rebel ram has left the Roanoke river, going into the sound and quietly stealing up some other stream, her progress not being interfered with by our squadron.

THE VIRGINIA CAMPAIGN.

General Burnside sent a large force of Union cavalry on Friday (?) afternoon in pursuit of rebel cavalry who were passing south through Thoroughfare Gap. The rebels escaped, but on the body of a lieutenant who was killed, was found an order by Gen. Lee directing Imboden and all the cavalry force in Northern Virginia to move at once and join him. On the same day Beauregard was at Petersburg, with 30,000 men, while Gen. Butler had advanced with his command and successfully landed at City Point, 10 miles from Petersburg and but 38 from Richmond.

The Orange and Alexandria railroad has been abandoned; and Urbana, on the Rappahannock, will be one of the future bases of supplies. The Shenandoah Valley is reported to be entirely free of rebel troops. Gen. Sigel moved up this valley from Martinsburg some days ago, with a heavy column, and Gen. Averill is now reported to be co-operating from another direction with his cavalry command. A letter from Newport News to the N. Y. Herald states that the iron-clads Atlanta, Roanoke, Onondaga and Tecumseh moved up the James river some days ago. The rebel authorities are moving the machinery of the Tredegar Iron Works from Richmond to some point further South.

A letter to the N. Y. Tribune states that on Wednesday night Gen. Warren's Headquarters were at the Wilderness, Gen. Sedgwick on his right, and the General Headquarters at Germania Ford. On Thursday morning the rebels pressed our pickets and appeared in strong force on our right. The 4th N. Y. Cavalry, skirmishing on Orange Court House road, were driven in with severe loss. Gen. Griffith's division moved forward on our right about 11 o'clock, and were met by the rebels under A. P. Hill, supported by Ewell. A severe action took place, and we captured three hundred prisoners, although it is reported we lost two guns. General Hancock marched his corps to the right to connect with Gen. Warren, and had hardly got into position, his left resting on or near Chancellorsville, when he was attacked by Longstreet with his whole corps and a part of Ewell's. Our troops held their position under a musketry fire of two and a half hours' duration, in which they suffered severely, but inflicted much injury upon the rebels. Other developments showed Lee to have his full force in our front. Gen. Meade ordered the line of battle to be held until morning. Meanwhile, in the afternoon, the advance of the 9th Corps crossed Germania Ford, taking position on our right flank; Gen. Burnside's reserves arrived on Friday forenoon. The position of our troops on Thursday night was parallel with and a little in advance of the road from Germania Ford to Chancellorsville, the two flanks resting on those points and the General Headquarters at the Wilderness.

In the above we have followed the N. Y. Tribune's account. The Washington Republican gives accounts of much more fighting, stating that the battle began, a little beyond the Chancellorsville battle ground, on Wednesday morning, and was continued fiercely through that day and Thursday. On Friday morning Gen. Burnside arrived on the field with 30,000 men, and at half-past five was going into position, to join with Grant in the third day's fight.

By Telegraph—Sunday noon.

By special letters and personal interviews with messengers direct from the Army of the Potomac it is learned that all the corps did not succeed in crossing the Rapidan until Wednesday morning. At every point Lee's pickets, which seemed to be very strong, fell back with scarcely any resistance, until the 2d corps crossed, when A. P. Hill's rebel corps attacked our cavalry and drove them back a short distance. Our infantry soon came up and a furious skirmish ensued, lasting till dark and resulting on the whole in a triumph for Gen. Grant.

On Wednesday night both armies rested. Our army was on the level land southwest of the Wilderness,—a narrow battle field, with all the advantages of position in favor of the rebels, who had thrown up entrenchments the night previous. Lee's whole force lay in front, near Chancellorsville.

At sundown it was ascertained that Lee was in line of battle, and that there were no further signs of retreat on his part. This at once settled the question, and Gen. Grant determined to attack him at sunrise. Accordingly, by 4 o'clock A. M., Thursday, Gen. Grant issued orders for an advance on Lee's lines. The troops were full of enthusiasm and anxious to join in the fight. The fighting in the centre, where Hancock commanded, was very severe, Hill's rebel division fighting terribly. The enemy rapidly hurled large masses of men against this corps. Owing to the nature of the country artillery could not be used to much advantage on either side, and the infantry were, therefore, principally engaged. The rebels fought all day, Thursday, with great stubbornness, but neither party gained much in position for strategic purposes. The number of killed and wounded on our side is estimated at from 3000 to 5000.

Friday morning Lee was found in his old place, and the battle was commenced afresh. Grant drove Lee's centre more than two miles. All our army was engaged on Friday, even most of Burnside's corps being put into the fight. Of the results of Friday's battle neither the Government nor any one else in Washington has any details. It is believed, however, that Friday's battle was a decided victory for the Union cause. Of Lee's retreat there cannot be the slightest doubt. It is plain that Gen. Grant does not intend to send any dispatches until the fighting is over and his army has won a decided and brilliant victory. The President was serenaded on Saturday evening, and appeared in excellent spirits. The only casualty yet reported is that Gen. Hayes, of the 2d corps, is killed.

SECOND DISPATCH.

We learn from a reliable source that information has been received in Washington to-day (Sunday) that the battle on Friday resulted in an entire victory for Gen. Grant. It is now believed that no battle was fought on Saturday, and that Lee has retreated.—A messenger just in from the army says that Grant is crowding Lee—the battle still raging, and there being no doubts as to the result. The messenger states that our troops are in the best of spirits, and that their blows for the Union are telling. Lee is falling back before the advancing hosts. The victory, it is thought, will be a thorough one.

THIRD DISPATCH—5 P. M.

The Washington Republican of this afternoon furnishes the following in an extra:

The Government has received an official dispatch, which left the Army of the Potomac on Saturday at 11 A. M., to the effect that Gen. Grant buried his entire army against the rebel column on Friday. Lee was driven back 3 miles, leaving 3000 killed and 10,000 wounded upon the field. Gen. Grant is master of the field. Lee has retreated, with Gen. Grant in pursuit. There are many things in the official dispatch which it is not proper to publish. It is enough to say that victory perches on our banner. Our loss will reach 11,000.

Gen. Butler is moving up the Peninsula with 35,000 men. He has taken City Point. His monitors and gunboats are all over the bar at Harrison's Landing. He has met with no opposition, and is pressing on to Richmond.

The Government has news that General Sherman is victoriously fighting his way through Tunnel Hill, Ga., and is pressing on Dalton, the enemy falling back and leaving his dead and wounded in our hands.

— The law gives the right of way to foot passengers—any man, woman, or child desiring to cross a street can compel all vehicles to stop for the purpose.

— The Melbourne (Australia) papers complain that American ships sell the insurgent natives rifles, powder and bullets, and make a great fuss about it. John Bull's ox is gored this time.

— An old rebel was arrested in Fairmount, Western Virginia, one night last week, by two rebel women, who assumed the Union uniform to play a trick upon him. He didn't like it.

— A Sag Harbor paper says that a sufficient quantity of onion seed has been planted about that village alone to produce seven hundred thousand bushels of that useful esculent.

CHIPS—HEWN AND GATHERED.

— Dante's sixth centenary will be celebrated in Florence.

— A man in Chicago has commenced a suit against his brother for perjury.

— Meat, of description pronounced "immature," was condemned in the Boston market a few days ago.

— All the mechanics of Chicago are on a strike. They have formed a trade-union, and talk of establishing a newspaper.

— Such has been the influx of laborers to Boston, that they are unable to obtain work.

— It is estimated that one firm in Boston, has received in per centage for sale of prize goods, $15,000.

— Any bill purporting to be on the Eastern Bank, Bangor, Me., with a plain back, is counterfeit. The genuine have checked or green backs.

— A very large number of the wholesale dealers of various kinds of goods, in Boston, have agreed to close their stores at 2 P. M. on Saturdays during the summer.

— A gunboat and a monitor are to be built on a new plan at Chelsea, suggested to the Government by a lady who moves in the first circles.

— A sword worth $1500 has been given to the St. Louis Sanitary Fair, to be disposed of by votes like the Grant sword at New York.

— The Bulfinch St. Church, Boston, have increased the salary of their pastor, Rev. W. R. Alger, to $2500, and voted to suspend Sabbath afternoon services during the summer months.

— The statement that "Gen. Halleck has been assigned to the Cavalry Bureau," turns out to be incorrect. That Bureau has been directed to report to him, as Chief of Staff, as other branches of the service do.

— The reports by the commanders of Adm. Kuper's squadron show that during the bombardment of Kagosima the Armstrong guns proved themselves to be unfit for naval conflicts.

— The Senate has passed a bill permitting patents to be taken out within one year after they have been allowed, instead of six months, as provided by the act of March.

— The fall of Plymouth on the 20th ult. had nothing to do with Gen. Peck's change from North Carolina, and no censure is imputed to that officer. There was work for him elsewhere.

— The Augusta, Me., Age has temporarily suspended "on account of the high price of paper and the difficulty of procuring workmen." So fades out another organ of rebellion in the loyal State of Maine.

— We have got a vessel in the Navy—the Pensacola—that can make more headway with sails than steam. Under steam her speed is from six to eight knots; under sail, without steam, twelve knots.

— A submarine torpedo boat, built in New York, which on the trial trip proved entirely satisfactory, is missing from the harbor, having gone nobody knows where, and the officials are very much excited about it. So say the papers.

— Serious fears are entertained for the safety of Chaplain Nathaniel Frost of the Navy, who in April last was ordered by the Navy Department to the East Gulf Blockading Squadron. His last address was Boston, Mass.

— Green, the Malden murderer, is now very much depressed, and does not exhibit the reckless indifference which was long characteristic of him. He begins to realise that there is little hope of executive clemency.

— A Detroit woman recently induced her daughter to marry a soldier. The mother-in-law then took the man's bounty, and the girl, only 14 years old, ran away to the county poorhouse rather than live with her new husband.

— Amy Solomon died in Attleboro' on Sunday at the extreme age of one hundred and seven years! She was formerly a resident of Rehoboth, and leaves several aged descendants. She was the mother of Dr. James W. Solomon, the "Indian Doctor."

— Some boys recently discovered over $300 in Mexican coins buried in the sand at Cleveland, Ohio. They were sold to brokers at fifty per cent. premium, but turned out to be counterfeits, probably buried by some frightened dealer in the bogus.

— A Quartermaster of the pirate Alabama, who deserted at Singapore with twenty-one others and took the oath of allegiance, shipped on board the whaling barque Atlantic, and arrived at New Bedford on Wednesday.

— A London letter says the Prince of Wales is on the worst terms possible with his royal mother. They get huffy, and out of spite do always that which pains the other—more particularly so the Prince, whose temper is said to be "even less agreeable than that of the Queen,"—a statement which the gallantry of the writer ought to have prevented his writing.

☞ The following from an army correspondent explains a question of command not generally understood:

"The press generally of late habitually speaks as though Gen. Grant had superseded Gen. Meade in the command of this army. This is not the case. Gen. Meade commands the entire army as much as Gen. Sedgwick does his corps, or any Colonel his regiment. It is true that the presence of the Commander-in-Chief relieves him of the responsibility of planning the campaign, but as to the discipline and organization of the army he is still responsible and paramount. Gen. Grant has not interfered with the machinery that he finds in admirable working order, and in no instance does he issue an order except through Gen. Meade. The army has a very thorough and unwavering confidence in the latter, though by no means unwilling that he shall be supplemented with the prestige of Grant.

— There is said to be a church in London, where, on every Easter Tuesday the rector preaches what is called the "Flower Sermon," and the people bring bouquets of flowers in their hands.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged or wounded received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented to this office.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

☞ One of those curious little circumstances, which we sometimes call chance, and sometimes coincidence, occurred in this city last week. A lady who resides nearly half-a-mile from Market Square had the misfortune to lose, late on Friday afternoon, a breastpin of antique make and much valued. Having walked through many streets she was wholly unable to tell in what portion of the city she had lost it. Saturday morning while walking down town, she noticed a little Irish boy engaged in sweeping the sidewalk in front of Piscataqua Exchange Bank, and it occurred to her to ask him if he had found a breastpin. He replied that he had not but that his sister had. It turned out that it was the identical pin, the sister having picked it up some distance down Market street. The "curious" part of it to us was that it should occur to her to ask this particular boy, out of the many constantly seen in our streets.

☞ An erroneous impression having been received by some of our citizens that Mr. Pearson designs relinquishing his large patronage as a teacher of music, we would inform all interested that he has no such intention, but that his services may be secured as heretofore. See his advertisements on the 2d and 4th pages of this paper.

☞ There are only forty-six men now in the Lewiston Militia Company at Fort McClary, Kittery. Capt. Reed has returned to Lewiston for men to fill up his company to the required standard.

☞ The U. S. gunboat Agawam, Commander Rhinds, having rectified the disarrangement of her machinery, again sailed from Portland for Fortress Monroe, on Friday afternoon.

☞ The U. S. tugboat Port Fire, recently built at the Portsmouth Navy Yard, made a trial trip to the Shoals on Saturday.

☞ Elsewhere in this issue, we copy a communication to the Journal on the "Senatorship."

☞ Union Morning Prayer Meetings, for prayer for the country at the present crisis, will be held at the Fleet street Vestry during the present week, beginning with this morning, from 8 to 9 o'clock.—Members of all denominations are invited to attend.

☞ Every person interested in the matter of having our streets sprinkled the coming hot season, are requested to meet at the City Rooms this (Monday) evening, at 8 o'clock.

☞ The Rev. F. D. Huntington, D. D., Rector of Emmanuel Church, Boston, will preach in St. John's Church, in this city, this (Monday) evening, at 7 1-2 o'clock.

A FIGHTING COLONEL'S VIEWS.—One of our Colonels in Tennessee, who has shared in a great deal of hard fighting, says, in a letter to a friend:—

The Northern States should organize their militia immediately—put every able bodied man, between the ages of eighteen and forty-five, to drilling, without regard to profession or calling. Let every one be fitted at home to take the field; so, when his services shall be needed he will be ready for action. Let there be no exemption, no commutations, no bounties. All are strong and productive of evil. A well organized and well drilled militia at home would have a great moral effect upon our enemies, as well as give security to our people, in the event of future reverses upon the present field of the war.

Slavery, the sole and only cause of this war, must be rooted out of every State, every county, every neighborhood and every family, so that not a vestige or a germ of it shall be left, before we can have peace and order restored.

In publishing this, the Boston Journal says:—

The earnestness of this writer and his distance from home may impart a sweeping tone to his assertions of the duty of the Northern States, but there is a substance of truth in all he says. Our militia, undoubtedly, ought to be organized and drilled, as a wise measure of security at home and of precaution against national exigencies. Our legislatures in most cases, we believe, have made the requisite provisions, but there is too much apathy among the people. We may deem ourselves fortunate if we do not suffer by this neglect. The Colonel's views on the extirpation of slavery, springing as they probably do from close personal observation, are becoming the convictions of all unprejudiced men.

The Colonel's views of the militia are the best we have seen lately. Some State legislatures have done *something* in the way of volunteer militia, but this is not enough. Our legislature, in June, ought to revive our old militia, with the improvements suggested by the Colonel,—requiring *every man* to arm and equip himself, and be ready for the Fall Training. The old militia was not very burdensome: the new is important and may be essential.

OUR SENATORS IN CONGRESS.—The Washington correspondent of the Concord Statesman refers as follows, in two of his recent letters, to Senators Hale and Clark, of this State:

The assault, as bitter as it was unprovoked, of Senator Grimes upon Senator Hale, came with astonishment upon the Senate, and is spoken of in terms of deprecation, even by the personal friends of the eminent Iowa Senator. No one, in or out of the Senate, justifies the harsh and angry vituperation. The rejoinder of Mr. Hale, on the other hand, is regarded with satisfaction. Kind, dignified and just in his bearing toward his assailant, without a moment for premeditation, his reply could not have been, with the highest elaboration, more honorable to the head and heart of an American Senator.

Congress is hard at work upon the Tax Bill. The speech of Senator Clark last week upon the financial question was one of marked ability, and full sustained his distinguished reputation.

Vice President Hamlin has gone north, and the election by the Senate of Senator Clark as president of that body is only a due recognition of his ability as a presiding officer. The only senator that can claim equality with Senator Clark as a presiding officer is Senator Foote, of Vermont, who is recognized as one of the most accomplished and able presiding officers that ever held a seat in that body. Senator Foster, of Connecticut, equal perhaps to either of those Senators in knowledge of the rules and usages of the Senate, and a very able man, is inferior in his reading and commanding grace in the Chair, and especially to Senator Clark, who in these respects surpasses all others. The speech recently made by Mr. Hale on the finance bill is regarded by his colleagues, and all generally, here, as one of the most able ever uttered in the State.

— The accounts that we have of the low wages that are paid to workwomen are sufficient to move hearts of stone, but they don't much move hearts of flesh.

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 209

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hardly nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so regenerative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.

Mr. WM. S. HADLEY, Pleasant House.

TESTIMONIALS.

MARSHAL'S OFFICE, Portland, July 29, 1862.

I am using in my house the "Anderson Spring Bed Bottom," and I consider it an improvement on anything of the kind heretofore in use, and recommend it to all who like an easy bed.
WM. HUSE, City Marshal.

From Rev. John Allen.

I have had the unspeakable pleasure of sleeping on one of the "Anderson Spring Beds" for some time, and must say it far surpasses anything I had anticipated.
Farmington, Feb. 28, 1862.

From Rev. A. J. Davis, of Newmarket.

MR. WHITTIER: Sir:—I regard the "Anderson Spring Bed Bottom" (which I am using) for its simplicity, utility and easy adjustment to any common bedstead, as superior to anything yet offered for sale. I cheerfully recommend it to all who desire ease, comfort and rest.
Newmarket, May 2, 1863.

I have introduced into my house the "Anderson Spring Bed Bottom," sold by Mr. D. A. Bean, agent. For economy, convenience, and rest, I regard it as one of the greatest improvements of the age.
A. F. HILAKER, Squamscott House.
Exeter, May 5, 1863.

NEWMARKET, May 2, 1863.

I am using in my house the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent. It is a great improvement, both for economy and comfort. I recommend it to all who wish to enjoy rest and sleep. BENJ'N H. SMITH,
Washington House.

SOUTH NEWMARKET, July 6, 1863.

I have used the "Anderson Spring Bed," sold by D. A. Bean, agent, for some weeks. It comes fully up to his high recommendation. I would not do without one for double its cost.
B. F. ROBERTS.

AMERICAN HOUSE,
Concord, N. H., June 24, 1863.

I have introduced the "Anderson Spring Bed Bottom," sold by D. A. Bean, agent, into the American House, Concord, N. H., and into my sleeping apartment. I am highly pleased with it, as it works to a charm. I think six dollars can not be expended to better advantage.
O. C. COFFIN, Agent.

TESTIMONIALS FROM THE PRESS.

We have used the "Anderson Spring Bed Bottom," and find it in all respects satisfactory, a great improvement on the "slats" in general use, and less expensive than the spiral spring bed.—*Gospel Banner.*

From the New Hampshire Statesman.

THE ANDERSON SPRING BED.—This is an improvement well suited to these times of high-priced stretching cords and enormously high prices of under-bedding of all kinds. Having personally tested its excellence for the month past, we feel a pleasure in recommending this to the public as an easy, cheap and healthy bed, which must be classed among the few reliable "patents." We exchanged the "spiral spring" for the "Anderson," and feel highly pleased with the change.

THE ANDERSON SPRING BED BOTTOM.—This is an improvement upon anything of the kind heretofore invented. Having personally tested its excellence, we feel justified in recommending it to the public as an easy spring bed, not liable to get out of order, and furnishing no possible refuge for vermin.—*Maine Farmer.*

THE ANDERSON SPRING BED BOTTOM combines about all the desirable qualities of a couch. To the weary and the sick it must impart a great comfort. It is the invention of a genius, and we hope the day is not distant, when every family will be supplied.—*Kennebec Journal.*

THE "ANDERSON SPRING BED BOTTOM" is a most admirable article, and is being received everywhere with great favor. One only needs to try it to be satisfied of its value.—*Lowell Journal.*

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 25 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

ABOUT THE SENATORSHIP.

Messrs. Editors:—Early (that is, about 1825) Hon. Jeremiah Mason was resident in Portsmouth, I heard a remark in course of a conversation between that gentleman and the late Daniel P. Drown, Esq. which aptly applies to the present mooted question—"Who shall be Senator?" Said Mr. Mason, in substance—"New Hampshire is never heard in Congress. Her Representatives are chosen for two years, and then, just as they begin to be capable of performing the duties of Congressmen, are left out of the canvass, and new ones take their places, to go through the same course. Thus they never obtain the influence which members from some other States do. There was a Representative from North Carolina, who had been returned from that State for more than twenty years, who though a man of much less ability than some from New Hampshire, had nevertheless far more influence in the House, and was very frequently applied to—simply from the fact that he had the experience of years in Congress."

Thus the wisdom of the policy of North Carolina was shown, inasmuch as it gave to her Congressman an influence above that of those of other States, who excelled him in ability, but lacked his experience.

This remark of Mr. Mason, bears with double force upon the re-election of Hon. John P. Hale to the Senate. At the present crisis of our country, let New Hampshire be heard through the undoubted ability and her influence be felt in the long experience of our well-tried Statesman.

SENEX.

NAVY YARD.—The following from the Biddeford Journal will give some idea of the business of the Yard at the present time:

The iron clad gunboat Agamenticus, 1564 tons, five inch plating, double turreted, is so far advanced that workmen are putting in the machinery.

Passaconaway—iron clad—of 3000 tons, double turreted, and with sides of fourteen inches of iron; recently commenced.

Contoocook, a screw steamer of 2000 tons, and designed to be a first class sea steamer; recently commenced.

New Hampshire, ship-of-the-line, recently launched and nearly completed.

Colorado, a first-class steam frigate, undergoing extensive repairs.

Alabama, side wheel steamer, being repaired and fitted out—nearly ready for sea.

Bluelight and Potfire, screw tugboats, recently launched—taking in their machinery.

In the ship house near the bridge, which, by the way, is pronounced one of the best in the country, is the first-class frigate Franklin, of 3000 tons, whose machinery is now being built, and which will be launched the coming fall.

The pay-roll at the Navy Yard at Portsmouth for last month amounted to $82,000.

PORTSMOUTH CORNET BAND.—As we sit in our sanctum we frequently hear the sweet sounds of this Band as they practice in their room over the way. They have become proficients in their art, and we are pleased to find that they are frequently in requisition elsewhere. Within the last fortnight they have been engaged three times in Newburyport. On Monday morning last seventeen of the company, under their efficient leader Mr. Tompson, escorted an independent company of Newburyport to Boston, where the company for a hundred days is to partake one of the forts in the harbor. The Band with the Company passed through some of the principal streets of Boston, and no few compliments were bestowed upon them in the great emporium of music as well as of literature. They did credit to our city, as well as to themselves.

GRAND DISPLAY.—On Thursday evening between nine and ten o'clock, while the inhabitants of California were admiring the display of an eclipse of the sun, in the east had extended over our south a beautiful arch of light, about three degrees in width extending from Mount Cut east to the north west, reaching nearly down to the horizon. It was like a long extended white ribbon with definite and straight edges. Soon after ten it began to wave, throwing out spurs, and at half past ten had wholly disappeared. The Northern lights were brilliant low in the horizon, but seemed to be disconnected from the grand arch.

HEADQUARTERS ARMY OF THE POTOMAC,
WEDNESDAY, May 4, 1864.

Soldiers:—Again you are called upon to advance on the enemy of your country. The time and the occasion are deemed opportune by your commanding General to address you a few words of confidence and caution.

You have been re-organized, strengthened and fully equipped in every respect. You form a part of the several armies of your country; the whole under the direction of the able and distinguished General, who enjoys the confidence of the Government, the people and the army.

Your movement being in co-operation with others, it is of the utmost importance that no effort should be left unspared to make it successful.

Soldiers—The eyes of the whole country are looking with anxious hope to the blow you are about to strike in the most sacred cause that ever called men to arms. Remember your homes, your wives and children, and bear in mind that the sooner your enemies are overcome, the sooner you will be returned to enjoy the benefit and blessing of peace.

Bear with patience the hardships and sacrifices you will be called upon to endure. Have confidence in your officers and in each other. Keep your ranks on the march and on the battle field, and let each man earnestly implore God's blessing, and endeavor by his thoughts and action to render himself worthy of the favor he seeks, with clear consciences and strong arms, actuated by a high sense of duty, fighting to preserve the Government and the institutions handed downto us by our forefathers. If true to ourselves victory, under God's blessing, must and will attend our efforts.

(Signed:) GEORGE G. MEADE,
Major General Commanding.

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we confidently invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have simply sought relief from advertised medicines, those who cannot be cured by other physicians, are

Invited to use Constitution Life Syrup.

During the past five years we have contended with diseases of every description, such as have been seldom met with before.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that discovery is made, "Slow and sure is comparative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause this equilibrium is destroyed, the scale, we have the effects of disease. What is requisite, is to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A specific and specific remedy for all DISEASES originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from TAINTED BLOOD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not referto it. It is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Wright at Stow's, Loss of Appetite, Fear of Appetite, Dizziness, Bad Breath.

Scrotula.

Strumo, Glandular Swellings, Ulcerations, Kings Evil, Dropsical, Pale Women, Sore Eyes.

This fatal (hereditary or acquired) disease, fills with untold misery, is by all usual modes, remediless incurable.

Rheumatism.

(Arthritic), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred diseases. Rheumatic pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness

Nervous Debility, Loss of Vitality, Enfeebled Loss of Power, Sleepless Nights, Sad Forebodings.

Thousands who have suffered for years will bless the day on which they read these lines. Vacillating and weak, with nervous fears, they hesitate prove an inestimable blessing—directing their footsteps to Hope which falls more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the effects of Mercury, removes Bad Breath, and curing the weak Joints and Rheumatic Pains which the secret Calomel is sure to produce. It hardens Spongy Gums and restores the teeth firmly in sockets.

Constitution Life Syrup

Eradicates root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES.

And all other difficulties of this kind, which so much disfigure the face and cause misery of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken at once at the swelling is detected, time prevents breaking out and forming troublesome Discharging Sores, which disfigure to many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases will yield readily taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Dissolution of Blood, Dropsical Tendencies, Sleeplessness, and in the female, Leucorrhœa or Whites, generally accompanied with inflammation and ulceration of the uterus, are perfectly cured by the use of Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken in cases of Tumors, which are exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Breast, Uterus, Ovaries, Testes and other glands of the body will be completely reduced without resorting to the knife (experiments of a dangerous character).

Diseases of the Sympathetic Organs Dedicated of the Heart (as Palpitation, Diseases of Valves—producing a grating of Aliac sound, Dropsy of the Chest and the Heart, Pain in the Side, important organs, of power nothing, and acute pain in the region of the Heart, which greatly disturbed the patient.

Broken-Down and Delicate Constitutions, Suffering from Indigestion in Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dormitude of Mind, Dry Hot Skin, and Nervous Irritation, Sleeplessness, Pale Haggard Countenance and Languors of the Muscular System, all require the use of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases** whether of the Nose Throat, Tongue, Lungs, Scrofula or Scalp, no remedy ever equalled the equal.

MOTHERS! MOTHERS! MOTHERS! Ye, depending upon a diseased action of the Liver, are very unpleasant to the young, which will disappear in a few days if Constitution Life Syrup is used. It will correct the secretion, and remove the deposit which is directly under the skin.

In Dyspepsia, Costiveness, Giddiness, Dizziness, indigestion, weak stomach, or an disordered or cancerous condition of that organ, accompanied by other disorders of other organs and systems, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Medicine, the Life Syrup stands unrivalled, by any preparation on the Market.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Curvature, and all Nervous Diseases, will be cured by the use of the above diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD gives rise to healthy men and women; and if the constitution is neglected in youth, diseases and early death are the results. In the blood and lower parts of the body, Heartburn, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Constipation, &c., &c. Be warned, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, never fail to do.

They may be safely used at any age and at any period, *except during the first three months,* during which the fertilizing qualities of their action would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly answered, confidentially answered.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is apparently recommended in these cases of Fluor Albus or Whites, for which all the old remedies have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an early or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and discharge lessening,* in all cases, the scalding, heat, and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will send free, to any address, a full circular.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND

LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain in the Head, Nervousness, Aversion to Society, Confusion, Cowardice, Dyspepsia, Constipation, and all the direful consequences produced by departing from the path of nature.

☞ This medicine is a simple vegetable extract and there is no fear that it will not prove as well used in our practice for many years, and with thousands it has not failed in a single instance. Its curative powers have been sufficient to gain a reputation for the Indian Physicians.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ Indians, get a supply of this medicine from any drug store in the country, or write the proprietors, who will send free to any one desiring the same, a full treatment on pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, revolutionizing all the old and worn out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced the greatest and of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses will cure Nervous Debility.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

Two or three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Once tested cures the worst case of Impotency.

☞ A few doses restore the lost vitality.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restored to manly vigor and robustness of health the debilitated, stupefied and despairing victims of sensual pleasure.

The feeble exercised youth, the over-tasked man, the nervous, trembling victim of nervous depression (individual suffering from personal debility), or from weakness of a single organ, will all find immediate and permanent relief by the use of this invigorating and nourishing cordial.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier and the hot water larger than usual. The oven plates are covered with plaster, which renders it equal to one old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and tea iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large oven, and with the extension, also, there is an warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for filling the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes and cinders is prevented. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the sole Agent in this vicinity for the manufacturers of the above valuable Furnace, would ask those about remodeling or erecting buildings to examine this very valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the ill effects from the smoke and the dry air used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely counteracted.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive arrangements have been devised and constructed, some possessing but little improvement over former methods, while many have proved a total failure, and have been abandoned. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the proportion of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to compare for economy of fuel, or to produce warm air, large amount of the heat generated, making the chamber the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different Hot, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent Molded Collars

Have now been before the public for nearly a year. They have universally pronounced the neatest and best fitting collars extant.

The upper edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Garotte Collar has a smooth and evenly finished edge on both sides.

These Collars are made simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size, from 15 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "gold tipped" mens' blue cartons, containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

THE RIGHT ORDER.—During one of the recent movements on the coast, a body of marines and sailors were ordered ashore to drive off a party of "gray-backs." The enemy were firing from a barn, and in order to dislodge them it was necessary to get in the rear of it. The Marine officer in command of the salts gave the following order:

"By the right flank, file left, forward."

The blue jackets in a very high state of excitement tried but could not obey the order; in fact, "they got all in a heap," as a spectator describes it, when Lieut S. of the navy seeing his lads in confusion, came running up with:

"What is the matter?"

"I can't get your men to obey orders," answer Mr. Marine.

"Give the order," says S., "and I will see they do it."

Accordingly "by the right flank,&c." was yelled out, but worse and worse was poor Jack's puzzle, when S. sung out, "that is no way to talk to my men. "Luff you lubbers, and weather that barn."

It was done.

To all letters soliciting his "subscription" to anything, Lord Erskine had a regular form of reply, namely—"Sir, I feel much honored by your application, and beg to subscribe" (here the reader had to turn over a leaf) "myself your very obedient servant," &c.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
—AND—
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.

Immediately beneath the scalp there are very small glands, or, more commonly Roots of the Hair. It is from these glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, if not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly RESTORE the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.
3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and healthy, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.
5. It will cure the most inveterate itching and neuralgia of the scalp, and being highly perfumed, it affords a most delightful article for the toilet.

We have a great collection of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Restorer will accomplish so long a work, a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color, but keeps the head free from Dandruff, but it is the most beautiful dressing that can be prepared. My hair, without any apparent cause, began to gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. SHAW.

FERTILIZERS,

Trees, Vines, Shrubs, Vegetable and Flower Seeds.

J. F. SHORES, Jr.,

No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest—The celerity and dispatch with which a large crop of corn is putin and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette yields early manure, ripens so soon that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.3
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	23.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the soluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 1, 8, 4. In other words, Soluble Phosphates are worth 4 times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

TUESDAY, MAY 10, 1864.

THE REBELLION.

From the Red River we learn that the rebels harrassed our troops until with 7 miles of Alexandria, and skirmishing was kept up three days, resulting in our favor. The rebels are still active, and frequently fire on our gunboats. They also attacked Greenville, a small town opposite Alexandri, but were driven back by the gunboats. They have driven in our pickets at both places several times. The Federal force now at Alexandria is reported to be 35,000 strong. The rebel force is quite strong, is under Kirby Smith, Magruder and Taylor, and has demanded the surrender of Alexandria. Gen. Canby supersedes Gen. Banks. Gen. Steele, whose arrival at Little Rock, Ark., is confirmed, lost all his wagon trains, and the greater partof his artillery. Our loss in killed, wounded and prisoners is estimated at 2000.

Gen. Banks is in a hazardous position, as the rebels are reported to be on both sides of the river, above and below Alexandria, and throwing up intrenchments.

Rumors from Nashville say Johnston has retreated from Dalton to Atlanta. Sherman's forces have passed Tunnel Hill without opposition, and are outflanking the rebels at Buzzard's Roost.

An Atlanta, Ga., paper says it was Decatur, East Tennessee, which was captured by Forrest; a town of only 100 inhabitants.

All the dispatches from the advancing armies under Generals Sherman, Schofield, Hooker and Washburne are pronounced by a Washington dispatch of Sunday to be as encouraging as could be asked for.

The rebel ram Albemarle, which captured Plymouth, is now in full possession of Albemarle Sound. Friday last she was seen making for Roanoke Island. There is a report that an iron-clad from Fortress Monroe was at Hatteras, on its way to meet her. Commodore Smith has arrived at Newbern, and taken command of the naval forces in North Carolina.

THE VIRGINIA CAMPAIGN.

Dispatches state that Saturday was mainly devoted to taking care of our wounded and burying the dead. Some accounts say that it was Lee who made the attack on Friday. Gen. Butler is reported to have cut all the railroad communication south of Richmond,—a statement requiring confirmation. Gen. Kautz has started with a cavalry force from Suffolk for Hickford, hoping to destroy a bridge near there, 250 feet long, on the railroad connecting Richmond with North Carolina. Another cavalry expedition under Col. West has left Yorktown, to harass the enemy along the Peninsula.

Of course there are rumors innumerable. The following seem to be among the most reliable but they may be disproved hereafter. The details of operations since Friday morning are rather indefinite, for although the papers are full of sensation dispatches they are somewhat contradictory and do not seem to be on the best authority. Yet, although in the dark as regards the details, there seems no good reason to doubt that the general results are decidedly in favor of the Union cause.—Gen. Butler has cut the railroad between Richmond and Petersburg, and the Petersburg and Weldon R. R. A report that Petersburg was captured on the 6th was incorrect. It is said the rebel iron-clads came down from above Fort Darling on Friday. Our picket vessels observed them and immediately reported to the iron clads, which were dispatched to engage them or drive them back. General Wadsworth, Union, is killed; Longstreet seriously wounded. The rebel Gen. Jones has been killed. Grant's loss in the two great battles of Thursday and Friday is estimated by the Medical Director at nearly 11,000. The loss of the rebels is supposed to be greater. No definite statement of the number of prisoners taken on either side, is given.

Sec. Stanton telegraphs that Lee in his official report of Friday's battles, claims that every advance by Gen. Grant had been repulsed. Lee says the rebel loss in killed is not large, but that they have many wounded. He grieves to announce that Generals Longstreet and Pegram are severly wounded, and Jenkins killed. The belief in Washington is that Gen. Grant is achieving a complete victory. The government has intelligence by scouts as late as Saturday evening, and the general results may be stated as successes to our army up to that time.

The following dispatch was received in this city on Monday afternoon about 5 o'clock:

Gen. Grant came up with the rebel army at Spotsylvania Court House on Sunday, and after a severe action again routed them. Lee is retreating towards Richmond.

— Dr. Dio Lewis has purchased the Lexington Hotel and is fitting it up as a house for ladies and gentlemen who seek health in the movement cure and recreation.

NEW HAMPSHIRE ITEMS.

—— A son of the Granite State, is the presiding officer of the legislature of Idaho.

—— Capt. John Folsom recently died at Sanbornton Bridge, at the ripe old age of ninety-four years. He was born at Exeter, June 26, 1770. He voted for Washington and for Lincoln.

—— Some excitement has been created in Hancock and Stoddard lately, pleuro-pneumonia having appeared among some herds of cattle, supposed to have been conveyed there by a cow brought from Massachusetts. A town meeting was called in Hancock to see what should be done about it.

—— Mr. J. H. Demerritt, of Manchester, lately Paymaster U. S. N., which position he resigned on account of ill health, has received an appointment in the Fourth Auditor's Office, at the Treasury Department, Washington.

—— The Rochester Courier says: "Spring has come. The sweet May flowers are plenty, the youth are gambling in the streets."—Very naughty of the youth. Their mamas should take their marbles away from them.

—— The Manchester Union states that Col. Donahoe, of the 10th regiment, has been honorably acquitted at a court martial, at Suffolk, Va., of the charges preferred by Lt. Col. Coughlin. Col. Donahoe again took command of his regt., May 2. He had been previously acquitted by the Military Commission at Washington, which had examined the case.

NOT VERY GLORIOUS.—The Manchester Union says of its party under the pressure of the war and its effects:—

They feel the burdens of this terrible debauch—yet, paralyzed with amazement and despair, they drift along the current as though they had no hope to cherish and no duty to perform.

This is not so. The Democratic party may be a power in the land, if it will. It has missed opportunities, but others are still before it. What is wanting is consultation, organization and unity, not only of purpose, but of labor. If the war is proper, constitutional and wise, let us go for it and to it together; but if not, stay away together.—Let us agree to what is *honest, true* and *patriotic*, and then bring the aggregate weight of a great party to the accomplishment of *something*. Let us save the Union if we can; but if not, let us at least try to save our half of it. The floating along as a mere tail to an Abolition kite is humiliating and disgraceful, and the glorious old Democratic party should be content with no such ignominious destiny.

This extract shows up the true cause of their defeat in New Hampshire, Connecticut and Rhode Island, viz, they did *not* agree as to what was "*honest, true* and *patriotic*." The same paper has complained much of fraud in its opponents, as it *that* defeated the "glorious old party." But here is the confession and complaint, that their *own confusion of ideas* defeated them; and other parts of the article speak of the party as *divided* in opinion and action on the war.

The Biddeford Union speaks of the party as follows:—

There are two elements which make up the democratic party of to-day; one is the "arf and 'arf" men who would like to be loyal, if by so doing they can bring their party again into power; but if the success of their party can be obtained only by the success of the rebels, then the Government may or may not vindicate itself, if it can: the other ingredient is the copperhead element, which is largely predominant.

The Biddeford paper does not count into the party those who call themselves "war democrats," as they have been ostracized by those who now control the masses who call themselves democrats. As a specimen of the light in which they are considered by their former associates, we subjoin the following from the New York News, the leading organ of the party in that city:—

Fortunately, the Peace party is spared the trouble of shaking off that double-dealing progress which has clogged its progress. The War Democracy of its own accord has foresworn our company. It has passed within the unhallowed circle of Abolitionism, and there assuredly the Peace Democracy will not follow. It is now impossible for Peace Men, without the sacrifice of their own consistency and principle, to resume the companionship thus canceled. Henceforward the Peace Man and the War Democrat are twain. There is no tie between them, there is no identity of purpose between them, there is no similarity of doctrine, and there must be no conformity of action. Let us enter the Presidential campaign upon the plain, unequivocal Peace issue, and the masses of the North will rally to the cry, and sweep the field against treachery, greenbacks, bayonets, and all other engines that will be arrayed against them.

The reader will probably be able to see some difference between a loyal democrat and a copperhead; and perhaps he may perceive that old parties are dissolving under the pressure of the war;—while the question now is, are you in favor of rebel rule, or of liberty in the United States, defended by law, and if need be by arms?

Whoever is not against us must be for us; there can be no neutrals now. The well meaning portion of the late democratic party do not agree in their views with the Woods and Vallandigham; and the more intelligent do not vote with them; but the ignorant pass on. U. T.

CHIPS—HEWN AND GATHERED.

— It begins to "thunder all round."

— Gen. Webb, son of J. Watson Webb, is reported to be killed.

— 25,000 letters passed through the Portland post-office one day last week.

— In the fight on Thursday, in Virginia, our troops captured about 5000 prisoners.

— The steamer Chesapeake is again on the route between New York and Portland.

— Cyrus W. Brown, a brother of Artemus Ward, is dead. He had been an editor.

— A report from rebel sources says Lee has been wounded.

— Adm. Dahlgren has arrived at Charleston.

— The monitor Casco was launched at East Boston on Saturday.

— The New Yorkers are about to abate the nuisance of boiling bones, fat and offal.

— Surgeons are being sent from the various States to attend to the wounded.

— Mr. John L. Burns, the only Gettysburg man who took his gun and fought on his own account last July, is in Boston.

— The fortunes of war seem inclined at last to Grant the Army of the Potomac the Meade of victory.

— A little school-girl in Portland the other day defined "wharf" as "the plaeth where we get thavingth."

— In these days of envelopes, why can't paper makers rule writing paper on the fourth page as well as on the others?

— Our wounded, whose injuries are slight, are to be cared for in Virginia, while the others are to be taken to Washington.

— Major Generals French and Keyes have been mustered out of the volunteer service, by order of the President.

— An army officer has bet $100 that Grant will eat his Fourth of July dinner in Charleston, having first taken Richmond.

— The first man killed in the great Virginia battles was Charles Wilson, of the 18th Mass. Regiment.

— The wounded are beginning to arrive at Washington. There is a terrible weight of agony to many hearts accompanying even the noblest victory.

— Gen. Grant sends no official dispatches yet. He isn't apt to boast much. We have had Generals who were,—and prematurely too.

— A rebel deserter reports that the rebel Gen. Hunter has been dangerously wounded; and that Pickett and Jones and Jenkins have been killed.

— The Portland Advertiser states that "the town of Belfast has decided to abolish the agent for the sale of spirituous liquors," which must be bad for the agent.

— India rubber type have been invented. Truth will be stretched—for the first time (perhaps) in the history of the newspaper press.

— A great female bread riot, it is said, occurred in Savannah on the 17th ult. The soldiers were called out, and after a brief conflict the ringleaders were lodged in jail.

— A graphic correspondent, describing Gen. Butler's landing at City Point, breaks out with: "The negro soldiers, always in advance, are streaming up like ants towards an ant hill."

— The Portland Price Current warns "the parties who stole some clothing from the lines at the Alms House, that it belonged to the small pox patients of the hospital, and before being used should be thoroughly cleansed."

— A black bee, with wings enamelled, according to nature, worn with a tri color ribbon a little in front of the left shoulder, is a sign that the wearer belongs to the National Covenant—the new organization of ladies to discourage extravagance.

— A firm of recruiting brokers, named Marsh & Bates, of Troy, formerly of Albany, N. Y., have, after arrest by order of Gen. Dix, and being taken before the Provost Marshal of Rensselaer County, disgorged $850 belonging to five recruits enlisted by them at Troy.

— The U. S. gunboat Commodore Jones, while on picket duty in James river, was blown up by a segar-shaped torpedo, and several officers and men killed, and some 40 wounded. The rebel who had charge of the torpedo was shot, and two with him were taken prisoners.

— Capt. Samuel Bunker, of Nantucket, recently caught a codfish off the South Shore, weighing 78 pounds, in whose stomach were found two ducks, two flat-fish and one sculpin. A wag styles this the latest invention for stuffing a cod; one that does not appear in the cook books.

— A young man in Illinois, who wished to marry the lady of his choice, married another at the urgent solicitation of his parents. A week afterwards he drowned himself, and in another week his widow swallowed corrosive sublimate and died in consequence.

— President Lincoln, according to Jenkins, works by the hour. "He gets up at five, shaves at six, breakfasts at seven, sends his private correspondence at eight, receives visitors at nine, and the members of his Cabinet at ten. But as his Cabinet does not often meet him, he goes and meets his Cabinet."

— A Mexican has sued John Morrissey, to recover $23,000 alleged to be lost at the gaming table, in New York and Saratoga last summer and fall.

— In England a firm of "Manure Manufacturers" have been convicted of manslaughter, because a young married woman has died in consequence of breathing vapors from their factory.

— An enthusiastic fellow writes to a friend: "Since I first rote you, i have entered the connubial bonds or matrymonyal felicety, and ben tide with the silvery cord of luv."

— There is great alarm in England lest the small farmers, worth four or five hundred pounds, emigrate to the United States and purchase farms at the West, particularly in those States where, in consequence of the rebellion, improved lands may be bought very cheap, and can be made immediately productive.

— A boy eleven years of age, who stole away from Portland with the 31st Maine regiment, has just returned after an absence of 18 days. He went to Alexandria, thence marched to Bristow Station, 40 miles, and concluding he had enough of soldiering, managed to get home through the kindness of conductors and others.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK,

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Wanted,
YELLOW DOCK ROOT.
The subscriber will pay 15 cents per lb., cash, for well cleaned of Yellow Dock Root, (Rumex Crispus) delivered at his store. It must be of the past two years' growth, and before it has sprouted to any considerable extent. It must be well washed, sliced, thoroughly dried, and kept free from other roots. Great care must also be taken to prevent the root from being wet or frozen, and from moulding during the process of drying.

Special Notice to Wounded Soldiers.
The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 35 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and sufficiently show their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.

Local.

☞ Mr. Wm. D. Freeman, for the past three years acting master at the Portsmouth Navy Yard, has resigned his position, to take command of the new and beautiful schooner "Fannie A. Bailey," now nearly ready for launching, at Marcy's ship-yard. The associates and acquaintances of Mr. Freeman at the Yard will much regret the loss of so efficient and faithful an officer; and if he transacts his business of commerce and navigation in the future, as well as he has managed the business pertaining to his department at the Navy Yard, the owners of the vessel will have been fortunate in securing his services. Success to him in his new undertaking. He is succeeded at the Yard by Acting Master Charles E. Hawkins, detached from the New Hampshire.

☞ Mr. Keen's Kittery Stage has been superseded by an omnibus, which makes regular trips twice a day, and will be very convenient to persons wishing to visit the Navy Yard, or Kittery,—and more particularly to persons there wishing to visit Portsmouth. Now with Keen's Omnibus to the Navy Yard, and Card's and Tarlton's to New Castle and Fort Constitution, the "suburbs" have little else to desire in the way of transportation.

☞ The work on the new gunboat Pontoosuc at Portland is entirely finished, and the authorities at Washington have been telegraphed to that effect. The inspecting officer has expressed himself perfectly satisfied with her workmanship. She will come this week to the Portsmouth Navy Yard to take in her armament.

☞ The four companies of the 32d Maine Regiment, now remaining at Augusta, have been filled up, and were mustered into the U. S. service on Friday last. Col. Wentworth will leave with this balance of his regiment on Wednesday next, for the seat of war, in Burnside's command.

☞ Lieut. Com'r Greenleaf Cilley has been detached from the Fort Jackson and ordered to the New Hampshire. Acting Masters Charles E. Hawkins, John Blake, and Alexander McIntosh, and Acting Assistant Paymaster L. L. Brigham have also been ordered to the New Hampshire.

☞ The U. S. Circuit Court commenced a term in this city on Monday morning. Present, Judges Clifford and Harvey. Several items of business were disposed of, but none of general interest.

☞ William H. Hackett, Esq., of this city, was last week elected one of the Directors of the American Fire Insurance Company, recently organized in Exeter.

☞ Rev. G. W. Paddock, one of the sufferers in the Lawrence, Kansas, tragedy, is to lecture at the Methodist Church this (Tuesday) evening.

☞ Mr. Thomas Bailey Aldrich is reported to have written a comedy for Mr. Edwin Booth.

☞ Maj. Gen. Edward R. S. Canby, who is appointed to the command of the military forces in Louisiana and Arkansas, is Colonel of the Nineteenth Infantry of the Regular Army, and hails from Indiana. The effect of his appointment will be to supersede Gen. Steele and to relieve Gen. Banks of the military part of his administration of the Department of the Gulf.

☞ The Portland Argus states that the old dog "Major" was shot dead at the head of the 29th Maine regiment in the battle of Mansfield. He had been in the service since the commencement of the war, having served with a Vermont three months' regiment, and afterwards with the 10th Maine in all the battles and skirmishes in which that regiment participated.

☞ J. H. Abbott, a member of the present Board of Selectmen of Malden, has made a formal claim upon the Board of Directors of the Malden Bank for the reward of five thousand dollars offered by them for the discovery of the murderer of young Converse, he being one of the original private detective "circle" and the officer who arrested Green.

— A French physician contends that groaning and crying are the two grand operations by which nature allays anguish, and that those patients who give way to their feelings more speedily recover from accidents and operations than do those who suppress them. He goes in strong for a loud boo-hoo.

— An intimate friend of the Italian General, writing from London to the N. Y. Post, says that Garibaldi informed him personally the reason of his sudden departure was that the English Government had intimated to him that his continued presence would embarrass them with the French Government.

— Miss Sabra Dean, an aged lady in Willimantic, Conn., living alone in part of an old house, was found last week in an exhausted condition, having been without food or nourishment for a period of five days and six nights. She had been stricken down with paralysis, and one side of her person was completely paralyzed.

HARPER'S MAGAZINE, for June, is published early enough to satisfy the most impatient longer for this ever-popular monthly. The great feature of this number is the commencement of Dickens' new serial, "Our Mutual Friend," which every body will, of course, want to read. The remaining articles are of various degrees of interest,—sufficiently wide in their range to gratify all classes of readers. For sale by J. F. Shores, Jr.

Mr. Foster has Chambers' Book of Days, Parts 23 and 24, being the Record of the Days down to the middle of December. We have often referred to the excellent character of this publication, and now that nearly all the numbers are published we have found no reason to change our favorable opinion of it. Published by J. B. Lippincott & Co., Philadelphia. Price 20 cents per number.

THE U. S. SERVICE MAGAZINE, for May, contain articles on Gen. McClellan's campaigns; Saltpetre; Home for discharged Invalid Soldiers; the System of commutation in the Army, etc., etc. In the June number will be published a steel-plate portrait of Lieut.-Gen. U. S. Grant, from a recent photograph, and pronounced by competent judges, the publisher says, to be the most life-like Portrait of the General yet published. A biographical sketch of Gen. Grant will accompany the portrait.

☞ The New Orleans Era reports the capture of two rebel boats in Mississippi Sound by the gunboat Narcissus, together with eight prisoners, and a quantity of corn, flour, tobacco, rice, cotton sheeting, &c., and a very important mail. Several of the letters are addressed to some important persons in New Orleans, among whom are the Belgian Consul and the Superintendent of the New Orleans and Pontchartrain R. R. A letter from G. T. Beauregard is in the lot.

☞ The representatives of the Insurance Companies that were interested in the great fire at Colt's Armory have made a satisfactory settlement of all the claims presented. The total amount of insurance was $660,000, covering the entire works of the company. The actual loss on the building, machinery, etc., destroyed, has been found to be 60 per cent. of the amount of the policies, or a trifle over $400,000, which the insurance companies would have to pay at the expiration of sixty days, the time specified for settlement of all losses. They have made, however, a cash settlement, which reduces the amount to be paid to $396,000.

THE HOPE OF THE REBELLION.—A rebel officer confined in one of our forts, being recently asked how the rebels could hope to succeed, with such disproportionate forces and means, said, "we can hold out until your next election, and then, if the democratic party comes into power, we expect to negotiate for recognition."

MORALITY.—In some of its phases, Mohammedan mercantile morality exceeds in its scrupulousness that of any other people, whatever their religious character or creed. A mercantile firm in Salonica had bills to a large amount on the principal inhabitants and merchants of the place, which with their books and papers, were destroyed by fire. On the day following, a prominent Turk, who was largely in their debt, went in person and told them that, having heard that their papers had been destroyed, he had brought a copy of his account with them and fresh bills for the amount which was their due. This example was followed by *all* the Turkish debtors to them. It does not appear to be intimated that this course was one that they had ever learned from the Christian traders in their country.

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and it will reach a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 209

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

ROOM PAPERS!
Have Room Papers Advanced in Price, like other things!
J. F. SHORES, Jr.,
No. 1 Congress Block
Is often asked this question; and would answer that he still sells
ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.
These are not of so good quality as were formerly sold at those prices—still they are very fair.
Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.
Common, Velvet, and Velvet and Gold BORDERS,
HAVE NOT ADVANCED!
GREEN CURTAIN PAPER
Is still sold at the old price.
Thus, FRIENDS and CUSTOMERS, you have an answer to the query above—
Room Papers Have not advanced as other goods have.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.
These BED-BOTTOMS may be had of **E. M. BROWN & CO.,** Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

☞ Dr. Charles Jewett, the famous temperance lecturer, is about to give up the work, as too mighty for him. He says:

I am afraid my labor in the cause of temperance is drawing to a close. Yet I am not sick or worn out. There is a deal of hard work in me yet, but I cannot work alone. I have made, I fear, a last earnest effort to open the eyes of my countrymen to the true course to be pursued, and to a sense of their obligation to the cause, their country and the world, in connection with the matter. * * * I know how to be poor and suffer need, as I know what it is to be very comfortable. A few weeks will decide my course. I am the last of the lecturers of the old guard. Pierpont is in the Treasury department, Rev. Father Hunt of Pa. is a chaplain in the army, Kellogg is in Congress from Michigan, Crosby, one of our best laborers from 1835 to 1845, is a judge in Lowell, Mass. Dow is a General. So they go.

He might have added that Rev. Drs. Beecher and Edwards are deceased, also Judge Kittredge, and a host of others less noted. No strange thing has happened to them; they have only passed from one scene to another, or from this life to a higher and better. They had their mission, did their work: and now, other and younger men must take their places. Intemperance continues;—and must be and shall be opposed in some form, by humane and devout men.

American and Foreign Patents.
H. R. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American and Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, &c.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All inventors, of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at lower rates of charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, has obtained *twenty* rejected applications SIXTEEN APPEALS, EVERY CASE in which was decided in *his favor*, by the Commissioner of Patents.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cases which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition so beautiful as ever encounter the light of the sun. We have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Palsies, Paraplegia, Paralysis Agitans.

It is universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Sick Headache.

Scrofula.

Struma, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with wretched misery, is up all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantaneously overcome, and swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by

Nervousness

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Sensitiveness, Nervous Headache.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an angel of mercy—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Pains in Bones, Blotches on the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and renders the Teeth as firm as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome and dangerous sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Humor, Swellings in the Ears, which depends upon a Scrofulous constitution. These other soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy of the limbs or abdomen, and in females, Irregularity of the menstrua and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by the constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is accompanied by chronic sub-stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without recorting to the knife or operations of any kind.

Spinal Affections, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indiscretion or Exercise, Pain in the Back, Dimness of Sight, Forgetfulness, Leucorrhœa, Insanity, Fear of Disease, Dizziness, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Emaciated Countenance, Confusion of Ideas, will all *raise Spirits,* all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHERS, Mothers, Mothers! Who are suffering, depending upon a diseased action of the Liver, are very emphatically to the young wife and mother. A few bottles of Constitution Life Syrup will correct the disorder, and overthrow the despotic which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dizziness, loss of appetite, weak stomach, an enlarged or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay a moment, remedies are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents sickness and disease, and increases strength in the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For, Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation and Ulceration of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day.

It is a powerful but inoperative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost intolerable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Confusion of Ideas, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the miserable complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain for it a world wide celebrity.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we would say, *Despair not*; the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write to the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Twenty, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

Only one bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of impotency.

A few doses make the weak spirited.

One bottle restores mental vigor.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the pale, nervous, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man or business, the victim of nervous depression, or those suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being better, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity for reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnace, would ask those without remodelling or erecting buildings to examine this truly valuable article.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe and chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some presenting a marked improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases, the lighter portion of the coal, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot pass off into the chimney but must pass through or cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, in the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

FRANKLIN HOUSE,
CONGRESS STREET,
PORTSMOUTH, N. H.
GEO. W. F. CONVERS, Manager.

This new Hotel, one of the first introduced them, failed to cure the most alarming symptoms of GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Scrofula, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation or the bladder and kidneys, Hydrocele, Abscesses, disorders, frightful Swellings, and the long train of horrible symptoms attending the class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases of a perverted, and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the mental and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the Head, Dyspepsia, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects of the vice are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

"SUCH A RATTER."—A contemporary gives the following amusing account of his experience with a dog, which he bought from a dealer, on his assurance that he was "such a ratter." He had some trouble at first in getting a rat, on which to try his "purp." He succeded at last, and says:—

However, the next day I was so fortunate as to secure from a boy in the market a fine, old-line, bob tailed rat, whose furious efforts to *chaw* everything within reach gave promise of glorious sport for Nip. Took the rat home, called in my dog, and told my wife that if she wanted to see the way that terriers *did* rats, to come down in the basement. She came down and shut the door, just in time too; for as soon as Nip saw the rat, he, Nip, my ratter, for which I paid the old gent five dollars, made a most unmistakeable cowardly movement towards the hall. Wife, on a chair, said the dog did not appear to see the rat.

Told wife to keep her breath. Thought that I would not give Nip any reason for not seeing the rat again; so I tied the string that held the rat to the dog's hind leg. He saw the rat that time, and jumped on the chair by wife. Wife laughed and shoved him off. Tried the stove next. Got off the stove without being shoved. The rat, however, being an old stager, and not being used to such treatment, made a demonstration on Nip's rear, and I don's believe little Flora Temple ever made better time in the same limits than that dog and rat made around the room.

First heat, dog had the lead, closely followed by rat, who, on striking the half-mile pole, (foot-stool in the corner) broke badly, in fact, nearly broke his back—and before he could be brought down, (he was sliding on his back) dog led him by whole length of string. Didn't stop for wind, but started on the second heat. Got off well together, (lied) and went finely around, neck and tail, until they reached the judge's stand, (on a chair) against which dog brought up solid, bringing the judge down in a style pre-eminently sudden, if not dignified. The heat was decided against the dog, you may bet, and it was only after much persuasion that the judge would again take her stand.

The third heat may be aptly termed a dead heat. They got off as well apart as the dog conveniently could, and sailed lively until just as they struck the last quarter, when the rat, which ran about as well on his back as on his legs, shied the track, and got rather queerly wound around a table leg. Dog kept on as far as the strug and length of his hind leg would let him. On raising the rat he was found to be *non compos*, totally defunct, in fact dead. Nip was not much better off.

Wife said that *that* dog couldn't kill mice. Told her that he had certainly killed that rat; but, on viewing the fact in a scientific light, I must confess that I did not feel quite satisfied with the performances of my pet, and the next morning gave him away to a milkman, who wanted a ratter to free his stable from the vermin. I have not been able to ascertain which left him first, the rats or the dog.

CURE FOR WEAK EYES.—An elderly gentleman, accustomed to "indulge," entered the room of a certain inn, where sat a grave friend by the fire. Lifting a pair of green spectacles upon his forehead, rubbing his inflamed eyes, and calling for hot brandy-and-water, he complained that "his eyes were getting weaker and weaker, and that even spectacles didn't seem to do any good." "I'll tell thee, friend," replied the Quaker, "what I think. If thee was to wear thy spectacles *over thy mouth* for a few months, thy *eyes* would get sound again."

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.

The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.

Dr. Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The Bold Grape leaves fifty-four grains of solid matter, consisting WHOLLY of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."

The Boston Traveller says:—"The California White or Rock Wine rivals in flavor the best of Rock Wines, and costs much less."

The Saturday Evening Gazette says:—"The White Wine is equal to the Sherry or Madeira which we import, with a fine and rich flavor, and we believe its purity unquestionable."

Hon. John S. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."

The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."

The Boston Transcript says:—"The White Wine is equal to the best Hock."

The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

FERTILIZERS,

Vegetable and Flower Seeds.

J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of working among it—the certain chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of ailments. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.80 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.3
Soluble " " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	26.
Alkaline of salts	2.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.6 p. c. of Ammonia.

The value of concentrated fertilizers depends principally upon the Soluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 4, 9, 16. In other words, Soluble Phosphates are worth 4½ times as much as Insoluble Phosphates, and nine times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of the Soluble Phosphates and Ammonia than the respective values of 4, 9, 16. In other words, Soluble Phosphates are worth 4½ times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of the Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis, I selected from the entire stock which was prepared for the market.

WEDNESDAY, MAY 11, 1864.

THE REBELLION.

An officer from the front reports at Louisville that Gen. Thomas occupied Dalton, Ga., on Sunday. This is very doubtful,—for Sec. Stanton telegraphs to Gen. Dix that a dispatch from Gen. Sherman, received at midnight Monday, says: "We are fighting for the possession of Rocky Face Ridge, and I have knowledge that McPherson took the Snake Creek Gap, and was within seven miles of Resaca this morning." Gen. Thomas having driven the rebels from Tunnel Hill to a strong position just north of Dalton on Saturday, and Resaca being 15 miles south of that place, Joe Johnston will probably find McPherson, with a strong corps of veteran troops, in his rear, while Thomas advances upon his front, and Schofield closes in upon the flank, from Cleveland. The Secretary thinks it probable that a great battle was fought on Monday.

Richmond papers of the 4th state that the recent advance on Vicksburg was a mere raid of rebel cavalry.

THE VIRGINIA CAMPAIGN.

A bearer of dispatches from Gen. Grant's Headquarters state that Lee's army commenced retreating on Friday night. Our army started in pursuit early Saturday morning. Gen. Hancock passed through Spottsylvania Court House before daylight on Sunday; and at noon on that day our headquarters were twenty miles south of the battlefield.

Dispatches from Gen. Grant, 6 P. M., Monday, say that he is "On to Richmond." We had taken 2000 prisoners. Our wounded were estimated at about 12,000, and there were several thousand wounded rebels in our hands. Lee was in full retreat for Richmond by the direct route, with Sedgwick, Hancock, Warren and Burnside close on his heels.

A careful sifting of the accounts received would seem to indicate that Friday's battle was long and hard-fought, and at times marked by some doubts. Early in the morning the rebels attacked our right and centre, but were repulsed by an advance of our own lines. About 6 o'clock Gen. Hancock drove them from their breastworks, and forced them back some little distance on both sides of the Chancellorsville plank road, taking several hundred prisoners.—The battle became general by half-past eight, and our right and centre advanced, under a severe fire of the enemy, till a marsh prevented their reaching the enemy's entrenched position on a high ridge, and they fell back. Another attempt to dislodge them at half-past ten o'clock failed. Gen. Burnside was unable to bring his troops in position at daybreak, as had been intended, and these two attempts were made without his assistance. And the rebels, seeing Gen. Hancock's exposed condition, massed their troops and made a most furious assault at once on his whole line. Their attack was checked by the vigorous defence of our intrenched line, but we lost very heavily, besides suffering somewhat from the confusion caused by the sudden driving back of one of the brigades in confusion.

The rebels fell back, just as Gen. Burnside had succeeded in placing all his troops in position, thereby securing a continuous formation of our battle front. Later the rebels again attacked our left which had advanced, and again forced it back, and succeeded in reaching our breastworks. There was imminent danger; but Gen. Hancock ordered a brigade to form at right angles with his lines, sweeping along the whole front of it, so as to take the enemy by the flank. This movement, skilfully and bravely executed, resulted in the complete repulse of the enemy with great slaughter. After this they disturbed the left no more. About dark, however, they attacked our extreme right, while our men were building up entrenchments, before it had time to form, and captured a large part of two brigades with their Generals, Seymour and Shaler. Gen. Sedgwick succeeded by personal exposure and energetic effort of himself and staff, in confining the rout to his extreme right.

This terminated the encounters of the day. The enemy had gained some advantage, but at night abandoned the ground.—The almost impenetrable woods favored them as they concealed their movements up to the moment of execution.

The cavalry corps has done its part of the work. They have encountered large bodies of Stuart's cavalry with uniform success.

Saturday was quiet, except late in the afternoon when Hill made an attempt to get between Gen. Sedgwick on our right and the Rapidan but was repulsed. Early in the evening it was ascertained that the entire rebel army had fallen back towards Spottylvania Court House. Our forces in the morning started in pursuit.

But Lee's retreat seems to have been in good order, and he has left but about 3500 prisoners in our hands. One correspondent states that Gen. Grant did not so much outfight as out-manœuvre and out-general the rebels. By a masterly movement on Friday night he changed the whole aspect of affairs. Lee seemed intent on cutting off our communication with Germania Ford. Grant seemed rather to court it, by withdrawing Gen. Sedgwick back upon the Ford, and pushing Burnside out on the Spottsylvania road, thus threatening the rebel line of communication. This gave Lee the choice of being cut off from Richmond or fighting; and so he skedaddled:—Generals Grant and Meade were in hourly consultation during the whole of the terrible battle, and it is believed agreed upon the propriety of every order issued.

Reports say: The battle was renewed on Sunday, and the rebels were driven down to Po river. On Monday the artillery was put into play, and at last accounts heavy cannonading was going on. Fort Darling is reported to be captured, but it is improbable.

Gen. Butler officially reports his operations to the 9th, which have been in brief as follows: 1700 negro cavalry have advanced up the Peninsula, forced the Chickahominy, safely joined Gen. Butler at Bermuda Landing, and now hold our advance pickets towards Richmond. Gen. Kautz, with 3000 cavalry from Suffolk, forced the Blackwater, burned the railroad bridge at Stony Creek, below Petersburg, cutting in two Beauregard's forces, leaving him with a large portion of his command on one side, and the rest under Hill on the other. Gen. Butler whipped Hill on the 9th, killing and wounding many and taking many prisoners. He has destroyed many miles of railroad, and is strongly intrenched at Bermuda Landing.

NEW HAMPSHIRE ITEMS.

—— John M. Crowell, formerly of Londonderry, has been elected Mayor of Atchinson, Kansas.

—— John Townsend, Esq., has sold his new woolen mill at Milton Mills to a Boston Company.

—— Instructions from Washington were received in Concord on Monday, to begin the draft in this State with the least possible delay. Our deficiency is about 450.

—— Rev. D. P. Cilley, of the 1st Regiment Mounted Infantry, was in the Red river expedition, and lost nearly all his personal effects, valued at about $200.

—— There has been a great demand for tenements in Gonic, and the Gonic Falls Manufacturing Company has about completed contracts for putting up four or five double two-storied tenement houses.

—— The wives of Senators Hale and Clark and Representative Rollins, are the New Hampshire members of the New England State Committees of the Ladies' National Covenant, organized at Washington, to discourage the purchase of foreign wearing apparel during the continuance of the war.

—— The accident to George Stokes in Manchester, on the 3d inst., resulted in the loss of his eye. He was engaged in a squabble with James Paine, who ran into another room and thrust a file through a hole in the closed door, which penetrated the eye of young Stokes and destroyed the sight.—Paine was brought before the Police Court on a charge of assault, by having committed the act out of a malice, which he claimed was not the fact, but that it was an accident. The trial of the case was postponed.

GARIBALDI ON OUR WAR.—An English correspondent says that Garibaldi, in a very straight-forward way, called on our Consul at London (Hon. Freeman H. Morse), and told him that he would do himself the honor of breakfasting with him the following morning, when he hoped to meet all who would do him the honor of calling on him. Mr. Morse, of course, was delighted with the privilege thus afforded him. In the course of the conversation that ensued, the correspondent says:

"Garibaldi spoke in the most enthusiastic terms of General Grant. He said that he was a brave and efficient officer, and commented particularly on the Western campaign, saying that it was the most masterly military feat that it had been his province ever to have heard of. He spoke of his being the 'right man in the right place,' and that he above all others was the man to command the American armies.

I may mention another item which was part of General Garibaldi's conversation. In speaking of having been in London some years ago, before he had become so universally known, he said when here he dined with the notorious George N. Sanders, then U. S. Consul here. Since that time Sanders has written to him, asking him to go over and take up the cause of the South, 'which proposition,' said he, 'I scornfully rejected. I did not even answer Sanders' communication.'"

☞ The bill for the new railroad bridge over the Merrimack provides that the Eastern Railroad shall construct thereon a pivot draw, having two openings of not less than 62 feet each. It also requires the railroad to make a new draw on the present bridge, opposite the one on their new bridge, not less than 62 feet in width.

— The Army of the Potomac has at last achieved a victory without intrenching.

CHIPS—HEWN AND GATHERED.

— Gens. Baldy Smith and Gilmore are with Gen. Butler.

— The President says that "Gen. Grant went ahead and drew his ladder after him."

— Gen. Grant has stores with him sufficient for several days' supplies.

— In April 3600 workmen were employed at the Charlestown Navy Yard; amount paid out, $175,000.

— The Pennsylvania Legislature has rejected the bill to remove the State capital to Philadelphia.

— The negro troops pulled down the rebel flag at City Point, and tearing it into fragments divided it among themselves.

— The capital stock of the Portland Shovel Company is to be increased to $100,000.

— Since the breaking out of the rebellion, not a single man in the naval service has been sentenced to death.

— Spottylvania Court House is on the Po river, forty four miles north west of Richmond.

— The distance from the late battle field to Richmond is about sixty miles—between three and four days' rapid marching.

— Gen. Longstreet was shot by a bullet in the neck, and is stated to be mortally wounded.

— Lee in his official report of *Thursday's* battles, said that he had repulsed all attacks, not Friday's as the telegraph had it. He said nothing about that day's fight.

— Richmond papers report the arrival at a rebel port of four blockade runners, with 3,000,000 pounds bacon and 500 bags of coffee.

— Portland papers give us the news that the horse railroad of that city is soon to be finished to Forest Hill, to carry people to the Cemetery!

— A New York dispatch states that the second son of Jeff. Davis, fell from a portico a week ago and was killed. It don't state where that portico is.

— Fredericksburg is to be occupied as a hospital. The houses designated are large and commodious; supplies, surgeons, nurses, and guards of invalid corps have been sent there.

— The Alabama put into Cape Town for coal supplies March 20. Semmes destroyed during his Indian Sea cruise seven ships. He reckons the damage to the Federals at five millions.

— Gen. Butler narrowly escaped being taken prisoner on Thursday, at Bermuda Hundred, 3 miles above City Point, while making a reconnoissance in person. His orderly, only a short distance from him, was captured.

— Gen. Grant has telegraphed Gen. Banks to turn over his command to the next officer in rank and report himself at New Orleans. This is, of course, a temporary arrangement, lasting till Gen. Canby arrives.

— A Piedmont correspondent of the Baltimore American says that the rebels, in their raid upon the Baltimore and Ohio Railroad at that point last week, were guided by information communicated by resident traitors.

— On Friday a number of slightly wounded men, who had been ordered to the rear, were fired upon by citizens of Fredericksburg with shot guns, pistols, and such other arms as were obtainable. Forrest has not all the fiends in his murderous gang.

— Experiments made in Prussia attest the superiority of steel over iron boilers. The advantages of steel boilers are declared to be strength, lightness, rapidity of evaporation, durability under heat, the securing of more perfect rivetting, and comparative freedom from scale.

— The spacious steamboat, freight and passenger depot of the Northern Railroad, in New London, Conn., which was also occupied by the Norwich and New York Transportation Company, was burnt on Sunday afternoon, with a large amount of freight. Loss $100,000.

— The iron mountain of Missouri is exactly in the geographical centre of the United States. It is an almost solid mass of specular iron ore, rising from a level plain 260 feet. Its base covers 500 acres. The ore contains sixty-seven per cent. of iron.

— A hostler in Portland, while leading out a colt from a stable, on Saturday, accidentally dropped the halter, and in attempting to recover it fell to the ground. The colt leaped over his body and struck at his head with one of her hind feet, breaking the skull, from the effects of which he died during the night.

An amusing circumstance occurred in a singing school, some years ago. A Mr. Paine was the teacher, and a Miss Patience one of the pupils. In the course of the evening the teacher gave out the tune set to the words—

"Coffee, gentle *patience* smile on *pain*."

The pupils were so excited by laughter that it was found impossible to sing the line. Soon the teacher gave out another, in which were the following lines:

"Oh, give me tears for others' woes,
And *patience* for my own."

The risibilities of the school were so affected that all singing was deferred until another occasion.

FAMINE "DOWN EAST."—The Machias Republican proclaims to the world that Machias is nearly out of bread stuffs, and that the people are expecting to live on Indian meal until they can raise enough wind to bring more flour from Boston. More private information has it, (the Bath Times says) that the people are turning their meal bags inside out, and giving them some shaking. Johnny cakes are in great requisition, and corn is therefore rising beyond the means of the people. It is sincerely hoped that there may be a speedy change of wind to give the people of Machias a change of diet and save them from starvation.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three barrels full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

Local.

THE NATIONAL GUARDS, of Manchester, arrived in this city on Tuesday morning, having been ordered by the Governor with the Strafford Guards, of Dover, to garrison Fort Constitution. They were received by the City Government, and a detachment of the Strafford Guards which marched up from the Fort for the purpose. The Portsmouth Cornet Band were also engaged, and the whole, under the Chief marshalship of Col. Robt. Lefavour, marched to Newcastle.

The National Guards number about 80 men, and will, doubtless, perform cheerfully and promptly the various duties of the soldier, so far as there is any call for them at that post. Fort Constitution isn't such a bad summer residence to loyal men as it might be possible to find elsewhere. It depends altogether upon how you go there, though.

The National Guards were mustered into the United States service for 60 days, by Capt. Holmes, on Monday, at the City Hall, Manchester. Gov. Gilmore, Adj. Gen. Natt Head, Hon. Frederick Smyth, Judge Cross, and other gentlemen were present; and the Guards were happily addressed by his Excellency the Governor. The average age of the members of the company, as we learn from the Union, is eighteen, there being but one older than Capt. Chandler, who is 27 years of age. The following is the roster of the company:

James O. Chandler—Captain.
James R. Carr—First Lieutenant.
James G. Burns—Second Lieutenant.
Frank M. Boutelle, Daniel Neal, Edwin M. Tillotson, Wm. E. Boutelle, Chas. C. Hilton—Sergeants.
Geo. F. Calef, Geo. J. Hunt, Wm. Buckminster, Chas. P. Green—Corporals.
Orrin N. B. Stokes, Madison Gerry—Musicians.
Geo. Canfield—Wagoner.

POLICE COURT, Tuesday.—Patrick Freeman, for being a common drunkard, was sent to the House of Correction for two months, and ordered to pay costs, $3.86.

Andrew Ray, for same offence, was sent to the House of Correction for two months, and ordered to pay costs $2.92.

Two brothers pleaded guilty to being drunk and were fined $3. and costs $3.86 each, which they paid. They were, we understand, engaged in a bit of a fight, in a brotherly way, near the depot on Monday afternoon. Officers Joy and Johnson interfered, and the two brothers, wishing to be let alone, attempted to pitch into the officers, with an utter disregard of the majesty of the law. The power of the law, however, was sufficient to subdue them, and they were taken to the lock-up. Persons who attack the members of the Police should remember that when occasion offers they may become expounders of the law.

☞ In the fierce and sanguinary strife in Virginia many noble and patriotic sons of New England have fallen;—among them one of the bravest and best, a most promising and beloved descendant of one of our oldest families, whose great ancestor was a conspicuous revolutionary patriot. In a long list of killed and wounded we find this brief notice, most significant: *"Fifty-sixth Massachusetts*—First brigade, first division. Col. Griswold, killed in leading on his men, colors in hand."

☞ Mr. Joy, whose advertisements are seen in our columns, has already secured a good Juvenile Singing School, the regular course of which begins next Saturday. Let the children be placed under the care of this teacher, on whom parents may safely rely for order, energy and system; and under whose tuition the pupils will learn to sing by note. The very moderate price is money well spent, for it buys lasting pleasure to those who obtain a knowledge of music, at once an accomplishment and a source of innocent and ennobling enjoyment.

☞ Mr. Charles Spinney, of Eliot, Me., for a number of years past Head Teamster at the Portsmouth Navy Yard, has been removed, and Mr. George D. Shannon of this city, appointed in his place. Quite a little 'billet' for Mr. S., who, we trust, will faithfully discharge the duties relating to that position.

☞ A Washington dispatch states that information was received on Monday night that the rebel ram in Albermarle Sound has been attacked and sunk by the U. S. steamer Sassacus. The Sassacus was built and fitted out at the Portsmouth Navy Yard.

☞ Mr. George T. Wiggin of Amesbury, Mass., has been appointed teacher of the Haven Grammar School, vice T. D. Foss, resigned.

☞ We learn that the negroes at Sullivan Island Battery have been ordered to sea-service.

EXECUTIVE MANSION, Washington, May 9.
To the Friends of Union and Liberty:—Enough is known of army operations within the last few days to claim our especial gratitude to God. While what remains undone demands our most sincere prayers to, and reliance upon, Him without whom all human effort is vain, I recommend that all patriots at their homes, in their places of public worship, and wherever they may be, unite in common thanksgiving and prayer to Almighty God. A. LINCOLN.

TRICHINIASIS IN GERMANY.—A few months since there was a festive celebration in Hettstadt, a small town near Harts Mountains in Germany: upwards of a hundred persons in the prime of life eat of an excellent dinner, and the result was that eighty-three are now dead, and of the twenty now living the majority are lingering with a fearful malady. Upon examination of the articles eaten at this dinner it was found that it was the *Rostewurst*, or smoked and fried sausages made from a recently killed pig, that produced the sickness and death.

To make the sausages very nice,—the butcher, on his part, went expressly to a neighboring proprietor, and bought one of two pigs from the steward, who had been commissioned with the transaction by his master. It appears, however, that the steward, unfortunately, sold the pig which the master had not intended to sell, as he did not deem it sufficiently fat or well-conditioned. Thus the wrong pig was sold, carried on a barrow to the butcher, killed and worked up into sausages. The sausages were duly smoked and delivered at the hotel. There they were fried and served to the guests at the dinner-table.

A microscopical examination of the sausages showed them to perfectly swarm with trichine or *little* worms.

In the post mortem examinations of the victims of the dinner, these little live mites were found not only in the stomach and bowels, but in the muscles of the body and legs.

The natural history of trichina in man was found to be the same as that in animals.

All observations lead to the conviction that the trichina encapsuled in the flesh is in the condition of puberty. Brought into the stomach, the calcareous capsule is digested with the flesh, and the trichina is set free. It probably feeds upon the walls of the intestines themselves; for the irritation of the intestines begins before the bringing forth of young trichinæ has taken place, and, within a few hours, or a short portion of days, from sixty to eighty live young ones begin their own career of destruction.

The crew of a merchant vessel shipped a pig at Valparaiso, and killed it a few days after they arrive at Hamburg, and most of the sailors ate the pork. Several of them died with trichine, and most of the others were more or less affected with it.

Twelve persons died at Hesse-Darmstadt of the same disease.—*Boston Med. and Surg. Journal.*

☞ The Dover *Enquirer* says:

"The treasonable letter of Frank Pierce to Jeff. Davis first came to light some six or eight months ago; but the copperhead organs in this State didn't acknowledge its authenticity or allude to it in any way, for a long time. A democrat who has been a State Senator, and a "big bug" generally in the party, denied that there was any such letter, because, reading nothing but his party papers, he had never heard of it! The Concord Patriot, however, at last was compelled to acknowledge it, and published the document in full, but has attempted to break the full force of its treasonable character by publishing along with it sundry other rather prosy letters written by Pierce at about the same time to Northern men, expressing pretty much the same sentiments, though in more guarded language than was employed in the letter to Davis. How this helps the matter for the Ex-President we do not see.

VOLUNTEERS, ATTENTION!—For the derangements of the system incidental to the change of diet, wounds, eruptions, and exposures which every Volunteer is liable to, there are no remedies so safe, convenient and reliable as Holloway's Pills and Ointment.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 209

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 182 Liberty Street, New York.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—

Morning Chronicle.

HAND WRITING.—The Round Table has an elaborate article on autographs elicited by the late Fairs, which has notices of ancient and modern hand writing. Aristo wrote in a small fine pointed character, and Tasso in large, free and flowing style. Goethe wrote neatly and even elegantly.—Porson wrote Greek as plain as type.—Brougham writes with crabbed illegibility; Hawthorne with a stroke far from neat and somewhat confused; Longfellow with a round, back-handed elegant fashion. Theodore Parker had a crampled hieroglyphic that competed with Choate's famous scratches for absolute unreadableness. Dr. Chalmers kept an even hand. Byron wrote an awkward, contorted script; Scott wrote in regular hooked characters, though he constantly failed to cross his t's. Emerson writes with a rushing air, Willis with sharp, firm evenness: Charles Sprague with womanly delicacy; Fanny Kemble with a nervous stroke and a womanly angularity; Whittier with indecision, without either strength or symmetry; Whipple with lofty loops, that are a chirographic pun upon his penultimate syllable; Hillard precise, balanced and constrained; Motley is minute and clipt, and George Ticknor is legible and light stroked. The dot and scratch of Halleck looks as if he might have practiced the Morse alphabet and got crazy on it.—The Round Table gives characteristics of others. The facts show that chirography can hardly be relied on as an indication of character. The philosophic theory of the matter, put by Lavater and others, is stated to be, that certain qualities of the brain act through the nervous organization, and thus regulate the motion of the hand, by the dependent muscles, so that the form the letters take upon the paper will show a correspondence with those qualities as surely as the lines in the spectrum will designate the nature of the body that emits the ray.

STA. S. H., Feb. 26, 1866. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, in addition to visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She was advised to a number of physicians, but continued to grow weaker till she commenced using SWEETS ANACELA and BLUMOSE BALM. Since then she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CARRIER.

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector Army of the Potomac, Inspector, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
WHAT may seem almost incredible, is, if at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cases which have no parallel in the annals of medical.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. I have no faith in those who long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as large as ever encountered by any Reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others complain of the tenacity with which disease can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the equilibrium. This we do.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not referred to it in emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight of Stomach, Distension, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Scrofula, Glandular Swellings, Ulceration, Tumors, Erysipelas, Salt Rheum, Sore Eyes.
This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
[Arthritic], Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its hundred allies. The most obstinate cases are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Convulsions of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to Young Men, whose ruin is so rife, our medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all mercurial poison, it will cure, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken so soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution—we guarantee a speedy cure by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Hypochondria Dropsy, of the Head, abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the womb, are permanently cared by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove in a few days, if the patient should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swellings in other places of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (or Palpitation), Disease of Valves—producing a gratifying cure in a few days. The Life Syrup has also all the attributes of the important organ, or persons suffering from any acute pain in the region of the heart will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions,
Suffering from Indiscretion in Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Want of Sleep, Restlessness, Cold Hands and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Neck, we have proved a most powerful remedy.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very troublesome to remove, but we believe, a few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Jaundice or Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an alternated or chlorotic condition of that organ, accompanied by pain in the side, and other symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, so usually developed in the young, High Fevers, Wakefulness, all Nervous Debility and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MARRIED AND MARRIED LADIES It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens the mother and child, prevents pain and disease, and increases and enriches the food—those who have used it think it indispensable. It is highly valued by those who kept confined in his warehouse in Boston, in barrels, half barrels and kegs.
Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any responsible Grocer or Druggist for "GOLDEN SHEAF WHISKEY"—or send their orders for any quantity required to the General Depot for its sale,
99 Washington street, Boston.
Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inconvenience of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially adapted to those cases of *Pain Alone (or Whites as females) where all the old nostrums and medicines have failed.*
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an auxiliary or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, its effects are healing, soothing and *demulcent*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *so much boasted injections.*
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, the sexual and urinary organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.
CHEROKEE
CURE.
An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases consequent thereon, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Irregularity on the Face, Pain, and all complaints requiring a tonic, and all the direful complaints caused by departing from the path of nature.
☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Numerous testimonials have been sufficient to gain victory over the most stubborn cases.
☞ To those who have trifled with their constitution, and who find themselves on the threshold of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and strength, when all other means have failed.
☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, full treatise in pamphlet form.
☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.
Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.
The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.
This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.
The Elixir will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses restore the color to the cheek.
This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.
The listless enervated youth, the over-tasked man, in consequence of nervous prostration, the individual suffering from general debility, or from weakness of a single organ, will all immediately find permanent relief by the use of this Elixir or Essence of Life.
☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money to any address.
Sold by all druggists everywhere.

THE MAGEE
COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the baking being heavier, and the oven larger than usual. The oven plates are covered with plaster, which keeps it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the exception top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, in place and quantity—and no more of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the Furnace can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer, them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Gray's Patent
Molded Collars
Have now been before the public for nearly a year, and are universally pronounced the neatest and best fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The cravat causes no pockets on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Garotte Collar has a smooth and evenly finished edge on BOTH SIDES.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.
They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte), from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons, containing 300 each; also in a smaller one of 30 each, the latter a very handy package for Travellers, Army and Navy Officers.
☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

JEFF. DAVIS AT HOME.—That amiable journal, the Richmond Examiner, draws this pleasing picture of Jefferson Davis, in an article on the Confederate fast day:

Mr. Davis has the reputation of unbending obstinacy and hauteur; but that is for his friends. When his own supporters and rightful councellors, the men who created this Confederate movement and elevated him to his great office, approach him with respectful advice or remonstrance, it may be that he is hard as flint; but let the public enemy command him, at his peril, to eat his own words and come down from his high ground, and who so politic and 'reasonable' is he? His stern self-will is for us—his confederates—his gracious gentleness for our foes. Triumph, and gratified pride are for them; for us, fasting, humiliation and prayer.

"Thus we prepare ourselves, and we trust our readers also, to join in fitting frame of mind in the services Friday, 8th of April. Let us fast on this day, as only Confederates can; let us clothe our souls in the sackcloth and ashes of humility; and let us pray, saying: 'Fromall privy conspiracy and hugger-mugger, from canting and recanting and all other shuffling sin, from the crafts and assaults of the devil and Yankee democrats—good Lord deliver us!"

The immediate occasion of this is, that Jeff. Davis has not hanged General Butler, as he threatened to do, but has found himself compelled to enter into negotiations with him for the exchange of prisoners.—*Evening Post.*

The Copperhead papers, echoing the words of the Louisville Journal, are frequently enquiring why, if slavery is dead, the abolitionists are continually shooting at the corpse. The Cincinnati Gazette answers this question.—"It is not the corpse they are shooting at," says that paper, "but resurrectionists who persist in dragging out the rotten carcass to the annoyance and disgust of the public."—Let them get away from the grave and the "shots" will be discontinued."

— Swallow-tailed ladies are the latest Parisian invention. At the last fancy dress ball of the Empress Eugenie, Princess Metternich appeared as a swallow. She wore a robe of brownish-grey velvet, with "a postillion" behind, exactly imitating the expanded tail of the bird; a swallow, with outstretched wings, perched on each shoulder, and another on the top of her head.—Two other persons most skilfully dressed as cats had an immense success.

DR. TEBBETTS'
PHYSIOLOGICAL
HAIR REGENERATOR
AND
UNIVERSAL HAIR RESTORER.
ITS MODUS OPERANDI.
Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair on the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the Hair keeps its nature, appearance and color. But when humors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.
To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.
Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Ammonia, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.
The Physiological Hair Regenerator is warranted in all cases to produce the following results:
1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.
2. It will certainly restore Gray Hair to its gray to a beautiful *Black, Brown, Auburn*, or whatever may have been its original color.
3. It will effectually prevent the hair from falling off, remove all dead, inflammation and Dandruff from the scalp, keeping the head clean and free, and the hair soft, glossy and of a silky appearance.
4. It will PROMOTE a luxuriant growth of new hair on bald spots, except in extreme cases where age and where the glands have become disorganized.
5. It will cure the most inveterate Itching and Scurvy of the scalp, and being highly perfumed, affords a most delightful article for the toilet.
We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.
BEDFORD, N. H., Dec. 17, 1863.
Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, I find works wonders, has had a wonderful effect. My hair was very almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling off on account of a severe attack of diphtheria; it stopped it immediately on its application. My wife has also been trying it for tiredness on top of her head, and finds that a growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix her heads up in good shape. J. C. CUTLER.

MANCHESTER, Dec. 20, 1863.
Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but is the most beautiful dressing that can be procured. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when at out two months ago I began the use of your Regenerator, and it has completely restored all my friends to me, my hair bought back to its natural color, which is almost complete black. It is the only thing, unless it be a regular fair, that I ever knew would produce such effect. It also keeps the head so cool and free from scurf, that it makes a very pleasant dressing. JACOB J. AMSBY.

FERTILIZERS,
Trees, Vines,
Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grain and hay harvest.—The celerity and dispatch with which a large crop of corn is put in and poudretted, the rapid growth and consequently the early opportunity of work. If among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For Grass and Grain and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 6)	17.2
Soluble " " (ca O P O 6)	11.5
Organic matter	31.
Sulphate of lime	23.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.8

The organic matter yields 5.5 p. c. of Ammonia.
The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is now universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, five Insoluble parts are worth 4½ times and Ammonia 8 times as much as Soluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample of Ammonia, selected from the entire stock which was prepared for the market.

Portsmouth, N. H.

THURSDAY, MAY 12, 1864.

THE REBELLION.

The firing on Fort Sumter was renewed on Friday. 395 mortar shells had been thrown at Fort Sumter, and 12 into Charleston up to Sunday.

It is understood that a combined naval and land attack on Sumter has been ordered. Several rebel iron-clads are afloat in Charleston Harbor. Folly Island has been fully prepared for an attack from the enemy. All indications point to early assumption of rebel offensive operations.

A Demopolis dispatch of the 5th states that General Emory, with 11,000 infantry, two batteries, and 250 cavalry was advancing toward Yazoo City.

Some rebel cavalry made a demonstration on Newbern on the 6th, but were forced back by the gunboats. On Thursday the rebels appeared again, and demanded the surrender of the place, which was refused with a threat, and they retired, probably because disappointed in not having the co-operation of the rebel ram which had been driven off by our gunboats, as related elsewhere.

The Secretary of the rebel Navy has official information that the pirate Florida sunk the Federal gunboat Huntsville and another vessel in the West Indies.

The Dalton rebel correspondent of the Atlanta Register avers that there has been a greater concentration of Union forces in the direction of Chattanooga than on the Potomac. And the Raleigh Progress adds that Gen. Grant's "On to Richmond" is but a feint, "while "on to Atlanta" is a reality. If Grant's movement is a "feint," what must Gen. Thomas' be?

THE VIRGINIA CAMPAIGN.

On Monday afternoon some of Gen. Butler's troops had a fight with the rebels, Beauregard commanding in person, and drove them back three miles, nearly into Petersburg. We hold the railroad between Richmond and Petersburg. Gen. Kautz's cavalry succeeded in destroying some portions of the Petersburg and Weldon Railroad at Hickeford, and captured many rebel prisoners. Gen. Butler's advancing columns were protected by the gunboats, which went up the Appomatox for the purpose. The negro cavalry went within a mile and a half of Fort Darling, and found rebel infantry and artillery, though not in strong force.

Dispatches from Gen. Grant, Monday, say the enemy had made a stand at Spottsylvania Court House, and there had been some hard fighting but no general battle. Gen. Grant did not design to renew the attack on Tuesday, being engaged in replenishing from the supply train so as to advance without it.

A Washington dispatch states that on Sunday Gen. Burnside "whipped old Longstreet." The N. Y. World's dispatch states that it was Warren's 5th corps which drove the rebels on Sunday. The most stubborn fighting since Sunday morning has been done mainly by our artillery, in the effort to get Lee across the Po river. We have taken more prisoners during Lee's retreat than in all the battles on Thursday and Friday. The fighting on Sunday was 3 miles north of Spottsylvania Court House. In the morning it was general, and lasted four hours; and in the afternoon there was a succession of fights. They won a victory for us, but a very costly one. The Fifth Corps fought it alone, the other portions of the army not having come up, until 6 o'clock, when one brigade of the 6th joined in. At half past 5 Gens. Grant and Meade visited the scene of action, and rode directly to the front. They were loudly cheered by the troops not engaged, and by their presence cheered the men in action to renewed exertions. Our troops have now succeeded in penetrating about 15 miles into the rebel country, and are 50 miles from Richmond.

On Monday the army, wearied with five days' hard fighting and marching, rested upon the ground which they had struggled so hard to gain. Early in the day they were ordered to hold the positions they had taken, but not to fight unless attacked.

"Carleton" telegraphs to the Boston Journal, Tuesday, that Lee is disputing every inch of the ground. The 2d corps had a hard fight on Monday night; the rebels were driven from their position, and ground gained which will enable Grant to make a favorable disposition of his forces. Up to that time everything was favorable, and there was no trouble about supplies.

Sec. Stanton telegraphs that dispatches to 5 P. M., Tuesday, represent both armies at that time holding their positions at Spottsylvania Court House, without any material change. The enemy had been driven to their breast works. The 6th corps, under Gen. Wright, had carried the first line of the enemy's rifle-pits. There had been heavy skirmishing during the day. Our wounded had reached Fredericksburg and one were brought to Washington.

The 6th corps is reported to have driven Ewell's rebel corps across the Po river on Monday.

Maj. Gen. Sedgwick was shot through the head by a rebel sharpshooter on Sunday morning, while superintending the mounting of some heavy guns in an angle the men had just prepared. He fell back dead into the arms of one of his Asst. Adj. Generals.

Our losses in general officers during the five days fighting are in killed, Major General Sedgwick, Brigadier General Jas. S. Wadsworth and Brigadier General Alex. Hayes. Wounded, Brigadier Generals G. W. Getty, W. H. Morris, H. Baxter and Robinson. Prisoners, Generals Shaler and Seymour.

THE REBEL RAM.—The Albemarle was not sunk by the Sassacus after all. There was a severe contest between the ram and seven Union gunboats on Thursday, 12 miles from the mouth of the Roanoke river. The ram was accompanied by the Cotton Plant and the Bombshell, the latter of which was captured, with all on board. The fight lasted three hours. The Sassacus, having an iron prow, ran at full speed against the ram, but was compelled to retire, having her forward rudder knocked off and a 100-parrott shot through her boiler. The ram escaped up the river under cover of the darkness, it is said little injured. Our loss was 5 killed and 26 wounded. The only gunboats struck were the Wyalusing, Mattabesset and Sassacus, the first two being slightly injured. The ram has a heavy armament.

☞ A writer in the Boston Herald, signing himself "a Brick," has the following remarks on "Loyalty, Courage and Truth."

In the time of supreme necessity for faith and courage, how many there are, who, if they do not ominously and continuously croak, like unclean birds, at least help the fears of the timid and witless by shaking their muddle heads with an air of gloom and despondency.

It is true the alternatives of victory and defeat are before us now as they have been in the past, but peril is immensely aggravated by cowardice. The wretched poltroon in the army is always ready to be defeated. The brave are victors in advance. They know no such word as fail. They look their foe straight in the eye, and "propose to advance immediately upon his works." Now, sir, cannot we have a better *morale* on the street, in the hotels and horse-cars, at the fireside and in the countroom. The example of the Confederates, who have endured sacrifices such as we have hardly imagined, ought to shame our croakers with a semblance of pluck, or into silence.

Your political croakers, who croak in the interest of Fernando Wood "democracy," as they would sell their hopes of Heaven in the same cause, will croak, of course; but a loyal man has no more right to croak and afflict himself with forebodings of evil than he has to undermine a Federal fortress. Every hour the financial position, which cannot be exempt from the difficulties incident to a state of war, is made more critical by croakers, for no better reason than their pitiable proclivity to panic. A murrain on all such! Let honest people scout them. They are false friends. They are in league with the enemy. Down with them! They must not demoralize the people. The right will prevail. The rebel armies will be defeated. The Union will be restored, and the Government will not repudiate either its currency or its bonds. This is true, or we are a nation of cowards and lazzaroni; and how much better to say so and believe it than the contrary!

☞ A Washington dispatch gives the following, the first part of which is probably not true:

Lee lately issued an order in which he said communication with Richmond was cut off, and it was impossible to furnish the men with stores. Gen. Hill's corps had no rations issued for three days. Lee enjoined upon his men the necessity of capturing supplies from the Yankees. Up to Monday they had failed to capture a single wagon. The roads are in excellent travelling order, but very dusty. Our troops are enthusiastic and sanguine, and have ample supplies.

☞ Alpheus A. Hanscom, Esq., who, for 21 years, has been printer and editor of the the Saco Democrat, retires from the post this week,—to the interior, with a competency we trust, in search of health for his family. His successor is Isaac B. Noyes, of Saco, also a practical printer.

— Gen. Wright succeeds Gen. Sedgwick. Dispatches from the army speak of him as an able officer.

— The Round Table thinks a lady, at present prices, is "a luxury too great for an ordinary man to contemplate; the figures attached plainly to her make-up and adornments would frighten any man who did not possess a printing-press of his own that could turn out an unlimited number of greenbacks." The crockery on that Round Table will begin to fly presently.

— It is stated that about a week ago a Baltimore gentleman, who had a conversation with the President, reported him expressing the utmost confidence in Gen. Grant, adding: "When I listen to him explaining his plans, not purposes, in the approaching campaign, I am appalled at their magnitude and astounded at the confidence he seems to feel in his ability to accomplish them."

CHIPS—HEWN AND GATHERED.

— 118,077 Veteran Volunteers have re-enlisted.

— The rebel Senate has a vote of thanks to Forrest under consideration.

— Stickwell & Co.'s Mucilage is advertised. Something in a name there.

— The gunboat Bombshell, taken at Plymouth, N. C., has been recaptured.

— Some accounts say that the rebel ram Albermarle was only severely injured by the Sassacus.

— Bragg is entrusted with the defence of Richmond with such reserves, local force, invalids, &c., as can be mustered.

— Lee claims a victory when he withdraws from our front and marches toward Richmond.

— The bodies of Generals Sedgwick, and Hays reached Washington on Monday.

— The French have a book on "the Art of Tying the Cravat," which has reached its 15th edition.

— A mining code for the government of the vast mining interests of the country, is urged upon the attention of Congress.

— The man who places beautiful pictures in his window, whatever his object, is a public benefactor.

— Brig. Gen. James. S. Wadsworth, killed in Virginia, was the opponent of Gov. Seymour in the New York State election in 1862.

— It is said that the rebels have a large intrenched depot of supplies on the North Anna line of defenses, toward which point Lee was directing his retreat.

— Our losses in Virginia have been terrible. Correspondents estimate them as follows: Killed, 3000; wounded, 18,000; missing, 6000. Total, 27,000.

— They are forming a Grant and Butler club in Washington, devoted to the nomination and election of these officers as President and Vice President.

— The Richmond Whig of the 7th states that Richmond is in worse peril than when threatened by McClellan. It argues that there is no need of a panic, but says there will be trouble from insufficiency of food.

— The ships destroyed in the Indian seas by the Alabama have been the Amanda, Winged Racer, Contest, Martaban (or Texan Star), Senora, Highlander and Emma Jane.

— This, from the Portland Advertiser, may be interesting intelligence to some round this way: "We learn that the cunners have struck in. Lo, boys, prepare your fishing tackle."

— The Newburyport Herald says: We saw a draft, on Saturday, on one of our little banks, for a hundred thousand dollars, which is a good pile for a little place like this.

— Between Saturday night and Monday morning two stores in Salem, Mass., were entered through back windows and robbed, one of $175, and the other of rings, watches, chains, etc., to the amount of $300.

— One newspaper correspondent commences his account with: "Having the misfortune to be captured by a portion of Stuart's cavalry who deprived me of my notes of the recent battles."

— When Napoleon invaded Prussia the German women threw their diamonds into the public treasury, and substituted iron filagree work, much of which is preserved to this day as the relics of their patriotism.

—Punch says: "Women are said to have stronger attachments than men. It is not so. Strength of attachment is evinced in little things. A man is often attached to an old hat; but did you ever know of a woman having an attachment for an old bonnet?" Echo answers "Never!"

— At the close of a sermon on worldly vanities, a rural minister gave the following notice: "The parties to be joined in marriage will present themselves, after we have sung the two hundred and twenty-fifth hymn, beginning, 'mistaken souls that dream of Heaven.'"

— A newspaper correspondent gives a very pathetic account of "War's doings to one family." But one of the sons he makes serve 14 months in the 17th N. H. regiment, and then 9 months in the 19th N. H. regiment. We have had but 17 regiments, and the 17th served but 9 months.

— Col. Francis Fessenden, son of Senator Fessenden, of Maine, was on Tuesday nominated and unanimously confirmed as Brigadier General. His gallantry in the recent Red River fight secured him his promotion. He is a noble officer, has been twice wounded, and has more warm friends among his acquaintances than usually falls to the lot of young men.

— Perley telegraphs that military men in Washington admire the persevering strategy thus far pursued by Gen. Grant. Instead of marching into the enfilading files of the soccessive lines of earthworks thrown up by the rebels, he flanked them; when the rebels attacked him baited and fought, and when they retired from his determined resistence he pushed his columns forward.

Special Notice to Wounded Soldiers.

The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so-called Protective War Claim Association, No. 38 Chambers st., that these Bounties are not being collected and paid as advertised, is false, and either betrays the ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.

All such claims on file in that office, should be at once withdrawn and presented at this office.

INSTALLATION. — The Installation of Rev. Henry F. Lane, as Pastor of the Middle street Baptist Society in this city, is to take place this (Thursday) evening, at 7 1-2 o'clock. Sermon by Rev. Baron Stow, D. D.; Charge to the Pastor, by Rev. William Lamson, D. D.; Prayer of Installation, by Rev. N. Hooper, of Exeter; Charge to the People, by Rev. J. Peck, of Newton, N. H.; Hand of Fellowship, by Rev. S. A. Collins, of Great Falls.

U. S. CIRCUIT COURT, Clifford J. presiding.—The suit of Herrick Aiken v Jesse S. Perkins for an alleged infringement of a Patent for making knitting needles for stocking looms, has been tried by the Jury. Verdict for plff. Webster for plff.; Hackett for deft.

On motion of Mr. Hackett Geo. A. Bingham, of Littleton, John Y. Mugridge and Charles F. Sanborn, of Concord, and Stephen G. Clarke, of Manchester, were admitted to practice as Attorneys and Counsellors of this Court.

The Grand Jury were dismissed on Wednesday.

☞ We learn that Col. Mark F. Wentworth, in consequence of his acceptance of the Colonelcy of the 32d Maine regiment, has resigned his position of Naval Storekeeper at the Portsmouth Navy Yard, and John R. Wentworth has received the appointment. Col. W. having recruited his regiment to the minimum standard, left for the seat of war on Wednesday, with the remaining portion of his men, to join those who left a few weeks since. The regiment has rendezvoused at Augusta, and will proceed to Annapolis for the purpose of drill.

☞ George E. Hodgdon, late 1st Lieutenant of Co. G, 10th Regiment New Hampshire Vols., having passed a satisfactory examination before a board of officers, convened at Boston for the examination of applicants, has been appointed by the President a 2nd Lieutenant in the Veteran Reserve Corps, and ordered to report at Washington.

☞ During the excitement of the past week, we have been daily under obligations to Mr. W. H. Laws for early copies of first editions of the Boston afternoon papers.—These favors are appreciated by us.

☞ Among those reported wounded in the Virginia battles are F. F. Sanborn, 10th N. H. regiment,—probably Freeman F. Sanborn of this city, a private in Co. G; and Lieut. Parker, Co. K, 17th Maine.

☞ Why is a physician attending upon one of our Expressmen, like a learned advocate at the Bar?

NEW HAMPSHIRE ITEMS.

—— Concord lacks 19 men to fill her quota. Manchester is 149 ahead.

—— The New daily paper in Concord is to "start" on Monday.

—— Gov. Gilmore is arranging to send temporary surgeons and physicians to our regiments that have been in the late battle. Some left Concord on Tuesday afternoon.

—— As a man was walking along through a street in Manchester, with a carpet bag suspended from a cane, an Irishman seized the bag and skedaddled. But he was arrested, tried and fined.

—— An insane man on Monday night leaped from the window of the City Marshal's office, in Manchester, to the pavement, a distance of about 15 feet, and was uninjured.

—— A correspondent of the Wolfborough News speaks of meeting "the prince of bleacons" at Sanbornton, who is now 95 years old, his wife being 84. They have been the parents of twenty children. The wife has given birth to two pairs of twins. Her mother gave birth to three pairs, and the wife of a brother was the mother of two pairs.

—— Capt. Hutchinson, of Gen. Wilcox's Staff, reported wounded painfully in the thigh, is supposed to be Capt. Robert A. Hutchins, son of Ephraim Hutchins, Esq., of Concord. Capt. Hutchins was formerly in the 7th N. Y. Regiment, afterward an officer in a Western Corps, and for some time past a member of Gen. Wilcox's Staff. He is a brave and faithful officer.

☞ They are to have a new Daily paper in Concord, to be called the Commonwealth, to commence May 16th. We don't like the title, but then what signifies a name? The publishers, Messrs. Coggswell and Sturtevant, are excellent printers and capital fellows, and without doubt possess all the attributes necessary to construct a good paper, such as Concord and every other live place needs.

And among other prominent gentlemen interested, we understand that Gov. Gilmore says that it shall "go"—and his endorsement has always proved good so far. We give, success to the new enterprise; but our friends will find the job of getting up a Daily, especially a new one, no sinecure,—even though it be but a little paper.

— Sunday was sultry in Virginia, and there were many cases of sunstroke in the Army.

☞ The delay of the rebel ram Albemarle for so long a time after the taking of Plymouth before she made her appearance in the Sound, may be explained by the statement of two rebel deserters, who say that the ram, in her fight at Plymouth, had two of her plates broken off, either by the guns of the Miami or the 200-pounder. This delay enabled reinforcements to reach the Sound.

SOLDIERS' SPECIAL NOTICE.—Do your duty to yourselves, protect your health, use Holloway's Pills and Ointment. For wounds, sores, bowel complaints and fevers, they are a perfect safeguard. Full directions how to use them with every box.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 210

A SEA SIDE COSMETIC.—Ladies are too apt to use injurious compounds to cleanse their skin. If they used Grace's celebrated Salve, they would put no arsenic or preparation of lead on the delicate cuticle, and their skin would be soft, free from freckles or tan, and healthy. Then baby would find the salve invaluable in case of sore ears, scald head, ringworm or chafing. No nursery should be without a box of this Salve. It also cures cuts, burns, scalds, boils, summer eruptions, felons, &c., and is one of the very best applications to build places on the scalp, as it promotes by its stimulating qualities the growth of hair. It is but 25 cts. a box.

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

ROOM PAPERS!

Have Room Papers Advanced in Price, like other things!

J. F. SHORES, Jr.,
No. 1 Congress Block

Is often asked this question; and would answer that he still sells
ROOM PAPERS at eight cents per roll,
ROOM PAPERS at nine cents per roll,
ROOM PAPERS at ten cents per roll,
ROOM PAPERS at twelve and a half cts. p. roll.

These are not of so good quality as were formerly sold at those prices—still they are very fair.
Twelve and a half Cent Papers have advanced to Seventeen Cents.
Twenty-Five Cent Papers to Thirty Cents.
Thirty-Three Cent Papers to Thirty-Eight Cents.
Fifty Cent Papers to Sixty-Two Cents.
One Dollar Papers to One Dollar and Twelve Cents.
One Dollar and Twenty-Five Cent Papers to One Dollar and Forty-Two Cents.
Common, Velvet, and Velvet and Gold BORDERS.
HAVE NOT ADVANCED!
GREEN CURTAIN PAPER
Is still sold at the old price.

Thus, FRIENDS and CUSTOMERS, you have an answer to the query above—
Room Papers Have not advanced as other goods have.

☞ Remember, this is the answer of
J. F. SHORES, Jr.,
No. 1 CONGRESS BLOCK,
who has just received from New York a further supply of

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!

This desirable mechanical arrangement has now been in use a sufficient length of time to show that it gives entire satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as hair, and yet is so incorporative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.

They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.

The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!!

These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONN, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House Furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. HADLEY, Piscataqua House.

These BED-BOTTOMS may be had of **E. M. BROWN & CO.**, Agents for Portsmouth and Newington, at their store, **No. 33 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

THE FINGER NAILS.—Respecting the nails, the Jewish rabbinical doctors entertained some singular notions. It was their belief that, antecedent to the fall, the bodies of our first parents were perfectly transparent, and that of these lucid envelopes of the soul, the nails are the sole surviving remains. The great divine, Origen, it is known, was possessed by a belief somewhat similar; and held that, in the first instance, Adam and Eve were, corporeally, beings of radiant light, and that the coats of skin afterwards bestowed on them, were no other than those habiliments of flesh, muscle, and bone—"muddy vesture of decay"—in which we, their descendants, present ourselves at the present day. In the nails, however, unlike the Talmudists, Origen does not recognize the rags of man's better estate.

Sniggins says his watch gained time enough in three weeks to pay for itself.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attending the venereal disease, are made to become as harmless as the simplest siblings of a child.
SEMINAL WEAKNESS.
Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate victim for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dimness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Lozenges, universally acknowledged the best preventive. Order by mail. Three for $3 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No 7 & 9 Endicott street, Boston, is consulted daily for all diseases incident to the Female Constitution, Uterus, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new principles, with pleasant and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
☞ S. H.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
In all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all private and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands pre-eminent in the profession as celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imagines he has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS.
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.
Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, it is at many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and debilitating diseases, those who have vainly sought relief from advertised nostrums, those who cannot be cured by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as heretofore encountered by any reformers.
Rapidity of Cure.
Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the tedious recuperative process of Nature." This is our reply:
In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP,
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.
Paralysis,
Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need only remark that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight on Stomach, Sick Headache, Want of Appetite, Flatulence, Bad Breath.
Scrotula.
Sorens, Glandular Swellings, Ulceration, Rigid Joint, Erysipelas, Salt Rheum.
This taint (hereditary or acquired), filling this with untold misery, is by all usual medical remedies incurable.
Rheumatism.
Arthritic, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism in all its varieties. The most intense pains are almost instantly alleviated—the swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Nervous Headache, Hypochondria, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, nervous persons will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fadils more than it promises.
Mercurial Diseases.
Salivation, Fishing of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system of Mercury, and cures all the effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Mercury invariably produces. It hardens Spongy Gums and secures the teeth firmly ever.
Constitution Life Syrup
Eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the countenance of young females and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and forming troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. Let these cases be recovered by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Nervous Irritation, Of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used in the early stage, when it is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and Tumors of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a peculiar blow sound), Dropsy of the Heart Case and all the affections of that important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Contagious Diseases, Dreams of Disease, Dry Hot Skin and Extremities, Nervous Irritation, Pale Haggard Countenance and Languishy of the Muscular System, all require the aid of the CONSTITUTION LIFE Syrup.
For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, Constitution Life Syrup is equal.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the wearer and wearer and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an nicrated or cutcrous condition of that organ, accompanied by burning and bitter taste in mouth, yellow symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands universally by any preparation in the world.*
Diseases of the Spine, so usually developed in the young, Hip Disease, Spinal Curvature, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and spine, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND FEMALES LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both mother and child, and prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It keeps the system in good health and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Unknown in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.
CURES FROM ONE TO THREE DAYS
CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY. the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females where all the old nauseous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent, removing all scalding, heat, chordee and pain, inflammation and burning and almost unspeakable pain that is experienced with nearly all the cheap quack injections.
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are arrested and the weakened organs are speedily restored to vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.
Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE
COOKING STOVE.
The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the cooking being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin washing-boiler attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for filling the coal and cleaning the grate are far superior to those of any other Stove now in use, so no dust can possibly escape into the room, and the shoveling out of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and may be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling, or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—which as soon as the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache and nausea is completely obviated of its other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off along the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of oxygen through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert H. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Reference into American or Foreign works, to determine the novelty or utility of patents or inventions—and legal or other advice rendered on all matters touching the same. Copies of the claims of any Patent will be sent by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that my business is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to procurate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such uninterruptible proof or great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

ESTABLISHED 1852. PORTSMOUTH, N. H. FRIDAY, MAY 13, 1864. VOL. XXIV. No. 113.

The Chronicle.

There is an impression that moral attributes have a certain hard and rugged nature of their own, and that they are genuine in proportion as they are unlovely. Many persons think that truth spoken in love hardly bears the spirit of truth. They want a man to speak the truth very much as a bull dog speaks—right out with it at a bark! But bluntness, coarseness, hardness of speech, are not to be used. If a man has been reared on a ship's deck, if his eye and his tones are genial, and you see that he knows no better than to be blunt in his speech you will bear with his bluntness, and it will not offend you; but where a man has had opportunities of cultivating suavity and grace of speech, there can be no greater mistake or one more palpably in violation of the spirit of Christianity, than for him to suppose that he must speak abruptly, or be rough in his manner or address.

LOCAL ARISTOCRACIES.—In Boston, the only recognized aristocracy is intellect; and the question put by a Bostonian is this:—What do you know?

In New York, it is more a matter of wealth and the question is:—What are you worth?

In Philadelphia, it is blood, the exact quality of which is decided by your answer as to who are your relations.

In Washington, where politics govern:—How many votes do you control?

In Charleston, as in the Quaker city it is blood or pedigree, and the question is:—Who was your grandfather?

In Cincinnati, the queen lard oil city:—How many hogs do you kill?

In Chicago, before the panic, it was:—How many corner lots do you own?

In St. Louis, the passport to favor is secured by an affirmative answer to the question, Have you any interest in a fur company?

In New Orleans, south of Canal street, among the merchants it was:—How much cotton do you ship? North of Canal street, among the French Creoles:—How does he dress?

In Mobile, it is manners that make the man, and the question is:—How does he behave?

LADY. — "Oh! Cleaver! (*indignantly*) what a quantity of bone there was in that last piece of meat we had of you!"

CLEAVER.—"Was there, mum? I could not help that, you know, mum; but, howsomever, the very fust fat bullock I do kill without any bone, I'll let you have one joint for nothing."

THE MODUS OPERANDI.

Immediately beneath the scalp there are very small Glands, or, more commonly Roots of the Hair. It is from these Glands that every hair of the head is formed and secreted. As long as the scalp is free from disease, these bodies also remain healthy, and the hair keeps its natural appearance and color. But when tumors and other diseases affect the scalp, these glands become involved in the same disease, and the hair gradually turns gray, dry and brittle. Sooner or later the hair begins to fall off, and in many cases, it not arrested, will produce a complete baldness of the scalp.

To remedy this pathological condition of the glands and create a new and healthy action, the Physiological Hair Regenerator has proved a perfect success—inasmuch as it is the only preparation yet known that can boast of such wonderful results.

Unlike thousands of other articles in the market, containing Silver, Lime, Lead, Litharge, Tannin, Sulphur, &c., and producing only a sort of yellow or flax color, it will, if properly applied restore the hair to its former appearance and beauty.

The Physiological Hair Regenerator is warranted in all cases to produce the following results:

1. It is not a Dye and will not stain a single particle. It contains no coloring matter whatever, and is not the least injurious in its application.

2. It will generally restore the hair from a gray to a beautiful *Black, Brown, Auburn*, or whatever might have been its original color.

3. It will effectually prevent the hair from falling off, remove all Heat, Inflammation and Dandruff from the scalp, keeping the head clean and cool, and the hair soft, glossy and of a silky appearance.

4. It will PROMOTE a luxuriant growth of new hair on bald heads, except in extreme cases of old age and where the glands have become disorganized.

5. It will cure the most inveterate itching and scaliness of the skin, and healing the scalp, leaves it affords a most delightful article for the toilet.

We have a great abundance of testimony to prove beyond a doubt all that we claim for the Regenerator; and it is positively certain that in a very short time it will have a world wide reputation.

HOME TESTIMONY.

BEDFORD, N. H., Dec. 17, 1863.

Messrs. Tebbetts Brothers—The preparation you induced me to try on my hair, about six weeks ago, has had a wonderful effect. My hair was then almost white and now it is almost *black*. My daughter has also tried it on her hair, which was fast falling, and it stopped it immediately on the diptheria; it stopped it immediately on its application. My wife has also been trying it for baldness on top of her head, and finds that a new growth of hair is rapidly starting. We have only used one bottle, and I think one more will fix our heads up in good shape. J. C. CUTTAN.

MANCHESTER, Dec. 20, 1863.

Gents—Unless I am very much mistaken, your Hair Regenerator is destined, ere long, to work a complete revolution with all other Hair Preparations. It not only restores the hair to its natural color and keeps the head free from Dandruff, but it is the most beautiful dressing that can be purchased. My hair, without any apparent cause, began to turn gray when about thirteen years of age, and had been gradually increasing for more than ten years, when about two months ago I began the use of your Regenerator, and it has completely astonished all my friends to see my hair brought back to its natural color, which is almost a complete black. It is the only thing, unless it was a regular Hair Dye, that I ever knew would produce such effect. It also keeps the head so clean and free from scurf, that it makes a very nice dressing. JACOB J. ABBOTT

FERTILIZERS,
Trees, Vines,
Shrubs,
Vegetable and Flower Seeds.

J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.

The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.

On cost, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring crop must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is putin and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.

For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.

We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.

Price $1.50 per Barrel.

Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.

The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.

A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.

It is also generally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 3, 16. In other words, the Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.

Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.

The sample for analysis was selected from the entire stock which was prepared for the market.

Portsmouth, N. H.

FRIDAY, MAY 12, 1864.

THE REBELLION.

A dispatch from Tunnel Hill, Ga., 11th, states that after three days' heavy skirmishing, our troops had driven the rebels back to Rocky Ridge and Buzzard's Roost, and were still driving them, everything going satisfactorily.

Gen. Averill is reported to have concentrated 8000 cavalry and infantry, with the intention of making a raid on the salt works in Washington county, West Virginia.

THE VIRGINIA CAMPAIGN.

One of the severest battles yet fought occurred about a mile from Spottsylvania Court House, on Tuesday, lasting throughout the day, the rebels holding a strong position on the south side of the Po river.—Lee made a desperate effort with his whole army to beat us back. But he found our forces fully prepared and able to defeat his purpose. Our line of battle was six miles long. Fighting by portions of divisions took place in the morning; and at noon the rebels made a fierce attempt to push back the 2d corps, which had crossed the river, but they failed. Then they tried the 5th and 6th corps and failed again. Against the 2d corps Lee threw all his available force, to turn our right flank and capture our trains, in the rear of our right. Prisoners say that they had been on half-rations and that before the battle their officers told them their next rations must come from Grant's stores. About 5 o'clock the rebels succeeded in pushing through the 2d corps; Gen. Grant, equal to the emergency, ordered all his trains to the rear, and the advance of our whole line on the left. The rebels gained nothing. At sunset a grand charge was made by Warren, Wright, and one division of Burnside's corps, repulsing the rebels. Up to Tuesday but little artillery had been used by either parties, but in this battle it was brought into position on both sides, and did its terrible work.—During the afternoon one division of our troops fell upon one of Longstreet's, "like a thunderbolt, cutting it all to pieces." The rebels were piled in heaps. Rebel prisoners say it was the greatest charge of the war. In the last charge Burnside pushed the enemy back almost to the Court House, and held his ground the next morning.—Wright carried their outer line of rifle pits. The colored troops were not in the charge. One brigade of the 6th corps captured a brigade of Ewell's corps, but in the melee were able to bring off only twelve hundred. Three guns were taken and lost again.—Thirty-seven officers and a large number of battle flags were taken. Thirty of Lee's wagons fell into our hands on Tuesday night. We had about 5000 prisoners.—"Carleton" thus sums up the six days' achievements: The rebels tried to stop Grant at the Wilderness, but, after fighting two battles, retreated. Lee has tried to stop Grant at Spottsylvania, and has had both flanks folded back—his outer line of rifle pits carried—and has been repulsed in all his attacks.

The World's dispatch asserts that Gen. Grant massed nearly 400 cannon against Lee's position on Tuesday, and for two hours kept up the most terrible cannonade in the history of the war. The enemy used comparatively little artillery in reply, and prisoners say they were deficient in ammunition. Grant's superiority in artillery gives him the advantage, and in fighting men he now outnumbers Lee.

Our entire losses thus far in killed, wounded and missing are set as high even as 40,000; yet the enemy's loss is much greater, his wounded being about the same.—Lee's losses begin to tell, and he flinches from direct assault. Rebel prisoners say that Lee ordered all his wounded men able to hold a musket to take their places in the line for Tuesday's battle. Our men are said to present no signs of weariness, while Lee's give unmistakable evidences of despondency. The roads are filled with their stragglers, while they no longer cheer when they fight, but charge or retreat in dogged silence.

Dispatches from Gen. Grant, dated 8 o'clock on Wednesday morning, have reached the War Department. He says: "We have ended the 6th day of very heavy fighting. The result to this time is much in our favor. Our losses have been heavy, as well as those of the enemy. I think the loss of the enemy must be the greater. We have taken over 5,000 prisoners in battle, whilst he has taken from us but few, except stragglers. I propose to fight it out on this line if it takes all summer."

The Tribune's dispatch states that Gen. Burnside holds Spottsylvania Court House, having marched thither on Wednesday.

On the 9th Gen. Butler's troops advanced and cut the Richmond and Petersburg R. R. once more. There was considerable fighting, Gen. Butler commanding in person, and the rebels were driven away. It was D. H. Hill's portion of Beauregard's forces.

CHIPS—HEWN AND GATHERED.

— It is stated that Gen. Wadsworth's body was buried by the rebels.

— 12,000 Union troops left Washington for the front on Thursday.

— The pirate Florida has *not* sunk the U. S. steamer Huntsville.

— The report that Gen. Warren had been killed was untrue.

— The reports of our losses are probably exaggerated.

— Four rebel steamers, one an iron-clad, came down from Wilmington on the 6th, but retired under the guns of their fort.

— The rebel papers admit a loss of 15,000 in the battle of the Wilderness on Thursday and Friday.

— Richmond papers say their loss on Friday was very severe, including many officers.

— Jeff. Davis' son, who was killed by falling from a portico in Richmond, was but four years old.

— The planet Jupiter is now attracting considerable attention in the evening by its great brilliancy. It rises about 7 o'clock in the evening.

— The 17th Maine went into the fight on Friday with 500 men. At the roll call on Saturday 140 reported for duty, Capt. Perry commanding.

— The Richmond Dispatch states that Longstreet was shot by his own men through mistake. He was severely wounded, but is doing well.

— We have not lost a gun since the second day at the Wilderness, when we lost two; nor a single wagon, since the campaign opened.

— One hundred car-loads—ten thousand barrels—of flour arrived at Portland over the Grand Trunk Railway on Tuesday. Fifty-seven car-loads of lumber were also received.

— The burglaries in Salem, Mass., on Saturday and Sunday nights, were committed by several boys between 9 and 16 years of age. Some of the property stolen has been recovered.

— A San Francisco dispatch states that one hundred thousand dollars worth of boots and shoes were destroyed by cockroaches on the ship Guiding Star, from Boston.

— A little boy who had his eye nearly torn from its socket in Brookline Mass., a month ago, awoke a few nights since, began laughing violently, and subsequently died. The physician called it hydrophobia.

— The most furious gale that has been known at Chicago for two years, was experienced on the 9th, which did considerable damage to the city and the shipping on the Lake.

— Admiral Lee is in command in person of the naval forces in the James river, and enters heartily into all the plans of Gen. Butler. The squadron is powerful in monitors and the best class of gunboats.

— Guerrillas are active between the Army of the Potomac and Washington, taking possession of all forage and other property that can be readily appropriated. Moseby and White are in command of these bands.

— The blockade-running steamer Minnie was captured off Wilmington, N. C., May 9. She has 600 bales cotton, 30 tons tobacco, and 12 Larrels of turpentine. She is 450 tons, and was built in Glasgow in 1863.

— Two new joint stock companies are advertised in Liverpool to run steamers between that port and the St. Lawrence in the summer and to Portland in the winter. The capital of each is fixed at a million sterling.

— The Union General Rice was wounded on Tuesday, and his leg amputated, but he died in the afternoon. Just before he died he desired to be turned over. "Which way?" the Chaplain asked. "Turn my face toward the enemy," were his last words.

— Gov. Seymour of New York has issued a special order of announcement and sorrow in consequence of the death of Gen. Wadsworth. The order pays a deserved tribute to an honest and chivalrous political opponent, and reflects honor alike upon the author and the subject.

— Of Maine regts., the 3d, 4th, 5th, 6th, 7th, 8th, 16th, 17th, 19th, and 20th infantry, 1st Cavalry, 1st Heavy Artillery, and seven Batteries are in the Army of the Potomac, under Gen. Grant. The 9th and 11th Infantry are under Butler. The 31st and 32d, newly organized regiments, are in the fortifications of Washington.

— The colored troops who compose the extreme right of the army are said to behave steadily, and to be eager for the fray. When a large detachment of rebel prisoners was marched post them, the unbleached exclaimed: "How is you rebels? Lucky 'twasn't we that catched you, or we would have made you remember Fort Pillow."—The infuriated chivalry strode sullenly along, muttering what they "would do if they had the niggers somewhere else."

STAGE COACHES IN OLDEN TIMES.—At the request of one of the old "whips" named below, who says he has carried it in his pocket for a long time, we copy the following pleasant article, relating to the olden times of stages and coaches, and their drivers, from a late number of the Lynn Reporter, from the pen of Dr. E. A. Kittredge, under the cognomen of "Noggs." Our old friend also says that the article is somewhat erroneous and very incomplete—but we have not the data to correct or fill up.—And then this does not profess to be a full record of all the old drivers—only the mention of a few personal acquaintances of the writer among them, and especially those at the Boston end of the Eastern line. All will observe, as we did, that many of our best known Portsmouth drivers are omitted—Barnabee, Somerby, Robinson and the rest. Here Prescott is, as now, put at the head of the Eastern route of travel; and no doubt served as effectively then as in these days, to add to its popularity and value.

In the year of our Lord eighteen hundred and ten, or thereabouts, there was a corporation formed called the "Eastern Stage Company," whose business and delight it was to put people through from Portsmouth to Boston, and vice versa. And for their accommodation, I suppose, though it was hugely handy for private teams, the Salem and Boston turnpike was especially built. They used it, any how, as though they were at house on it, and kicked up a dust in hitherto quiet "Breed's End," and so on, that, for many a long year after, scarcely knew rest, day or night, so terribly tremendous was the travel thereon in those ante railroad days, especially in the latter days of the turnpike's glory.

Of the drivers—numbering some seventy-five or so, first and last,—I have only time to allude to a few, though, as I have reason to know, they were all, or nearly all, men of sterling worth, and tip-top "whips." The Patches, the Mays, the Drakes, the Marshals, the Potters, the Annables, Shaw, Knox, Foss, Knight, Leavitt, Forbes, Ackerman, Robinson, Carter, Chute, Conant, Long, Batchelder, Merrill, Mitchell, Peach, Ray, Low and others, are names that will be remembered while memory itself shall last, by those of us who were wont to travel much in the days when stage coaches ran.

In those days, the stage driver was the next best man to the minister, out of jail; for people then, as now, had a moral dread of being mangled, and I well remember how particular my mother was, when any of us were going to Boston, to see that we went with the most "careful driver." In the early days of my remembrance it was Potter, "Jim Potter,"—himself "a boss," who for forty years, I think, drove from Salem to Boston and back, and was as well known and respected by the people of Salem, almost, as Dr. Bentley! Clear in intellect, sober, intelligent, honest and prompt, as were in fact most of those who came after him,—especially Paige, Winchester, Savory, Peach, Low, Ray and Bancroft, many of whom "still live," though our old townsman and friend, the afterwards conductor and master of tickets at Lynn, John Bancroft, —has "gone to that bourne from whence no traveler returns." Peace be with him, for he had kindly heart within, and long will his kind supervision and care be most gratefully remembered by his passenger host, who experienced his kindness in their journeys 'twixt Boston and Lynn.

Jerry Prescott, too, the man of men, was "one of 'em." Jim Potter, Paige, Shaw and Winchester the old folks preferred; but when any of the young folks, of the fair sex especially, were going, it was: "Oh! do, ma, let Mr. Savory, Adrian Lowe, Lot Peach, or Peter Ray come for us," as the hour of their starting might serve.

Talk about popularity and fame! I tell you the Presidents never saw the day that they ruled in the hearts of the people,—especially the "feminines,"—as used to rule the well known faithful drivers of the "regular line," in the days when I went stage-coaching, long time ago. In the first place, they were, as a general thing, ten times more deserving. Such men as presidents and such like cattle were and are made of, wouldn't have been tolerated for a single trip, by the highly refined and virtuous females so proverbial to "old Salem" town.—Manning was too shrewd an agent to trust for a moment in such hands the valuable treasure entrusted to him by "Old Billy Gray," Joseph Peabody, Robert Brookhouse, and the wealthy merchants there of "long ago." No, no, *honest* men, men of integrity, honor and worth,—those were the men,—such as he chose for drivers, and the public imperiously demanded. Politicians are made of less "sterner stuff" generally; men when in a crowd with whom you instinctively button up your pocket. Spare me space, then, for the drivers, for of such are the "salt of the earth."

Who, at all familiar with the ones I have mentioned, would not trust his "money or his life," or his sacred honor, even, with such men as Robert Annable, either of the Potters, Winchester, Ben Savory, Low, or almost any of the long array, the numerous host I have mentioned? Aye, better would it be for the millions of aspiring demagogues who have lost their miserable souls for a mess of pottage out of the public pot, if they could say at their last hour, "I was trusted by William Manning to drive one of his 'teams' on the 'regular line' 'twixt Portsmouth and Boston," than it would to have all the endorsements of all the politicians since the days of Alexander Hamilton. And then, again, who so looked up to as well as admired by the ladies and trusted by the men, as the well installed driver? and great was the struggle to get a seat beside him, especially such as honest "Jack Mendum," or "Handsome Peter," as Ray was often called. Peter was good looking, and he knew it, too, and the way he would tip his winks, throw his nods, or shed his smiles to those of the fair sex whom he chanced to know,—and he knew nearly all of the prettiest ones, many of whom knew the snap of his whip 'mid a thousand,—"was a caution," and a very pretty pride had he.

A man of immense wealth, too, was Peter! True, most of his property lay in Spain, but then, castles there are so easily built, and without any taxes, withal, that it was not uncommon for Peter to erect one of gigantic proportions, and finish and furnish it well, in less than half a trip from Salem to Lynn! Lot Peach, too, what a driver was he, to be sure! The way he handled the ribbons was a lesson to slouches. Never was driver more capable, more active, more intelligently faithful than he.—And who will ever forget the radiantly smiling countenances of the kind-hearted, gentlemanly Ben Savory and Adrian Lowe, whose sterling worth cannot be over estimated, and whose faces were as eagerly looked for, by all lucky enough to command a window that overlooked the "spike," as is a fair sunset by a Swamscott fisherman.

Many of these worthies have gone where whirling wheels no more are heard, and horses' feet ne'er come. But Peter and others still live; Winchester is now a rich farmer not many miles from here; Ben Savory is the honored head of Savory & Co.'s Salem and Boston Express; "Lot" has cast his lot somewhere in Lynn; while Peter, always aspiring, has become some sort of a "gentleman of the law," and is as busy as ever "taking account of stock" of his vast possessions in Spain!

He knows his nose. I know he knows his nose. He said that I knew he knew his nose; and if he said he knew that I knew he knew his nose, of course he knows that I know he knows his nose!

Special Notice to Wounded Soldiers.
The Bounty of $100, due to soldiers discharged for wounds received in battle, will be paid by presenting the Discharge at the U. S. Army Agency, No. 64 Bleecker street, opposite Pay Department. The editorial statement in the New York Sun, under date of 14th and 15th inst., also, the advertisement of the so called Protective War Claim Association, No. 38 Chambers st. that these Bounties are not being collected and paid as advertised, is false, and either shows their ignorance of their business, or a willingness to impute to others that which they would seem to be most guilty of themselves, viz: attempting to impose upon the poor wounded soldiers.
All such claims on file in that office, should be at once withdrawn and presented to this office.

THE DRAFT.—The following is a list of the several sub-districts in the 1st Congressional District of New Hampshire, from which a draft is to be made to supply deficiencies under the last call, with the number required from each:

Portsmouth, Ward 1,	1	Greenland	5
Stratham	7	Hampton	4
North Hampton	4	Exeter	3
Newmarket	2	South Newmarket	10

☞ In the list of the killed in Virginia appears the name of Lieut. Col. Moses N. Collins, of the 11th N. H. regiment. He was, we think, a native of Brentwood. He resided for a number of years in the South, where he was engaged in teaching. He returned to this State, studied law, and on his admission to the Bar, formed a law partnership with Hon. Gilman Marston, now Brigadier General,—and during that gentleman's absence as a Member of Congress, and for a time after he had entered the military service, Mr. Collins occupied his office, and attended to the transaction of his law business. Mr. Collins was a man of remarkable industry, and his military career, though brief, has not been unsuccessful.

☞ Gov. Gilmore has appointed a committee of gentlemen to proceed to the army to look after our wounded and disabled soldiers, and to render them such assistance as they may require. Aaron Young, Esq., of this city, Hon. Fred. Smyth, Dr. Wheat, and J. D. Patterson, of Manchester, and Hon. Charles A. Hackett, of Gilmanton, are members of this committee. Mr. Young will leave this afternoon.

☞ The new steamboat, building under the superintendence of Mr. John E. Townsend at the South end, is progressing finely. The planking is now all on, exhibiting the beauty of the model and the perfect symmetry of the boat. In many parts it differs entirely from the usual method of constructing this class of boats, showing an originality in the part of the builder which is commendable in these days of "old fogyism."—The cabin work is well under way, and is unique in design and finish. The boat, when complete, will be a gem, and will add new laurels to the already established fame of Portsmouth genius and handiwork.

POLICE COURT, Thursday. — John B. Johnson, for being drunk, was fined $3. and cost, $3.86. Paid.

A man calling himself Benjamin Jones, for an assault on the night watch, was fined $5. and costs—$3.86, which he paid.

☞ Gen. Sedgwick was shot through the head by a sharpshooter, who was endeavoring to pick off some artillerymen, mounting heavy guns in an earthwork. The General had just joked a sergeant about dodging the whistling balls, and had said, "Why, Sergeant, they can't hit an elephant from that distance." The words had hardly fallen from his mouth when the fatal ball penetrated his eye—blood gushed from his nostrils, and he fell dead.

DREADFUL ACCIDENT.—On Friday afternoon of last week, a party went to the summit of Megunticook Mountain, in Camden, for the purpose of gathering May-flowers. The mountain is over 1200 feet high, and one of its sides is almost perpendicular throughout two-thirds of its height. The Bangor Whig says the party amused themselves by throwing rocks over the steep cliff; and were seated near the edge of it, when one of the party, a Miss French, in attempting to rise suddenly, was in some way caught by her dress or hoops and carried headlong over the cliff, falling some 300 feet before striking the rocks below. Strange as it may seem, though horribly bruised and many of her bones broken by the fall, she survived several hours, but was entirely unconscious. It was several hours before the body could be got down from the place where it fell, and then only by lashing it to planks and lowering from one crag to another. Miss French was the daughter of Mr. Zadock French, of Lincolnville, and about 13 years of age.

☞ Gen. Sherman has the following strong paragraph in one of his recent public letters:

To those who submit to the rightful law and authority, all gentleness and forbearance; but to the petulant and persistent Secessionists, why, death is mercy, and the quicker he or she is disposed of, the better. Satan, and the rebellious saints of heaven, were allowed a continuance of existence in hell, merely to swell their just punishment. To such as would rebel against a Government so mild and just as ours was in peace, a punishment equal would not be unjust."

The soundness and patriotism of this language is unmistakable, and is entitled to general respect.

NEW HAMPSHIRE ITEMS.

—— Mr. Gilman Stearns, of Manchester, a member of the 1st N. H. Battery, was a short time since promoted to the office of First Lieutenant.

—— The New England Manufacturing Company have purchased the water power, grist mill and edge tool shops at Derry, and will enlarge the buildings for the manufacture of edge tools, wood turning and other machinery. A woolen factory will be built and other improvements made.

—— A man named Nichols who claimed $20,000 from the town of Hillsborough, a year or two ago, for alleged damages received in consequence of a defect in the highway, and was paid $3000, the Mirror says, has recently been sued to recover the latter sum, on the ground that he was an impostor, and received no injuries whatever.

—— The house, barn, and outbuildings of Ephraim Plummer, in Boscawen, were burnt on Tuesday night, with all his stock, including a valuable pair of horses and twenty or thirty tons of hay. It was one of the best farm houses in town. The furniture was mostly saved, also a few sheep and one ox. The loss is estimated at $5000. Insured for $2000.

—— The board of commissioners appointed by the Governor and Council to present a plan to the Legislature for the location of an Agricultural College, met in Concord at the Phenix Hotel, on Tuesday and Wednesday of this week. A plan was agreed upon which will be presented to the Legislature at the approaching session. The Legislature will appoint the Trustees, and the subject of location will hereafter be determined upon.

— Mr. C. F. Hall announces his intention of starting on another expedition to the Artic regions about the middle of June next.

— The duties of the postmaster of Malden, Mass., are now performed by the widdow of a soldier, although a gentleman nominally holds the office.

— A law of Congress just passed provides that the register tonnage of a vessel shall be her internal cubical capacity by tons of one hundred cubic feet each, and specifically points out the mode of ascertainment.

— The Atlanta Confederacy copies an article on the fashions from a northern paper, thinking the ladies might like to read it, even though the blockade prevents a very extensive indulgence in the latest modes.

— An authorized edition of the writings of Rev. T. Starr King, accompanied with a biography, is to be given to the public in a short time. The proposed publication of Tompkins & Co. has been abandoned, at the request of the principal executor of the estate of Mr. King.

LITTLE THINGS.—People who are unaccustomed to studying economy in the little arrangements, have little idea how easily money may be saved, and at the same time comfort secured by a little attention to a little economy in little things. In illustration, take the little article of metal tips worn on the toes of little shoes: It is asserted that by this article alone, the snug little sum of over six million dollars is annually saved to those who use them, and at the same time not a little amount of comfort and protection added to some three million pair of little feet. So with many other little things.—*Tribune.*

SOLDIERS' SPECIAL NOTICE.—Do your duty to yourselves, protect your health, use Holloway's Pills and Ointment. For wounds, sores, bowel complaints and fevers, they are a perfect safeguard. Full directions how to use them with every box.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 210

"Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

THE
ANDERSON
SPRING BED-BOTTOM,
(E. HENNESSEY'S PATENT.)
Another Triumph of American Genius!
Price Only $6!
This desirable mechanical arrangement has now been in use a sufficient length of time to show that it possesses satisfaction and actually is the more valued the more it is tried. This invention is a step in advance of all others in this department. By means of it, a Bed-Bottom is obtained which is as flexible as the hand, and yet is so recuperative as to bring itself into its place with great facility. It is adapted to the invalid, the aged, and all who linger in suffering and weakness.
They are made of good materials, warranted strong and durable, and not liable to get out of order. Numerous testimonials from the press, also from many persons of the highest respectability in different parts of the country, have been received, commending in the highest terms the comfort and utility of the Anderson Spring Bed-Bottom.
The rich will have it because IT IS THE BEST. All other classes will have it on account of it being CHEAPER than any other bed. We claim that a better bed may be had by means of this improvement for six dollars than can be had in under-bedding for thirty-six, thus making a SAVING OF AT LEAST THIRTY DOLLARS ON EVERY BED!
These Bed-Bottoms have been introduced into a few families in this city, and we have the pleasure to refer to—
Mr. J. C. LANGLEY, Conductor C. & P. R. R.
Mr. WM. CONY, Mail Agent C. & P. Railroad.
Mr. E. A. STEVENS, House furnishing Dealer.
Mr. O. A. FROST, City Hotel.
Mr. W. E. HADLEY, Rockingham House.
Mr. WM. S. BADLEY, Piscataqua House.
These BED-BOTTOMS may be had of **E. M. BROWN & CO.,** Agents for Portsmouth and Newington, at their store, **No. 35 Market Street**, where samples may be seen; and of W. F. BENNETT, Agent for Greenland.

Morning Chronicle.

JUNE ROSES.

The roses have come with the summer,
And the red and the white bloom fair,
And the scent of their balmy breathing
Is loading the drowsy air.

Their shell-like leaves drop lightly
All through the long June noon,
And lie, like perfumed snowflakes,
In the garden's grassy bowers.

Oh, sweet are the wild white roses
That cling to the garden wall,
But one that sees not the sunlight
Is sweeter and dearer than all!

One white rose, locked and hidden
In a dark still grave away,
That bloomed on that garden terrace,
One year ago to-day.

When the air was sweet and breezy,
And the roses blushed in the sun,
And their pink leaves floated lightly
On the west wind, one by one.

Then, under the cool rose arbor,
We watched the summer storm
Gather and pass o'er heaven,
And its sunlight clear and warm.

And under the sweet green shelter
I leaned on that shoulder tall
While the thunder rolled above us,
And the drops began to fall.

And he plucked one white rose, dripping
With the rain on its petals fair,
And he had swept over my forehead,
As he wove it in my hair.

Now again the June sun shineth,
But last year's flowers are gone;
Only that white rose, withered,
Lies in its grave forlorn!

In the warm rain, downward pattering,
I have given it many a tear,
Shed for the blooms of beauty
That died with the rose last year!

And the love that went with the blossoms,
As lovely and frail as they,
And the hand that plucked my white rose,
And is dead, like the flower, to-day!

EPPING, N. H., Feb. 26, 1866. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrups, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it. Since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dim ness at my stomach, loss of appetite, and other wonders, all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LAWD.

From ELDER I. CHENLEY, *Lee, May 21, 1841*

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her usual rest by day or by night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named.

☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if he worth anything, all you have to do is to DR. S SWEET, No. 7 High Street, Portsmouth, N. H., promptly attended to. may26

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, it at many diseases hitherto considered hopelessly incurable, are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians, are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as been lean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply: It is based on a body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have life and health, and our aim, our mission is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritis], Neuralgia, Gout, Lumbago, Sciatica, The Dolorosa

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and, in a remarkable or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have sunk into premature graves bless the day on which they read these lines. Particularly to weak, suffering woman will the medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Retting of Bones, Dull Complexion, Aches in Bones, Ingestion, Ulcers.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak joints and Rheumatic pains which the equilibrium of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both sexes and render life a burden, and which is disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome and dangerous sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the ears, which depend upon a Scrofulous condition. These cases soon recover by taking a few doses of the Life Syrup.

All persons generally suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease is very obstinate, and only the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Apoplectic Fits, Sympathetic or Organic Diseases of the Heart (palpitation, Dizziness, Dim Vision, producing a grating or filing sound), Dropsy of the Heart. Case and all the affections of this important organ, are speedily relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indigestion to Extreme, Pain in the Back, Loss of Appetite, Nervous Debility, Want of Sleep, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Languidness of Mind, and other diseases, require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Throat, Nose, Limbs, Body, Head or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a derangement of the liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disfiguring the face.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or sandy stomach, which is so often accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, so usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and knees, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and so within your reach.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the sufferings attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the blood—in fact, it is perfection. Druggists sell it. Indispensable. It is highly useful both before and after childbirth, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
AND
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fever Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is equally as alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fleet Albus or Whites. Its effects are *healing, soothing and ameliorating* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all disorders caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our office for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store, or send a stamp to the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.
Prepared from Pure Vegetable Extracts,
Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores lost mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing victim of unusual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from the effects of a single error, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and drum heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes can be entirely dispensed with, and be regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense and re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who have been using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for aeration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass up into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert H. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Gray's Patent Molded Collars

Have now been before the public for nearly a year They are universally pronounced the neatest and best fitting collars extant.

The top edge presents a perfect curve, free from the angles noticed in all other collars.

The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.

The Barotte Collar has a smooth and evenly finished edge on both sides.

These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOLDED AND SHAPED TO FIT THE NECK.

They are made in "Novelty" (or turn-down) style, in every half size from 12 to 17 inches, and in "Eureka" (Garotte) from 13 to 17 inches; and packed in "solid sizes" in neat blue cartons containing 100 each; also in smaller ones of 10 each, the latter a very handy package for Travellers, Army and Navy Officers.

☞ EVERY COLLAR is stamped
"Gray's Patent Molded Collar."

PROTESTANTISM IN PARIS.—The most popular of the Protestant divines in France, the eloquent M. Athanase Coquerel, has been interdicted by the presbytery of the reformed church, in Paris, and the announcement of the fact has created great excitement among the Protestant population of that capital. The reasons for this ecclesiastical bull have not been made public, but the supposition is that M. Coquerel has become too liberal for the presbytery, and some of the papers hint that the English "Essays and Reviews" controversy has thus spread to the continent.

M. Coquerel speaks English as well as French, and as the French government, while recognizing certain sects, allows no freedom outside of their pale, it is suggested that he may go to London.

The Presse speaks of his case as follows;

"M. Coquerel is now a first-rate preacher who rivals in eloquence the cotemporaneous illustrations of the catholic pulpit, and he shares with his father, the ex member of the Constituent Assembly, the sympathies of the protestant community in Paris. When he preaches at Pentemont or at the Oratoire, the building is too small to contain all that flock to hear him; the very steps of the pulpit are filled, the aisles crowded, and the doors are besieged. When M. Coquerel, jun., preached a charity sermon, and when he dismissed his auditory with those simple words, "Remember, on leaving the church, to do good to your poor brethren," the boxes at the doors were never wide enough or deep enough; gold, silver wrapped up in bank notes, and articles of jewelry had soon filled them. The Sunday in the year of distress when he preached for the benefit of the poor cotton weavers of Rouen, he so excited the charitable feelings of his congregation, that the collection amounted to no less than 15,000fr. The private life of the reverend gentleman, in continual contact with his numerous flock is a model of virtue and dignity. Why, therefore, has the Protestant Consistory interdicted the pulpit to so worthy and eloquent a man?"

It is suggested that the Rev. M. Coquerel's heresy consists in believing that all men will finally be made holy and happy, and thus death be swallowed up in victory.

☞ A "cute" contraband explains how blood-hounds sent in pursuit of fugitives may be thrown off the track:

"If dem hounds gits closer unto you, why you jist get a long polo and hop about twenty feet if you kin. You do dis four or five times and whenever you light, why jist put some pepper in de holds what your heels make, and when de hounds come dey lose dar scent, and den dey goes snuffin and a snuffin roun', and bymeby dey snuffles up dat'ar pepper into dar nostrils, and den dey'll go chee! chee! chee! and dat'll be de last dem dogs can do dat day."

THE IMMENSE POPULARITY OF THE
California Wines
Introduced by us, is a flattering tribute to their purity and delicacy, and a cheering indication of a desire among the people to encourage
American Industry.
The Surgeon General of the United States, after an analysis of our Wines, reports them to be PURE.
Dr Charles T. Jackson, State Assayer, who is the most undoubted authority, after an analysis of our Port Wine, says:—"The fluid ounce leaves fifty-four grains of solid matter, consisting wholly of the fixed principles of grapes. I find no adulterating ingredients, and consider it suitable for medicinal and general use."
The Boston Traveller says:—"The California White or Hock Wine rivals in flavor the best of Hock Wines, and costs much less."
The Saturday Evening Gazette says:—"The White Wine is equal to the Sauterne or light wines which we import, with a fine and rich flavor, and we believe its purity unquestionable."
Hon. John G. Downey, late Governor of California, says:—"I most cheerfully recommend your Wines to all who desire a pure juice of the grape."
The New York Commercial Advertiser says:—"The wines have a fine flavor, and need only to be tasted to be approved."
The Boston Transcript says:—"The White Wine is equal to the best Hock."
The New York Tribune says:—"The 'Angelica' has a rich and delicious flavor, unsurpassed by any Wines in the market."

FERTILIZERS,
Trees, Vines, Shrubs,
Vegetable and Flower Seeds.
J. F. SHORES, Jr.,
No. 1 Congress Block,
WOULD CALL THE ATTENTION OF
FARMERS AND GARDENERS
TO THE
FERTILIZERS
WHICH HE HAS FOR SALE, VIZ:
LODI CO.'S
IMPROVED POUDRETTE.
The advantages and economy of Poudrette as a manure may be summed up as follows: It gives an instantaneous start to the young plant, does not injure seed by coming in contact with it, and brings the crop forward to maturity from two to three weeks earlier. No worms will stay in a hill or drill in which Poudrette is placed, and unlike other manures, it contains no seeds that can germinate. It requires no previous preparation, and can be applied and paid for with the same expense attending the *application* only of other manures.
On corn, it has no equal in any other fertilizer in market. A great consideration is the season of the year when the corn is planted. It is a time when every spring hour must be put in, and the corn not only planted, but up and grown sufficiently for the last hoeing and plowing, before the commencement of grass and hay harvest.—The celerity and dispatch with which a large crop of corn is putin and poudretted, the rapid growth and consequently the early opportunity of working among it—the small chance for weeds, owing to the shade it affords, and the fact that the *Poudrette, unlike other manures, contains no seed that can germinate*, and consequently the less trouble required to clean it—are all important advantages. The corn will ripen two weeks earlier, and the yield will be much heavier.
For flowering plants and shrubs, it is also remarkably fine. For grass, where it is about to be laid down to lawn, or for several years, a top dressing of Poudrette will be found invaluable.
We wish to remark in this place, that Poudrette is not like some quack medicines, warranted to cure all kinds of diseases. It must be used with discretion, and a reasonable quantity will produce a reasonable effect.
Price $1.50 per Barrel.
Be sure and ask for the *Lodi Co.'s Poudrette*, and you will get an article that has been used in this vicinity for *fifteen years*, and the proof of its goodness is seen in the *steady increase* of its sale. It may also be obtained of—

Lloyd's Nitrogenized
Superphosphate of Lime.
The analysis of this *Superphosphate*, as given by Prof. Hill, of Brown University, is as follows:

	per cent.
Insoluble phosphate of lime (3 ca O P O 5)	17.2
Soluble " " (ca O P O 5)	11.5
Organic matter	31.
Sulphate of lime	28.
Alkaline of salts	3.
Insoluble matters	2.
Water	7.3

The organic matter yields 3.5 p. c. of Ammonia. The value of Concentrated fertilizers depends principally upon the Insoluble Phosphates, the Soluble Phosphates and the Ammonia.
A uniform standard of valuation for these fertilizers has been adopted in England, Germany and the United States.
It is almost universally agreed that the Insoluble Phosphates, the Soluble Phosphates and Ammonia have the respective values of 2, 9, 16. In other words, Soluble Phosphates are worth 4½ times and Ammonia 8 times as much as Insoluble Phosphates. The value of fertilizers may vary in the different markets of the world, but the relative values of the several ingredients remain the same.
Lloyd's Superphosphate contains a larger proportion of Soluble Phosphate than any other in the New England Market. The proportion of Ammonia is also large for a Superphosphate.
The sample for analysis, I selected from the entire stock which was prepared for the market.

Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
